(b) Monitoring requirements

- (1) The owners and operators and, to the extent applicable, the CAIR NOx authorized account representative of each CAIR NOx source and each CAIR NOx Ozone Season unit at the source shall comply with the monitoring requirements of Subpart 243-8.
- (2) The emissions measurements recorded and reported in accordance with Subpart 243-8 shall be used to determine compliance by the unit with the CAIR NOx budget emissions limitation under subdivision (c) of this section.

(c) Nitrogen oxides requirements

- (1) The owners and operators of each CAIR NOx source and each CAIR NOx Ozone Season unit at the source shall hold CAIR NOx allowances available for compliance deductions under Section 243-6.5, as of the CAIR NOx allowance transfer deadline, in the unit's compliance account in an amount not less than the total CAIR NOx emissions for the control period from the unit, as determined in accordance with Subpart 243-8.
- (2) Each ton of nitrogen oxides emitted in excess of the CAIR NOx budget emissions limitation shall constitute a separate violation of this Part, the Clean Air Act and applicable State law.

No provision of the CAIR NOx Ozone Season Trading Program, the CAIR NOx Ozone Season Trading Program permit application, or the CAIR NOx Ozone Season permit and no provision of law

shall be construed to limit the authority of the United States or the State to terminate or limit such authorization.

(d) Excess emissions requirements

The owners and operators of a CAIR NOx Ozone Season unit that has excess emissions in any control period shall:

- (1) Forfeit the CAIR NOx allowances required for deduction under Paragraph 243-6.5(d)(1); and
