

# It's Up To You

As a Junior Naturalist you can help make your campsite and the entire campground a better and safer place. The Forest Rangers have listed some safety practices for you to do while at the campground. List your three safety ideas on the next page. Circle the 14 different activities in the picture that are harmful to the campground and environment. How could the people in the picture make things better?

Thanks to the Wisconsin Dept. of Natural Resources for allowing DEC to use this activity.

# My Safety Ideas

## Bicycle Safety

1. Always wear a helmet.
2. Always ride with traffic.
3. Stop at all intersections.
4. Walkers and hikers have the right-of-way.

## Campsite/Campground Safety

1. Do not feed wildlife.
2. Know your site number.
3. Always tell someone where you are going.

## Waterfront Safety

1. Always swim where a lifeguard is on duty.
2. Never swim alone.
3. Swim with a life jacket.

**ONLY YOU can prevent wildfires!**
