FRUIT & VEGETABLE PROCESSING
TABLE 1

Production Information Necessary to Compute Effluent Limitations

Make additional copies of this table as necessary.

Commodity ¹	Average Daily Production ² (tons/day)												Total Seasonal ³ Production (tons)
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	

¹ Product Subcategory listing on reverse side

² Average Daily Production is the total production during a calendar month divided by the number of days the facility was operating.

³ Total Seasonal Production should be based upon past production practices, present trends or committed growth.

Describe the rationale used to determine the reported production:
