Public Fishing Rights Maps

Little Delaware River

Fish Species Present

Brown Trout

Brook Trout

Description of Fishery

The Little Delaware River flows for 16 miles before entering the West Branch of the Delaware River just west of the village of Delhi. The wild brown and brook trout populations are supplemented with the stocking of about 700 brown trout yearlings annually. These hatchery fish are stocked in a 0.8 mile reach at the mouth and a 1.2 mile reach downstream of the hamlet of Bovina Center. Brown trout are the dominant wild trout in the stream, but brook trout abundances increase upstream of Bovina Center.

Note:

Statewide fishing regulations apply.

Location

About Public Fishing Rights

Public Fishing Rights (PFR's) are permanent easements purchased by the NYSDEC from willing landowners, giving anglers the right to fish and walk along the bank (usually a 33' strip on one or both banks of the stream). This right is for the purpose of fishing only and no other purpose. Treat the land with respect to insure the continuation of this right and privilege. Fishing privileges may be available on some other private lands with permission of the land owner. Courtesy toward the land-owner and respect for their property will insure their continued use.

These generalized location maps are intended to aid anglers in finding PFR segments and are not survey quality. Width of displayed PFR may be wider than reality to make it more visible on the maps. Please look for this PFR sign to ensure that you are in the right location and have legal access to the stream bank.

For more information on this creek or if you believe PFR marked areas on these maps are incorrect or missing PFR signs, please call the Region 4 Fisheries office: (607) 652-7366.
