Facility DEC ID: 5532600004

PERMIT
Under the Environmental Conservation Law (ECL)

IDENTIFICATION INFORMATION

Permit Type: Air Title V Facility
Permit ID: 5-5326-00004/00049
Mod 0 Effective Date: 02/13/2006 Expiration Date: 02/12/2011
Mod 1 Effective Date: 06/09/2007 Expiration Date: 02/12/2011

Permit Issued To: HOLLINGSWORTH & VOSE CO
112 WASHINGTON ST
EAST WALPOLE, MA 02032-1098

Contact: MARIO CANGEMI
HOLLINGSWORTH & VOSE CO
5035 CO RTE 113
GREENWICH, NY 12834
(518) 695-8145

Facility: HOLLINGSWORTH & VOSE-EASTON MILL
CO RT 113
EASTON, NY 12834

Description:

Hollingsworth & Vose Company's Easton Facility is a manufacturer of technical industrial papers and non-woven fabrics and is located in the Town of Easton, Washington County. At this facility, various papers or fabrics are formed, coated/saturated and dried/cured using three different paper machines. In all cases, the process begins by spreading a slurry containing wood pulp and/or other fiber onto a former and removing the moisture to form a paper or fabric web. For some formulations, a coating is sprayed onto the web during this part of the process in order to facilitate operations that occur further down the line. All wood pulp and/or other fiber used in the process is purchased from outside suppliers.

From here, the process varies depending upon the product being made. In some cases, no further processing occurs. In most cases, coatings (i.e., binders) are applied and the web is dried again. Sometimes, additional coatings are applied. The paper machines also have the ability to cure certain coatings by using natural gas fired curing units. The finished product is rolled into large rolls which may be converted into smaller sizes prior to packaging and shipment.

Processes performed on the three paper machines are grouped together as Emission Unit U-PAPER, and are regulated under 6 NYCRR Parts 212 and 228. Emissions of formaldehyde and 1,3-dichloro-2-propanol have been limited in order to comply with requirements contained in Section 212.4. Monitoring and record keeping of product usage, formulations produced and resulting emissions of these contaminants are required in order to demonstrate compliance with the limits. Coating processes must also use compliant coatings as specified in Section 228.7. This limits the quantity of volatile organic

New York State Department of Environmental Conservation
Facility DEC ID: 5532600004

compounds (VOC) emitted during coating.

For some of the coatings used, ingredients are first dispersed in a mixer (Emission Source MIXR1) before being charged to the coater head tank. This mixer is the only Emission Source in Emission Unit U-MIXRS, and is regulated under 6 NYCRR Part 212. In many cases, coatings are mixed in other tanks which are exempt from permitting requirements.

Steam heated can dryers are used to dry the paper or fabric web, with steam provided by two dual fueled (natural gas/No. 6 fuel oil) boilers having rated capacities of 43.4 mmBTU/hr and 32.5 mmBTU/hr heat input (Emission Sources 00001 and 00002). For Paper Machine No. 10, drying is aided by a Thru-dryer, fired with natural gas. This Thru-dryer is exempt from permitting requirements. The two boilers are grouped together as Emission Unit U-BOILR, and are regulated under 6 NYCRR Part 227. Emissions of Sulfur Dioxide (SO₂) and Oxides of Nitrogen (NO_x) from this facility have been capped at 169 tpy and 83 tpy, respectively. These caps were established in 1995 to prevent the need for a full Prevention of Significant Deterioration (PSD) review, under 40 CFR 52.21(i), when Paper Machine No. 8 was installed. The cap on NO_x emissions also serves to cap the combustion units out of Reasonably Available Control Technology (RACT) requirements contained in 6 NYCRR, Subpart 227-2 for that contaminant. Monitoring, recordkeeping and reporting of fuel use are required to demonstrate compliance with these limits. Fuel use for the entire facility is monitored, thereby appropriately accounting for SO₂ and NO_x emissions from several exempt combustion units in the totals. Notification requirements contained in National Emissions Standards for Hazardous Air Pollutants (NESHAP) for industrial boilers, under 40CFR 63, Subpart DDDDD, has been provided. There are no additional Subpart DDDDD requirements for the existing boilers at this time.

Pulp from the broke (i.e., the waste paper from the process) is recovered by first dissolving the material in the Broke Beater (ES BEATR) and then washing the resulting pulp slurry in the Broke Washer (ES WASHR). It is then re-used in the process. Emission Unit U-BROKE covers these emission sources, which are regulated under 6 NYCRR Part 212.

This facility is subject to requirements contained in the NESHAP for controlling organic hazardous air pollutants (HAPs) from paper and other web coating operations, under 40CFR 63, Subpart JJJJ. Organic HAPs are limited to no more than 20 percent of the mass of solids "as purchased" for each month. Records will be maintained to demonstrate compliance with this standard.

In addition to formaldehyde, 1,3-dichloro-2-propanol, HAPs, VOC, SO₂ and NO_x, Hollingsworth & Vose Company's Easton Facility is regulated for the following pollutants: Carbon Monoxide (CO), Particulates (PM), and Sulfuric Acid. The facility has the potential to emit SO₂ and HAPs above the Title V major source thresholds.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: WALTER L HAYNES

Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

****** General Provisions ******

For the purpose of your Title V permit, the following section contains state-only enforceable terms and conditions

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301.2(m)

Item 2.1:

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 1-1: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6NYCRR 621.11

Item 1-1.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 1-1.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 1-1.3:

New York State Department of Environmental Conservation
Facility DEC ID: 5532600004

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 3: Applications for Permit Renewals and Modifications
Applicable State Requirement: 6NYCRR 621.13

Item 3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 3.3:

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 1-2: Permit modifications, suspensions or revocations by the Department
Applicable State Requirement: 6NYCRR 621.13

Item 1-2.1:

The Department reserves the right to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

Condition 4: Permit Modifications, Suspensions and Revocations by the Department
Applicable State Requirement: 6NYCRR 621.14

Item 4.1:

The Department reserves the right to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;

New York State Department of Environmental Conservation
Facility DEC ID: 5532600004

- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

The items listed below are not subject to the annual compliance certification requirements under Title V. Permittees may also have other obligations under regulations of general applicability.

Item A: Emergency Defense - 6NYCRR Part 201-1.5

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;

(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner and/or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item B: Public Access to Recordkeeping for Title V Facilities - 6NYCRR Part 201-1.10(b)

The Department will make available to the public any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Section 503(e) of the Act, except for information entitled to confidential treatment pursuant to 6NYCRR Part 616 - Public Access to records and Section 114(c) of the Act.

Item C: Timely Application for the Renewal of Title V Permits - 6 NYCRR Part 201-6.3(a)(4)

Owners and/or operators of facilities having an issued Title V permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

Item D: Certification by a Responsible Official - 6 NYCRR Part 201-6.3(d)(12)

Any application, form, report or compliance certification required to be submitted pursuant to the federally enforceable portions of this permit shall contain a certification of truth, accuracy and completeness by a responsible official. This certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

Item E: Requirement to Comply With All Conditions - 6 NYCRR Part 201-6.5(a)(2)

The permittee must comply with all conditions of the Title V facility permit. Any permit non-compliance constitutes a violation of the Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

Item F: Permit Revocation, Modification, Reopening, Reissuance or Termination, and Associated Information Submission Requirements - 6 NYCRR Part 201-6.5(a)(3)

This permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Item G: Cessation or Reduction of Permitted Activity Not a Defense - 6NYCRR Part 201-6.5(a)(5)

It shall not be a defense for a permittee in an enforcement action to claim that a cessation or reduction in the permitted activity would have been necessary in

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

order to maintain compliance with the conditions of this permit.

Item H: Property Rights - 6 NYCRR Part 201-6.5(a)(6)

This permit does not convey any property rights of any sort or any exclusive privilege.

Item I: Severability - 6 NYCRR Part 201-6.5(a)(9)

If any provisions, parts or conditions of this permit are found to be invalid or are the subject of a challenge, the remainder of this permit shall continue to be valid.

Item J: Permit Shield - 6 NYCRR Part 201-6.5(g)

All permittees granted a Title V facility permit shall be covered under the protection of a permit shield, except as provided under 6 NYCRR Subpart 201-6. Compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that such applicable requirements are included and are specifically identified in the permit, or the Department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the major stationary source, and the permit includes the determination or a concise summary thereof. Nothing herein shall preclude the Department from revising or revoking the permit pursuant to 6 NYCRR Part 621 or from exercising its summary abatement authority. Nothing in this permit shall alter or affect the following:

- i. The ability of the Department to seek to bring suit on behalf of the State of New York, or the Administrator to seek to bring suit on behalf of the United States, to immediately restrain any person causing or contributing to pollution presenting an imminent and substantial endangerment to public health, welfare or the environment to stop the emission of air pollutants causing or contributing to such pollution;
- ii. The liability of a permittee of the Title V facility for any violation of applicable requirements prior to or at the time of permit issuance;
- iii. The applicable requirements of Title IV of the

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Act;

iv. The ability of the Department or the Administrator to obtain information from the permittee concerning the ability to enter, inspect and monitor the facility.

Item K: Reopening for Cause - 6 NYCRR Part 201-6.5(i)

This Title V permit shall be reopened and revised under any of the following circumstances:

i. If additional applicable requirements under the Act become applicable where this permit's remaining term is three or more years, a reopening shall be completed not later than 18 months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which this permit is due to expire, unless the original permit or any of its terms and conditions has been extended by the Department pursuant to the provisions of Part 201-6.7 and Part 621.

ii. The Department or the Administrator determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

iii. The Department or the Administrator determines that the Title V permit must be revised or reopened to assure compliance with applicable requirements.

iv. If the permitted facility is an "affected source" subject to the requirements of Title IV of the Act, and additional requirements (including excess emissions requirements) become applicable. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

Proceedings to reopen and issue Title V facility permits shall follow the same procedures as apply to initial permit issuance but shall affect only those parts of the permit for which cause to reopen exists.

Reopenings shall not be initiated before a notice of such intent is provided to the facility by the Department at least thirty days in advance of the date that the permit

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

is to be reopened, except that the Department may provide a shorter time period in the case of an emergency.

Item L: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item M: Federally Enforceable Requirements - 40 CFR 70.6(b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS SUBJECT TO ANNUAL CERTIFICATIONS AT ALL TIMES

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements at all times.

Condition 1: Acceptable Ambient Air Quality
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 200.6

Item 1.1:

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

Condition 2: Fees
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(a)(7)

Item 2.1:

The owner and/or operator of a stationary source shall pay fees to the Department consistent with the fee schedule authorized by ECL 72-0302.

Condition 3: Recordkeeping and reporting of compliance monitoring
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)

Item 3.1:

The following information must be included in any required compliance monitoring records and reports:

- (i) The date, place, and time of sampling or measurements;
- (ii) The date(s) analyses were performed;
- (iii) The company or entity that performed the analyses;
- (iv) The analytical techniques or methods used including quality assurance and quality control procedures if required;
- (v) The results of such analyses including quality assurance data where required; and
- (vi) The operating conditions as existing at the time of sampling or measurement.

Any deviation from permit requirements must be clearly identified in all records and reports. Reports must be certified by a responsible official, consistent with Section 201-6.3 of this Part 201.

Condition 4: Monitoring, Related Recordkeeping, and Reporting Requirements.
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)(2)

Item 4.1:

Compliance monitoring and recordkeeping shall be conducted according to the terms and conditions contained in this permit and shall follow all quality assurance requirements found in applicable

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

regulations. Records of all monitoring data and support information must be retained for a period of at least 5 years from the date of the monitoring, sampling, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.

Condition 5: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(c)(3)(ii)

Item 5.1:

The Compliance Certification activity will be performed for the Facility.

Item 5.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

To meet the requirements of this facility permit with respect to reporting, the permittee must:

Submit reports of any required monitoring at a minimum frequency of every 6 months, based on a calendar year reporting schedule. These reports shall be submitted to the Department within 30 days after the end of a reporting period. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by the responsible official for this facility.

Notify the Department and report permit deviations and incidences of noncompliance stating the probable cause of such deviations, and any corrective actions or preventive measures taken. Where the underlying applicable requirement contains a definition of prompt or otherwise specifies a time frame for reporting deviations, that definition or time frame shall govern. Where the underlying applicable requirement fails to address the time frame for reporting deviations, reports of deviations shall be submitted to the permitting authority based on the following schedule:

(1) For emissions of a hazardous air pollutant (as identified in an applicable regulation) that continue for more than an hour in excess of permit requirements, the report must be made within 24 hours of the occurrence.

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

(2) For emissions of any regulated air pollutant, excluding those listed in paragraph (1) of this section, that continue for more than two hours in excess of permit requirements, the report must be made within 48 hours.

(3) For all other deviations from permit requirements, the report shall be contained in the 6 month monitoring report required above.

(4) This permit may contain a more stringent reporting requirement than required by paragraphs (1), (2) or (3) above. If more stringent reporting requirements have been placed in this permit or exist in applicable requirements that apply to this facility, the more stringent reporting requirement shall apply.

If above paragraphs (1) or (2) are met, the source must notify the permitting authority by telephone during normal business hours at the Regional Office of jurisdiction for this permit, attention Regional Air Pollution Control Engineer (RAPCE) according to the timetable listed in paragraphs (1) and (2) of this section. For deviations and incidences that must be reported outside of normal business hours, on weekends, or holidays, the DEC Spill Hotline phone number at 1-800-457-7362 shall be used. A written notice, certified by a responsible official consistent with 6 NYCRR Part 201-6.3(d)(12), must be submitted within 10 working days of an occurrence for deviations reported under (1) and (2). All deviations reported under paragraphs (1) and (2) of this section must also be identified in the 6 month monitoring report required above.

The provisions of 6 NYCRR 201-1.4 shall apply if the permittee seeks to have a violation excused unless otherwise limited by regulation. In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets. Notwithstanding any recordkeeping and reporting requirements in 6 NYCRR 201-1.4, reports of any deviations shall not be on a less frequent basis than the reporting periods described in paragraphs (1) and (4) above.

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

In the case of any condition contained in this permit with a reporting requirement of "Upon request by regulatory agency" the permittee shall include in the semiannual report, a statement for each such condition that the monitoring or recordkeeping was performed as required or requested and a listing of all instances of deviations from these requirements.

In the case of any emission testing performed during the previous six month reporting period, either due to a request by the Department, EPA, or a regulatory requirement, the permittee shall include in the semiannual report a summary of the testing results and shall indicate whether or not the Department or EPA has approved the results.

All semiannual reports shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Compliance Monitoring and Enforcement (BCME) in the DEC central office). Mailing addresses for the above referenced persons are contained in the monitoring condition for 6 NYCRR Part 201-6.5(e), contained elsewhere in this permit.

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2006.
Subsequent reports are due every 6 calendar month(s).

Condition 6: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 202-2.1

Item 6.1:

The Compliance Certification activity will be performed for the Facility.

Item 6.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Emission statements shall be submitted on or before April 15th each year for emissions of the previous calendar

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

year.

Monitoring Frequency: ANNUALLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due by April 15th for previous calendar year

Condition 7: Recordkeeping requirements
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 202-2.5

Item 7.1:

(a) The following records shall be maintained for at least five years:

- (1) a copy of each emission statement submitted to the department; and
- (2) records indicating how the information submitted in the emission statement was determined, including any calculations, data, measurements, and estimates used.

(b) These records shall be made available at the facility to the representatives of the department upon request during normal business hours.

Condition 8: Open Fires Prohibited at Industrial and Commercial Sites
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 215

Item 8.1:

No person shall burn, cause, suffer, allow or permit the burning in an open fire of garbage, refuse, rubbish for salvage, or rubbish generated by industrial or commercial activities.

**MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS SUBJECT
TO ANNUAL CERTIFICATIONS ONLY IF APPLICABLE**

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements only if effectuated during the reporting period. [NOTE: The corresponding annual compliance certification for those conditions not effectuated during the reporting period shall be specified as "not applicable".]

Condition 9: Maintenance of Equipment
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 200.7

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Item 9.1:

Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Condition 10: Recycling and Salvage
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-1.7

Item 10.1:

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of the ECL.

Condition 1-1: Prohibition of Reintroduction of Collected Contaminants to the air
Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-1.8

Replaces Condition(s) 11

Item 1-1.1:

No person shall unnecessarily remove, handle or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Condition 12: Exempt Sources - Proof of Eligibility
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-3.2(a)

Item 12.1:

The owner and/or operator of an emission source or unit that is eligible to be exempt may be required to certify that it operates within the specific criteria described in this Subpart. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other State and Federal air pollution control requirements, regulations, or law.

Condition 13: Trivial Sources - Proof of Eligibility
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-3.3(a)

Item 13.1:

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

The owner and/or operator of an emission source or unit that is listed as being trivial in this Part may be required to certify that it operates within the specific criteria described in this Subpart. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other State and Federal air pollution control requirements, regulations, or law.

Condition 14: Standard Requirement - Provide Information
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(a)(4)

Item 14.1:

The owner and/or operator shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to the administrator along with a claim of confidentiality, if the administrator initiated the request for information or otherwise has need of it.

Condition 15: General Condition - Right to Inspect
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(a)(8)

Item 15.1:

The department or an authorized representative shall be allowed upon presentation of credentials and other documents as may be required by law to:

- (i) enter upon the permittee's premises where a facility subject to the permitting requirements of this Subpart is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;
- (ii) have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;
- (iii) inspect at reasonable times any emission sources, equipment (including monitoring and air pollution control equipment), practices, and operations regulated or required under the permit; and
- (iv) sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

Condition 16: Standard Requirements - Progress Reports
Effective between the dates of 02/13/2006 and 02/12/2011

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Applicable Federal Requirement: 6NYCRR 201-6.5(d)(5)

Item 16.1:

Progress reports consistent with an applicable schedule of compliance are to be submitted at least semiannually, or at a more frequent period if specified in the applicable requirement or by the department. Such progress reports shall contain the following:

- (i) dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and
- (ii) an explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

Condition 17: Off Permit Changes

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(f)(6)

Item 17.1:

No permit revision will be required for operating changes that contravene an express permit term, provided that such changes would not violate applicable requirements as defined under this Part or contravene federally enforceable monitoring (including test methods), recordkeeping, reporting, or compliance certification permit terms and conditions. Such changes may be made without requiring a permit revision, if the changes are not modifications under any provision of title I of the act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions) provided that the facility provides the administrator and the department with written notification as required below in advance of the proposed changes within a minimum of seven days. The facility owner or operator, and the department shall attach each such notice to their copy of the relevant permit.

- (i) For each such change, the written notification required above shall include a brief description of the change within the permitted facility, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.
- (ii) The permit shield described in section 6 NYCRR 201-6.6 shall not apply to any change made pursuant to this paragraph.

Condition 18: Required Emissions Tests

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 202-1.1

Item 18.1:

For the purpose of ascertaining compliance or non-compliance with any air pollution control code, rule or regulation, the commissioner may require the person who owns such air contamination source to submit an acceptable report of measured emissions within a stated time. Such person shall bear the cost of measurement and preparing the report of measured emissions. Failure of such person to submit a report

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

acceptable to the commissioner within the time stated shall be sufficient reason for the commissioner to suspend or deny a certificate to operate.

Condition 19: Visible Emissions Limited
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 211.3

Item 19.1:

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 20: Accidental release provisions.
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 40CFR 68

Item 20.1:

If a chemical is listed in Tables 1,2,3 or 4 of 40 CFR §68.130 is present in a process in quantities greater than the threshold quantity listed in Tables 1,2,3 or 4, the following requirements will apply:

- a) The owner or operator shall comply with the provisions of 40 CFR Part 68 and;
- b) The owner or operator shall submit at the time of permit issuance (if not previously submitted) one of the following, if such quantities are present:
 - 1) A compliance schedule for meeting the requirements of 40 CFR Part 68 by the date provided in 40 CFR §68.10(a) or,
 - 2) A certification statement that the source is in compliance with all requirements of 40 CFR Part 68, including the registration and submission of the Risk Management Plan. Information should be submitted to:

Risk Management Plan Reporting Center
C/O CSC
8400 Corporate Dr
Carrollton, Md. 20785

Condition 21: Recycling and Emissions Reduction
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 40CFR 82, Subpart F

Item 21.1:

The permittee shall comply with all applicable provisions of 40 CFR Part 82.

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

The following conditions are subject to annual compliance certification requirements for Title V permits only.

Condition 22: Emission Unit Definition
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6

Item 22.1(From Mod 1):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-PAPER

Emission Unit Description:

Paper making operations on Paper Machine Nos. 8, 9 and 10. This includes forming, drying and coating/saturating of a paper or fabric web on each of the three machines.

Paper Machine Nos. 8, 9 and 10 also have natural gas fired curing units to enhance sheet properties through additional drying.

Building(s): EASTON MIL

Item 22.2(From Mod 0):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-BOILR

Emission Unit Description:

Two (2) boilers with combined heat input capacity of 75.9 mmBtu/hr fired with either No. 6 fuel oil or natural gas.

Building(s): BOILERHOUS

Item 22.3(From Mod 0):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-BROKE

Emission Unit Description:

Broke is processed for reuse in paper making operations. It is first broken down using caustic and steam heat in a beater type mixer (PR 003) vented to emission point 00024. Then, it is washed in a process also using caustic and steam heat in a beater type mixer (PR 004) vented to emission point 00025.

Building(s): EASTON MIL

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Item 22.4(From Mod 0):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-MIXRS

Emission Unit Description:

Chemical mixing exhaust system - includes one mixing tank (ES MIXR1) used for mixing of ingredients such as clay and titanium dioxide with liquid ingredients and vented to Emission Point No. 009A7.

Building(s): EASTON MIL

Condition 23: Compliance Certification

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(e)

Item 23.1:

The Compliance Certification activity will be performed for the Facility.

Item 23.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Requirements for compliance certifications with terms and conditions contained in this facility permit include the following:

- i. Compliance certifications shall contain:
 - the identification of each term or condition of the permit that is the basis of the certification;
 - the compliance status;
 - whether compliance was continuous or intermittent;
 - the method(s) used for determining the compliance status of the facility, currently and over the reporting period consistent with the monitoring and related recordkeeping and reporting requirements of this permit;
 - such other facts as the Department may require to determine the compliance status of the facility as specified in any special permit terms or conditions;
 - and
 - such additional requirements as may be specified elsewhere in this permit related to compliance certification.

- ii. The responsible official must include in the annual

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

certification report all terms and conditions contained in this permit which are identified as being subject to certification, including emission limitations, standards, or work practices. That is, the provisions labeled herein as "Compliance Certification" are not the only provisions of this permit for which an annual certification is required.

iii. Compliance certifications shall be submitted annually. Certification reports are due 30 days after the anniversary date of four consecutive calendar quarters. The first report is due 30 days after the calendar quarter that occurs just prior to the permit anniversary date, unless another quarter has been acceptable by the Department.

iv. All compliance certifications shall be submitted to the Administrator (or his or her representative) as well as two copies to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office). Please send annual compliance certifications to Chief of the Stationary Source Compliance Section, the Region 2 EPA representative for the Administrator, at the following address:

USEPA Region 2
Air Compliance Branch
290 Broadway
New York, NY 10007-1866

The address for the RAPCE is as follows:

Region 5 Suboffice
232 Golf Course Road.
P.O. Box 220
Warrensburg, NY 12885-0220

The address for the BQA is as follows:

NYSDEC
Bureau of Quality Assurance
625 Broadway
Albany, NY 12233-3258

Monitoring Frequency: ANNUALLY
Reporting Requirements: ANNUALLY (CALENDAR)

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Reports due 30 days after the reporting period.
The initial report is due 1/30/2007.
Subsequent reports are due on the same day each year

Condition 24: Non Applicable requirements
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5(g)

Item 24.1:

This section contains a summary of those requirements that have been specifically identified as being not applicable to this facility and/or emission units, emission points, processes and/or emission sources within this facility. The summary also includes a justification for classifying any such requirements as non-applicable.

Condition 25: Facility Permissible Emissions
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 25.1:

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 007446-09-5 (From Mod 1) PTE: 338,000 pounds per year
Name: SULFUR DIOXIDE

CAS No: 0NY210-00-0 (From Mod 1) PTE: 166,000 pounds per year
Name: OXIDES OF NITROGEN

Condition 1-2: Capping Monitoring Condition
Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-7

Replaces Condition(s) 26

Item 1-2.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

40CFR 52-A.21

Item 1-2.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms,

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

conditions and standards in this permit.

Item 1-2.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 1-2.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 1-2.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 1-2.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 007446-09-5 SULFUR DIOXIDE

Item 1-2.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Facility-wide emissions of SO₂ shall not exceed 169 tons per year (338,000 lbs/yr) as determined by summing monthly SO₂ emissions during any consecutive 12-month period.

Records shall be maintained on-site which demonstrate compliance with the SO₂ emission cap. These records shall include the mass emissions totaled over each month, the total mass emissions over each rolling twelve (12) month period, fuel use (both No. 6 fuel oil and natural gas) and emission factors used in calculating emissions.

Monthly fuel usage quantities shall be used to calculate corresponding monthly SO₂ emissions according to the

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

following formulas for the specific fuel
burned:

Natural Gas:

$$\text{SO}_2 \text{ (lbs/month)} = 6\text{E-}7 \text{ lbs/std. cu. ft.} \times \text{NG}$$

where NG is the amount of natural gas burned per month,
in standard cubic feet

No. 6 Fuel Oil:

$$\text{SO}_2 \text{ (lbs/month)} = .157\text{S lbs/gallon} \times \text{FO}$$

where FO is the gallons of No. 6 fuel oil burned per
month; and

S is the sulfur content of the No. 6 fuel oil
burned, %

(assumed to be 1.5% unless documentation
shows

otherwise)

Parameter Monitored: SULFUR DIOXIDE

Upper Permit Limit: 169 tons per year

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 27: Capping Monitoring Condition

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 27.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6NYCRR 227-2

6NYCRR 231-2

40CFR 52-A.21

Item 27.2:

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 27.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 27.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 27.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 27.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 007446-09-5 SULFUR DIOXIDE

CAS No: 0NY210-00-0 OXIDES OF NITROGEN

Item 27.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

On an annual basis, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emissions caps. This certification shall include the following information for each of the twelve (12) consecutive months of the previous year:

1. the amount of fuel used (both No. 6 fuel oil and natural gas);
2. SO₂ and NO_x emissions generated, in pounds/month;

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

3. the rolling annual total of SO₂ and NO_x emissions, in tons per year; and

4. the threshold levels to which the annual totals are being compared.

Monitoring Frequency: MONTHLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2007.

Subsequent reports are due every 12 calendar month(s).

Condition 28: Capping Monitoring Condition
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-7

Item 28.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6NYCRR 227-2

6NYCRR 231-2

40CFR 52-A.21

Item 28.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 28.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 28.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 28.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 28.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 0NY210-00-0 OXIDES OF NITROGEN

Item 28.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Facility-wide emissions of NO_x shall not exceed 83 tons per year (166,000 lbs/yr) as determined by summing monthly NO_x emissions during any consecutive 12-month period.

Records shall be maintained on-site which demonstrate compliance with the NO_x emission cap. These records shall include the mass emissions totaled over each month, the total mass emissions over each rolling twelve (12) month period, fuel use (both No. 6 fuel oil and natural gas) and emission factors used in calculating emissions.

Monthly fuel usage quantities shall be used to calculate corresponding monthly NO_x emissions according to the following formulas for the specific fuel burned:

Natural Gas:

$$\text{NO}_x \text{ (lbs/month)} = 0.0001 \text{ lbs/std. cu. ft.} \times \text{NG}$$

where NG is the amount of natural gas burned per month, in standard cubic feet

No. 6 Fuel Oil:

$$\text{NO}_x \text{ (lbs/month)} = 5\text{E-}7 \text{ lbs/BTU} \times 153,300 \text{ BTU/gal} \times \text{FO}$$

where FO is the number of gallons of No. 6 fuel oil burned per month

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Parameter Monitored: OXIDES OF NITROGEN
Upper Permit Limit: 83 tons per year
Monitoring Frequency: MONTHLY
Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2006.
Subsequent reports are due every 6 calendar month(s).

Condition 1-3: Compliance Certification
Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Replaces Condition(s) 32

Item 1-3.1:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-PAPER
Process: 016 Emission Source: 0DRY9

Emission Unit: U-PAPER
Process: 016 Emission Source: DRY10

Emission Unit: U-PAPER
Process: AAA Emission Source: 00PM8

Regulated Contaminant(s):
CAS No: 000050-00-0 FORMALDEHYDE

Item 1-3.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Source owner shall limit annual emissions of formaldehyde from Paper Machine Nos. 8, 9 & 10 to a total of 7,170 lbs. or less, during any twelve (12) consecutive months, rolled monthly, with no more than 420 lbs. of the total contributed by Paper Machine No. 8.

The formulations run on each paper machine shall be monitored and recorded along with the time, date and duration of the run, in order to document that this annual emission limit is not exceeded. This record shall

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

include, for each month, acceptable calculations of the pounds of formaldehyde emitted from Paper Machine No. 8 alone and the overall total from the emission unit for that month, as well as the total amounts emitted from Paper Machine No. 8 and the overall total for the past consecutive twelve (12) months. Each consecutive twelve (12) month total must meet the applicable limits stated above.

Parameter Monitored: FORMALDEHYDE

Upper Permit Limit: 7170 pounds

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 1-4: Compliance Certification

Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Replaces Condition(s) 29

Item 1-4.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-PAPER

Process: AAA

Emission Source: 00PM8

Regulated Contaminant(s):

CAS No: 000050-00-0 FORMALDEHYDE

Item 1-4.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Source owner shall limit annual emissions of formaldehyde from Paper Machine Nos. 8, 9 & 10 to a total of 7,170 lbs. or less, during any twelve (12) consecutive months, rolled monthly, with no more than 420 lbs. of the total contributed by Paper Machine No. 8.

The formulations run on each paper machine shall be

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

monitored and recorded along with the time, date and duration of the run, in order to document that this annual emission limit is not exceeded. This record shall include, for each month, acceptable calculations of the pounds of formaldehyde emitted from Paper Machine No. 8 alone and the overall total from the emission unit for that month, as well as the total amounts emitted from Paper Machine No. 8 and the overall total for the past consecutive twelve (12) months. Each consecutive twelve (12) month total must meet the applicable limits stated above.

Parameter Monitored: FORMALDEHYDE
Upper Permit Limit: 420 pounds
Monitoring Frequency: MONTHLY
Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2007.
Subsequent reports are due every 6 calendar month(s).

Condition 30: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 30.1:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-PAPER
Process: AAA Emission Source: 00PM8

Regulated Contaminant(s):
CAS No: 000050-00-0 FORMALDEHYDE

Item 30.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Source owner shall limit hourly emission rate of formaldehyde from Paper Machine Nos. 8, 9 & 10 to a total of 1.85 lbs. or less, with no more than 0.15 lbs. of the total contributed by Paper Machine No. 8. These limits apply at all times including periods of R & D

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

activities.

The formulations being run on each paper machine shall be monitored and recorded along with the time, date and duration of the run, in order to document that these hourly emission limits are not exceeded. This record shall include acceptable calculations of the formaldehyde emission rates from Paper Machine No. 8 alone and the overall total from the emission unit for each hour that the facility is operating. Each hourly emission rate must meet the applicable limit as stated above.

Parameter Monitored: FORMALDEHYDE

Upper Permit Limit: 0.15 pounds per hour

Monitoring Frequency: PER BATCH OF PRODUCT/RAW MATERIAL CHANGE

Averaging Method: 1 HOUR MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 31: Compliance Certification

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 31.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-PAPER

Process: 016

Emission Source: 0DRY9

Emission Unit: U-PAPER

Process: 016

Emission Source: DRY10

Emission Unit: U-PAPER

Process: AAA

Emission Source: 00PM8

Regulated Contaminant(s):

CAS No: 000050-00-0

FORMALDEHYDE

Item 31.2:

Compliance Certification shall include the following monitoring:

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Source owner shall limit hourly emission rate of formaldehyde from Paper Machine Nos. 8, 9 & 10 to a total of 1.85 lbs. or less, with no more than 0.15 lbs. of the total contributed by Paper Machine No. 8. These limits apply at all times including periods of R & D activities.

The formulations being run on each paper machine shall be monitored and recorded along with the time, date and duration of the run, in order to document that these hourly emission limits are not exceeded. This record shall include acceptable calculations of the formaldehyde emission rates from Paper Machine No. 8 alone and the overall total from the emission unit for each hour that the facility is operating. Each hourly emission rate must meet the applicable limit as stated above.

Parameter Monitored: FORMALDEHYDE

Upper Permit Limit: 1.85 pounds per hour

Monitoring Frequency: PER BATCH OF PRODUCT/RAW MATERIAL
CHANGE

Averaging Method: 1 HOUR MAXIMUM - NOT TO BE EXCEEDED AT
ANY TIME

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 33: Compliance Certification

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.6(a)

Item 33.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-BROKE

Emission Unit: U-MIXRS

Emission Unit: U-PAPER

Item 33.2:

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No person shall cause or allow emissions having an average opacity during any six consecutive minutes of 20 percent or greater from any process emission source, except only the emission of uncombined water. The Department reserves the right to perform or require the performance of a Method 9 opacity evaluation at any time during facility operation.

The permittee will conduct observations of visible emissions from the emission unit, process, etc. to which this condition applies at the monitoring frequency stated below while the process is in operation. The permittee will investigate, in a timely manner, any instance where there is cause to believe that visible emissions have the potential to exceed the opacity standard.

The permittee shall investigate the cause, make any necessary corrections, and verify that the excess visible emissions problem has been corrected. If visible emissions with the potential to exceed the standard continue, the permittee will conduct a Method 9 assessment within the next operating day of the sources associated with the potential noncompliance to determine the degree of opacity and will notify the NYSDEC if the method 9 test indicates that the opacity standard is not met.

Records of visible emissions observations (or any follow-up method 9 tests), investigations and corrective actions will be kept on-site. Should the Department determine that permittee's record keeping format is inadequate to demonstrate compliance with this condition, it shall provide written notice to the permittee stating the inadequacies, and permittee shall have 90 days to revise its prospective record keeping format in a manner acceptable to the Department.

This monitoring activity also serves to demonstrate compliance or noncompliance with opacity requirements for coating lines specified in 6NYCRR 228.4.

Parameter Monitored: OPACITY

Upper Permit Limit: 20 percent

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Reference Test Method: Method 9
Monitoring Frequency: DAILY
Averaging Method: 6 MINUTE AVERAGE
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2006.
Subsequent reports are due every 6 calendar month(s).

Condition 34: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 225-1.2(a)(2)

Item 34.1:

The Compliance Certification activity will be performed for the Facility.

Item 34.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC
OPERATIONS

Monitoring Description:

No person will sell, offer for sale, purchase or use any residual oil fuel which contains sulfur in a quantity exceeding the following limitation.

Work Practice Type: PARAMETER OF PROCESS MATERIAL
Process Material: RESIDUAL FUEL (#4, #5 AND/OR #6 FUEL OIL)
Parameter Monitored: SULFUR CONTENT
Upper Permit Limit: 1.5 percent by weight
Monitoring Frequency: PER BATCH OF PRODUCT/RAW MATERIAL CHANGE
Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2006.
Subsequent reports are due every 6 calendar month(s).

Condition 35: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 228.7

Item 35.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Emission Unit: U-PAPER
Process: 016

Emission Unit: U-PAPER
Process: AAA

Regulated Contaminant(s):
CAS No: 0NY998-00-0 VOC

Item 35.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

The maximum pounds of volatile organic compounds (VOCs) per gallon (minus water and excluded VOC) at paper coating lines shall not exceed 2.9 lbs/gal at application.

Certification from the coating supplier/manufacturer which verifies the parameters used to determine the actual VOC content of the as applied coating, for each coating used at the facility, must be maintained and, upon request, be provided to The Department's representative. In addition, purchase, usage and/or production records of the coating material, including solvents, must be maintained and, upon request, be submitted to The Department. Records must be maintained at the facility for a period of five years.

Parameter Monitored: VOC CONTENT

Upper Permit Limit: 2.9 pounds per gallon

Monitoring Frequency: PER BATCH OF PRODUCT/RAW MATERIAL
CHANGE

Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY
TIME (INSTANTANEOUS/DISCRETE OR GRAB)

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 36: Compliance Certification

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 228.10

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Item 36.1:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 0NY998-00-0 VOC

Item 36.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Within the work area(s) associated with a coating line, the owner or operator of this facility subject to 6NYCRR Part 228 must:

- (a) use closed, non-leaking containers to store or dispose of cloth or other absorbent applicators impregnated with VOC solvents that are used for surface preparation, cleanup or coating removal;
- (b) store in closed, non-leaking containers spent or fresh VOC solvents to be used for surface preparation, cleanup or coating removal;
- (c) not use VOC solvents to cleanup spray equipment unless equipment is used to collect the cleaning compounds and to minimize VOC evaporation;
- (d) not use open containers to store or dispense surface coatings and/or inks unless production, sampling, maintenance or inspection procedures require operational access. This provision does not apply to the actual device or equipment designed for the purpose of applying a coating material to a substrate. These devices may include, but are not limited to spray guns, flow coaters, dip tanks, rollers, knife coaters, and extrusion coaters;
- (e) not use open containers to store or dispose of spent surface coatings, or spent VOC solvents.
- (f) minimize spills during the handling and transfer of coatings and VOC solvents; and

All associated coating line work area(s) within the facility shall be inspected daily to determine if there

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

are any open containers present, and that only acceptable spray gun cleaning methods were utilized. A log book shall be maintained to record these inspections and their results. The log book shall include the following information:

- date and time of inspection
- items or areas observed
- corrective measures taken, if necessary

Monitoring Frequency: DAILY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 37: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 40CFR 63.3320(b)(3), Subpart JJJJ

Item 37.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-PAPER

Process: 016 Emission Source: 0DRY9

Emission Unit: U-PAPER

Emission Unit: U-PAPER

Process: AAA Emission Source: 00PM8

Regulated Contaminant(s):

CAS No: 0NY100-00-0 HAP

Item 37.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

The owner or operator of an affected source must limit

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

the organic HAP emissions to no more than 20% of the mass of coating solids applied at existing affected sources (8% for new affected sources) for each month on and after the compliance date of December 5, 2005.

Each coating material used at an existing affected source shall not exceed 0.2 kg (or 0.08 kg for new affected sources) organic HAP per kg coating solids, as-purchased. The organic HAP mass fraction of each coating must be determined in accordance with §63.3360(c).

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: COATING

Parameter Monitored: ORGANIC HAP CONTENT

Upper Permit Limit: 20 percent by weight

Reference Test Method: 40CFR 63.3360(c)

Monitoring Frequency: PER BATCH OF PRODUCT/RAW MATERIAL CHANGE

Averaging Method: MAXIMUM - NOT TO EXCEED STATED VALUE - SEE MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 38: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 40CFR 63.3410(a), Subpart JJJJ

Item 38.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-PAPER

Process: 016

Emission Source: 0DRY9

**Condition 40: Process Definition By Emission Unit
Effective between the dates of 02/13/2006 and 02/12/2011**

Applicable Federal Requirement: 6NYCRR 201-6

Item 40.1(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-PAPER

Process: 016

Source Classification Code: 4-02-013-01

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Process Description:

Various coatings/binders may be applied to the paper web at different points, depending upon the machine being used and the formulation being made. The coated/saturated sheet passes over steam dryer cans to drive off volatile material. Some coatings/binders may also be cured using natural gas fired heating units. Emissions from Paper Machine No. 10's "dry-end" (DRY10) are vented to wet scrubber (010CS) and exhausted through emission point 09C10.

Emission Source/Control: 010SC - Control
Control Type: WET SCRUBBER

Emission Source/Control: 0DRY9 - Process

Emission Source/Control: 0WET9 - Process

Emission Source/Control: DRY10 - Process

Item 40.2(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-PAPER

Process: AAA

Source Classification Code: 4-02-013-01

Process Description:

Coatings are sprayed onto the paper web on Paper Machine No. 8.

Emission Source/Control: 00PM8 - Process

Item 40.3(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: 001

Source Classification Code: 1-02-004-02

Process Description:

Two small boilers whose combined heat input capacity is 75.9 mmBtu/hr; this process involves firing them with No. 6 fuel oil.

Emission Source/Control: 00001 - Combustion

Design Capacity: 43.4 million Btu per hour

Emission Source/Control: 00002 - Combustion

Design Capacity: 32.5 million Btu per hour

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Item 40.4(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BOILR

Process: 002

Source Classification Code: 1-02-006-02

Process Description:

Two small boilers whose combined heat input capacity is 75.9 mmbtu/hr; this process involves firing them with natural gas.

Emission Source/Control: 00001 - Combustion

Design Capacity: 43.4 million Btu per hour

Emission Source/Control: 00002 - Combustion

Design Capacity: 32.5 million Btu per hour

Item 40.5(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BROKE

Process: 003

Source Classification Code: 3-07-999-99

Process Description:

Exhaust vent from broke beater. Caustic is added to broke and broke is steam heated. Vapors are vented to outside air.

Emission Source/Control: BEATR - Process

Item 40.6(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-BROKE

Process: 004

Source Classification Code: 3-07-999-99

Process Description:

Exhaust vent from broke wash beater. Caustic is added to broke and broke is steam heated. The vapors are vented to the outside air.

Emission Source/Control: WASHR - Process

Item 40.7(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-MIXRS

Process: 00A

Source Classification Code: 4-02-013-03

Process Description:

Chemical mixing of ingredients such as clay and titanium

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

dioxide.

Emission Source/Control: MIXR1 - Process

Item 40.8(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-PAPER

Process: 0AA

Source Classification Code: 3-07-999-01

Process Description:

On No. 8 Paper Machine, a wet web of paper passes over steam heated can dryers. For some papers, sprays are applied (see Process ID AAA). For some papers, infrared curing is used to enhance paper properties. Exhausts are vented to 4 emission points on roof. In addition, 2 emission points may be added to this source as previously approved.

Emission Source/Control: 00PM8 - Process

Item 40.9(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-PAPER

Process: 0BB

Source Classification Code: 3-07-999-99

Process Description:

On Paper Machine No. 9 wet end, a wet web of paper is formed and passes over steam heated can dryers. For some papers, sprays are applied (see Process ID 016). The exhausts are vented to 3 emission points on roof.

Emission Source/Control: 0WET9 - Process

Item 40.10(From Mod 0):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-PAPER

Process: 0CC

Source Classification Code: 3-07-999-99

Process Description:

On Paper Machine No. 10 a wet web of paper is formed and passes over steam heated can dryers and thru-dryer. The exhausts are vented to 3 emission points on roof.

Emission Source/Control: WET10 - Process

Condition 41: Compliance Certification

Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 227-1.3(a)

Item 41.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-BOILER Emission Point: 00018

Item 41.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No owner or operator of a combustion installation shall emit greater than 20 percent opacity except for one six minute period per hour, not to exceed 27 percent, based upon the six minute average in reference test Method 9 in Appendix A of 40 CFR 60.

The Department reserves the right to perform or require the performance of a Method 9 opacity evaluation at any time during facility operation. In addition, Method 9 opacity evaluations must be conducted in accordance with daily visible emissions verification described in this permit.

Parameter Monitored: OPACITY

Upper Permit Limit: 20 percent

Reference Test Method: Method 9

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
DESCRIPTION

Averaging Method: 6-MINUTE AVERAGE (METHOD 9)

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 42: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 227-1.3

Item 42.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-BOILER Emission Point: 00018

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Process: 001

Item 42.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Operators of oil-fired boilers which are not exempt from permitting and where a continuous opacity monitor is not utilized for measuring smoke emissions, shall be required to perform the following:

1) Observe the stack for each boiler which is operating on oil once per day for visible emissions. This observation(s) must be conducted during daylight hours except during adverse weather conditions (fog, rain, or snow).

2) The results of each observation must be recorded in a bound logbook or other format acceptable to the Department. The following data must be recorded for each stack:

- date and time of day
- observer's name
- identity of emission point
- weather condition
- was a plume observed?

Incident weather conditions shall be recorded for those days when observations are prohibited. This logbook must be retained at the facility for five (5) years after the date of the last entry.

3) If the operator observes any visible emissions (other than steam - see below) two consecutive days firing oil (the firing of other fuels in between days of firing oil does not count as an interruption in the consecutive days of firing oil), then a Method 9 analysis (based upon a 6-minute mean) of the affected emission point(s) must be conducted within two (2) business days of such occurrence.

The results of the Method 9 analysis must be recorded in the logbook. The operator must contact the Regional Air Pollution Control Engineer within one (1) business day of performing the Method 9 analysis if the opacity standard is contravened. Upon notification, any corrective actions or future compliance schedules shall be presented to the Department for acceptance.

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

**** NOTE **** Steam plumes generally form after leaving the top of the stack (this is known as a detached plume). The distance between the stack and the beginning of the detached plume may vary, however, there is (normally) a distinctive distance between the plume and stack. Steam plumes are white in color and have a billowy consistency. Steam plumes dissipate within a short distance of the stack (the colder the air the longer the steam plume will last) and leave no dispersion trail downwind of the stack.

Monitoring Frequency: DAILY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 43: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 227.2(b)(1)

Item 43.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-BOILER Emission Point: 00018

Process: 001

Regulated Contaminant(s):

CAS No: 0NY075-00-0 PARTICULATES

Item 43.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING

Monitoring Description:

Particulate emission limit for a stationary combustion installation firing oil. The owner or operator shall complete the following once per term of this permit:

- 1) submit, to the Department, an acceptable protocol for the testing of particulate emission limit cited in this condition,
- 2) perform a stack test, based upon the approved test

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

protocol, to determine compliance with the particulate emission limit cited in this condition, and

3) all records shall be maintained at the facility for a minimum of five years.

Parameter Monitored: PARTICULATES

Upper Permit Limit: 0.10 pounds per million Btus

Reference Test Method: Method 5

Monitoring Frequency: ONCE DURING THE TERM OF THE PERMIT

Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 60 days after the reporting period.

The initial report is due 8/29/2006.

Subsequent reports are due every 6 calendar month(s).

**Condition 44: Emissions from new emission sources and/or modifications
Effective between the dates of 02/13/2006 and 02/12/2011**

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 44.1:

This Condition applies to Emission Unit: U-BROKE

Item 44.2:

No person shall cause or allow emissions that exceed the applicable permissible emission rate as determined from Table 2, Table 3, or Table 4 of 6 NYCRR Part 212 for the environmental rating issued by the commissioner.

**Condition 45: Emissions from new emission sources and/or modifications
Effective between the dates of 02/13/2006 and 02/12/2011**

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 45.1:

This Condition applies to Emission Unit: U-MIXRS

Item 45.2:

No person shall cause or allow emissions that exceed the applicable permissible emission rate as determined from Table 2, Table 3, or Table 4 of 6 NYCRR Part 212 for the environmental rating issued by the commissioner.

**Condition 46: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011**

Applicable Federal Requirement: 6NYCRR 212.4(c)

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Item 46.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-MIXRS Emission Point: 009A7

Regulated Contaminant(s):

CAS No: 0NY075-00-0 PARTICULATES

Item 46.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Emissions of solid particulates are limited to less than 0.050 grains of particulates per cubic foot of exhaust gas, expressed at standard conditions on a dry gas basis. The Department reserves the right to perform or require the performance of a Method 5 emissions evaluation at any time.

The permittee will conduct compliance verifications at the monitoring frequency stated below. These verifications include review of pertinent information relating to particulate emissions of the source, including but not limited to production rate, process material, air flow rate, control equipment parameters, visible emissions, etc. The permittee will confirm that during source operation all pertinent parameters (whether used to directly calculate particulate emission rate, or as surrogates) are within ranges that ensure compliance with the particulate emission rate.

Additionally, the permittee will investigate, in a timely manner, any instance where there is cause to believe that particulate emissions above 0.050 gr/dscf are occurring or have occurred. These instances include but are not limited to process upsets, control device malfunctions or problems, abnormal visible emissions, complaints, etc. The permittee shall determine the cause of any exceedance, make the necessary correction, and verify that the excess emissions problem has been corrected.

Records of these verifications, investigations and corrective actions will be kept on-site.

Should the Department determine that permittee's record

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

keeping format is inadequate to demonstrate compliance with this condition, it shall provide written notice to the permittee stating the inadequacies, and permittee shall have 90 days to revise its prospective record keeping format in a manner acceptable to the Department.

Parameter Monitored: PARTICULATES
Upper Permit Limit: 0.050 grains per dscf
Reference Test Method: USEPA METHOD 5
Monitoring Frequency: SEMI-ANNUALLY
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2006.
Subsequent reports are due every 6 calendar month(s).

**Condition 47: Emissions from new emission sources and/or modifications
Effective between the dates of 02/13/2006 and 02/12/2011**

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 47.1:

This Condition applies to Emission Unit: U-PAPER

Item 47.2:

No person shall cause or allow emissions that exceed the applicable permissible emission rate as determined from Table 2, Table 3, or Table 4 of 6 NYCRR Part 212 for the environmental rating issued by the commissioner.

**Condition 48: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011**

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 48.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-PAPER

Regulated Contaminant(s):

CAS No: 000096-23-1 1,3-DICHLORO-2-PROPANOL

Item 48.2:

Compliance Certification shall include the following monitoring:

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Source owner shall limit annual emissions of
1,3-dichloro-2-propanol from all sources to no more than
3,720 lbs. during any consecutive twelve (12) months,
rolled monthly.

Records shall include, for each month, raw material
consumption and acceptable calculations of the total
pounds of 1,3-dichloro-2-propanol emitted for that month,
as well as the total amounts emitted for the past
consecutive twelve (12) months. Each consecutive twelve
(12) month total must meet the allowable limit noted
above.

Parameter Monitored: 1,3-DICHLORO-2-PROPANOL

Upper Permit Limit: 3720 pounds per year

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2006.

Subsequent reports are due every 6 calendar month(s).

Condition 1-5: Compliance Certification

Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 201-6.5

Item 1-5.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-PAPER

Process: 016

Item 1-5.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

The permittee shall complete the following actions in
order to ensure future compliance with the Order on
Consent (File No. R5-20060612-629), applicable laws and
regulations including but not limited to 6NCYRR
201-6.5(a)(2).

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

1. Permittee will maintain and operate the facility, including associated air pollution control equipment, in a manner consistent with good air pollution control practice for minimizing emissions.
2. On or before November 15, 2006, permittee will submit an Engineering Plan ("Plan") to the Department for approval for achieving and/or maintaining compliance with Title V permit and 6NYCRR 212.4(a) for formaldehyde emissions.
 - Completed October 23, 2006
3. Within one (1) month of receiving approval of the Plan in paragraph 2, permittee will submit to the Department an approvable application to modify its Title V Air permit as appropriate.
 - Completed November 20, 2006
4. Permittee shall comply with all terms identified in the Plan including the Expanded Test Program, submitted on January 25, 2007, to the satisfaction of the Department.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 1-6: Compliance Certification

Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 1-6.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-PAPER

Process: 016

Emission Source: 010SC

Item 1-6.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

To assure compliance with the 1.85 lbs/hr formaldehyde emission limit for emission point 09C10 and provide the basis for emission factors used in other formaldehyde compliance certification activities, the scrubbing solution flow rate shall be at least 120 gpm when running formulations containing formaldehyde.

The minimum flow rate may need to be revised based on the results of the required performance testing

Parameter Monitored: FLOW RATE

Lower Permit Limit: 120 gallons per minute

Monitoring Frequency: CONTINUOUS

Averaging Method: MINIMUM - NOT TO FALL BELOW STATED VALUE AT ANY TIME

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 7/30/2007.

Subsequent reports are due every 6 calendar month(s).

Condition 49: Compliance Certification
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 49.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-PAPER

Process: 0BB

Emission Source: 0WET9

Regulated Contaminant(s):

CAS No: 000096-23-1 1,3-DICHLORO-2-PROPANOL

Item 49.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Source owner shall limit annual emissions of 1,3-dichloro-2-propanol from Paper Machine No. 9 sources to no more than 1,230 lbs. during any consecutive twelve (12) months, rolled monthly.

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Records shall include, for each month, raw material consumption and acceptable calculations of the pounds of 1,3-dichloro-2-propanol emitted for that month, as well as the total pounds emitted for the past consecutive twelve (12) months. Each consecutive twelve (12) month total must meet the allowable limit noted above.

Parameter Monitored: 1,3-DICHLORO-2-PROPANOL
Upper Permit Limit: 1230 pounds per year
Monitoring Frequency: MONTHLY
Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 7/30/2006.
Subsequent reports are due every 6 calendar month(s).

Condition 1-7: Compliance Certification
Effective between the dates of 06/09/2007 and 02/12/2011

Applicable Federal Requirement: 6NYCRR 212.4(a)

Replaces Condition(s) 50

Item 1-7.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-PAPER
Process: AAA

Regulated Contaminant(s):
CAS No: 000050-00-0 FORMALDEHYDE

Item 1-7.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
The hourly emission rate of formaldehyde from Paper Machine No. 8 (ES 00PM8) shall not exceed 0.15 lbs/hr.

Source owner shall notify the Department within thirty (30) days of commencement of the use of formaldehyde-containing coatings on Paper Machine No. 8. R & D activities are not considered as part of the commencement of use.

For the purpose of ascertaining compliance or

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

noncompliance with this limit, source owner shall perform stack testing of the emission points involved within ninety (90) days of the first use of a formaldehyde-containing coating and once per permit term thereafter. An acceptable report of the measured emissions shall be submitted within sixty (60) days of completion of each test.

Upper Permit Limit: 0.15 pounds per hour

Reference Test Method: NCASI Method 98.01 or other method approved by DEC

STATE ONLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS

The following conditions are state applicable requirements and are not subject to compliance certification requirements unless otherwise noted or required under 6 NYCRR Part 201.

Condition 52: Contaminant List
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable State Requirement: ECL 19-0301

Item 52.1:

Emissions of the following contaminants are subject to contaminant specific requirements in this

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

permit(emission limits, control requirements or compliance monitoring conditions).

Condition 53: Unavoidable noncompliance and violations
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable State Requirement: 6NYCRR 201-1.4

Item 53.1:

At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supercede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR

New York State Department of Environmental Conservation

Permit ID: 5-5326-00004/00049

Facility DEC ID: 5532600004

Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superseded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.

Condition 54: Air pollution prohibited
Effective between the dates of 02/13/2006 and 02/12/2011

Applicable State Requirement: 6NYCRR 211.2

Item 54.1:

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.
