

PERMIT
Under the Environmental Conservation Law (ECL)

IDENTIFICATION INFORMATION

Permit Type: Air State Facility
Permit ID: 8-2642-00003/00009
Mod 0 Effective Date: 04/13/1999 Expiration Date: No expiration date.

Mod 1 Effective Date: Expiration Date:

Permit Issued To: BAKER COMMODITIES INC
4020 BANDINI BLVD
LOS ANGELES, CA 90058

Contact: WILLIAM J SCHMIEDER
BAKER COMMODITIES - ROCHESTER DIVISION
2268 BROWNCROFT BLVD
ROCHESTER, NY 14625
(585) 482-1880

Facility: BAKER COMMODITIES/STAPPENBECK
2268 BROWNCROFT BLVD
PENFIELD, NY 14625

Description:

Department Initiated Modification: Baker Commodities Inc. has installed new chemical injection, control, and monitoring equipment to better eliminate process odor emissions and improve system monitoring. This equipment will also decrease reaction time in correcting operational problems and upset conditions that could potentially result in odorous emissions.

Issuance of this permit incorporates regulatory changes instituted by the Department since issuance of the previous permit, allows Baker to use #2 fuel oil or yellow grease (used cooking oil) as additional alternate fuels in its largest boiler, covers equipment installation instituted by the facility to improve emission controls, requires continuous monitoring of these control systems, incorporates an updated Air Quality Operating Procedures Manual and establishes a complaint response procedure.

Baker Commodities Inc. has also accepted Permit Conditions that restrict this facility's potentials to emit oxides of nitrogen (NOx) and Sulfur Oxides (SOx) to below 50 tons per year each, which is less than one half of the threshold of applicability for:

6 NYCRR Part 201-6 (Title V) for a Major Stationary Source, and

6 NYCRR Part 227 Reasonably Available Control Technology (RACT) for NOx.

These Permit Conditions are maintained in this permit, specifying that this facility is not currently subject to these regulations.

Initial ASF Permit: This facility, located at 2268 Browncroft Blvd in the Town of Penfield, converts inedible meat processing animal by-products to meal, tallow, oil, and

grease, and also processes spent restaurant grease into a saleable product.

Equipment and operations at the plant include: A grinder to reduce material to a slurry; a steam heated cooker to break down the by-products to soluble, insoluble, and volatile components; a condenser for the water component of the volatiles; a press to aid separation of fat solids from the remaining solids; a hammer mill for meal production from the remaining solids; and a centrifuge and filter for tallow production from the separated fats. In addition, spent restaurant grease processing operations include a grease cooker, and screening, sedimentation, and centrifugation equipment, to separate the grease from water and entrained solids.

Water from both the meat by-product and the spent grease processing operations is treated at the facility before discharge to the sanitary sewer. Non condensable volatiles from both operations are directed to thermal and chemical oxidation units for odor control.

Prior to issuance of this permit, Baker Commodities Inc accepted Special Permit Conditions to restrict this facility's potentials to emit oxides of nitrogen (NO_x) and Sulfur Oxides (SO_x) to below 100 tons per year each, which are thresholds of applicability for:

6 NYCRR Part 201-6 (Title V) for a Major Stationary Source,

6 NYCRR Part 227 Reasonably Available Control Technology (RACT) for NO_x, and

6 NYCRR Part 231 New Source Review in Ozone Transport Regions.

These Special Permit Conditions are maintained in this permit, with the result that this facility is not currently subject to these regulations.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: KIMBERLY A MERCHANT
6274 EAST AVON-LIMA RD
AVON, NY 14414-9519

Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS
****** General Provisions ******
GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1-1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1-1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1-1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1-1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 3-0301 (2) (g)

Item 1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301 (2) (m)

Item 2.1:

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 1-2: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6 NYCRR 621.11

Item 1-2.1:

The permittee must submit a renewal application at least 180 days before expiration of permits for both Title V and State Facility Permits.

Item 1-2.3:

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 1-3: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6 NYCRR 621.11

Item 1-3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 1-3.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 1-3.3:

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 1-4: Permit modifications, suspensions or revocations by the Department

Applicable State Requirement: 6 NYCRR 621.13

Item 1-4.1:

The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

Condition 3: Applications for Permit Renewals and Modifications

Applicable State Requirement: 6 NYCRR 621.13 (a)

Item 3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Condition 4: Permit Modifications, Suspensions, and Revocations by the Department

Applicable State Requirement: 6 NYCRR 621.14

Item 4.1:

The Department reserves the right to modify, suspend, or revoke this permit. The grounds for modification, suspension or revocation include:

- a) the scope of the permitted activity is exceeded or a violation of any condition of the permit or provisions of the ECL and pertinent regulations is found;
- b) the permit was obtained by misrepresentation or failure to disclose relevant facts;
- c) new material information is discovered; or
- d) environmental conditions, relevant technology, or applicable law or regulation have materially changed since the permit was issued.

FEDERALLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Sealing - 6 NYCRR 200.5

The Commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the Commissioner issued in the case of the violation.

Sealing means labeling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

No person shall operate any air contamination source sealed by the Commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

Unless authorized by the Commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section.

Item B: Acceptable Ambient Air Quality - 6 NYCRR 200.6

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

Item C: Maintenance of Equipment - 6 NYCRR 200.7

Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications,

required to operate such device effectively.

Item D: Unpermitted Emission Sources - 6 NYCRR 201-1.2

If an existing emission source was subject to the permitting requirements of 6 NYCRR Part 201 at the time of construction or modification, and the owner and/or operator failed to apply for a permit for such emission source then the following provisions apply:

(a) The owner and/or operator must apply for a permit for such emission source or register the facility in accordance with the provisions of Part 201.

(b) The emission source or facility is subject to all regulations that were applicable to it at the time of construction or modification and any subsequent requirements applicable to existing sources or facilities.

Item E: Emergency Defense - 6 NYCRR 201-1.5

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;

(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner and/or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item F: Recycling and Salvage - 6 NYCRR 201-1.7

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of 6 NYCRR.

Item G: Prohibition of Reintroduction of Collected Contaminants to the Air - 6 NYCRR 201-1.8

No person shall unnecessarily remove, handle, or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Item H: Proof of Eligibility for Sources Defined as Exempt Activities - 6 NYCRR 201-3.2 (a)

The owner and/or operator of an emission source or unit that is eligible to be exempt, may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Item I: Proof of Eligibility for Sources Defined as Trivial Activities - 6 NYCRR 201-3.3 (a)

The owner and/or operator of an emission source or unit that is listed as being trivial in 6 NYCRR Part 201 may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Item J: Required Emission Tests - 6 NYCRR 202-1.1

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

An acceptable report of measured emissions shall be submitted, as may be required by the Commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the Commissioner within the time stated shall be sufficient reason for the Commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6 NYCRR Subpart 202-1.

Item K: Open Fires Prohibitions - 6 NYCRR 215.2

Except as allowed by section 215.3 of 6 NYCRR Part 215, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

Item L: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item M: Federally Enforceable Requirements - 40 CFR 70.6 (b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

FEDERAL APPLICABLE REQUIREMENTS
The following conditions are federally enforceable.

Condition 16: Open Fires Prohibited at Industrial and Commercial Sites

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 16.1:

No person shall burn, cause, suffer, allow or permit the burning in an open fire of garbage, rubbish for salvage, or rubbish generated by industrial or commercial activities.

Condition 3: Maintenance of equipment

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 3.1:

Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Condition 8: Recycling and Salvage

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 8.1:

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of 6 NYCRR.

Condition 9: Prohibition of Reintroduction of Collected Contaminants to the Air

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 9.1:

No person shall unnecessarily remove, handle, or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Condition 11: Proof of Eligibility

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 11.1:

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

The owner and/or operator of an emission source or unit that is eligible to be exempt, may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Condition 12: Proof of Eligibility

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 12.1:

The owner and/or operator of an emission source or unit that is listed as being trivial in 6 NYCRR Part 201 may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Condition 14: Required emissions tests

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 14.1:

An acceptable report of measured emissions shall be submitted, as may be required by the commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the commissioner within the time stated shall be sufficient reason for the commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6 NYCRR Part 202-1.

Condition 15: Visible emissions limited.

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 15.1:

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 1: Sealing

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 1.1:

(a) The commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the commissioner issued in the case of the violation. Sealing means labelling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

(b) No person shall operate any air contamination source sealed by the commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

(c) Unless authorized by the commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section

Condition 2: Acceptable ambient air quality
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 2.1:

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the commissioner shall specify the degree and/or method of emission control required.

Condition 4: Facility Permissible Emissions
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1
Applicaton Specific Data

Condition 5: Unpermitted Emission Sources
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 5.1:

If an existing emission source was subject to the permitting requirements of 6NYCRR Part 201 at the time of construction or modification, and the owner and/or operator failed to apply for a permit for such emission source then the following provisions apply:

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

(a) The owner and/or operator must apply for a permit for such emission source or register the facility in accordance with the provisions of Part 201.

(b) The emission source or facility is subject to all regulations that were applicable to it at the time of construction or modification and any subsequent requirements applicable to existing sources or facilities.

Condition 6: Unavoidable Noncompliance and Violations **Effective between the dates of 04/13/1999 and Permit Expiration Date**

Applicable Federal Requirement:

Expired by Mod 1

Item 6.1:

At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit or certificate issued for the corresponding air contamination source. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Condition 7: Emergency Defense

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 7.1:

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;

(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner and/or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Condition 10: Public Access to Recordkeeping

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 10.1:

Where emission source owners and/or operators keep records pursuant to compliance with the operational flexibility requirements of 6 NYCRR Subpart 201-5.4(b)(1), and/or the emission capping requirements of 6 NYCRR Subparts 201-7.2(d), 201-7.3(f), 201-7.3(g), 201-7.3(h)(5), 201-7.3(i) and 201-7.3(j), the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records. Emission source owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department of receipt of the request.

Condition 1-1: Facility Permissible Emissions

Effective for entire length of Permit

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Applicable Federal Requirement:6 NYCRR 201-7.1

Item 1-1.1:

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 007446-09-5 (From Mod 1) PTE: 100,000 pounds
per year
Name: SULFUR DIOXIDE

CAS No: 0NY210-00-0 (From Mod 1) PTE: 100,000 pounds
per year
Name: OXIDES OF NITROGEN

**Condition 1-2: Capping Monitoring Condition
Effective for entire length of Permit**

Applicable Federal Requirement:6 NYCRR 201-7.1

Item 1-2.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 201-6

Item 1-2.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 1-2.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 1-2.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 1-2.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Item 1-2.6:

The Compliance Demonstration activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 007446-09-5 SULFUR DIOXIDE

Item 1-2.7:

Compliance Demonstration shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Sulfur dioxide emissions cannot exceed 50 tons per year based on a 12 month rolling summary. Records will be maintained showing the monthly and annual facility fuel usage, and the calculation of monthly and annual SO₂ emissions using the following AP-42 emission factors:

0.6 pounds of SO₂ emitted per million dry standard cubic feet of natural gas combusted

157 pounds of SO₂ emitted per thousand gallons of number 6 fuel oil combusted multiplied by the % of sulfur in the oil combusted, and

142 pounds of SO₂ emitted per thousand gallons of number 2 fuel oil combusted multiplied by the % of sulfur in the oil combusted.

Also, 0.018 pounds per hour of SO₂ emitted per hour of operation with yellow grease combusted.*

*Note-emission factor based on Baker Commodities Inc. Kewanee Boiler Source Testing conducted on February 14-15, 2001.

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

Subsequent reports are due every 12 calendar month(s).

Condition 1-3: Capping Monitoring Condition
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 201-7.1

Item 1-3.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 201-6

6 NYCRR Subpart 227-2

Item 1-3.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 1-3.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 1-3.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 1-3.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 1-3.6:

The Compliance Demonstration activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 0NY210-00-0 OXIDES OF NITROGEN

Item 1-3.7:

Compliance Demonstration shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Oxides of nitrogen emissions cannot exceed 50 tons per year on a twelve month rolling summary basis. Records will be maintained showing the monthly and annual facility fuel usage, and the calculation of monthly and annual NOx

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

emissions using the following AP-42 emission factors:

100 pounds of NO_x emitted per million dry standard cubic feet of natural gas combusted

55 pounds of NO_x emitted per thousand gallons of number 6 fuel oil combusted.

24 pounds of NO_x emitted per thousand gallons of number 2 fuel oil combusted.

Also, 3.49 pounds of NO_x emitted per hour of operation with yellow grease combusted*.

*Note-emission factor based on Baker Commodities Inc. Kewanee Boiler Source Testing conducted on February 14-15, 2001.

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

Subsequent reports are due every 12 calendar month(s).

Condition 13: Compliance Demonstration
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable Federal Requirement:

Expired by Mod 1

Item 13.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

Item 13.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 13.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 13.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 13.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 13.6:

The Compliance Demonstration activity will be performed for the Facility.

Item 13.7:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

On an annual basis beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated within the limits imposed by the emissions cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to those threshold values that would require compliance with an applicable requirement.

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: ANNUALLY (ANNIVERSARY)

Initial Report Due: 05/12/2000 for the period 04/13/1999 through 04/12/2000

STATE ONLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Public Access to Recordkeeping for Facilities With State Facility Permits - 6 NYCRR 201-1.10 (a)

Where facility owners and/or operators keep records pursuant to compliance with the requirements of 6 NYCRR Subpart 201-5.4, and/or the emission capping requirements of 6 NYCRR Subpart 201-7, the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records. Facility owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS

The following conditions are state only enforceable.

**Condition 1-6: Contaminant List
Effective for entire length of Permit**

Applicable State Requirement:ECL 19-0301

Item 1-6.1:

Emissions of the following contaminants are subject to contaminant specific requirements in this permit(emission limits, control requirements or compliance monitoring conditions).

CAS No: 007446-09-5

Name: SULFUR DIOXIDE

CAS No: 0NY210-00-0

Name: OXIDES OF NITROGEN

**Condition 1-7: Malfunctions and start-up/shutdown activities
Effective for entire length of Permit**

Applicable State Requirement:6 NYCRR 201-1.4

Item 1-7.1:

(a) The facility owner or operator shall take all necessary and appropriate actions to prevent the emission of air pollutants that result in contravention of any applicable emission standard during periods of start-up, shutdown, or malfunction.

(b) The facility owner or operator shall compile and maintain records of all equipment malfunctions, maintenance, or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the department when requested to do so, or when so required by a condition of a permit issued for the corresponding air contamination source. Such reports shall state whether any violations occurred and, if so, whether they were unavoidable, include the time, frequency and duration of the maintenance and/or start-up/shutdown activities, and an estimate of the emission rates of any air contaminants released. Such records shall be maintained for a period of at least five years and made available for review to department representatives upon request. Facility owners or operators subject to continuous stack monitoring and quarterly reporting requirements need not submit additional reports for equipment maintenance or start-up/shutdown activities for the facility to the department.

(c) In the event that emissions of air contaminants in excess of any emission standard in this Subchapter occur due to a malfunction, the facility owner or operator shall compile and maintain records of the malfunction and notify the department as soon as possible during normal working hours, but not later than two working days after becoming aware that the malfunction occurred. When requested by the department, the facility owner or operator shall submit a written report to the department describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates.

(d) The department may also require the owner or operator to include, in reports described under Subdivisions (b) and (c) of this Section, an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions.

(e) A violation of any applicable emission standard resulting from start-up, shutdown, or malfunction conditions at a permitted or registered facility may not be subject to an enforcement action by the department and/or penalty if the department determines, in its sole discretion, that

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

such a violation was unavoidable. The actions and recordkeeping and reporting requirements listed above must be adhered to in such circumstances.

Condition 26: General Provisions: Facilities Subject to Subparts 201-5 and 201-6

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 26.1:

This section contains terms and conditions that are not federally enforceable and are not required under the Act or under any of its applicable requirements. Terms and conditions so designated are not subject to the requirements of Section 201-6.4 of Part 201.

Item 26.2:

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

Item 26.3:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 26.4:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Condition 27: General Provisions: Facilities Subject to Subpart 201-5 but not 201-6

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 27.1:

The emission of pollutants in exceedance of the applicability thresholds for obtaining a Title V facility permit or other applicable requirements constitutes a violation of Part 201 and of the Act.

Condition 28: Emission Unit Definition

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR Subpart 201-5

Item 28.1(From Mod 1):

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 1-CMBST

Emission Unit Description:

This emission unit consists of a 45 MMBtu/hr natural gas-fired boiler (EP00009) with no. 6 or no. 2 fuel oil, or yellow grease as an alternative fuel, a 25 MMBtu/hr natural gas-fired boiler (EP00010), and a 10 MMBtu/hr natural gas-fired thermal oxidizer (EP00004) used to control captured odor emissions from the continuous dry rendering process equipment and meal grinding room. The EP00009 boiler is used as a back-up thermal oxidizer when EP00004 is down.

Building(s): R PLANT

Item 28.2(From Mod 1):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 1-SCRBR

Emission Unit Description:

Three (3) scrubber system that controls rendering plant interior odor. The VC-10 scrubber (EP00006, 35,250 cfm) treats air from the raw material receiving and main processing areas. VC-11, the SCP control scrubber, (EP00007 - 60,000 cfm) treats air from the raw material receiving, main processing, and yellow grease areas. VC-12, SCP control scrubber (EP00008 - 60,000 cfm) treats air from the grease area, grinding floor and wastewater area.

Building(s): R PLANT

**Condition 1-8: Renewal deadlines for state facility permits
Effective for entire length of Permit**

Applicable State Requirement:6 NYCRR 201-5.2 (c)

Item 1-8.1:

The owner or operator of a facility having an issued state facility permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

**Condition 1-9: Compliance Demonstration
Effective for entire length of Permit**

Applicable State Requirement:6 NYCRR 201-5.3 (c)

Item 1-9.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 1-9.2:

Compliance Demonstration shall include the following monitoring:

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Any reports or submissions required by this permit shall be submitted to the Regional Air Pollution Control Engineer (RAPCE) at the following address:

Division of Air Resources
NYS Dept. of Environmental Conservation
Region 8
6274 East Avon-Lima Rd.
Avon, NY 14414

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 1-10: Air pollution prohibited
Effective for entire length of Permit

Applicable State Requirement:6 NYCRR 211.1

Item 1-10.1:

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 1-11: Compliance Demonstration
Effective for entire length of Permit

Applicable State Requirement:6 NYCRR 211.1

Item 1-11.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 1-11.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Baker shall continue to implement operating procedures outlined in the 'Air Quality Operating Procedures Manual', revised 2015. The manual shall be reviewed and revised, as necessary, to initiate corrective action of recognized emission related problems. The Department must be provided in writing any revisions to the document within thirty days of implementing such operating changes or revisions. Minimally, an annual review of the 'Manual' is required. An updated copy of the manual or a

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

notification of "no change" to the document must be submitted to the Region 8 office of the NYSDEC by January 31 of each year.

Noncompliance with provisions outlined in the 'Air Quality Operating Procedures Manual' will constitute a violation of the Air State Facility permit.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

Subsequent reports are due every 12 calendar month(s).

Condition 1-12: Compliance Demonstration
Effective for entire length of Permit

Applicable State Requirement:6 NYCRR 211.1

Item 1-12.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 1-12.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Facility shall establish a complaint response procedure to manage complaints related to air emissions from this facility. The procedure shall be designed to ensure that complaints from officials or neighbors are adequately received and documented, and that appropriate response is taken by the facility. The facility shall:

1. Have a complaint line of communication available 24 hours a day, 7 days a week.
2. Investigate any possible causes of any complaint received.
3. Take prompt action to abate any circumstance which is found to be the cause of the complaint.
4. Fully document the complaint, results of investigation, and any action taken.
5. Report in a format acceptable to the Department within two business days of the complaint.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING

DESCRIPTION

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 29: Air pollution prohibited
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 29.1:

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 1-13: Visible Emissions Limited
Effective for entire length of Permit

Applicable State Requirement: 6 NYCRR 211.2

Item 1-13.1:

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 30: Diesel truck opacity limitation
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 30.1:

No person who owns, operates or leases a vehicle propelled by a diesel engine or who owns, leases or occupies land and has actual or apparent dominion or control over the operation of a vehicle propelled by a diesel engine which is present on said land, shall operate said vehicle or allow or permit it to be operated, in such a manner that exhaust emissions of a shade of blue, black, or gray equal to or greater than No. 1 on the Ringelmann chart (20 percent opacity) or equivalent standard acceptable to the commissioner are produced for a continuous period of more than five seconds when the vehicle is in motion.

Condition 31: Idling of diesel trucks limited
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 31.1:

No person who owns, operates or leases a bus or truck, the motive power for which is provided by a diesel engine or who owns, leases or occupies land and has the actual or apparent dominion or control over the operation of a bus or truck present on such land, the motive power for which said bus or truck is provided by a diesel engine, shall allow or permit the diesel engine of such bus or truck to idle for more than five consecutive minutes when the bus or truck is not in motion, except as otherwise permitted by 6 NYCRR Subpart 217-3.3.

Condition 1-14: Compliance Demonstration
Effective for entire length of Permit

Applicable State Requirement:6 NYCRR 225-1.2

Item 1-14.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 1-14.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Owners and/or operators of a stationary combustion installation that fires distillate oil other than number two heating oil are limited to the purchase of distillate oil with 0.0015 percent sulfur by weight or less on or after July 1, 2014 and are limited to the firing of distillate oil including number two heating oil with 0.0015 percent sulfur by weight or less on or after July 1, 2016.

The department will require fuel analyses, information on the quantity of fuel received, fired or sold, and results of stack sampling, stack monitoring, and other procedures to ensure compliance with the provisions of this Subpart. All records must be maintained at the facility for a minimum of five years.

Facility owners subject to this Subpart must submit a written report of the fuel sulfur content exceeding the applicable sulfur-in-fuel limitation, measured emissions exceeding the applicable sulfur-in-fuel limitation, measured emissions exceeding the applicable equivalent emission rate, and the nature and cause of such exceedances if known, for each calendar quarter, within 30 days after the end of any quarterly period in which an exceedance takes place.

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: DISTILLATES - NUMBER 1 AND NUMBER 2 OIL

Parameter Monitored: SULFUR CONTENT

Upper Permit Limit: 0.0015 percent by weight

Monitoring Frequency: PER DELIVERY

Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)

Reporting Requirements: QUARTERLY (CALENDAR)

Reports due 30 days after the reporting period.

Subsequent reports are due every 3 calendar month(s).

Condition 32: Compliance Demonstration

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 32.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 32.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC
OPERATIONS

Monitoring Description:

No person will sell, offer for sale, purchase or use any residual oil fuel which contains sulfur in a quantity exceeding the following limitation.

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: RESIDUAL FUEL (#4, #5 AND/OR #6 FUEL OIL)

Parameter Monitored: SULFUR CONTENT

Upper Permit Limit: 1.5 percent by weight

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
DESCRIPTION

Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY
TIME (INSTANTANEOUS/DISCRETE OR GRAB)

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 1-15: Compliance Demonstration
Effective for entire length of Permit**

Applicable State Requirement: 6 NYCRR 225-1.2 (e)

Item 1-15.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 1-15.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC
OPERATIONS

Monitoring Description:

Owners and/or operators of any stationary combustion installation that fires residual oil are limited to the purchase of residual oil with a sulfur content of 0.50% sulfur on or after July 1, 2014 and to the firing of residual oil with a sulfur content of 0.50% on or after July 1, 2016.

Data collected pursuant to this Subpart must be tabulated and summarized in a form acceptable to the Department, and must be retained for at least five years. The owner of a

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Title V facility must furnish to the Department such records and summaries, on a semiannual calendar basis, within 30 days after the end of the semiannual period. All other facility owners or distributors must submit these records and summaries upon request of the Department.

Work Practice Type: PARAMETER OF PROCESS MATERIAL
Process Material: RESIDUAL FUEL (#4, #5 AND/OR #6 FUEL OIL)
Parameter Monitored: SULFUR CONTENT
Upper Permit Limit: 0.50 percent by weight
Monitoring Frequency: PER DELIVERY
Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY
TIME (INSTANTANEOUS/DISCRETE OR GRAB)
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 1-16: Compliance Demonstration
Effective for entire length of Permit

Applicable State Requirement: 6 NYCRR 225-1.2 (f)

Item 1-16.1:

The Compliance Demonstration activity will be performed for the Facility.

Item 1-16.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC
OPERATIONS

Monitoring Description:

Owners and/or operators of commercial, industrial, or residential emission sources that fire number two heating oil on or after July 1, 2012 are limited to the purchase of number two heating oil with 0.0015 percent sulfur by weight or less. Compliance with this limit will be based on vendor certifications.

Data collected pursuant to this Subpart must be tabulated and summarized in a form acceptable to the Department, and must be retained for at least five years. The owner of a Title V facility must furnish to the Department such records and summaries, on a semiannual calendar basis, within 30 days after the end of the semiannual period. All other facility owners or distributors must submit these records and summaries upon request of the Department.

Condition 34: Process Definition By Emission Unit

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:6 NYCRR Subpart 201-5

Item 34.1(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-CMBST

Process: 001

Source Classification Code: 1-02-006-02

Process Description:

Process 001 consists of a Cleaver-Brooks/D-52-R-4, 45 MMBtu/hr boiler (EP00009). During this process, the boiler fires natural gas, and provides building heat and process steam for the facility when the primary boiler (25 MMBtu/hr) is down.

Emission Source/Control: 45BLR - Combustion

Design Capacity: 45 million Btu per hour

Item 34.2(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-CMBST

Process: 002

Source Classification Code: 1-02-004-02

Process Description:

Process 002 consists of a Cleaver-Brooks/D-52-R-4, 45 MMBtu/hr boiler (EP00009). This boiler is the same as described in process 001, however it is fired with #6 or #2 Fuel Oil, or yellow grease. During this process, it provides building heat and process steam for the facility when the primary boiler (25 MMBtu/hr) is down.

Emission Source/Control: 45BLR - Combustion

Design Capacity: 45 million Btu per hour

Item 34.3(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-CMBST

Process: 003

Source Classification Code: 1-02-006-02

Process Description:

Process 003 consists of a Cleaver-Brooks/C8426X-600, 25 MMBtu/hr, natural gas-fired boiler (EP00010). This primary boiler is used to provide building heat and process steam for the facility.

Emission Source/Control: 25BLR - Combustion

Design Capacity: 25 million Btu per hour

Item 34.4(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Emission Unit: 1-CMBST

Process: 004

Source Classification Code: 3-02-038-01

Process Description:

Process 004 consists of rendering operations using the 10MMBtu/hr oxidizer and a vapor condensers (EP00004) to control captured odor emissions. Process equipment and areas controlled by the oxidizer include the cooker, presses, centrifuges, tallow work tanks, drainer, elevators and conveyors, non-condensables, and the meal grinding room.

Emission Source/Control: CDSR1 - Control

Control Type: VAPOR RECOVERY SYS(INCL.
CONDENSERS,HOODING, OTHER ENCLOSURES)

Emission Source/Control: OXIDR - Control

Control Type: DIRECT FLAME AFTERBURNER WITH HEAT
EXCHANGER

Emission Source/Control: COOKR - Process

Emission Source/Control: RNDR1 - Process

Item 34.5(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-CMBST

Process: 005

Source Classification Code: 3-02-038-01

Process Description:

Process 005 consists of rendering operations using the 45 MMBtu/hr boiler (EP00009) to control captured odor emissions. Process equipment and areas controlled by the boiler include the cooker, presses, centrifuges, tallow work tanks, drainer, elevators and conveyors, non-condensables, and the meal grinding room.

Emission Source/Control: 45BLR - Combustion

Design Capacity: 45 million Btu per hour

Emission Source/Control: CDSR1 - Control

Control Type: VAPOR RECOVERY SYS(INCL.
CONDENSERS,HOODING, OTHER ENCLOSURES)

Emission Source/Control: COOKR - Process

Emission Source/Control: RNDR1 - Process

Item 34.6(From Mod 1):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-SCRBR

Process: 006

Source Classification Code: 3-02-038-01

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Process Description:

Process 006 consists of rendering operations which utilize (3) scrubbers that control odor emissions from the process. The VC-10 scrubber (EP-00006, 35,250 cfm) treats air from the raw material receiving and main processing areas. VC-11, the SCP control scrubber (EP00007 - 60,000 cfm) treats air from the raw material receiving, main processing, and yellow grease areas. VC-12, SCP control scrubber (EP00008 - 60,000 cfm), treats air from the grease area, grinding floor and wastewater area.

Emission Source/Control: CDSR6 - Control

Control Type: VAPOR RECOVERY SYS(INCL.
CONDENSERS,HOODING, OTHER ENCLOSURES)

Emission Source/Control: SCB6A - Control

Control Type: SPRAY TOWER

Emission Source/Control: SCB6B - Control

Control Type: PACKED-GAS ABSORPTION SYSTEM

Emission Source/Control: SCBR5 - Control Removal Date: 05/01/2008

Control Type: PACKED-GAS ABSORPTION SYSTEM

Emission Source/Control: SCBR7 - Control

Control Type: PACKED-GAS ABSORPTION SYSTEM

Emission Source/Control: RNDR2 - Process

**Condition 1-17: Compliance Demonstration
Effective for entire length of Permit**

Applicable State Requirement:6 NYCRR 211.1

Item 1-17.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 1-CMBST

Process: 004

Item 1-17.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

The afterburner (incinerator) will be operated in accordance with the Air Quality Operating Procedures Manual, revised 2015. The temperature will be monitored continuously and will be maintained at a minimum temperature of 1250 degrees F from September 15-May 15 or as outlined in the Operating Procedures Manual.

Item 1-20.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

The facility's scrubber system is comprised of three separate scrubber's:
The VC-10 scrubber (EP-00006, 35,250 cfm) treats air from the raw material receiving and main processing areas;
VC-11, the SCP control scrubber (EP00007 - 60,000 cfm), treats air from the raw material receiving, main processing, and yellow grease areas, and
The VC-12, SCP control scrubber (EP00008 - 60,000 cfm) treats air from the grease area, grinding floor and wastewater area.

Odor suppression success is dependent upon liquid circulation flow to system spray towers. The individual system pump flow rates must be consistently maintained and

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

monitored continuously during plant operation. A flow reading below the limit shall prompt immediate corrective action. The corrective action shall be recorded in the plant operations log.

Parameter Monitored: FLOW RATE

Lower Permit Limit: 500 gallons per minute

Monitoring Frequency: CONTINUOUS

Averaging Method: MINIMUM-NOT TO FALL BELOW EXCEPT
DURING STARTUP/SHUTDOWN

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 1-21: Compliance Demonstration
Effective for entire length of Permit

Applicable State Requirement:6 NYCRR 211.1

Item 1-21.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 1-SCRBR

Item 1-21.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

The facility's scrubber system is comprised of three separate scrubbers- VC-10, VC-11, and VC-12. Odor suppression success is dependent upon the liquid Oxidation Reduction Potential (ORP) and circulation flow to system spray towers. Individual ORP levels must be consistently maintained during plant rendering operations and monitored continuously. ORP readings outside the specified limits shall prompt immediate corrective action. The corrective action shall be recorded in the plant operations log. Recorded data must be provided to the Department upon request.

Parameter Monitored: VOLTAGE

Lower Permit Limit: 500 millivolts

Upper Permit Limit: 850 millivolts

Monitoring Frequency: CONTINUOUS

Averaging Method: RANGE-NOT TO FALL OUTSIDE OF STATED
RANGE EXCEPT DURING STARTUP/SHUTDOWN

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 1-22: Compliance Demonstration
Effective for entire length of Permit

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Applicable State Requirement:6 NYCRR 211.1

Item 1-22.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 1-SCRBR

Item 1-22.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

The facility's scrubber system is comprised of three separate scrubber's- VC-10, VC-11, and VC-12. Odor suppression success is dependent upon disinfection capacity/flow to the spray towers. To maintain adequate odor treatment, individual system circulating water pH levels must be consistently maintained and monitored continuously during plant rendering operations. PH readings outside of the specified limits shall prompt immediate corrective action. The corrective action shall be logged into the plant operations log.

Parameter Monitored: PH

Lower Permit Limit: 7.5 pH (STANDARD) units

Upper Permit Limit: 9.9 pH (STANDARD) units

Monitoring Frequency: CONTINUOUS

Averaging Method: RANGE-NOT TO FALL OUTSIDE OF STATED

RANGE EXCEPT DURING STARTUP/SHUTDOWN

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 38: Compliance Demonstration

Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 38.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 1-SCRBR

Item 38.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

WHEN THE OUTDOOR AMBIENT AIR TEMPERATURE

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

DROPS BELOW 40 DEGREES F, ONE OF THE SCRUBBER SYSTEMS MAY BE SHUT DOWN TO PREVENT FREEZING INSIDE THE PLANT. A LOG OF SCRUBBER SHUT DOWNS MUST BE KEPT ON SITE. THE LOG MUST LIST THE DATE AND TIME OF EACH SHUT DOWN, THE AMBIENT AIR TEMPERATURE AT THE TIME OF SHUT DOWN, AND THE REASON FOR THE SHUT DOWN (E.G., TEMPERATURE, MAINTENANCE, PLANT SHUT DOWN, ETC.).

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 39: Compliance Demonstration
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 39.1:

The Compliance Demonstration activity will be performed for:

Emission Unit: 1-SCRBR

Item 39.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

BAKER SHALL CONTINUE TO IMPLEMENT THE AIR QUALITY OPERATING PROCEDURES MANUAL, REVISED MAY 1997. BAKER SHALL REVIEW THE MANUAL AT LEAST ANNUALLY FOR POTENTIAL REVISION. A COPY OF ANY REVISED MANUAL OR A NOTIFICATION THAT NO CHANGES WERE MADE MUST BE SENT TO THE NYSDEC REGION 8 OFFICE BY MAY 1 OF EACH YEAR.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 40: Compliance Demonstration
Effective between the dates of 04/13/1999 and Permit Expiration Date

Applicable State Requirement:

Expired by Mod 1

Item 40.1:

The Compliance Demonstration activity will be performed for:

New York State Department of Environmental Conservation

Permit ID: 8-2642-00003/00009

Facility DEC ID: 8264200003

Emission Unit: 1-SCRBR

Item 40.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

FOR EACH SCRUBBER, WHEN OPERATING, THE
OXIDATION-REDUCTION POTENTIAL (ORP) SHALL
BE MONITORED AND RECORDED EVERY TWO HOURS
AS AN INDICATOR OF PROPER OPERATION. AN
ORP READING BELOW 600 MILLIVOLTS SHALL
PROMPT CORRECTIVE ACTION. THE CORRECTIVE
ACTION SHALL BE LOGGED IN THE SCRUBBER'S
MAINTENANCE LOG.

Manufacturer Name/Model Number: ORP Meter

Parameter Monitored: VOLTAGE

Lower Permit Limit: 0.6 volts

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
DESCRIPTION

Averaging Method: MINIMUM - NOT TO FALL BELOW STATED
VALUE AT ANY TIME

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY
