APPENDIX A

Responsiveness Summary

RESPONSIVENESS SUMMARY

**Poultney Street Site
Whitehall, Washington County, New York
Site No. 5-58-019**

The Proposed Remedial Action Plan (PRAP) for the Poultney Street site, was prepared by the New York State Department of Environmental Conservation (NYSDEC) in consultation with the New York State Department of Health (NYSDOH) and was issued to the document repositories in November 2003. The PRAP outlined the remedial measure proposed for the contaminated soil and groundwater at the Poultney Street site.

The release of the PRAP was announced by sending a notice to the public contact list, informing the public of the opportunity to comment on the proposed remedy.

A public meeting was held on December 3, 2003, which included a presentation of the Remedial Investigation (RI) and the Feasibility Study (FS) as well as a discussion of the proposed remedy. The meeting provided an opportunity for citizens to discuss their concerns, ask questions and comment on the proposed remedy. These comments have become part of the Administrative Record for this site. The public comment period for the PRAP ended on December 31, 2003. No public comments regarding the remedy were received.

APPENDIX B

Administrative Record

Administrative Record

Poultney Street Site Site No. 5-58-019

1. Proposed Remedial Action Plan for the Poultney Street site, dated November 2003, prepared by the NYSDEC.
