Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State’s program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). As of the date of this notice, the site identified above, and located on a map on the reverse side of this page, was reclassified on the Registry as a Class 4 site as it no longer presents a significant threat to public health and/or the environment for the following reason(s):

The site has been remediated in accordance with the 1997 Record of Decision and human exposures to contamination remaining at the site are being addressed through a deed restriction and site management plan as follows:

- Soil: A soil management plan is required to ensure that appropriate actions to reduce/eliminate exposures are taken in the event of future soil excavations. A restriction limits site use for commercial/industrial uses only.
- Groundwater: Use of groundwater at the site without appropriate water quality treatment is restricted. A recovery system to remove contaminated groundwater is in operation.
- Soil Vapor: Operation, maintenance and monitoring of the current and any future sub-slab depressurization systems, or similar systems. In addition, a soil vapor intrusion evaluation will be completed for any buildings developed on the site and appropriate actions implemented to address exposures, if necessary.

Periodic reviews will be completed to certify that these controls are maintained and remain effective.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC’s Project Manager listed below.
