Clean Driving

How to drive your car to reduce the amount of pollutants released and the amount of fuel used and save money

Drive less:
- Combine trips
- Carpool
- Use public transportation

Improve your driving habits:
- Accelerate smoothly
- Drive at moderate speeds (driving 55 mph vs. 65 mph saves 15% of your gas)
- Avoid idling

Keep vehicles in good running order with regular maintenance:
- Align wheels
- Check tire pressure
- Change oil as required

AND most important:
Buy a less polluting and more fuel-efficient vehicle!

Don’t overfill your gasoline tank when refueling:
When it clicks off, stop pumping!
