Facility DEC ID: 7112200004**

**PERMIT
Under the Environmental Conservation Law (ECL)**

IDENTIFICATION INFORMATION

Permit Type: Air State Facility
Permit ID: 7-1122-00004/00001
Effective Date: 02/25/2005 Expiration Date: 02/25/2010

CORTLAND LINE CO INC
3736 KELLOGG RD
CORTLAND, NY 13045-8818

Facility: CORTLAND LINE CO
3736 KELLOGG RD
CORTLAND, NY 13045

Description:

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: MICHAEL K BARYLSKI
DIVISION OF ENVIRONMENTAL PERMITS
1285 FISHER AVE
CORTLAND, NY 13045-1090

Authorized Signature: _____ Date: ___ / ___ / ____

Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights

under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

****** General Provisions ******

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301.2(m)

Item 2.1:

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 3: Applications for Permit Renewals and Modifications
Applicable State Requirement: 6NYCRR 621.13

Item 3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 3.3:

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual

New York State Department of Environmental Conservation
Facility DEC ID: 7112200004

transfer of ownership.

Condition 4: Permit Modifications, Suspensions and Revocations by the Department
Applicable State Requirement: 6NYCRR 621.14

Item 4.1:

The Department reserves the right to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

Condition 5: Permit Modifications, Suspensions, and Revocations by the Department
Applicable State Requirement: 6NYCRR 621.14

Item 5.1:

The Department reserves the right to modify, suspend, or revoke this permit. The grounds for modification, suspension or revocation include:

- a) the scope of the permitted activity is exceeded or a violation of any condition of the permit or provisions of the ECL and pertinent regulations is found;
- b) the permit was obtained by misrepresentation or failure to disclose relevant facts;
- c) new material information is discovered; or
- d) environmental conditions, relevant technology, or applicable law or regulation have materially changed since the permit was issued.

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Sealing - 6NYCRR Part 200.5

The Commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the Commissioner issued in the case of the violation.

Sealing means labeling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

No person shall operate any air contamination source sealed by the Commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

Unless authorized by the Commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section.

Item B: Acceptable Ambient Air Quality - 6NYCRR Part 200.6

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

Item C: Maintenance of Equipment - 6NYCRR Part 200.7

Any person who owns or operates an air contamination

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Item D: Unpermitted Emission Sources - 6NYCRR Part 201-1.2

If an existing emission source was subject to the permitting requirements of 6NYCRR Part 201 at the time of construction or modification, and the owner and/or operator failed to apply for a permit for such emission source then the following provisions apply:

(a) The owner and/or operator must apply for a permit for such emission source or register the facility in accordance with the provisions of Part 201.

(b) The emission source or facility is subject to all regulations that were applicable to it at the time of construction or modification and any subsequent requirements applicable to existing sources or facilities.

Item E: Emergency Defense - 6NYCRR Part 201-1.5

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;

(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner and/or operator notified the Department within two working days after the event

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item F: Recycling and Salvage - 6NYCRR Part 201-1.7

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of 6 NYCRR.

Item G: Prohibition of Reintroduction of Collected Contaminants to the Air - 6NYCRR Part 201-1.8

No person shall unnecessarily remove, handle, or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Item H: Proof of Eligibility for Sources Defined as Exempt Activities - 6 NYCRR Part 201-3.2(a)

The owner and/or operator of an emission source or unit that is eligible to be exempt, may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Item I: Proof of Eligibility for Sources Defined as Trivial Activities - 6 NYCRR Part 201-3.3(a)

The owner and/or operator of an emission source or unit that is listed as being trivial in 6 NYCRR Part 201 may be required to certify that it operates within the specific

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Item J: Required Emission Tests - 6 NYCRR Part 202-1.1

An acceptable report of measured emissions shall be submitted, as may be required by the Commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the Commissioner within the time stated shall be sufficient reason for the Commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6NYCRR Part 202-1.

Item K: Visible Emissions Limited - 6 NYCRR Part 211.3

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Item L: Open Fires - 6 NYCRR Part 215

No person shall burn, cause, suffer, allow or permit the burning in an open fire of garbage, rubbish for salvage, or rubbish generated by industrial or commercial activities.

Item M: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item N: Federally Enforceable Requirements - 40 CFR 70.6(b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

FEDERAL APPLICABLE REQUIREMENTS

The following conditions are federally enforceable.

Condition 1: Compliance Demonstration
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable Federal Requirement: 6NYCRR 212.6(a)

Item 1.1:

The Compliance Demonstration activity will be performed for the facility:

The Compliance Demonstration applies to:

Emission Unit: 0-00001 Emission Point: 00003

Emission Unit: 0-00001 Emission Point: 00004

Emission Unit: 0-00001 Emission Point: 00005

Emission Unit: 0-00001 Emission Point: 00006

Emission Unit: 0-00001 Emission Point: 00007

Emission Unit: 0-00001 Emission Point: 00008

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Emission Unit: 0-00001 Emission Point: 00009

Emission Unit: 0-00001 Emission Point: 00010

Item 1.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No person will cause or allow emissions having an average opacity during any six consecutive minutes of 20 percent or greater from any process emission source, except only the emission of uncombined water. The Department reserves the right to perform or require the performance of a Method 9 opacity evaluation at any time during facility operation.

Parameter Monitored: OPACITY

Upper Permit Limit: 20 percent

Reference Test Method: Method 9

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
DESCRIPTION

Averaging Method: 6-MINUTE AVERAGE (METHOD 9)

Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

****** Emission Unit Level ******

Condition 2: Compliance Demonstration

Effective between the dates of 02/25/2005 and 02/25/2010

Applicable Federal Requirement: 6NYCRR 212.4(a)

Item 2.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 0-00001

Item 2.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

This condition applies to criteria pollutants and is federally-enforceable.

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

1. No single pollutant emitted from this emission unit shall have an emission rate potential in excess of

(1) 1.0 lb/hr, for A-rated contaminants, and/or

(2) 10 lb/hr, for any non-VOC contaminant not given an A-rating.

Pollutants defined as volatile organic compounds in 6NYCRR Part 200 that are not A-rated contaminants are exempt from this requirement. For this facility, A-rated contaminants are those contaminants listed with a "high" toxicity in the most recent DAR -1 (formerly Air Guide 1) guidance document, and any other contaminant that the DEC designates as A-rated for this facility. All other pollutants are B-rated, unless otherwise rated by the Department.

2. The owner or operator shall not cause or allow the emission of any pollutant at an emission rate that results in a predicted ambient concentration in excess of the Annual Guideline Concentration or the Short term Guideline Concentration for each contaminant, as determined using DEC-approved modeling procedures for all pollutants for which an environmental rating is assigned.

Compliance will be determined using a stack test, conducted upon request from the DEC, according to methods promulgated by EPA, as approved by DEC.

3. On an annual basis, the owner or operator shall submit to the DEC a report stating (1) whether any changes were made to the operation of these emissions sources, or (2) whether new coatings were used for which a DAR-1 (Air Guide 1) analysis has not been conducted (and resulted in no predicted concentrations in excess of the AGC and SGC), and not otherwise exempt from DAR-1 analysis elsewhere in this permit.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2006.

Subsequent reports are due every 12 calendar month(s).

STATE ONLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Public Access to Recordkeeping for Facilities With State Facility Permits - 6NYCRR Part 201-1.10(a)

Where emission source owners and/or operators keep records pursuant to compliance with the operational flexibility requirements of 6 NYCRR Subpart 201-5.4(b)(1) , and/or the emission capping requirements of 6 NYCRR Subparts 201-7.2(d), 201-7.3(f), 201-7.3(g), 201-7.3(h)(5), 201-7.3(i) and 201-7.3(j), the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records. Emission source owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department of receipt of the request.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

law.

STATE ONLY APPLICABLE REQUIREMENTS

The following conditions are state only enforceable.

Condition 3: Contaminant List
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: ECL 19-0301

Item 3.1:

Emissions of the following contaminants are subject to contaminant specific requirements in this permit(emission limits, control requirements or compliance monitoring conditions).

CAS No: 0NY100-00-0
Name: HAP

CAS No: 0NY998-00-0
Name: VOC

Condition 4: Unavoidable noncompliance and violations
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-1.4

Item 4.1:

At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supercede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superseded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.

Condition 5: Emission Unit Definition
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-5

Item 5.1:

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 0-00001

Emission Unit Description:

THIS EMISSION UNIT CONSISTS OF THE EMISSIONS ASSOCIATED WITH THE VARIOUS SURFACE COATING OPERATIONS WITHIN THE FACILITY (I.E., DYING, TOP COATING, FLY LINE COATING, ETC.).

Building(s): PLANT 1

Condition 6: Facility Permissible Emissions
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-7.2

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Item 6.1:

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 0NY100-00-0

PTE: 49,500 pounds per year

Name: HAP

Condition 7: Capping Monitoring Condition
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-7.2

Item 7.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6NYCRR 201-6.1(a)

Item 7.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 7.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 7.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 7.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 7.6:

The Compliance Demonstration activity will be performed for the Facility.

Regulated Contaminant(s):

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

CAS No: 0NY100-00-0 HAP

Item 7.7:

Compliance Demonstration shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Facility emissions of total hazardous air pollutants (HAPs), as defined in 6 NYCRR Part 200.1(ag), shall not exceed 24.5 tons per year, based on a 12 month rolling average. Emissions shall be computed from the use of any and all materials that contain HAPs, assuming that all HAPs used are emitted to the air. The owner or operator shall keep a list of materials used that includes the following information: information on the manufacturer, product name or code, HAP content and the amount used per month. The owner or operator shall keep a monthly log of the consumption of all materials and calculations showing that total HAP emissions do not exceed 25 tons per year. The owner or operator shall keep records of all purchase orders, invoices and other documents to support this information.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2006.

Subsequent reports are due every 12 calendar month(s).

Condition 8: Capping Monitoring Condition

Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-7.2

Item 8.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6NYCRR 201-6.1(a)

Item 8.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Item 8.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 8.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 8.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 8.6:

The Compliance Demonstration activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 0NY998-00-0 VOC

Item 8.7:

Compliance Demonstration shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Facility emissions of volatile organic compounds (VOCs) shall not exceed 49.5 tons per year, based on a 12 month rolling average. Emissions shall be computed from the use of any and all materials that contain VOCs, assuming that all VOCs used are emitted to the air. The owner or operator shall keep a list of materials used that includes the following information: information on the manufacturer, product name or code, VOC content and the amount used per month. The owner or operator shall keep a monthly log of the consumption of all materials and calculations showing that total VOC emissions do not exceed 50 tons per year. The owner or operator shall keep records of all purchase orders, invoices and other documents to support this information.

Condition 9: Capping Monitoring Condition
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-7.2

Item 9.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6NYCRR 201-6.1(a)

Item 9.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 9.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 9.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 9.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 9.6:

The Compliance Demonstration activity will be performed for the Facility.

Regulated Contaminant(s):
CAS No: 0NY100-00-0 HAP

Item 9.7:

Compliance Demonstration shall include the following monitoring:

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Facility emissions of any one hazardous air pollutant (HAP), as defined in 6 NYCRR Part 200.1(ag), shall not exceed 9.5 tons per year, based on a 12 month rolling average. Emissions shall be computed from the use of any and all materials that contain HAPs, assuming that all HAPs used are emitted to the air. The owner or operator shall keep a list of materials used that includes the following information: information on the manufacturer, product name or code, HAP content and the amount used per month. The owner or operator shall keep a monthly log of the consumption of all materials and calculations showing that HAP emissions do not exceed 10 tons per year. The owner or operator shall keep records of all purchase orders, invoices and other documents to support this information.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2006.

Subsequent reports are due every 12 calendar month(s).

Condition 10: Air pollution prohibited
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 211.2

Item 10.1:

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

****** Emission Unit Level ******

Condition 11: Emission Point Definition By Emission Unit
Effective between the dates of 02/25/2005 and 02/25/2010

Condition 12: Process Definition By Emission Unit

Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 201-5

Item 12.1:

This permit authorizes the following regulated processes for the cited Emission Unit:

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Emission Unit: 0-00001

Process: 001

Source Classification Code: 3-99-999-94

Process Description: CARBONIZATION OF NYLON ON MOLDS CLEANING OVEN

Emission Source/Control: 00001 - Process

Item 12.2:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 002

Source Classification Code: 3-99-999-94

Process Description: VENTING FUMES FROM EXTRUSION OF NYLON

Emission Source/Control: 00001 - Process

Item 12.3:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 003

Source Classification Code: 3-99-999-94

Process Description: LINE DYEING PROCESS

Emission Source/Control: 00003 - Process

Item 12.4:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 004

Source Classification Code: 4-02-999-95

Process Description: LINE DYEING PROCESS

Emission Source/Control: 00004 - Process

Item 12.5:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 005

Source Classification Code: 4-02-999-95

Process Description: Waterproofing

Emission Source/Control: 00005 - Process

Item 12.6:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 006

Source Classification Code: 4-02-999-95

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

Process Description: Kerplunk LINE DYEING PROCESS

Emission Source/Control: 00006 - Process

Item 12.7:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 007

Source Classification Code: 4-02-999-95

Process Description: FLY LINE COATING MACHINES

Emission Source/Control: 00007 - Process

Item 12.8:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 008

Source Classification Code: 4-02-999-95

Process Description: TOP COATING TOWER MACHINES

Emission Source/Control: 00008 - Process

Item 12.9:

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00001

Process: 100

Source Classification Code: 3-07-020-98

Process Description:

FLYLINE PRODUCTION: LINE IS BRADED & COLORED (EP 00003 & 00004); PRIMED & COVERED (EP 00007, 00009, 00010); DYED (EP 00006); TOP-COATED (EP 00008); AND WATERPROOFED (EP 00005).

Emission Source/Control: 00003 - Process

Emission Source/Control: 00004 - Process

Emission Source/Control: 00005 - Process

Emission Source/Control: 00006 - Process

Emission Source/Control: 00007 - Process

Emission Source/Control: 00009 - Process

Emission Source/Control: 00010 - Process

Condition 13: Compliance Demonstration
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 212.4(a)

Item 13.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 0-00001

Item 13.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

The owner or operator may use alternative materials provided that pollutants contained in such materials, for which an annual guideline concentration (AGC) and/or a short term guideline concentration (SGC) exists, meet all of the following conditions:

- (1) The owner or operator identifies all potential pollutants contained in such materials, including A-rated contaminants, hazardous air pollutants, VOCs, and non-VOC pollutants. A-rated contaminants are those contaminants listed with a "high" toxicity in the most recent Air Guide 1 AGC/SGC list;
- (2) Use of the material will not result in the emission of any A-rated contaminant with an emission rate potential equal to or greater than 1.0 pound/hr;
- (3) A facility wide Air Guide 1 analysis must be completed using DEC's Air Guide 1 screening software showing that there are no predicted off-site ambient concentrations in excess of the AGC/SGC for each contaminant. This analysis shall include all emissions of such pollutant, facility wide. A copy of the analysis shall be submitted to the DEC no later than 30 days prior to the use of the coating, and a copy of the analysis shall be maintained at the facility.

An Air Guide 1 analysis is not required for new materials for which the emission rate potential of each contaminant

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

in that coating is less than the emission rate potential of that contaminant in other materials for which prior modeling has been conducted, provided that such modeling has predicted no off-site ambient concentrations in excess of the AGC/SGC for each contaminant;

(4) If the use of the material results in the emission of any pollutant not previously authorized or emitted in accordance with this permit, the owner or operator shall submit to the DEC a notice of the intention to use such material. Such notice shall be submitted no later than 30 days prior to the use of the material;

(5) The DEC reserves the right to require a permit modification to impose special conditions if DEC determines the proposed changes may have a significant air quality impact. In such cases, upon receipt of any notice submitted by the owner or operator to the DEC as required in this permit, the DEC will respond within 15 days of receipt of such notice, and may require that the owner or operator not undertake the proposed change without a permit modification;

(6) No physical changes shall be made to the production equipment's stack height, stack diameter, exhaust temperature, exhaust velocity, building height, length or width that would result in either a predicted (as determined using Air Guide 1) or real increase in ambient air impacts without a permit modification being filed with the Department;

(7) No facility-wide emissions cap, stated in this permit, shall be exceeded; and

(8) The facility does not become subject to any additional regulations or requirements.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Averaging Method: MAXIMUM - NOT TO EXCEED STATED VALUE - SEE MONITORING DESCRIPTION

Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 14: Compliance Demonstration
Effective between the dates of 02/25/2005 and 02/25/2010

Applicable State Requirement: 6NYCRR 212.4(a)

Item 14.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 0-00001

Item 14.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

This condition applies to non-criteria pollutants and is state-enforceable.

1. No single pollutant emitted from this emission unit shall have an emission rate potential in excess of

(1) 1.0 lb/hr, for A-rated contaminants, and/or

(2) 10 lb/hr, for any non-VOC contaminant not given an A-rating.

Pollutants defined as volatile organic compounds in 6NYCRR Part 200 that are not A-rated contaminants are exempt from this requirement. For this facility, A-rated contaminants are those contaminants listed with a "high" toxicity in the most recent DAR -1 (formerly Air Guide 1) guidance document, and any other contaminant that the DEC designates as A-rated for this facility. All other pollutants are B-rated, unless otherwise rated by the Department.

2. The owner or operator shall not cause or allow the emission of any pollutant at an emission rate that results in a predicted ambient concentration in excess of the Annual Guideline Concentration or the Short term Guideline Concentration for each contaminant, as determined using DEC-approved modeling procedures for all pollutants for which an environmental rating is assigned.

Compliance will be determined using a stack test, conducted upon request from the DEC, according to methods promulgated by EPA, as approved by DEC.

3. On an annual basis, the owner or operator shall submit to the DEC a report stating (1) whether any changes were

New York State Department of Environmental Conservation

Permit ID: 7-1122-00004/00001

Facility DEC ID: 7112200004

made to the operation of these emissions sources, or (2) whether new coatings were used for which a DAR-1 (Air Guide 1) analysis has not been conducted (and resulted in no predicted concentrations in excess of the AGC and SGC), and not otherwise exempt from DAR-1 analysis elsewhere in this permit.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2006.

Subsequent reports are due every 12 calendar month(s).
