

**Questions for the Regulated Community**  
NYS Proposed Electronics Recycling Regulations  
Adopting Provisions of the NYS Wireless Telephone Recycling Act

- Although wireless telephone suppliers are currently required to submit a c7 notification for any wireless telephones that are not working or not reusable, should they be conditionally exempted from this requirement?

---

---

- Should the Department consider requiring wireless telephone suppliers to maintain information on-site, for a period of three years, describing where collected wireless telephones are properly directed for recycling or reuse?

---

---

- Whether you are a wireless telephone supplier, a wireless telephone corporate transfer facility, wireless telephone third-party collector, or a recycler of wireless telephones, we are requesting the following information from you:

- What sort of quantities of wireless telephones do you receive?

---

---

- From which sources do the wireless telephones collected come from (e.g. households, business, government, etc.)? In addition, what percentages come from which source?

---

---

- How often do you receive wireless telephones for recycling or reuse?

---

---

- What percentage of wireless telephones received is sent for recycling?

---

---

- What percentage of wireless telephones received is sent for reuse/donation?

---

---
