

MINING PERMIT APPLICATION INSTRUCTIONS

PLEASE TYPE OR PRINT CLEARLY

Submit 3 copies of this form. Answer all questions completely and accurately. Incomplete forms will be returned.

If you have any questions regarding this form, contact the Mined Land Reclamation Specialist for the region in which the mine is or will be located (see map on the reverse side of this instruction sheet).

Submit your entire application package to the **Regional Permit Administrator** for the region in which the mine is or will be located (see map on reverse side).

SPECIFIC INSTRUCTIONS:

- Question 1 If the property has previously been included in a mining permit or application, enter the five digit NYSDEC mine number. If your current permit has a 10-digit mine file number, please abbreviate to 5 digits using the first digit followed by the last four digits.
- Question 2 Enter the telephone number of the applicant.
- Question 3 & 4 Enter the name and permanent address of the applicant (e.g. Corporation, Partnership, L.L.C.).
- Questions 5 & 6 Provide the name and telephone number of a contact person, if different from the applicant.
- Question 7 Answer questions "a" through "g" to assist DEC in determining the application's classification under Uniform Procedures Part 621. For renewal applications, this question may be left blank.
- Question 8 If the applicant is other than an individual person (eg. a corporation, partnership or sole proprietorship), enter the taxpayer ID number.
- Question 9 Check the appropriate box. If you are modifying your application at the time of renewal, check both the renewal and modification boxes.
- Question 10 In "a", enter the expiration date of your current permit. In "b", indicate the permit term for which you are applying.
- Question 11 Provide the name of the mineral to be mined (eg. sand and gravel, shale, limestone, clay, sandstone).
- Questions 12a & b Check the correct boxes regarding local laws, ordinances and permits. For renewals, this question may be left blank.
- Questions 13a & b Give the status of other NYSDEC mining permits held by the applicant.
- Question 14 Give the history of permit suspensions, revocations, and bond forfeitures by persons in your organization. Use additional sheets of paper, if necessary.
- Question 15 Enter acreage figures. To determine acreage, "Affected" means the area of land from which overburden or a mineral is to be or has been removed or upon which refuse or spoil is to be or has been deposited; or lands disturbed by the construction or improvement of haulageways; or lands disturbed by storage areas, repair areas, shipping areas and areas in which equipment, machinery, tools or other personal property is situated. "Affected" land also includes any land disturbed by improper mining practices. If land was permitted to be mined in the current permit term, but has not yet been disturbed, include this in the acreage "affected".
- 15a Enter the total number of acres owned or controlled by the landowner at this location.
- 15b If this is a renewal or modification application, enter the total acreage previously reviewed and approved as part of the DEC's Life of Mine review (total number of acres of mineral reserves that will be mined over the duration of mining at that location) as indicated in the Mined Land Use Plan. For a new application, enter 0 acres.
- 15c Enter the number of acres "affected" at this site from April 1, 1975 to the present.
- 15d Enter the number of acres formally approved by DEC as having been reclaimed.
- 15e Subtract the number in "d" from the number in "c" to determine the currently "affected" acreage.
- 15f If this application includes acreage not previously reviewed and approved by DEC (Life of Mine review), enter the number of acres here.
- 15g Enter the number of additional acres (do not include acreage listed in question "e") proposed to be "affected" during the coming permit term (this may or may not include all, or a portion of, the area identified in question "f").
- 15h Enter the number of acres you expect to reclaim during the coming permit term.
- Acreage from 15e and 15g represent the total amount of "affected" acreage for the coming permit term, upon which the annual regulatory fees and reclamation bond will be calculated.

PART 420 MINING APPLICATION INSTRUCTIONS CONTINUE on reverse side of this sheet.

- Question 16 Provide the name of the mining operation.
- Question 17 Provide the location of the mine with sufficient detail for DEC staff to locate the mine for inspections.
- Question 18 Enter the name and check the correct box for the scale of the USGS quadrangle map that depicts the location of the mine. You **must** also include the actual map with the mine location marked on it along with your other application materials submitted to DEC.
- Questions 19 & 20 List the name and address of the surface and mineral owners.
- Question 21 The surface landowner and mineral owner's signature is required on **all** applications.
- Question 22 **All** applications must be signed by the applicant or an authorized representative of the company.
