

# Nature

Recycles Organic Waste

Look at the list of wastes in the middle of the pages. Cross out any waste that can't biodegrade. What can be done with these wastes? Now draw a line from the remaining wastes to either the "People Recycle Organic Waste" or "Nature Recycles Organic Waste."

HINT... Some can belong to both!

- Paper Towels
- Leaves
- Tree Trunks
- Batteries
- Soda Can
- Plastic Bottle

# People

Recycle Organic Waste

Start a compost pile and see what critters you'll find!

- Coffee Grounds
- Grass
- Glass Bottle
- Breads
- Leftover Rice
- Fruit Waste

To learn more about composting and recycling when you get home, check out our website at <http://www.dec.ny.gov/chemical/294.html>
