Site Name: IBM - Poughkeepsie

February 11, 2016

Site No.: 314001

Tax Map No.: 6060-04-840280, 6060-02-820506, 6060-02-764674
and 6060-02-820769

Site Location: South Road, Town of Poughkeepsie, 12601

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). As of the date of this notice, the site identified above, and located on a map on the reverse side of this page, was reclassified on the Registry as a Class 4 site as it no longer presents a significant threat to public health and/or the environment for the following reason(s):

The site has been remediated and there is no longer a significant threat to public health and the environment. Some contamination remains in groundwater, soil and soil vapor. Human exposures to remaining on-site soil and groundwater contamination are being managed in accordance with the facility's Part 373 Hazardous Waste Management Permit. A notation in the deed or other legal document normally examined during title search will notify any potential purchaser of the property of the types, concentrations, and locations of any contaminants. Soil vapor intrusion in on-site buildings is being managed in accordance with site's 2015 Performance Monitoring Plan for soil vapor intrusion mitigation.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:
