

Clean Driving

How to drive your car to reduce the amount of pollutants released and the amount of fuel used and save money

Drive less:

- Combine trips
- Carpool
- Use public transportation

Improve your driving habits:

- Accelerate smoothly
- Drive at moderate speeds (driving 55 mph vs. 65 mph saves 15% of your gas)
- Avoid idling

Don't overfill your gasoline tank when refueling:

- When it clicks off, stop pumping!

Keep vehicles in good running order with regular maintenance:

- Align wheels
- Check tire pressure
- Change oil as required

AND most important:

- Buy a less polluting and more fuel-efficient vehicle!
