

STRIPED BASS COOPERATIVE ANGLER ONLINE LOGBOOK

Department of
Environmental
Conservation

Instructions for Installation and Completion

The Striped Bass Cooperative Angler Program began in 1985 and provides us with additional data on the recreational striped bass fishery. The survey offers anglers the opportunity to participate in a research project that is essential for effective management, and at the same time allows participants to keep records of their fishing trips for their own use. **Accurate and inclusive data is the key to successful management.**

Please record as much fishing information as possible, including all species encountered. **Even if no fish are caught during your trip, please make sure to still submit a log.** This will be calculated as a “Zero Catch” and is important for calculating fishing effort.

Please follow the instructions below to download **Survey123 for ArcGIS** and how to complete your Logbook. **Thank you for your participation and we're looking forward to your future collaboration!**

How to Download Survey123

Downloading for Desktop (Windows, MacOS, & Linux)

If you will be completing the survey from your computer, you need to install **Survey123 for Desktop**.

- x Visit the Survey123 website (<http://doc.arcgis.com/en/survey123/download/>) to download and install the **appropriate version** of the software for your computer.
- x Once installed, click or copy the following into a web browser to open the survey: <https://survey123.arcgis.com/share/001f052f372d410e8236a2c6ffee7e52?open=menu>
- x Select “**Open in the Survey123 field app**” to open the Striped Bass Cooperative Angler Survey.
- x You should now see **Survey123 for ArcGIS** on your computer’s desktop, and can submit future trips by opening the survey from your desktop

Downloading from App Store (iOS)

If you will be completing the survey from your Apple device, you need to download the **Survey123 for ArcGIS**.

- Open ‘App Store’, use the search function to find **Survey123 for ArcGIS** and begin downloading.
- Once installed, either use your mobile device's camera to scan QR code to access SBCA Online Logbook click or copy the following link into a web browser on your phone to open the survey: <https://survey123.arcgis.com/share/001f052f372d410e8236a2c6ffee7e52?open=menu>
- Select “**Open in the Survey123 field app**” to open the Striped Bass Cooperative Angler Survey.

Downloading from Google Play (Android)

If you will be completing the survey from your Android device, you need to download the **Survey123 for ArcGIS**.

- Open ‘Google Play’, use the search function to find **Survey123 for ArcGIS**, and begin installing.
- Once installed, either use your mobile device's camera to scan QR code to access SBCA Online Logbook click or copy the following link into a web browser on your phone to open the survey: <https://survey123.arcgis.com/share/001f052f372d410e8236a2c6ffee7e52?open=menu>

Last Name *

First Name *

Email

If you are interested in joining the [Striped Bass Cooperative Angler Program](#), and have not yet registered, please submit a valid email address so that we may contact you.

Step 2: Use the drop down arrow to select the Date of your fishing trip, the field will automatically be set to today's date. Use the clock to scroll to the 'Time Started' fishing.

Step 3: Type the total number of 'Hours Fished', to the nearest 15 minutes (0.25 hours). For example, if you fished 1 hour and 15 minutes, it should be entered as 1.25 hours.

Step 4: Type the total 'Number of Anglers' that fished. Only include people actively fishing during the trip.

Tide(s) Fished

5

Select all that apply.

- Low Slack
- High Slack
- Incoming
- Outgoing

Step 5: Check the box that indicates the 'Tide(s)' experienced while fishing. Check all that apply.

Bait(s) Used

6

Select all that apply.

- Live
- Artificial
- Dead/Real

Step 6: Check the box of the type of 'Bait(s) Used' while fishing. Check all that apply.

Fished From

7

- Boat
- Kayak
- Shore

Step 7: Check the circle of where you 'Fished From'. Check only one where the majority of your fishing occurred.

Step 8: Check the circle of your fishing location. Check only one where most fishing took place. If you fished in two zones, please fill out one survey for each zone. Select other, if fishing took place outside the boundary of one of the five zones. If fishing took place north of the George Washington Bridge, select other and report your catch to the Hudson River Cooperative Angler Program (link below map).

Zone Fished *

8

If you fish multiple zones during a trip, please fill out the appropriate catch information for each zone in separate logs.

- 1
- 2
- 3
- 4
- 5
- Other

Zone Map

Fishing trips North of the George Washington Br. should be reported as Hudson River trips to the Hudson River Cooperative Angler Program (www.dec.ny.gov/animals/6945.html).

Step 9: Type the common name of your 'Targeted Species'.

If you have a secondary targeted species, type the common name and select it from the list.

Step 10: Check "Yes" if you DID NOT catch fish, check "No" if you CAUGHT fish (go to step 11). If no fish were caught, you can click on the Green Check to submit your survey
