PROFILE:

Profile Graph - Tremper Mountain to Belleayre Mountain

VIEWSHED RESULTS:

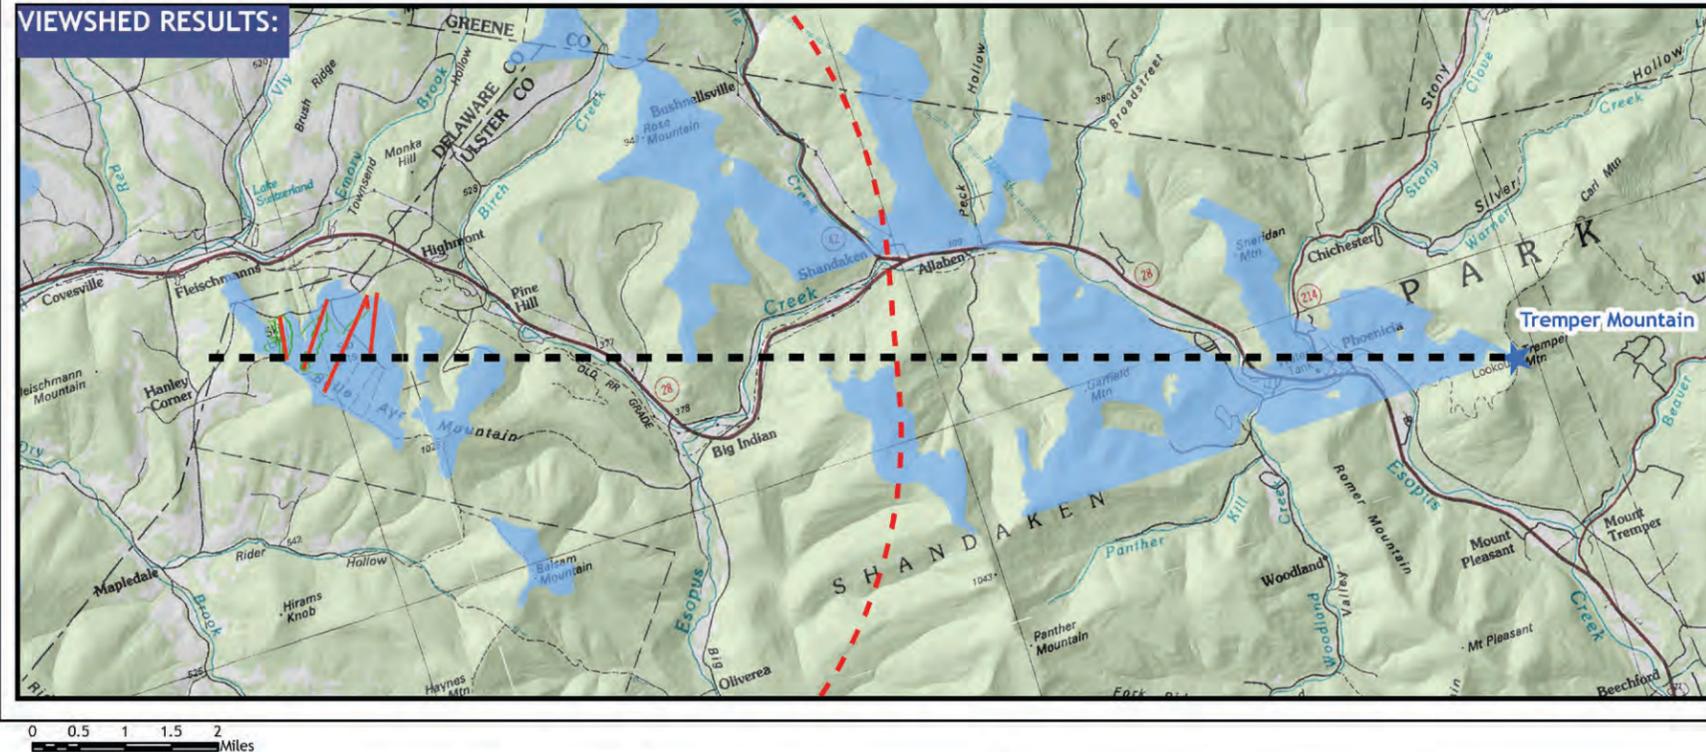

Photo from lookout tower in spring (insert is summer view)

NOTES:

Elevation (ft):2740

Distance (miles) to Belleayre Mtn:13

Direction of view to Belleayre Mtn:ESE

Access:
By hiking trail, 47 ft lookout tower

GIS review notes:
Line of sight analysis shows potential view of northeastern new and existing lifts, trails, and Discovery Lodge.

Field notes:
Hiked 5/1/2008 and 9/5/2008 for view and photographs. Views are available from tower only. Upper existing ski slope are visible, but limited due to distance. Lifts and buildings not visible. Leaf-on views from tower are similar to leaf off views.

NOTES:

Elevation (ft):3855

Distance (miles) to Belleayre Mtn:18

Direction of view to Belleayre Mtn:E

Access:
By Devil's Path hiking trail

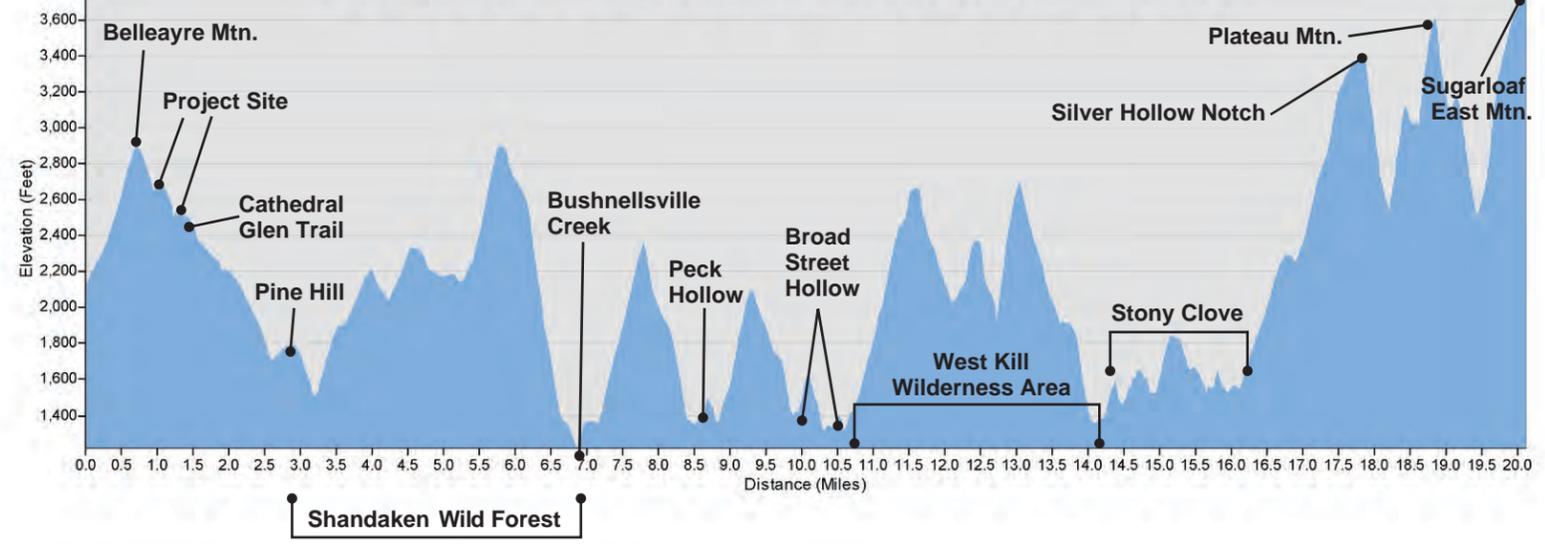

GIS review notes:
Line of site analysis shows potential view to new and existing lifts and slopes, although discovery lodge would not be visible.

Field notes:
Plateau Mountain not accessed, but view from nearby Hunter and Overlook Mountains, also on the Devil's path hike, are similar. Distance will interfere with this view because of scale and atmospheric conditions.
