Inactive Hazardous Waste Disposal Site Delist Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). DEC has determined that this site ([see map on reverse side](#)) no longer presents a threat to public health or the environment and is proposing to delist the site from the Registry for the following reason(s):

Remedial actions included the removal of contaminated soil and drums containing hazardous waste. Sampling indicates groundwater is not contaminated, soil meets the soil cleanup objectives for residential use and soil vapor intrusion is not an exposure concern.

Public comments are being received before the decision to remove the site from the Registry is finalized. The public comment period will end August 26, 2016. If you would like to provide us with written comments, please send them to: Alexandra Servis, Project Manager, NYS Department of Environmental Conservation, Division of Environmental Remediation, 625 Broadway – 11th Floor; alexandra.servis@dec.ny.gov; or call 518-402-9662.

A summary of any comments will be assembled and can be obtained by contacting the Project Manager.

If we do not receive any new or additional information during this public comment period that changes our delist proposal, we will delist the site on or after September 26, 2016.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed above.
