## Public Fishing Rights Maps

# Roeliff Jansen Kill

### Fish Species Present

Brown Trout

### Description of Fishery

The Roeliff Jansen Kill flows for 54 miles before entering the Hudson River about 5 miles south of the City of Hudson. In the 6 mile section between the falls at Bingham Mills and the mouth, the stream supports a warm water fishery for black bass and some migratory fish species during their spring spawning season. The stream above Bingham Mills contains some wild trout, but abundant populations are found mainly in the 13 mile section above Robinson Pond (near the village of Copake). This wild trout section runs through the village of Hillsdale. From Robinson Pond downstream to the village of Ancram, the 10 mile section is stocked with 3,800 yearling and 350 two year old brown trout. The next 6 mile section between Ancram and the Dutchess County border is heavily posted and not stocked. The Dutchess County portion runs 3 miles and is stocked with 2,200 yearling and 400 two year old brown trout. The next section of the stream, from Dutchess County to Bingham Mills runs 11 miles and is stocked with 9,900 yearling and 700 two year old brown trout.

### Note:

Statewide fishing regulations apply.

### Location

### About Public Fishing Rights

Public Fishing Rights (PFR's) are permanent easements purchased by the NYSDEC from willing landowners, giving anglers the right to fish and walk along the bank (usually a 33' strip on one or both banks of the stream). This right is for the purpose of fishing only and no other purpose. Treat the land with respect to insure the continuation of this right and privilege. Fishing privileges may be available on some other private lands with permission of the land owner. Courtesy toward the land-owner and respect for their property will insure their continued use.

These generalized location maps are intended to aid anglers in finding PFR segments and are not survey quality. Width of displayed PFR may be wider than reality to make it more visible on the maps. Please look for this PFR sign to ensure that you are in the right location and have legal access to the stream bank.

For more information on this creek or if you believe PFR marked areas on these maps are incorrect or missing PFR signs, please call the Region 4 Fisheries office: (607) 652-7366.
