**PERMIT
Under the Environmental Conservation Law (ECL)**

IDENTIFICATION INFORMATION

Permit Type: Air Title V Facility
Permit ID: 1-2820-00652/00055
Effective Date: 10/26/2006 Expiration Date: 10/25/2011

Permit Issued To: NASSAU COUNTY
1 WEST ST
MINEOLA, NY 11501

Facility: NASSAU COUNTY SD #2 BAY PARK STP
FOURTH AVE
EAST ROCKAWAY, NY 11518

Contact: PASQUALE ASSALONE
NASSAU CO BAY PARK STP
PO BOX 148
EAST ROCKAWAY, NY 11518-0148

Description:

The facility is a 70 million gallon per day sewage treatment plant which services portions of Nassau County, New York. The plant operates four 3,600 KW engine generators which can burn natural gas, digester gas, or fuel oil. The engines are used to provide the electric power for the processes and equipment such as aeration tank blowers and main sewage pumps. The plant also operates four 750 HP boilers to produce hot water required for the central chillers and space heating. The boilers can burn natural gas, digester gas, or fuel oil. Several other emission points associated with the treatment of sewage are located at the facility. The corresponding processes include primary screening, grit removal, primary settling tanks, aeration tanks, final settling tanks, sludge thickening, and sludge dewatering. Most of the processes are controlled through an odor control system.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: ROGER EVANS
NYSDEC - SUNY @ STONY BROOK
50 CIRCLE RD
STONY BROOK, NY 11790-3409

Authorized Signature: _____ Date: ____ / ____ / ____

Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

****** General Provisions ******

For the purpose of your Title V permit, the following section contains state-only enforceable terms and conditions

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301.2(m)

Item 2.1:

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 3: Applications for Permit Renewals and Modifications
Applicable State Requirement: 6NYCRR 621.13

Item 3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 3.3:

New York State Department of Environmental Conservation
Facility DEC ID: 1282000652

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 4: Permit Modifications, Suspensions and Revocations by the Department
Applicable State Requirement: 6NYCRR 621.14

Item 4.1:

The Department reserves the right to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

****** Facility Level ******

Condition 5: Submission of Applications for Permit Modification or Renewal-REGION 1 HEADQUARTERS
Applicable State Requirement: 6NYCRR 621.5(a)

Item 5.1:

Submission of applications for permit modification or renewal are to be submitted to:

NYSDEC Regional Permit Administrator
Region 1 Headquarters
Division of Environmental Permits
SUNY Campus, Loop Road, Building 40
Stony Brook, NY 11790-2356

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

The items listed below are not subject to the annual compliance certification requirements under Title V. Permittees may also have other obligations under regulations of general applicability.

Item A: Emergency Defense - 6NYCRR Part 201-1.5

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;

(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner and/or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item B: Public Access to Recordkeeping for Title V Facilities - 6NYCRR Part 201-1.10(b)

The Department will make available to the public any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Section 503(e) of the Act, except for information entitled to confidential treatment pursuant to 6NYCRR Part 616 - Public Access to records and Section 114(c) of the Act.

Item C: Timely Application for the Renewal of Title V Permits - 6 NYCRR Part 201-6.3(a)(4)

Owners and/or operators of facilities having an issued Title V permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

Item D: Certification by a Responsible Official - 6 NYCRR Part 201-6.3(d)(12)

Any application, form, report or compliance certification required to be submitted pursuant to the federally enforceable portions of this permit shall contain a certification of truth, accuracy and completeness by a responsible official. This certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

Item E: Requirement to Comply With All Conditions - 6 NYCRR Part 201-6.5(a)(2)

The permittee must comply with all conditions of the Title V facility permit. Any permit non-compliance constitutes a violation of the Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

Item F: Permit Revocation, Modification, Reopening, Reissuance or Termination, and Associated Information Submission Requirements - 6 NYCRR Part 201-6.5(a)(3)

This permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Item G: Cessation or Reduction of Permitted Activity Not a Defense - 6NYCRR Part 201-6.5(a)(5)

It shall not be a defense for a permittee in an enforcement action to claim that a cessation or reduction in the permitted activity would have been necessary in

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

order to maintain compliance with the conditions of this permit.

Item H: Property Rights - 6 NYCRR Part 201-6.5(a)(6)

This permit does not convey any property rights of any sort or any exclusive privilege.

Item I: Severability - 6 NYCRR Part 201-6.5(a)(9)

If any provisions, parts or conditions of this permit are found to be invalid or are the subject of a challenge, the remainder of this permit shall continue to be valid.

Item J: Permit Shield - 6 NYCRR Part 201-6.5(g)

All permittees granted a Title V facility permit shall be covered under the protection of a permit shield, except as provided under 6 NYCRR Subpart 201-6. Compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that such applicable requirements are included and are specifically identified in the permit, or the Department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the major stationary source, and the permit includes the determination or a concise summary thereof. Nothing herein shall preclude the Department from revising or revoking the permit pursuant to 6 NYCRR Part 621 or from exercising its summary abatement authority. Nothing in this permit shall alter or affect the following:

- i. The ability of the Department to seek to bring suit on behalf of the State of New York, or the Administrator to seek to bring suit on behalf of the United States, to immediately restrain any person causing or contributing to pollution presenting an imminent and substantial endangerment to public health, welfare or the environment to stop the emission of air pollutants causing or contributing to such pollution;
- ii. The liability of a permittee of the Title V facility for any violation of applicable requirements prior to or at the time of permit issuance;
- iii. The applicable requirements of Title IV of the

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Act;

iv. The ability of the Department or the Administrator to obtain information from the permittee concerning the ability to enter, inspect and monitor the facility.

Item K: Reopening for Cause - 6 NYCRR Part 201-6.5(i)

This Title V permit shall be reopened and revised under any of the following circumstances:

i. If additional applicable requirements under the Act become applicable where this permit's remaining term is three or more years, a reopening shall be completed not later than 18 months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which this permit is due to expire, unless the original permit or any of its terms and conditions has been extended by the Department pursuant to the provisions of Part 201-6.7 and Part 621.

ii. The Department or the Administrator determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

iii. The Department or the Administrator determines that the Title V permit must be revised or reopened to assure compliance with applicable requirements.

iv. If the permitted facility is an "affected source" subject to the requirements of Title IV of the Act, and additional requirements (including excess emissions requirements) become applicable. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

Proceedings to reopen and issue Title V facility permits shall follow the same procedures as apply to initial permit issuance but shall affect only those parts of the permit for which cause to reopen exists.

Reopenings shall not be initiated before a notice of such intent is provided to the facility by the Department at least thirty days in advance of the date that the permit

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

is to be reopened, except that the Department may provide a shorter time period in the case of an emergency.

Item L: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item M: Federally Enforceable Requirements - 40 CFR 70.6(b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS SUBJECT TO ANNUAL CERTIFICATIONS AT ALL TIMES

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements at all times.

Condition 1: Acceptable Ambient Air Quality
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 200.6

Item 1.1:

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

Condition 2: Fees
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(a)(7)

Item 2.1:

The owner and/or operator of a stationary source shall pay fees to the Department consistent with the fee schedule authorized by ECL 72-0302.

Condition 3: Recordkeeping and reporting of compliance monitoring
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)

Item 3.1:

The following information must be included in any required compliance monitoring records and reports:

- (i) The date, place, and time of sampling or measurements;
- (ii) The date(s) analyses were performed;
- (iii) The company or entity that performed the analyses;
- (iv) The analytical techniques or methods used including quality assurance and quality control procedures if required;
- (v) The results of such analyses including quality assurance data where required; and
- (vi) The operating conditions as existing at the time of sampling or measurement.

Any deviation from permit requirements must be clearly identified in all records and reports. Reports must be certified by a responsible official, consistent with Section 201-6.3 of this Part 201.

Condition 4: Monitoring, Related Recordkeeping, and Reporting Requirements.
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)(2)

Item 4.1:

Compliance monitoring and recordkeeping shall be conducted according to the terms and conditions contained in this permit and shall follow all quality assurance requirements found in applicable

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

regulations. Records of all monitoring data and support information must be retained for a period of at least 5 years from the date of the monitoring, sampling, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.

Condition 5: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)(3)(ii)

Item 5.1:

The Compliance Certification activity will be performed for the Facility.

Item 5.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

To meet the requirements of this facility permit with respect to reporting, the permittee must:

Submit reports of any required monitoring at a minimum frequency of every 6 months, based on a calendar year reporting schedule. These reports shall be submitted to the Department within 30 days after the end of a reporting period. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by the responsible official for this facility.

Notify the Department and report permit deviations and incidences of noncompliance stating the probable cause of such deviations, and any corrective actions or preventive measures taken. Where the underlying applicable requirement contains a definition of prompt or otherwise specifies a time frame for reporting deviations, that definition or time frame shall govern. Where the underlying applicable requirement fails to address the time frame for reporting deviations, reports of deviations shall be submitted to the permitting authority based on the following schedule:

(1) For emissions of a hazardous air pollutant (as identified in an applicable regulation) that continue for more than an hour in excess of permit requirements, the report must be made within 24 hours of the occurrence.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

(2) For emissions of any regulated air pollutant, excluding those listed in paragraph (1) of this section, that continue for more than two hours in excess of permit requirements, the report must be made within 48 hours.

(3) For all other deviations from permit requirements, the report shall be contained in the 6 month monitoring report required above.

(4) This permit may contain a more stringent reporting requirement than required by paragraphs (1), (2) or (3) above. If more stringent reporting requirements have been placed in this permit or exist in applicable requirements that apply to this facility, the more stringent reporting requirement shall apply.

If above paragraphs (1) or (2) are met, the source must notify the permitting authority by telephone during normal business hours at the Regional Office of jurisdiction for this permit, attention Regional Air Pollution Control Engineer (RAPCE) according to the timetable listed in paragraphs (1) and (2) of this section. For deviations and incidences that must be reported outside of normal business hours, on weekends, or holidays, the DEC Spill Hotline phone number at 1-800-457-7362 shall be used. A written notice, certified by a responsible official consistent with 6 NYCRR Part 201-6.3(d)(12), must be submitted within 10 working days of an occurrence for deviations reported under (1) and (2). All deviations reported under paragraphs (1) and (2) of this section must also be identified in the 6 month monitoring report required above.

The provisions of 6 NYCRR 201-1.4 shall apply if the permittee seeks to have a violation excused unless otherwise limited by regulation. In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets. Notwithstanding any recordkeeping and reporting requirements in 6 NYCRR 201-1.4, reports of any deviations shall not be on a less frequent basis than the reporting periods described in paragraphs (1) and (4) above.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

In the case of any condition contained in this permit with a reporting requirement of "Upon request by regulatory agency" the permittee shall include in the semiannual report, a statement for each such condition that the monitoring or recordkeeping was performed as required or requested and a listing of all instances of deviations from these requirements.

In the case of any emission testing performed during the previous six month reporting period, either due to a request by the Department, EPA, or a regulatory requirement, the permittee shall include in the semiannual report a summary of the testing results and shall indicate whether or not the Department or EPA has approved the results.

All semiannual reports shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office). Mailing addresses for the above referenced persons are contained in the monitoring condition for 6 NYCRR Part 201-6.5(e), contained elsewhere in this permit.

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2007.
Subsequent reports are due every 6 calendar month(s).

Condition 6: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(e)

Item 6.1:

The Compliance Certification activity will be performed for the Facility.

Item 6.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Compliance certifications shall contain the following information:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

- the identification of each term or condition of the permit that is the basis of the certification;
- the compliance status;
- whether compliance was continuous or intermittent;
- the method(s) used for determining the compliance status of the facility, currently and over the reporting period consistent with the monitoring and related recordkeeping and reporting requirements of this permit;
- such other facts as the Department may require to determine the compliance status of the facility as specified in any special permit terms or conditions;
- and
- such additional requirements as may be specified elsewhere in this permit related to compliance certification.

Compliance certifications shall be submitted annually. Certification reports are due 30 days after the anniversary date of four consecutive calendar quarters. The first report is due 30 days after the calendar quarter that occurs just prior to the permit anniversary date, unless another quarter has been acceptable by the Department.

All compliance certifications shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Compliance Monitoring and Enforcement (BCME) in the DEC central office). Please send annual compliance certifications to Chief of the Stationary Source Compliance Section, the Region 2 EPA representative for the Administrator, at the following address:

USEPA Region 2
Air Compliance Branch
290 Broadway
New York, NY 10007-1866

The address for the RAPCE is as follows:

NYSDEC
SUNY Campus
Building 40
Stony Brook, NY 11790-2356

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

The address for the BCME is as follows:

NYSDEC
Bureau of Compliance Monitoring
and Enforcement
50 Wolf Road
Albany, NY 12233-3258

Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2007.
Subsequent reports are due on the same day each year

Condition 7: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 202-2.1

Item 7.1:

The Compliance Certification activity will be performed for the Facility.

Item 7.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Emission statements shall be submitted on or before April
15th each year for emissions of the previous calendar
year.

Monitoring Frequency: ANNUALLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due by April 15th for previous calendar year

Condition 8: Recordkeeping requirements
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 202-2.5

Item 8.1:

(a) The following records shall be maintained for at least five years:

- (1) a copy of each emission statement submitted to the department; and
- (2) records indicating how the information submitted in the emission statement was determined, including any calculations, data, measurements, and estimates used.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

(b) These records shall be made available at the facility to the representatives of the department upon request during normal business hours.

**Condition 9: Open Fires Prohibited at Industrial and Commercial Sites
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 6NYCRR 215

Item 9.1:

No person shall burn, cause, suffer, allow or permit the burning in an open fire of garbage, refuse, rubbish for salvage, or rubbish generated by industrial or commercial activities.

**MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS SUBJECT
TO ANNUAL CERTIFICATIONS ONLY IF APPLICABLE**

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements only if effectuated during the reporting period. [NOTE: The corresponding annual compliance certification for those conditions not effectuated during the reporting period shall be specified as "not applicable".]

**Condition 10: Maintenance of Equipment
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 6NYCRR 200.7

Item 10.1:

Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

**Condition 11: Recycling and Salvage
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 6NYCRR 201-1.7

Item 11.1:

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of the ECL.

**Condition 12: Prohibition of Reintroduction of Collected Contaminants to
the air
Effective between the dates of 10/26/2006 and 10/25/2011**

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Applicable Federal Requirement: 6NYCRR 201-1.8

Item 12.1:

No person shall remove, handle or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Condition 13: Exempt Sources - Proof of Eligibility
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-3.2(a)

Item 13.1:

The owner and/or operator of an emission source or unit that is eligible to be exempt may be required to certify that it operates within the specific criteria described in this Subpart. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other State and Federal air pollution control requirements, regulations, or law.

Condition 14: Trivial Sources - Proof of Eligibility
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-3.3(a)

Item 14.1:

The owner and/or operator of an emission source or unit that is listed as being trivial in this Part may be required to certify that it operates within the specific criteria described in this Subpart. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other State and Federal air pollution control requirements, regulations, or law.

Condition 15: Standard Requirement - Provide Information
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(a)(4)

Item 15.1:

The owner and/or operator shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to the administrator along with a claim of confidentiality, if the administrator initiated the request for

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

information or otherwise has need of it.

Condition 16: General Condition - Right to Inspect
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(a)(8)

Item 16.1:

The department or an authorized representative shall be allowed upon presentation of credentials and other documents as may be required by law to:

(i) enter upon the permittee's premises where a facility subject to the permitting requirements of this Subpart is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;

(ii) have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;

(iii) inspect at reasonable times any emission sources, equipment (including monitoring and air pollution control equipment), practices, and operations regulated or required under the permit; and

(iv) sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

Condition 17: Standard Requirements - Progress Reports
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(d)(5)

Item 17.1:

Progress reports consistent with an applicable schedule of compliance are to be submitted at least semiannually, or at a more frequent period if specified in the applicable requirement or by the department. Such progress reports shall contain the following:

(i) dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and

(ii) an explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

Condition 18: Off Permit Changes
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(f)(6)

Item 18.1:

No permit revision will be required for operating changes that contravene an express permit term,

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

provided that such changes would not violate applicable requirements as defined under this Part or contravene federally enforceable monitoring (including test methods), recordkeeping, reporting, or compliance certification permit terms and conditions. Such changes may be made without requiring a permit revision, if the changes are not modifications under any provision of title I of the act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions) provided that the facility provides the administrator and the department with written notification as required below in advance of the proposed changes within a minimum of seven days. The facility owner or operator, and the department shall attach each such notice to their copy of the relevant permit.

(i) For each such change, the written notification required above shall include a brief description of the change within the permitted facility, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.

(ii) The permit shield described in section 6 NYCRR 201-6.6 shall not apply to any change made pursuant to this paragraph.

Condition 19: Required Emissions Tests
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 202-1.1

Item 19.1:

For the purpose of ascertaining compliance or non-compliance with any air pollution control code, rule or regulation, the commissioner may require the person who owns such air contamination source to submit an acceptable report of measured emissions within a stated time. Such person shall bear the cost of measurement and preparing the report of measured emissions. Failure of such person to submit a report acceptable to the commissioner within the time stated shall be sufficient reason for the commissioner to suspend or deny a certificate to operate.

Condition 20: Visible Emissions Limited
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 211.3

Item 20.1:

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 21: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 211.3

Item 21.1:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

The Compliance Certification activity will be performed for the Facility.

Item 21.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Except as permitted by a specific part of Title 6 of the NYCRR, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Operators of air contamination sources that are not exempt from permitting and where a continuous opacity monitor is not utilized for measuring smoke emissions, shall be required to perform the following:

- 1) Observe the stack(s) or vent(s) once per day for visible emissions. This observation(s) must be conducted during daylight hours except during adverse weather conditions (fog, rain, or snow).
- 2) The results of each observation must be recorded in a bound logbook or other format acceptable to the Department. The following data must be recorded for each stack:
 - weather condition
 - was a plume observed?

This logbook must be retained at the facility for five (5) years after the date of the last entry.

- 3) If the operator observes any visible emissions (other than steam - see below) two consecutive days, then a Method 9 analysis (based upon a 6-minute mean) of the affected emission point(s) must be conducted within two (2) business days of such occurrence. The results of the Method 9 analysis must be recorded in the logbook. The operator must contact the Regional Air Pollution Control Engineer within one (1) business day of performing the Method 9 analysis if the opacity standard is contravened. Upon notification, any corrective actions or future compliance schedules shall be presented to the Department

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

for acceptance.

**** NOTE **** Steam plumes generally form after leaving the top of the stack (this is known as a detached plume). The distance between the stack and the beginning of the detached plume may vary, however, there is (normally) a distinctive distance between the plume and stack. Steam plumes are white in color and have a billowy consistency. Steam plumes dissipate within a short distance of the stack (the colder the air the longer the steam plume will last) and leave no dispersion trail downwind of the stack.

Parameter Monitored: OPACITY

Upper Permit Limit: 57 percent

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Averaging Method: ONE CONTINUOUS 6-MINUTE PERIOD PER HOUR

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

**Condition 22: Accidental release provisions.
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 40CFR 68

Item 22.1:

If a chemical is listed in Tables 1,2,3 or 4 of 40 CFR §68.130 is present in a process in quantities greater than the threshold quantity listed in Tables 1,2,3 or 4, the following requirements will apply:

- a) The owner or operator shall comply with the provisions of 40 CFR Part 68 and;
- b) The owner or operator shall submit at the time of permit issuance (if not previously submitted) one of the following, if such quantities are present:
 - 1) A compliance schedule for meeting the requirements of 40 CFR Part 68 by the date provided in 40 CFR §68.10(a) or,
 - 2) A certification statement that the source is in compliance with all requirements of 40 CFR Part 68, including the registration and submission of the Risk Management Plan. Information should be submitted to:

Risk Management Plan Reporting Center
C/O CSC
8400 Corporate Dr
Carrollton, Md. 20785

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Condition 23: Recycling and Emissions Reduction
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 82, Subpart F

Item 23.1:

The permittee shall comply with all applicable provisions of 40 CFR Part 82.

The following conditions are subject to annual compliance certification requirements for Title V permits only.

Condition 24: Emission Unit Definition
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6

Item 24.1:

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-BOILR

Emission Unit Description:

The plant operates four identical package boilers to produce hot water for space conditioning and process heating. The boilers were manufactured by Cleaver Brooks (Model # CB-750) and were installed in 1995-96. Flue gas recirculation (FRG) systems, which reduces the flame temperature and thus NOx emissions, and low NOx burners to further reduce NOx emissions are installed on each boiler. Each boiler is equipped with a dedicated emission point.

Building(s): MNBLDG

Item 24.2:

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-ENGIN

Emission Unit Description:

The Bay Park STP operates four 3,600 KW (5,030 bhp) engine generators to produce electric power. The engines are manufactured by Cooper-Bessemer (Model LSVB-12-GDT) and were installed in 1989. The engines incorporate Cleanburn (TM) modifications to reduce NOx emissions and catalytic oxidizers to reduce VOC and CO emissions. Catalytic oxidizers are only operated on engines burning natural gas or distillate fuel oil. Each engine is

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

equipped with a dedicated emission point.

Building(s): GENBLDG

Item 24.3:

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-SCRUB

Emission Unit Description:

The plant employs thirteen scrubbers to control odors from the process operations. The scrubbers are all either vertical or horizontal packed-bed wet scrubbers. NaOH and NaOCl are continuously added to neutralize and oxidize the sulfur compounds.

Building(s): AERATKOCB
DESLDGFAC
GRITBLD
INFBLD
PRIMBLD
SCREENEXT
THICKENBLD

Condition 25: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)(3)

Item 25.1:

The Compliance Certification activity will be performed for the Facility.

Item 25.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

To meet the requirements of this facility permit with respect to reporting, the permittee must:

Submit reports of any required monitoring at a minimum frequency of every 6 months, based on a calendar year reporting schedule. These reports shall be submitted to the Department within 30 days after the end of a reporting period. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by the responsible official for this facility.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

In the case of any condition contained in this permit with a reporting requirement of "Upon request by regulatory agency" the permittee shall include in the semiannual report, a statement for each such condition that the monitoring or recordkeeping was performed as required or requested and a listing of all instances of deviations from these requirements.

In the case of any emission testing performed during the previous six month reporting period, either due to a request by the Department, EPA, or a regulatory requirement, the permittee shall include in the semiannual report a summary of the testing results and shall indicate whether or not the Department or EPA has approved the results.

All semiannual reports shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Compliance Monitoring and Enforcement (BCME) in the DEC central office). Mailing addresses for the above referenced persons are contained in the monitoring condition for 6 NYCRR Part 201-6.5(e), contained elsewhere in this permit.

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2007.
Subsequent reports are due every 6 calendar month(s).

Condition 26: Facility Permissible Emissions
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 26.1:

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 000630-08-0 PTE: 367,800 pounds per year
Name: CARBON MONOXIDE

CAS No: 0NY210-00-0 PTE: 488,200 pounds per year
Name: OXIDES OF NITROGEN

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

CAS No: 0NY998-00-0

PTE: 139,000 pounds per year

Name: VOC

Condition 27: Capping Monitoring Condition
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 27.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

40CFR 52-A.21

Item 27.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 27.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 27.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 27.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 27.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 0NY210-00-0 OXIDES OF NITROGEN

Item 27.7:

Compliance Certification shall include the following monitoring:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Capping: Yes

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Plant emissions from engines and boilers will be calculated on a monthly basis. NO_x emissions will be calculated using stack test data, monthly fuel usage, and monthly power usage. Each month's NO_x emissions will be included in a summary spreadsheet. The following equation shall be used to calculate annual NO_x emissions on a facility-wide basis:

$A(0.02) + B(100) + C(2.36) + D(1.49) + E(18.6) < 488,200$
pounds of NO_x per year.

where:

For boilers:

A: 12-month rolling total of oil fired in gals/yr

B: 12-month rolling total of natural gas and/or digester gas fired in mcf/yr

For engines:

C: 12-month rolling total BHP on natural gas

D: 12-month rolling total BHP on digester gas

E: 12-month rolling total BHP on oil

Work Practice Type: PROCESS MATERIAL THRUPUT

Process Material: NUMBER 2 OIL

Upper Permit Limit: 488,200 pounds per year

Reference Test Method: NA

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 28: Capping Monitoring Condition
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 28.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

40CFR 52-A.21

Item 28.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 28.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 28.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 28.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 28.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 000630-08-0 CARBON MONOXIDE

Item 28.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Parameter emission calculations: Emissions from engines and boilers will be calculated on a monthly basis. CO emissions will be calculated using stack test data, monthly fuel usage, and monthly power usage. Each month's CO emissions will be included in a summary spreadsheet.

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 30: Periodic stack testing required.

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 202-1.1

Item 30.1: Stack test is required at least once during the permit term (five years). Stack test shall be performed on one of the four Cooper-Bessemer (model LSVB-12-GDT) engines. The following contaminants shall be tested: Oxides of Nitrogen (NO_x), Carbon Monoxide (CO), and Volatile Organic Compounds (VOC's). Stack tests shall be performed following NYSDEC approved protocols and witnessed by a NYSDEC representative.

Condition 31: Compliance Certification

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 225-1.2(a)(2)

Item 31.1:

The Compliance Certification activity will be performed for the Facility.

Item 31.2:

Compliance Certification shall include the following monitoring:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

No person shall sell, offer for sale, purchase or use any distillate oil which has a sulfur content greater than the limit presented below. A log of the sulfur content in oil per delivery must be maintained on site for a minimum of five years after the date of the last entry.

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: DISTILLATES - NUMBER 1 AND NUMBER 2 OIL

Parameter Monitored: SULFUR CONTENT

Upper Permit Limit: 0.37 percent by weight

Reference Test Method: ASTM-4294

Monitoring Frequency: PER DELIVERY

Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 32: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 227-2.4(f)(2)

Item 32.1:

The Compliance Certification activity will be performed for the Facility.

Item 32.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Fuel usage for the four Cooper Bessemer engines is limited to 500,000 gallons per year. With this limit, NO_x emissions on a system-wide average basis are accepted as an alternative method to comply with current NO_x RACT emission limits. Fuel usage records shall be kept on site and reported in compliance reports.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Averaging Method: ANNUAL TOTAL

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 6 calendar month(s).

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Condition 33: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 52.21, Subpart A

Item 33.1:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 000630-08-0 CARBON MONOXIDE

Item 33.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Parameter emission calculations: Emissions from engines and boilers will be calculated on a monthly basis. CO emissions will be calculated using stack test data, monthly fuel usage, and monthly power usage. Each month's CO emissions will be included in a summary spreadsheet.

Work Practice Type: PROCESS MATERIAL THRUPUT

Process Material: NUMBER 2 OIL

Upper Permit Limit: 183.9 tons per year

Reference Test Method: NA

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 34: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 52.21, Subpart A

Item 34.1:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 0NY210-00-0 OXIDES OF NITROGEN

Item 34.2:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Plant emissions from engines and boilers will be calculated on a monthly basis. NOx emissions will be calculated using stack test data, monthly fuel usage, and monthly power usage. Each month's NOx emissions will be included in a summary spreadsheet. The following equation shall be used to calculate annual NOx emissions on a facility-wide basis:

$A(0.02) + B(100) + C(2.36) + D(1.49) + E(18.6) < 488,200$
pounds of NOx per year.

where:

For boilers:

A: 12-month rolling total of oil fired in gals/yr

B: 12-month rolling total of natural gas and/or digester gas fired in mcf/yr

For engines:

C: 12-month rolling total BHP on natural gas

D: 12-month rolling total BHP on digester gas

E: 12-month rolling total BHP on oil

Work Practice Type: PROCESS MATERIAL THRUPUT

Process Material: NUMBER 2 OIL

Manufacturer Name/Model Number: NA

Upper Permit Limit: 488,200 pounds per year

Reference Test Method: NA

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 6 calendar month(s).

**Condition 35: EPA Region 2 address.
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 40CFR 60.4, NSPS Subpart A

Item 35.1:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

All requests, reports, applications, submittals, and other communications to the Administrator pursuant to this part shall be submitted in duplicate to the following address:

Director, Division of Enforcement and Compliance Assistance
USEPA Region 2
290 Broadway, 21st Floor
New York, NY 10007-1886

Copies of all correspondence to the administrator pursuant to this part shall also be submitted to the NYSDEC Regional Office issuing this permit (see address at the beginning of this permit) and to the following address:

NYSDEC
Bureau of Quality Assurance
625 Broadway
Albany, NY 12233-3258

Condition 36: Recordkeeping requirements.
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 60.7(b), NSPS Subpart A

Item 36.1:

Affected owners or operators shall maintain records of occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility; any malfunction of the air pollution control equipment; or any periods during which a continuous monitoring system or monitoring device is inoperative.

Condition 37: Opacity standard compliance testing.
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 60.11, NSPS Subpart A

Item 37.1:

The following conditions shall be used to determine compliance with the opacity standards:

- 1) observations shall be conducted in accordance with Reference Method 9, in Appendix A of 40 CFR Part 60 (or an equivalent method approved by the Administrator including continuous opacity monitors);
- 2) the opacity standards apply at all times except during periods of start up, shutdown, and malfunction; and
- 3) all other applicable conditions cited in section 60.11 of this part.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Condition 38: Circumvention.

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 60.12, NSPS Subpart A

Item 38.1:

No owner or operator subject to the provisions of this part shall build, erect, install, or use any article, machine, equipment or process, the use of which conceals an emission which would otherwise constitute a violation of an applicable standard. Such concealment includes, but is not limited to, the use of gaseous diluents to achieve compliance with an opacity standard or with a standard which is based on the concentration of a pollutant in the gases discharged to the atmosphere.

****** Emission Unit Level ******

Condition 39: Emission Point Definition By Emission Unit

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-6

Item 39.1:

The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: U-BOILR

Emission Point: 00031

Height (ft.): 42

Diameter (in.): 24

NYTMN (km.): 4498.723 NYTME (km.): 613.033 Building: MNBLDG

Emission Point: 00032

**Condition 40: Process Definition By Emission Unit
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 6NYCRR 201-6

Item 40.1:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR
Process: B01 Source Classification Code: 1-03-007-01
Process Description:
Combustion of digester gas for hot water production.

Emission Source/Control: S0031 - Combustion
Design Capacity: 31.4 million Btu per hour

Item 40.2:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR
Process: B02 Source Classification Code: 1-02-006-02

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Process Description:

Combustion of natural gas for hot water production.

Emission Source/Control: S0031 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.3:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B03

Source Classification Code: 1-02-005-02

Process Description: Combustion of fuel oil for hot water production.

Emission Source/Control: S0031 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.4:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B04

Source Classification Code: 1-03-007-01

Process Description:

Combustion of digester gas for hot water production.

Emission Source/Control: S0032 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.5:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B05

Source Classification Code: 1-02-006-02

Process Description:

Combustion of natural gas for hot water production.

Emission Source/Control: S0032 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.6:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B06

Source Classification Code: 1-02-005-02

Process Description: Combustion of fuel oil for water production.

Emission Source/Control: S0032 - Combustion

Design Capacity: 31.4 million Btu per hour

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Item 40.7:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B07

Source Classification Code: 1-03-007-01

Process Description:

Combustion of digester gas for hot water production.

Emission Source/Control: S0033 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.8:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B08

Source Classification Code: 1-02-006-02

Process Description:

Combustion of natural gas for hot water production.

Emission Source/Control: S0033 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.9:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B09

Source Classification Code: 1-02-005-02

Process Description: Combustion of fuel oil for hot water production.

Emission Source/Control: S0033 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.10:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B10

Source Classification Code: 1-03-007-01

Process Description:

Combustion of digester gas for hot water production.

Emission Source/Control: S0034 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.11:

This permit authorizes the following regulated processes for the cited Emission Unit:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Unit: U-BOILR

Process: B11

Source Classification Code: 1-02-006-02

Process Description:

Combustion of natural gas for hot water production.

Emission Source/Control: S0034 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.12:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: B12

Source Classification Code: 1-02-005-02

Process Description: Combustion of fuel gas for hot water production.

Emission Source/Control: S0034 - Combustion

Design Capacity: 31.4 million Btu per hour

Item 40.13:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E01

Source Classification Code: 2-03-007-02

Process Description:

Combustion of digester gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%. When operating in this mode, catalytic oxidizers cannot be used because the control equipment experiences fouling from siloxane which is a component of the digester gas.

Emission Source/Control: S0023 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.14:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E02

Source Classification Code: 2-01-002-02

Process Description:

Combustion of natural gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%.

Emission Source/Control: S0023 - Combustion

Design Capacity: 3,600 kilowatts

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Item 40.15:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E03

Source Classification Code: 2-01-001-02

Process Description:

Combustion of distillate fuel oil in engine to produce electricity. This fuel mode is only utilized during fuel switches, testing, preventive maintenance, repairs and emergencies.

Emission Source/Control: S0023 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.16:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E04

Source Classification Code: 2-03-007-02

Process Description:

Combustion of digester gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%. When operating in this mode, catalytic oxidizers cannot be used because the control equipment experiences fouling from siloxane which is a component of the digester gas.

Emission Source/Control: S0024 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.17:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E05

Source Classification Code: 2-01-002-02

Process Description:

Combustion of natural gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%.

Emission Source/Control: S0024 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.18:

This permit authorizes the following regulated processes for the cited Emission Unit:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Unit: U-ENGIN

Process: E06

Source Classification Code: 2-01-001-02

Process Description:

Combustion of distillate fuel oil in engine to produce electricity. This fuel mode is only utilized during fuel switches, testing, preventive maintenance, repairs and emergencies.

Emission Source/Control: S0024 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.19:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E07

Source Classification Code: 2-03-007-02

Process Description:

Combustion of digester gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%. When operating in this mode, catalytic oxidizers cannot be used because the control equipment experiences fouling from siloxane which is a component of the digester gas.

Emission Source/Control: S0025 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.20:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E08

Source Classification Code: 2-01-002-02

Process Description:

Combustion of natural gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%.

Emission Source/Control: S0025 - Combustion

Design Capacity: 3,600 kilowatts

Item 40.21:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E09

Source Classification Code: 2-01-001-02

Process Description:

Combustion of distillate fuel oil in engine to produce

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

electricity. This fuel mode is only utilized during fuel switches, testing, preventive maintenance, repairs and emergencies.

Emission Source/Control: S0025 - Combustion
Design Capacity: 3,600 kilowatts

Item 40.22:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E10

Source Classification Code: 2-03-007-02

Process Description:

Combustion of digester gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%. When operating in this mode, catalytic oxidizers cannot be used because the control equipment experiences fouling from siloxane which is a component of the digester gas.

Emission Source/Control: S0026 - Combustion
Design Capacity: 3,600 kilowatts

Item 40.23:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E11

Source Classification Code: 2-01-002-02

Process Description:

Combustion of natural gas in engine to produce electricity. Distillate fuel oil is used as a pilot fuel at a ratio of approximately 1.5%.

Emission Source/Control: S0026 - Combustion
Design Capacity: 3,600 kilowatts

Item 40.24:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-ENGIN

Process: E12

Source Classification Code: 2-01-001-02

Process Description:

Combustion of distillate fuel oil in engine to produce electricity. This fuel mode is only utilized during fuel switches, testing, preventive maintenance, repairs and emergencies.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Source/Control: S0026 - Combustion
Design Capacity: 3,600 kilowatts

Item 40.25:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB
Process: P01
Source Classification Code: 3-01-820-02
Process Description:
The dissolved air flotation sludge thickeners are used in the sludge thickening process. Two scrubbers are used for this process and are vented to the same emission point.

Emission Source/Control: 00001 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00002 - Control
Control Type: WET SCRUBBER

Emission Source/Control: S0001 - Process

Item 40.26:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB
Process: P02
Source Classification Code: 3-01-820-02
Process Description:
The grit chambers are utilized in the grit removal process. Two scrubbers are used for this process.

Emission Source/Control: 00003 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00004 - Control
Control Type: WET SCRUBBER

Emission Source/Control: S0002 - Process

Item 40.27:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB
Process: P03
Source Classification Code: 3-01-820-02
Process Description:
The influent screening channels and the influent gate chamber are a part of the screening process. One scrubber is used for this process.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Item 40.29:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P05

Source Classification Code: 3-01-820-02

Process Description:

The belt filter presses are utilized in the sludge dewatering process. Two scrubbers are used for this process.

Emission Source/Control: 00021 - Control

Control Type: WET SCRUBBER

Emission Source/Control: 00022 - Control

Control Type: WET SCRUBBER

Emission Source/Control: S0006 - Process

Item 40.30:

This permit authorizes the following regulated processes for the cited Emission Unit:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Unit: U-SCRUB

Process: P06

Source Classification Code: 3-01-820-02

Process Description:

The aeration process includes the following odor controlled areas: FST influent channel, RAS lifts, and RAS wet well which are treated by the scrubber for the Emission Point 00027.

Emission Source/Control: 00027 - Control

Control Type: WET SCRUBBER

Emission Source/Control: S0007 - Process

Emission Source/Control: S0008 - Process

Emission Source/Control: S0009 - Process

Item 40.31:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P07

Source Classification Code: 3-01-820-02

Process Description:

Aeration tank No. 1 is part of the aeration process and is covered to mitigate odor issues. All process air is vented to odor control scrubbers.

Emission Source/Control: 00028 - Control

Control Type: WET SCRUBBER

Emission Source/Control: 00029 - Control

Control Type: WET SCRUBBER

Emission Source/Control: 00030 - Control

Control Type: WET SCRUBBER

Emission Source/Control: S0010 - Process

Item 40.32:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P08

Source Classification Code: 3-01-820-02

Process Description:

Aeration tank No. 2 is part of the aeration process and is covered to mitigate odor issues. All process air is vented to odor control scrubbers.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Source/Control: 00028 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00029 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00030 - Control
Control Type: WET SCRUBBER

Emission Source/Control: S0011 - Process

Item 40.33:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P09

Source Classification Code: 3-01-820-02

Process Description:

Aeration tank No. 3 is part of the aeration process and is covered to mitigate odor issues. All process air is vented to odor control scrubbers.

Emission Source/Control: 00028 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00029 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00030 - Control
Control Type: WET SCRUBBER

Emission Source/Control: S0012 - Process

Item 40.34:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P10

Source Classification Code: 3-01-820-02

Process Description:

Aeration tank No. 4 is part of the aeration process and is covered to mitigate odor issues. All process air is vented to odor control scrubbers.

Emission Source/Control: 00028 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00029 - Control

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Control Type: WET SCRUBBER

Emission Source/Control: 00030 - Control
Control Type: WET SCRUBBER

Emission Source/Control: S0013 - Process

Item 40.35:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P11

Source Classification Code: 3-01-820-02

Process Description:

The following are covered area sources and are part of the aeration process: Aeration tank influent and effluent channels.

Emission Source/Control: 00028 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00029 - Control
Control Type: WET SCRUBBER

Emission Source/Control: 00030 - Control
Control Type: WET SCRUBBER

Emission Source/Control: S0036 - Process

Item 40.36:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P12

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 1 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0014 - Process

Item 40.37:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P13

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 2 is part of the secondary sedimentation process and is an open source.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Source/Control: S0015 - Process

Item 40.38:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P14

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 3 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0016 - Process

Item 40.39:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P15

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 4 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0017 - Process

Item 40.40:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P16

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 5 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0018 - Process

Item 40.41:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P17

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 6 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0019 - Process

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Item 40.42:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P18

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 7 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0020 - Process

Item 40.43:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P19

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 8 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0021 - Process

Item 40.44:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P20

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 9 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0022 - Process

Item 40.45:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P21

Source Classification Code: 3-01-820-02

Process Description:

Final sedimentation tank No. 10 is part of the secondary sedimentation process and is an open source.

Emission Source/Control: S0035 - Process

Item 40.46:

This permit authorizes the following regulated processes for the cited Emission Unit:

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Emission Unit: U-SCRUB

Process: P22

Source Classification Code: 3-01-820-02

Process Description:

The final effluent screening channel is an open source which is covered but not odor controlled. It is included in the secondary process.

Emission Source/Control: S0037 - Process

Item 40.47:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-SCRUB

Process: P23

Source Classification Code: 3-01-820-02

Process Description:

Aeration tank No. 5 is part of the aeration process and is covered to mitigate odor issues. All process air is vented to odor control scrubbers.

Emission Source/Control: 00028 - Control

Control Type: WET SCRUBBER

Emission Source/Control: 00029 - Control

Control Type: WET SCRUBBER

Emission Source/Control: 00030 - Control

Control Type: WET SCRUBBER

Emission Source/Control: S0038 - Process

Condition 41: Emission Unit Permissible Emissions

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 41.1:

The sum of emissions from all regulated processes specified in this permit for the emission unit cited shall not exceed the following Potential to Emit (PTE) rates for each regulated contaminant:

Emission Unit: U-ENGIN

CAS No: 0NY210-00-0

Name: OXIDES OF NITROGEN

PTE(s): 55.73 pounds per hour

488,200 pounds per year

Condition 42: Process Permissible Emissions

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 42.1:

The sum of emissions from the regulated process cited shall not exceed the following Potential to Emit (PTE) rates for each regulated contaminant:

Emission Unit: U-ENGIN Process: E01

CAS No: 0NY210-00-0

Name: OXIDES OF NITROGEN

PTE(s): 9 grams per brake horsepower-hour

Condition 43: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 227-1.3

Item 43.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-BOILR

Item 43.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Operators of oil-fired boilers which are not exempt from permitting and where a continuous opacity monitor is not utilized for measuring smoke emissions, shall be required to perform the following:

1) Observe the stack for each boiler which is operating on oil once per day for visible emissions. This observation(s) must be conducted during daylight hours except during adverse weather conditions (fog, rain, or snow).

2) The results of each observation must be recorded in a bound logbook or other format acceptable to the Department. The following data must be recorded for each stack:

- weather condition
- was a plume observed?

This logbook must be retained at the facility for five (5) years after the date of the last entry.

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

3) If the operator observes any visible emissions (other than steam - see below) two consecutive days firing oil (the firing of other fuels in between days of firing oil does not count as an interruption in the consecutive days of firing oil), then a Method 9 analysis (based upon a 6-minute mean) of the affected emission point(s) must be conducted within two (2) business days of such occurrence. The results of the Method 9 analysis must be recorded in the logbook. The operator must contact the Regional Air Pollution Control Engineer within one (1) business day of performing the Method 9 analysis if the opacity standard is contravened. Upon notification, any corrective actions or future compliance schedules shall be presented to the Department for acceptance.

**** NOTE **** Steam plumes generally form after leaving the top of the stack (this is known as a detached plume). The distance between the stack and the beginning of the detached plume may vary, however, there is (normally) a distinctive distance between the plume and stack. Steam plumes are white in color and have a billowy consistency. Steam plumes dissipate within a short distance of the stack (the colder the air the longer the steam plume will last) and leave no dispersion trail downwind of the stack.

Monitoring Frequency: DAILY
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2007.
Subsequent reports are due every 12 calendar month(s).

Condition 44: Compliance Certification
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 227-2.4(d)

Item 44.1:
The Compliance Certification activity will be performed for:

Emission Unit: U-BOILR

Item 44.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Monitoring Description:

A boiler tune-up shall be performed annually. The owner or operator of a small boiler shall maintain a log (in the format acceptable to the Department) containing the following information: (1) The date which the equipment was adjusted; and (2) The name, title, and affiliation of the person who adjusted the equipment.

Monitoring Frequency: ANNUALLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 12 calendar month(s).

**Condition 45: Applicability of General Provisions of 40 CFR 60 Subpart A
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 40CFR 60, NSPS Subpart A

Item 45.1:

This Condition applies to Emission Unit: U-BOILR

Item 45.2:

This emission source is subject to the applicable General Provisions of 40 CFR 60. The facility owner is responsible for reviewing these general provisions in detail and complying with all applicable technical, administrative and reporting requirements.

**Condition 46: Compliance with Standards and Maintenance Requirements
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable Federal Requirement: 40CFR 60.11(d), NSPS Subpart A

Item 46.1:

This Condition applies to Emission Unit: U-BOILR

Item 46.2:

At all times, including periods of startup, shutdown, and malfunction, owners and operators of this facility shall, to the extent practicable, maintain and operate any affected facility including associated air pollution control equipment in a manner consistent with good air pollution control practice for minimizing emissions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Department and the Administrator which may include, but is not limited to, monitoring results, opacity observations, review of operating and maintenance procedures, and inspection of the source

**Condition 47: Applicability of this Subpart to this emission source
Effective between the dates of 10/26/2006 and 10/25/2011**

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Applicable Federal Requirement: 40CFR 60.40c, NSPS Subpart Dc

Item 47.1:

This Condition applies to Emission Unit: U-BOILR

Item 47.2:

This emission source is subject to the applicable General Provisions of 40 CFR 60 Subpart Dc. The facility owner is responsible for reviewing these general provisions in detail and complying with all applicable technical, administrative and reporting requirements.

Condition 48: Compliance Certification

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 60.42c(d), NSPS Subpart Dc

Item 48.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-BOILR

Item 48.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

On or after the date on which the initial performance test is completed or required to be completed under section 60.8 of this part, no owner or operator of an affected facility that combusts oil shall combust oil with a sulfur content in excess of 0.5 percent by weight.

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: NUMBER 2 OIL

Parameter Monitored: SULFUR CONTENT

Upper Permit Limit: 0.50 percent by weight

Monitoring Frequency: PER DELIVERY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 49: Enforceability.

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 60.42c(i), NSPS Subpart Dc

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Item 49.1:

This Condition applies to Emission Unit: U-BOILR

Item 49.2:

The sulfur dioxide emission limits, percentage reductions, and fuel oil sulfur limitations shall apply at all times, including periods of startup, shutdown, and malfunction.

Condition 50: Compliance Certification

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 40CFR 60.43c(c), NSPS Subpart Dc

Item 50.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-BOILR

Regulated Contaminant(s):

CAS No: 0NY075-00-0 PARTICULATES

Item 50.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

On and after the date on which the initial performance test is completed or required to be completed under §60.8 of this part, whichever date comes first, no owner or operator of an affected facility that combusts coal, wood or oil and has a heat input capacity of 30 million BTU per hour or greater shall cause to be discharged into the atmosphere from an affected facility any gases that exhibit greater than 20 percent opacity (6-minute average), except for one 6-minute period per hour of not more than 27 percent opacity.

Parameter Monitored: OPACITY

Upper Permit Limit: 20.0 percent

Monitoring Frequency: CONTINUOUS

Averaging Method: 6 MINUTE AVERAGE

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 12 calendar month(s).

Condition 51: Compliance Certification

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

Effective between the dates of 10/26/2006 and 10/25/2011

Applicable Federal Requirement: 6NYCRR 227-1.3

Item 51.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-ENGIN

Item 51.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Operators of oil-fired internal combustion engines which are not exempt from permitting and where a continuous opacity monitor is not utilized for measuring smoke emissions, shall be required to perform the following:

1) Observe the stack for each internal combustion engine which is operating on oil once per day for visible emissions. This observation(s) must be conducted during daylight hours except during adverse weather conditions (fog, rain, or snow).

2) The results of each observation must be recorded in a bound logbook or other format acceptable to the Department. The following data must be recorded for each stack:

- weather condition
- was a plume observed?

This logbook must be retained at the facility for five (5) years after the date of the last entry.

3) If the operator observes any visible emissions (other than steam - see below) two consecutive days firing oil (the firing of other fuels in between days of firing oil does not count as an interruption in the consecutive days of firing oil), then a Method 9 analysis (based upon a 6-minute mean) of the affected emission point(s) must be conducted within two (2) business days of such occurrence. The results of the Method 9 analysis must be recorded in the logbook. The operator must contact the Regional Air Pollution Control Engineer within one (1) business day of

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

performing the Method 9 analysis if the opacity standard is contravened. Upon notification, any corrective actions or future compliance schedules shall be presented to the Department for acceptance.

**** NOTE **** Steam plumes generally form after leaving the top of the stack (this is known as a detached plume). The distance between the stack and the beginning of the detached plume may vary, however, there is (normally) a distinctive distance between the plume and stack. Steam plumes are white in color and have a billowy consistency. Steam plumes dissipate within a short distance of the stack (the colder the air the longer the steam plume will last) and leave no dispersion trail downwind of the stack.

Monitoring Frequency: DAILY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 12 calendar month(s).

STATE ONLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS

The following conditions are state applicable requirements and are not subject to compliance certification requirements unless otherwise noted or required under 6 NYCRR Part 201.

**Condition 52: Contaminant List
Effective between the dates of 10/26/2006 and 10/25/2011**

Applicable State Requirement: ECL 19-0301

Item 52.1:

Emissions of the following contaminants are subject to contaminant specific requirements in this

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

permit(emission limits, control requirements or compliance monitoring conditions).

CAS No: 000630-08-0

Name: CARBON MONOXIDE

CAS No: 0NY210-00-0

Name: OXIDES OF NITROGEN

CAS No: 0NY075-00-0

Name: PARTICULATES

CAS No: 0NY998-00-0

Name: VOC

Condition 53: Unavoidable noncompliance and violations
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable State Requirement: 6NYCRR 201-1.4

Item 53.1:

At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supercede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superceded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.

Condition 54: Air pollution prohibited
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable State Requirement: 6NYCRR 211.2

Item 54.1:

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 55: Compliance Demonstration
Effective between the dates of 10/26/2006 and 10/25/2011

Applicable State Requirement: 6NYCRR 231-1

Item 55.1:

The Compliance Demonstration activity will be performed for the Facility.

Regulated Contaminant(s):
CAS No: 0NY998-00-0 VOC

Item 55.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC
OPERATIONS

Monitoring Description:

Parameter emission calculations: VOC emissions from

New York State Department of Environmental Conservation

Permit ID: 1-2820-00652/00055

Facility DEC ID: 1282000652

engines and boilers will be calculated on a monthly basis.
VOC emissions will be calculated using stack test data,
monthly fuel usage, and monthly power usage. Each month's
VOC emissions will be included in a summary spreadsheet.

Work Practice Type: PROCESS MATERIAL THRUPUT
Process Material: NUMBER 2 OIL
Upper Permit Limit: 69.5 tons per year
Reference Test Method: NA
Monitoring Frequency: MONTHLY
Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2007.
Subsequent reports are due every 6 calendar month(s).
