Re: *Well Logs and Reports*

Dear Peter:

Enclosed are documents relating to work recently performed at wells owned by Arlington Storage Company (more specifically, wells 30, 31 and 45), wells owned by Inergy Midstream (more specifically, wells 17, 35, 36 37, 40, 41 and 42), and a well owned by Finger Lakes Storage (well 58). We have included a narrative for each of the wells describing all of the work completed on each well. The specific documents attached to each narrative include the following:

- Well logs (e.g., segmented bond log, gamma ray, vertilog);
- Baker Hughes summary evaluations;
- Well drilling and completion reports;
- Well schematics;
- Directional surveys;
- Echo logs/sonar reports;
- HR Vertilog Inspection Reports; and
- Well 58 Report dated October 20, 2011 by Roach and Associates.

***Please note that the information contained in the attachments to this transmittal contain confidential information or confidential and/or proprietary, trade secret or business information and should be treated as privileged and confidential and should not be released pursuant to the provisions of 6 NYCRR § 616.7. We ask that any confidentiality determination for these documents be extended for the greatest amount of time authorized under Section 23-0313 of the Environmental Conservation Law.***

Peter Briggs, Director  
April 11, 2012
