So You Want To

G Hiking!

You are in one of our beautiful New York State parks and you have decided to set out on a hiking adventure. There are a couple of things to make sure of before you begin your journey.

● Know your limits

Do some homework and pick a trail that is suited to your skills and level of fitness. We all think we can climb Mount Marcy, but most likely we will enjoy a nice leisurely stroll around lakes and streams. Maps are available at many park offices or trailhead interpretive board. Pick a distance that you are comfortable with.

● Know the trail

The map will highlight information such as trail length and degree of difficulty. Some will also highlight points of interest and supply a brief history of the area. The map will prove important if you lose your way. (Breadcrumb trails have not proved successful in the past!)

● Wear the proper gear

Hiking boots that fit properly and appropriate clothing are essential. Always prepare for the worst possible weather. If you're carrying a pack, make sure it fits properly and is comfortable. In your daypack, you should have the following: at least two quarts of water, snacks (bring enough for a full day of hiking), first aid kit, pocketknife, flashlight, whistle, compass, sunscreen, extra clothing, an emergency space blanket and a fire-starting kit. Be aware of local weather forecasts.

● Let someone know...

where you are going: Always leave your itinerary with a friend stating where you will be hiking and when you plan to return. In case you get lost or are injured, they will know where to begin looking for you.

Fireside Dining

Who says that fireside dining has to be boring?

Here are some of our favorite recipes:

Omelet-in-a-Bag

You will need 1-2 eggs per person, a little milk for each, and any fixings you might like: cheese, ham, onions, peppers (you get the idea), a large freezer zip-lock bag and pita bread (optional). Bring a pan of water to boil and put all of the ingredients into the bag. BE SURE IT IS CLOSED TIGHTLY! Place the bag in boiling water and cook until done, about 3-5 minutes. Instant omelet you can eat right from the bag or put in the pita bread for a breakfast sandwich. The best part...no pan to clean!

Dutch Oven Cobbler

Light charcoal bricks and burn white. Pour 2 (29-oz) cans of peaches and juice into #12 Dutch oven. Sprinkle 1 dry white cake mix over fruit. Do not stir. Dust with cinnamon and dot with 1 stick of margarine or butter. Place lid on pot. Set oven on top of hot charcoal. Put pieces of hot charcoal evenly spaced on top of lid. Let bake for about 40 minutes or until browned and bubbly. Serve by large spoonfuls.

Give me Some More! (S'more!!!)

Toast one marshmallow until a light golden color. Top with two squares of chocolate and then sandwich in between one graham cracker broken in half. (If you want a different taste, replace the graham cracker with chocolate chip cookies; it will be a tough choice!)

Campfire Chili

3 lbs. cooked hamburger, 2 jars salsa, 2 lg. cans hot chili beans, 2 cans chopped tomatoes, 2 cans of tomato juice, 2 pkgs. chili seasoning

Directions: Mix all together in a large pan and let it cook. The longer the better! This makes a lot of chili, so you may want to cut it in half or add to it if for a big family. We make this after breakfast and let it sit on the side of the fire and cook all day. *-Enjoy!*

CAMPER ALERT: DON'T MOVE FIREWOOD!

A new regulation is now in effect that prohibits moving untreated firewood more than 50 miles from its source. The regulation also bans importing firewood into New York unless it has been kiln-dried to kill invasive insects.

You can help protect our forests and campgrounds from tree-killing insects and diseases:

- Leave firewood at home - do not bring wood from home to campgrounds or parks.
- Only use firewood from local sources, or wood that has been heat-treated to kill pests.
- Burn ALL your wood before leaving your campsite.

No pets are permitted in the Long Island or Palisades camping areas or in cabins in the Genesee Region. Where pets are allowed, proof of rabies inoculation is required. EVERYBODY LOVES

A CLEAN CAMPGROUND!

Whether you are primitive camping or RVing, a little effort and consideration for others is all that is needed to ensure that the next camper will enjoy their experience as much as you did.

LEAVE NO TRACE It's all about respect, for the environment and for others. If campers would just leave their campsites clean the way they found them, or a little better, then we will all be doing our share to promote safe, clean camping.

CARRY IN CARRY OUT Your mom is not there to pick up after you, so, if you take it in with you, take it out as well. If you are a backcountry camper, this is particularly important because there are no dumpsters in the backcountry.

GRAY WATER Would you drink the dirty dish water that you just washed your pans in? Not even on a dare! So why should anyone else have to? Be sure to dump gray water away from any fresh water sources and use biodegradable soap.

ASHES FROM THE GRILL Please don't dump your ashes on the ground. Either dump them in the campfire ring, or dump them in a bag and put the bag in the campground dumpster. Remember, only you can prevent forest fires!

LAUNDRIES, RESTROOMS AND SHOWERS Everyone likes a clean restroom. To guarantee this, please just clean up after yourself. If you are in the backwoods, take appropriate measures to cover human waste. Simple measures will provide great pleasures!

FISH CLEANING STATIONS Think of them as a place where you can show your friends that the big one did not get away. They are safe and prevent fish eyes from rolling around the campground.

DUMPSTERS Be sure to take along some plastic garbage bags to collect trash. The last thing you should do before leaving the campground is to make one more round and pick up any trash and put it in the dumpster. Please make sure the dumpsters are closed so that bears and raccoons cannot rummage through them.

Above all, remember: WE ALL BENEFIT WHEN NO ONE KNOWS WE WERE THERE.
