

CONSERVATION CIRCULAR

A CORNELL COOPERATIVE EXTENSION PUBLICATION OF THE
DEPARTMENT OF NATURAL RESOURCES
NEW YORK STATE COLLEGE OF AGRICULTURE AND LIFE SCIENCES
A STATUTORY COLLEGE OF THE STATE UNIVERSITY AT
CORNELL UNIVERSITY, ITHACA, NEW YORK

Revised June 2005

Assistance for New York Forest Owners¹

Owning forestland in New York State is an exciting but challenging undertaking. Consequently, many forest owners need help with the management of their holdings and are interested in knowing the people and organizations that are available to assist them. Ownership of forest land can provide numerous benefits such as revenue, wildlife habitat improvements, improved water quality, and recreation. However, ownership also carries costs and responsibilities that may require assistance from others.

Forest owners are faced with many considerations when they first decide to manage their land for forest products. Questions that may arise are: (1) What are the advantages and disadvantages of New York's Forest Tax Law (Sec. 480-a of the Real Property Tax Law)? (2) How can stewardship objectives be achieved while meeting financial needs? (3) Are potentially expensive practices like thinning or pruning warranted? (4) How can recreational opportunities be maintained when a forest is being managed primarily for timber production? (5) What is the woodlot's susceptibility to insect, disease, or fire damage, and what are the appropriate precautionary measures against such hazards? and (6) When, how, and by whom should harvesting be conducted?

Help is available to answer these and other forest management questions. This guide lists the major public and private organizations that offer assistance to forest owners and outlines the services performed by these organizations. Table 1 identifies the appropriate organizations for New York State landowners to contact regarding any of the 12 interests listed. Services provided by the organizations can generally be grouped into four categories. As presented in Table 1, "individual consultation" pertains to activities such as answering phone calls, letters, and personal inquiries; "informational services" pertain to the distribution of informational or instructional publications, and to the sponsoring of meetings, workshops, field trips, or short courses; "on-site technical assistance" pertains to professional services provided (usually for a fee) such as marking trees for thinning or harvest, arranging sales, or logging; and "cost-sharing for on-site technical assistance" pertains to reimbursement of certain management expenses. Some overlap of service exists among the organizations; for instance, all organizations will provide general information, but some are better equipped than others to handle such requests. An organization is paired with an interest in the table only if it specializes in the topic. In addition, some of the public organizations listed are involved with several general program areas other than forestry.

Because of space limitations, it is not possible to include every organization that provides forestry assistance or to detail fully the purpose and activities of such organizations. Some timber companies and private consulting foresters will perform free on-site management services for private nonindustrial forest owners in return for allowing the company "first refusal rights" on future timber sales. Owners of woodland near large timber company lands may wish to use such services.

¹We sincerely appreciate the cooperation given by all organizations listed herein during the preparation of this publication. If you have updates for this publication, please notify us at: 607-255-2115 or e-mail: cce-nat-res@cornell.edu

Helping You Put Knowledge to Work

Cornell Cooperative Extension provides Equal Program and Employment Opportunities.

New York State College of Agriculture and Life Sciences, New York State College of Human Ecology, and the New York State College of Veterinary Medicine at Cornell University, Cooperative Extension Association, County Governing Bodies, and United States Department of Agriculture, cooperating.

Table 1. Matching NY Forest Owners' Interests with appropriate Assistance Organizations.

PUBLIC AGENCIES AND INSTITUTIONS

Cornell Cooperative Extension

Purpose: To develop and disseminate to the public practical research-based information in areas related to agriculture, home economics, and natural resources, such as forestry, fishery, and wildlife management.

Activities: Extension personnel in 57 New York counties and New York City carry out programs with assistance from Extension faculty and staff at Cornell University, Ithaca, NY. County Extension associations sponsor public workshops and meetings covering all aspects of woodland ownership. Movies, videos, slide sets, bulletins, fact sheets, newsletters, and articles concerning the enjoyment and utilization of New York's woodlands are available, as is individual consultation on specific questions concerning the state's natural resources.

Membership: All New York residents can join their county Extension Association which entitles them to receive monthly mailings featuring informative articles and announcements of Extension-sponsored publications, meetings, and activities.

Contact: See listing below. Website: www.cce.cornell.edu.

Master Forest Owner/COVERTS Program

Purpose: The New York Master Forester Owner (MFO)/COVERTS program, with over 100 volunteers, is coordinated by Cornell Cooperative Extension. The goal of the program is to provide private, nonindustrial forest owners with the information and encouragement necessary to manage their forest holdings wisely.

Activities: Volunteers arrange free, half-day woodlot visits to discuss sources of information and assistance. The program is sponsored in part by: Cornell Cooperative Extension, Ruffed Grouse Society, Renewable Resources Extension Program, New York Forest Owners Association, National Wild Turkey Federation, and Robert H. Wentorf Foundation, Inc. with cooperation from: NYS Dept. of Environmental Conservation..

Contact: If you are interested in a visit from an MFO, a listing of MFOs may be obtained from Cornell Cooperative Extension county offices or NYS DEC Regional forestry offices. If you are interested in becoming an MFO, please contact Diana Bryant at 108 Fernow Hall, Dept. of Natural Resources, Ithaca, NY 14853, phone: 607-255-2115, fax: 607-255-2815, e-mail: dlt5@cornell.edu, website: www.dnr.cornell.edu/ext/mfo/.

***New York State Department of Environmental Conservation (NYS DEC) -
Division of Lands and Forests***

Purpose: To foster public awareness and appreciation for forest stewardship and the contribution forests make to the enhancement of rural and urban environments; to encourage the highest attainable level of management of forestland to meet landowner goals; to improve contact between landowners, professional foresters, and timber harvesters; to protect and manage, in a manner that best serves the well-being of the people, both the human and forest resources on public lands placed under the jurisdiction of the Division; and to highlight the obligations incumbent upon the stewards and users of New York forestlands.

Activities: In accordance with the New York Cooperative Forest Management Act, State Service Foresters will provide on-site assistance with forest management (advice and planning), establishment of forest plantations,

care of immature stands, and, provide advice on the marketing of timber products. The DEC sponsors the NYS Cooperating Forester Program (private foresters can provide extensive individual services, adhere to the NYS forestry best management practices (BMP), and adhere to the Society of American Foresters Code of Ethics) and the NYS Cooperating Timber Harvester Program (Cooperating Timber Harvesters encourage landowners to use written contracts for timber sales, to contact DEC and Cooperating Foresters for management advice, and follow the Timber Harvesting Guidelines for NY State). The DEC also provides informational publications on forestry-related topics and is responsible for administration of the State Forest Tax Law and the technical aspects of Federal forestry assistance programs.

Contact: See offices below. Website: www.dec.state.ny.us/website/dlf/.

County Soil and Water Conservation Districts (SWCDs)

Purpose: Soil and Water Conservation Districts are special purpose districts created and authorized under state law to develop and carry out a program of soil, water, and related natural resource conservation programs. There are 58 SWCDs in New York - one in each county, including the five boroughs of New York City.

Activities: SWCDs provide technical assistance to residents, landowners and units of government on soil and water related issues. They also coordinate and provide access to a number of federal, state and where applicable, local conservation programs. Woodland services provided by individual districts vary depending on local needs. Some districts offer services in woodland management in cooperation with the NYS Department of Environmental Conservation, especially in the area of erosion control during timber harvesting operations. Most SWCDs sponsor a yearly or twice-yearly tree and shrub sale. Tree and shrub seedlings suitable for reforestation or conservation use are offered in various quantities, including large quantities for large-scale plantings. Some SWCDs offer rental of planting equipment or tree-planting services.

State Contacts: Phil Griffen, Chairman, or John Wildeman, Director, NYS Soil and Water Conservation Committee, 1 Winners Circle, Albany, NY 12235, phone 518-457-3738, fax 518-457-3412.

SUNY College of Environmental Science and Forestry

Purpose: To provide comprehensive and timely public service programs on environmental science and forestry, involving research, instruction, and public information activities.

Activities: The College offers curricula leading to various professional degrees, such as forestry, environmental and forest biology, wood products, and forest technology. The College communicates environmental and forestry knowledge to a variety of off-campus clientele, including forest-related businesses, industries, and landowners through its public service programs. These programs include continuing education, conferences, and extension. A number of forestry publications and films are also available upon request.

Contact: Lawrence P. Abrahamson, Continuing Education Coordinator for the Faculty of Environmental and Forest Biology, 126 Illick Hall, SUNY ESF, Syracuse, NY 13210, phone: 315-470-6777, fax: 315-470-6934, e-mail: ceext@syr.edu Rene Germain, Continuing Education Coordinator for the Faculty of Forestry, 22 Marshall Hall, SUNY ESF, Syracuse, NY 13210, phone: 315-470-6698, e-mail: rhgermai@esf.edu. Kim Adams Instruction Support Associate for Faculty of Environmental and Forest Biology, also "Tree Pest Extension Service", 125 Illick Hall, SUNY ESF, Syracuse, NY 13210, phone: 315-470-6751 for a 24-hour message service, e-mail: kbadams@syr.edu, website: <http://www.esf.edu/>.

USDA Farm Service Agency (FSA)
(formerly Agricultural Stabilization and Conservation Service)

Purpose: To administer several national programs which involve forest management such as the Agricultural Conservation Program (ACP), the Conservation Reserve Program (CRP), and the Forestry Incentives Program (FIP). The Stewardship Incentives Program (SIP) is administered by the DEC Division of Lands & Forests for the Forest Service and assistance is provided by FSA.

Activities: Forest owners who meet eligibility requirements of various programs may be reimbursed for costs incurred in select forest management practices such as planting trees, wildlife management, improving stands by thinning, and preparing sites for natural regeneration.

State Contact: Allen LaPierre, Program Specialist, USDA FSA. 441 S. Salina St., Suite 356, Syracuse, NY 13202, phone: 315-477-6303, fax: 315-477-6303, website: <http://www.fsa.usda.gov/pas/>.

USDA Forest Service

Purpose: To manage national forests and grasslands through an ecosystem management approach that integrates ecological integrity with sustainable forestry and agriculture. The forests are managed for appropriate uses including grazing, timber, wildlife, outdoor recreation, and watershed protection. Additional goals are: to conduct research in the entire field of forestry and wild land management; to encourage conservation education programs; and to cooperate with the state and private landowners in the application of sound management practices.

Activities: Through State and private forestry programs, and regional Forest Experiment Stations, the Forest Service develops and distributes general and technical forest information publications. In addition, regional personnel often give presentations at professional and educational seminars. The Fingerlakes National Forest in Schuyler & Seneca Counties is the only National Forest in the state of New York. The Forest is open to the public for a variety of outdoor recreation activities and sponsors environmental education programs for local schools and youth groups. Limited timber and firewood harvesting permits and grazing rights are issued.

Contact: For technical forest information publications, contact the State and Private Forestry Program, USDA Forest Service, Cooperative Forestry, P.O. Box 96090, Washington D.C., 20090-6090, phone: 202-205-1389, fax: 202-205-1271, e-mail: tbeauvais@fs.fed.us, website: www.na.fs.fed.us. For Fingerlakes National Forest, contact: Martha Twarkins, District Ranger, Finger Lakes National Forest, 5218 St.Rt. 414, Hector, NY 14841, phone: 607-546-4470, fax: 607-546-4474, e-mail: mtwarkins@fs.fed.us, website: http://www.fs.fed.us/r9/gmfl/fingerlakes.

USDA Natural Resources Conservation Service (NRCS) *(formerly Soil Conservation Service)*

Purpose: To take a comprehensive approach to conservation planning and provide individuals and communities with technical advice and assistance to solve natural resource challenges on the nation’s private lands--reducing soil erosion, improving soil health, protecting water quality and supply, conserving wetlands, and providing fish and wildlife habitat.

Activities: NRCS foresters prepare guides, specifications, and information sheets on forest soil conservation, and train field staff in applying practices with complete conservation plans. The NRCS works closely with the County Soil and Water Conservation Districts (located at most NRCS offices) which in some cases offer technical forest management services under the direction of NYS DEC foresters. NRCS also administers a Resource Conservation and Development (RC&D) program; six RC&D’s in New York have active forestry committees which promote the development of the state’s forest resources.

Contact: Steven L. Machovec, Resource Planning Staff Leader, USDA NRCS, 441 S. Salina St., 5th Floor, Suite 354, Syracuse, NY 13202, phone: 315-477-6527, fax: 315-477-6550, website: www.nrcs.usda.gov/.

***National Association of Resource Conservation and Development Councils
(NARC&DC)***

Purpose: RC&D program encourages and improves the capability of volunteer, locally elected, and civic leaders in designated RC&D areas to plan and carry out projects for resource conservation and community development. Projects relate to the following four areas: (1) Land Conservation (3) Land Management (2) Community Development (4) Water Management. By working together on local RC&D Councils, communities, all levels of government, and grass-roots organizations develop opportunities that sustain and improve our communities, local economies, and natural resources.

PRIVATE ORGANIZATIONS*

American Forest Foundation (AFF)

Purpose: To develop, fund, and administer programs which encourage the long-term stewardship of our natural resources. The Foundation's programs rely on the thousands of volunteers in all 50 states who dedicate their time and expertise to assure a quality environment for future generations. Nonindustrial landowners, certified Tree Farms, professional educators, and representatives of forest products companies, professional associations, and state forestry associations are all part of the American Forest Foundation's networks for improving environmental stewardship. AFF, a nonprofit organization, is supported by contributions from individuals and by grants from foundations, government agencies and corporations.

Activities: The Foundation's core programs - Project Learning Tree (www.affoundation.org/html/about_plt.html) and American Tree Farm System - are directed at two groups which share extraordinary influence over the quality of our environment: young people and the 7 million landowners who own more than half of the nation's productive forestland.

Contact: Larry Wiseman, President of American Forest Foundation, 1111 19th Street, NW, Suite 780, Washington, DC 20036, phone: 202-463-2462, fax: 202-463-2461, toll free: 888-889-4466, e-mail: info@forestfoundation.org, website: www.affoundation.org.

American Tree Farm System in New York

Purpose: To promote sustainable forestry by publicly recognizing landowners who practice forest management and by persuading non-managing forest owners to implement forest management practices on their woodlots.

Activities: Volunteer public and private foresters conduct field inspections with potential Tree Farmers prior to certification to ensure that proper management activities are being practiced on the woodlot. Non-practicing landowners may qualify as Tree Farmers once management activities take place. Tree Farms are inspected every 5 years to ensure that the management program is ongoing. The *American Tree Farmer* is published six times a year for Tree Farm members. Other publications related to Tree Farm activities are available upon request. The Tree Farm System is sponsored by the American Forest Foundation and cosponsors for the Tree Farm Program are Empire State Forest Products Assoc., NYS Department of Environmental Conservation, & New York Forest Owners Association.

Membership: Private owners of woodlands that meet certification requirements.

Contact: Liana Gooding, Admin. Secretary, NY Tree Farm, Inc. Office, PO Box 541, Lima, NY 14485, phone: 800-836-3566, e-mail: nytreefarm@hotmail.com, website: www.treefarmssystem.org/.

Catskill Forest Association (CFA)

Purpose: The Catskill Forest Association, Inc., is a private, nonprofit organization serving the entire Catskill Region. CFA, through the support of its members, strives to stimulate the region's economy while conserving its forests, soil, water, wildlife, and natural beauty. By bringing together the interests of the landowner, forest industry professional, and recreational user, CFA promotes cooperation to solve the region's forestry issues. It promotes long-term forest management and multiple-use practices through planned timber stand improvement and ecologically sound silvicultural practices.

Activities: CFA provides landowners with access to quality forest management services. Provides educational programs on forest practices, legal and tax matters, and other issues related to forest ownership and management. CFA periodically sponsors woods walks and workshops throughout the Catskill region, and publishes a quarterly newsletter, *CFA News*.

Membership: The Association is open to all who support its objectives. Annual dues entitle members to publications, newsletters, and discounts on books, tree shelters, and on-site consultations with the Association's forester.

Contact: Jim Waters, Exec. Director, Catskill Forest Association, P.O. Box 336, Arkville, NY 12406, phone: 845-586-3054, fax: 845-586-4071, e-mail: cfa@catskill.net, website: catskillforest.org.

*Officers are subject to change; thus, it may be necessary to obtain updated addresses from one of the public organizations previously listed.

Empire State Forest Products Association

Purpose: Dedicated to improving the business climate for the forest products industry while promoting management of New York's forests to meet the resource needs of today and for future generations.

Activities: Dispenses information regarding management techniques, research findings, legislative matters, and teaching and communication efforts to members primarily via two annual meetings and an annual legislative session review.

Membership: Forest landowners, public agencies, forest-related businesses and industries, consulting foresters, and individuals with forestry interests.

Contact: Kevin S. King, Exec. Vice President, Empire State Forest Products Association, 828 Washington Avenue, Albany, NY 12203, phone: 518-463-1297, fax: 518-426-9502, e-mail: kking@esfpa.org, website: www.esfpa.org/.

New York Christmas Tree Growers' Association

Purpose: To educate and inform members of all aspects of the art and science of growing and marketing Christmas trees; to encourage, sponsor, support and collaborate in research on all phases of the industry with members, colleges, universities, government agencies, and manufacturers of equipment and materials; and to promote legislation that benefits the industry.

Activities: Sponsors meetings for nursery owners, growers, wholesalers, retailers, educators, researchers, and manufacturers of equipment and materials to meet and discuss common concerns; publishes a quarterly bulletin.

Membership: Private and commercial Christmas tree growers and others interested in the forest industry.

Contact: Robert Norris, Exec. Secretary, 646 Fintches Corners Rd., Red Creek, NY 13143, phone: 315-754-8132, fax: 315-754-8499, e-mail: bnorris@redcreek.net, website: www.christmastreesny.org.

New York Forest Owners Association (NYFOA)

Objectives: To assist owners and the public in making decisions for the best use of forests; to work to increase profitability of woodlot investment; serve as a forest owners advocate and voice in state and national organizations and forums and to educate community leaders in the benefits of sound forestry practices; to unite forest owners in a common cause of improving their forest resources and forest opportunities; to educate the public on the value of a healthy tree growing industry and to network with related organizations in promoting common objectives.

Activities: Publishes the NEW YORK FORESTOWNER bimonthly; holds state-wide educational Spring and Fall meetings for the membership and public; Chapters conduct "woodswalks" and other events to stimulate enthusiasm for good stewardship, timber stand improvement and managing woodlands for other values; encourages members to be active in local chapters; fosters affiliation with other organizations with similar NYFOA objectives; recognizes outstanding individual effort on behalf of forestry and private woodland resources in the state and offers access to a toll-free information database.

Contact: Liana Gooding, Office Administrator, NY Forest Owners Assoc., PO Box 541, Lima, NY 14485, phone: 800-836-3566 or 585-624-3385, information database: 800-836-3566, e-mail: nyfoainc@hotmail.com, website: www.nyfoa.org.

New York Institute of Consulting Foresters

Purpose: To promote and maintain professional standards and ethics in the profession.

Activities: Consultants charge for their services which include aerial photography interpretation, appraisals, Christmas tree and forest management, wildlife management, environmental impact and forest litigation, land acquisition, tax consultation, timber sales and marketing, timber theft evaluations, expert witness, and other miscellaneous services.

Membership: Private consulting forestry firms consisting of one to several employees who have met educational, experience, and professional code of ethics qualifications; provide membership lists to interested landowners.

Contact: Peter Marchese, Secretary-Treasurer, 38 Forest Hill Dr., Corning, NY 14830, phone: 607-962-7234 e-mail: pmarchese@stny.rr.com, website: berk.com/~NYICF/.

New York Society of American Foresters (NYSAF)

Purpose: To advance the science, technology, and practice of professional forestry and to use the knowledge and skill of the profession to benefit society.

Activities: The New York Section has developed policies reflecting the intent of the National Society in relation to forest resources education, forest recreation, environmental quality, cooperation with state and local agencies, forest taxation, water management and pollution, and the use of chemicals on forestland. The National Society publishes two periodicals, *Journal of Forestry* and *Forest Science*, as well as the regional quarterlies, *Northern Journal of Applied Forestry*, *Southern Journal of Applied Forestry*, and *Western Journal of Applied Forestry*. The New York Society meets twice yearly and publishes a quarterly newsletter, *The New York Forester*.

Membership: Professional foresters who have met certain educational requirements and who have agreed to abide by a rigid code of ethics.

Contact: Hugh Canham, Chair, NY Society of American Foresters, SUNY College of Environmental Science and Forestry, 320 Bray Hall, One Forestry Drive Syracuse, NY 13210, 315-470-6694, website: www.nysaf.org.

New York State Forest Practice Board

Purpose: To establish and encourage the adherence to regionally adopted forest practice standards. To act in an advisory capacity to the DEC commissioner in connection with forestry matters To encourage the interchange of advice and experience among the regional forest practice boards.

Activities: Through Local Boards, the organization acts as a sounding board for private forest owners concerning public forest policy. The Board advises the DEC commissioner on forestry matters recommending program standards and policy.

Membership: The State Board is composed of representatives from the Regional Boards which are comprised of individuals appointed by county legislative authorities that include forest landowners and local government representatives..

Contact: Gary Nichols, Chairman NYS Forest Practice Board, 7624 Ridge Road, Gasport, NY 14067, phone: 607-772-2234, e-mail: gjnick@localnet.com.

New York State Maple Producers' Association

Purpose: To promote maple syrup and maple products; to provide representation for members in activities with various public and private organizations; and to keep members up-to-date on prices, legislation, quality grading, sugar bush management and marketing.

Activities: Promotes maple products through displays at festivals, fairs, and other agricultural events; works in cooperation with the North American Maple Syrup Council and the International Maple Syrup Institute; sends informational letters to members regarding supplies of syrup, prices, legislation, grading, etc.; and helps plan and participates in the State Maple Tour.

Membership: Open to private and commercial maple producers in New York; dues include a subscription to the *Maple Syrup Digest*, printed quarterly, subscription to the *Pipeline Newsletter*, printed 3 times per year, and support for the American Maple Museum at Croghan, NY. Membership in NAMSC & IMSI.

Contact: Barbara Zehr, Secretary, NYS Maple Producers' Assoc., 6242 Swiss Road, Castorland, NY 13620, phone: 315-346-1034, fax: 315-346-1662.

New York State Timber Producers' Association

Purpose: To maintain high standards of professionalism in logging; to promote favorable public relations for the industry; to assist loggers in locating stumpage and markets; and to represent its membership.

Activities: Offers membership in Empire State Forest Products Association to our members, representation to government regulatory agencies, information on programs and meetings; safety alerts every month, newsletter every other month; and fellowship.

New York State Timber Producers' Association continued

Membership: Professional timber harvesters and Timber Hauling Truckers; Associate members include veneer buyers, equipment dealers, and saw-and pulpmill companies.

Contact: Linda Luchsinger, Exec. Secretary, NYS Timber Producers' Assoc., P.O. Box 300, Boonville, NY 13309, phone: 315-942-5503.

New York State Woodsmen's Field Days

Purpose: To promote public awareness of the economic importance of the State's forest industry; to display equipment, production, and handling technique innovations; and to give woods workers a chance to demonstrate their skills in good-natured competitions.

Activities: The Field Days, held each August in Boonville, NY, consist of woodsmen's competitions, exhibits, demonstrations, and educational activities; promotion of the forest industry throughout the year.

Membership: Open to public attendance and participation by all who believe, "Managed Forests Provide Forever."

Contact: (Mrs.) Phyllis White, Exec. Coordinator, NYS Woodsmen's Field Days, P.O. Box 123, 120 Main Street, Boonville, NY 13309, phone: 315-942-4593, fax: 315-942-4452, e-mail: fielddays@aol.com, website: <http://www.starwebhosting.net/woodsmen/>.

Northeastern Loggers' Association

Purpose: To expedite the exchange of information and concepts on forest management, legislative activities, timber processing, safety, logging techniques, meetings and shows, and equipment innovations; and to promote public awareness of the many uses of wood, and the modern policies and practices of the wood-using industries in forest management and timber harvesting.

Activities: Sponsors a yearly trade show, "The Northeastern Forest Products Equipment Expo"; promotes public relations; operates the Forest Industries Exhibit Hall at Old Forge, NY; provides training and consultation services for members; and publishes *The Northern Logger and Timber Processor*, and industry-related books.

Membership: Woodland owners, loggers, foresters, manufacturers, and others concerned with conservation of northern forests through wise use.

T.H.R.I.F.T. (Tug Hill Resources - Investment for Tomorrow)

Purpose: THRIFT is an association of people dedicated to wise stewardship of the Tug Hill Region (Jefferson, Lewis, Oneida and Oswego Counties). THRIFT exists to help sustain the unique character, lifestyle and resources of "The Hill" by promoting informed management and care of its forests, wildlife, water and lands. It provides a strong voice and support for area landowners.

Activities: Forest, farmland and youth oriented programs on ginseng, mushrooms and other medicinals, historical wood lore, invasive insects and plants, maple syrup production, proper harvesting and woods working safety, timber stand improvement and disease prevention, timber theft and wildlife enhancement. Conducts tours of agroforestry crops, educational forest projects and programs, furniture making businesses, saw mills, tree farms, wildlife rehabilitation facilities and more. Year round events are varied, including canoeing/kayaking, edible plants through the seasons, hands-on themed woodswalks, landowner talks, picnics, snowshoeing and wildlife observation. Our annual outdoor, forest oriented auction, provides funding for scholarship assistance to graduating high schoolers. All activities are open to the public. Membership benefits include a bi-monthly newsletter, "Hill Talk", a quarterly magazine, "Northern Woodlands" and incentives at various membership levels.

Contact: Thomas F. Stauffer, THRIFT President, 113 Standish Drive, Syracuse, NY 13224-1749, Phone: 315-446-5919 or Robert S. Watson, Membership Chairman, 3041 Schultz Road, Camden, NY 13316-4149, Phone: 315-245-1650. THRIFT's Website is www.tughillresources.org
