OUTDOOR WOOD BOILER SMOKE LOG PAGE _____/_____

Complainant Name: _____

Address: _____ County: _____

Contact phone number: _____

Contact email address: _____

DATE	TIME		DESCRIPTION OF SMOKE PLUME (thick, wispy, quickly spreading/dispersing/thinning, well defined/shaped plume, etc.)

* This log is to be used to identify periods when smoke being emitted from an outdoor wood boiler appears to be heaviest. This is usually related to the cycling on and off of combustion air to the boiler unit.
