Site Name: Former Bearoff Metallurgical
Site No. 401069 **Tax Map No.** 44.01-1-3
Site Location: 152 Spring Street Road, Colonie, NY 12189

October 27, 2015

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). As of the date of this notice, the site identified above, and located on a map on the reverse side of this page, was added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

Past uses of the site have included the dumping/burying of wastes associated with metallurgical processes that occurred at the site and at nearby Al Tech Specialty Steel (east-southeast of site; see attached figure). These previous operations have resulted in contamination of soil and groundwater at levels exceeding applicable standards, criteria and guidance values. Based on the available data, and given that the subject property allows for future residential use and is adjacent to a residential area, there is a potential for people who access the site to be exposed to site-related contamination in on-site soil and groundwater. Additional actions are needed to define the nature and extent of contamination on and off of the site, as well as to evaluate and address potential human exposure to site-related contaminants.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:

www.dec.ny.gov/cfm/xtapps/derexternal/index.cfm?pageid=3

Comments and questions are always welcome and should be directed as follows:

Former Bearoff Metallurgical, Site ID 401069

152 Spring Street Road, Colonie, NY 12189

Receive Site Updates by Email

Have site information such as this public notice sent right to your email inbox. DEC invites you to sign up with one or more contaminated sites county email listservs available at the following web page:

www.dec.ny.gov/chemical/61092.html. It's *quick*, it's *free*, and it will help keep you *better informed*.

As a listserv member, you will periodically receive site-related information/announcements for all contaminated sites in the county(ies) you select.

You may continue also to receive paper copies of site information for a time after you sign up with a county listserv, until the transition to electronic distribution is complete.

Note: Please disregard if you received this notice by way of a county email listserv.
