Site Name: Saint-Gobain McCaffrey Street
Site No. 442046 **Tax Map No.** 37.6-3-1
Site Location: 14 McCaffrey Street, Hoosick Falls, NY 12090

February 16, 2016

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). This notice is to inform you that the site identified above, and located on a map on the reverse side of this page, was added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

Perfluorooctanoic acid (PFOA) has been detected at elevated levels in groundwater at 14 McCaffrey Street in the Village of Hoosick Falls. The Village and New York State Department of Health (NYSDOH) have also identified PFOA at concentrations exceeding applicable standards, criteria, and guidance values in the Village's public water supply system and in several non-municipal wells in the Town of Hoosick. Actions are needed to reduce human exposures to PFOA in these water supplies and perhaps others, as well sampling continues. NYSDOH has also identified lower concentrations of PFOA in private wells and other public water supplies in the Town. Overall, actions are needed to identify the source(s) of this contamination, to define the nature and extent of contamination in groundwater and other environmental media, and to evaluate and address associated human exposures.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:

DEC is sending you this notice in accordance with Environmental Conservation Law Article 27, Title 13 and its companion regulation (6 NYCRR 375-2.7(b)(6)(ii)) which requires DEC to notify all parties on the contact list for this site of this recent action.

Approximate Site Location
Saint-Gobain McCaffrey Street
Site ID 442046
14 McCaffrey Street, Hoosick Falls, NY 12090

Receive Site Updates by Email

Have site information such as this public notice sent right to your email inbox. DEC invites you to sign up with one or more contaminated sites county email listservs available at the following web page:

www.dec.ny.gov/chemical/61092.html . It's *quick*, it's *free*, and it will help keep you *better informed*.

As a listserv member, you will periodically receive site-related information/announcements for all contaminated sites in the county(ies) you select.

You may continue also to receive paper copies of site information for a time after you sign up with a county listserv, until the transition to electronic distribution is complete.

Note: Please disregard if you received this notice by way of a county email listserv.
