### **Order on Consent**

NEW YORK STATE DEPARTMENT OF  
ENVIRONMENTAL CONSERVATION

In the Matter of the  
Development and Implementation  
Of a Remedial Program for an  
Inactive Hazardous Waste Disposal  
Site under Article 27, Title 13  
of the Environmental Conservation Law  
by

Respondents listed on Attachment A and Settling Parties  
listed on Attachment B.

**ORDER ON CONSENT  
and  
ADMINISTRATIVE  
SETTLEMENT**

Index #B9-0571-00-01

Site # 932110

**WHEREAS,**

1. A. The New York State Department of Environmental Conservation ("Department") is responsible for inactive hazardous waste disposal site remedial programs pursuant to Article 27, Title 13 of the Environmental Conservation Law ("ECL") and Part 375 of Title 6 of the Official Compilation of Codes, Rules and Regulations ("6 NYCRR") and may issue orders consistent with the authority granted to the Commissioner by such statute.

B. The Department is responsible for carrying out the policy of the State of New York to conserve, improve and protect its natural resources and environment and control water, land, and air pollution consistent with the authority granted to the Department and the Commissioner by Article 1, Title 3 of the ECL.

C. The Department also has authority to enter into a settlement agreement with persons to resolve liability to the Department under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. §§ 9601 *et seq.*, and the ECL and through this settlement, upon completion of implementation of the remedy provided for herein, to fully and completely satisfy and release each and every claim, demand, remedy or action whatsoever against the signatories hereto through this Order on Consent and Administrative Settlement ("Order" or "Settlement").

D. This Order is issued pursuant to the Department's authority under, *inter alia*, ECL Article 27, Title 13, ECL 3-0301 and CERCLA, and resolves Respondents' and the Settling Parties liability to the State as provided at 6 NYCRR 375-1.5(b)(5) and 42 USC 9613.

2. Those parties listed on Attachment A, and 5335 River Road Inc, who is the owner of the Site ("Owner Respondent"), collectively referred to as the "Respondents" have contributed funds toward, and under this Order commit to, implementing the Remedial Program to completion, and to resolve their alleged responsibility for the Site.

3. The parties listed in Attachment B to this Order are each a "Settling Party" and collectively referred to as the "Settling Parties." Each Settling Party has contributed funds toward the Site Remedial Program and resolved their alleged responsibility for the Site. Settling Parties are not a Respondent for purposes of this Settlement.

4. The Site known as Frontier Chemical – Royal Avenue is a 9-acre parcel located at 4626 Royal Avenue within the industrial area of the City of Niagara Falls, New York, about one mile north of the Niagara River (hereinafter the "Site"). Exhibit "A" is a map of the Site showing its general location.

5. The Site is currently listed in the *Registry of Inactive Hazardous Waste Disposal Sites in New York State* as Site Number 932110 with a Classification "2" pursuant to ECL 27-1305.

6. Respondents consent to the issuance of this Order without (i) an admission or finding of liability, fault, wrongdoing, or violation of any law, regulation, permit, order, requirement, or standard of care of any kind; (ii) an acknowledgment that there has been a past release or threatened release of hazardous waste at or from the Site; and/or (iii) an acknowledgment that a release or threatened release of hazardous waste at or from the Site constitutes a significant threat to the public health or environment.

7. Solely with regard to the matters set forth below, Respondents hereby waive any right to a hearing as may be provided by law, consent to the issuance and entry of this Order, and agree to be bound by its terms. Respondents consent to and agree not to contest the authority or jurisdiction of the Department to issue or enforce this Order, and agree not to contest the validity of this Order or its terms or the validity of data submitted to the Department by Respondents pursuant to this Order. Nothing contained in this Order shall be construed as, or constitute an admission as to liability or as to any finding of fact or conclusion of law by any Respondent in any action or proceeding other than an action or proceeding brought solely to enforce a Respondent's obligations under this Order.

**NOW, having considered this matter and being duly advised, IT IS ORDERED THAT:**

I. Initial Submittal

Within thirty (30) Days after the effective date of this Order, Respondents shall submit to the Department a Records Search Report prepared in accordance with Exhibit "B" attached hereto. The Records Search Report will not be required.

II. Development, Performance, and Reporting of Work Plans

A. Work Plans

All activities at the Site that comprise any element of an Inactive Hazardous Waste Disposal Site Remedial Program shall be conducted pursuant to one or more Department-approved work plans ("Work Plan" or "Work Plans") and this Order and all activities shall be consistent with the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 C.F.R. Part 300, as required under CERCLA, 42 U.S.C. § 9600 *et seq.* The Work Plan(s) under this Order, except those addressing radiological materials, shall address both on-Site and

off-Site conditions and shall be developed and implemented in accordance with 6 NYCRR § 375-1.6(a). Except to the extent set forth in the Work Plan(s) addressing radiological materials, Respondents are not subject to the provisions of 6 NYCRR Part 380 and Respondents are not responsible for addressing any off-site radiological materials, whether detected adjacent to the Site or at any off-site disposal location for radiological materials removed from the Site. All Department-approved Work Plans shall be incorporated into and become enforceable parts of this Order. Upon approval of a Work Plan by the Department, Respondents shall implement such Work Plan in accordance with the schedule contained therein. Nothing in this Subparagraph shall mandate that any particular Work Plan be submitted. This Order requires the submission of a Remedial Action Schedule and the Submission of a Site Management Plan to implement the remedial programs selected in the Records of Decision dated March 18, 2011 and March 28, 2012 ("ROD"). The Remedial Action Schedule and Site Management Plan must satisfy the requirements set forth in the ("ROD") for the Site and be consistent with the RD approved by the Department and appended hereto.

Each Work Plan submitted shall use one of the following captions on the cover page:

1. Site Characterization ("SC") Work Plan: a Work Plan whose objective is to identify the presence of any hazardous waste disposal at the Site;
2. Remedial Investigation/Feasibility Study ("RI/FS") Work Plan: a Work Plan whose objective is to perform a Remedial Investigation and a Feasibility Study;
3. Interim Remedial Measure ("IRM") Work Plan: a Work Plan whose objective is to provide for an Interim Remedial Measure;
4. Remedial Design/Remedial Action ("RD/RA") Work Plan: a Work Plan whose objective is to provide for the development and implementation of final plans and specifications for implementing the remedial alternative set forth in the ROD; or
5. Site Management Plan: a Work Plan whose objective is to identify and implement the institutional and engineering controls required for the Site, as well as any necessary monitoring and/or operation and maintenance of the remedy.

**B. Submission/Implementation of Work Plans**

1. (a) Respondents have submitted and the Department has approved a Remedial Design Work Plan ("the RD Work Plan"). The Remedial Action Schedule shall be submitted to the Department within fifteen (15) Days after the effective date of this Order.

(b) The Department may request that Respondents submit additional or supplemental Work Plans for the Site that are consistent with the ROD in the event that the implementation of the RD Work Plan and Remedial Action Schedule do not achieve the remedial objectives of the ROD. Within thirty (30) Days after the Department's written request, Respondents shall advise the Department in writing whether they will submit and implement the requested additional or supplemental Work Plan. If Respondents elect to submit and implement such Work Plan, Respondents shall submit the requested Work Plan within sixty (60) Days after

such election. If Respondents fail to make a timely election, Respondents shall be in violation of this Order.

(c) Respondents may opt to propose one or more additional or supplemental Work Plans (including one or more IRM Work Plans) at any time, which the Department shall review for appropriateness and technical sufficiency.

(d) Any request made by the Department under Subparagraph II.B.1.(b) shall be subject to dispute resolution pursuant to Paragraph XII.

2. Professional Engineer must stamp and sign all Work Plans other than SC or RI/FS Work Plans.

3. During all field activities conducted under this Order, Respondents shall have on-Site a representative who is qualified to supervise the activities undertaken. Such representative may be an employee or a consultant retained by Respondents to perform such supervision.

C. Modifications to Work Plans

The Department shall notify Respondents in writing if the Department determines that any element of a Department-approved Work Plan needs to be modified in order to achieve the objectives of the Work Plan as set forth in Subparagraph II.A or to ensure that the Remedial Program selected in the ROD and defined in the approved RD otherwise protects human health and the environment. Upon receipt of such notification, Respondents shall provide written notification as provided at 6 NYCRR 375-1.6(d)(3) as to whether it will modify the Work Plan, or invoke dispute resolution. Notwithstanding the foregoing, the Remedial Program with regard to radiological materials has been approved by the Department and there shall be no modification or supplementation to the approved Remedial Program as to radiological materials.

D. Submission of Final Reports and Annual Reports

1. In accordance with the schedule contained in a Work Plan, Respondents shall submit a final report as provided at 6 NYCRR 375-1.6(b) and a final engineering report as provided at 6 NYCRR 375-1.6(c).

2. Any final report or final engineering report that includes construction activities shall include "as built" drawings showing any changes made to the RD or the IRM.

3. In the event that the final engineering report for the Site requires Site management, Owner Respondent shall submit an annual report by the 1<sup>st</sup> Day of the month following the anniversary of the start of the Site management. Such annual report shall be signed by a Professional Engineer or by such other qualified environmental professional as the Department may find acceptable and shall contain a certification as provided at 6 NYCRR 375-1.8(h)(3). Owner Respondent may petition the Department for a determination that the institutional and/or engineering controls may be terminated. Such petition must be supported by a statement by a Professional Engineer that such controls are no longer necessary for the

protection of public health and the environment. The Department shall not unreasonably withhold its approval of such petition.

E. Review of Submittals other than Progress Reports and Health and Safety Plans

1. The Department shall make a good faith effort to review and respond in writing to each submittal Respondent makes pursuant to this Order within sixty (60) Days. The Department's response shall include an approval or disapproval of the submittal, in whole or in part. All Department-approved submittals shall be incorporated into and become an enforceable part of this Order.

2. If the Department disapproves a submittal, whether in whole or in part, it shall specify the reasons for its disapproval. Within thirty (30) Days after the date of the Department's written notice that Respondents' submittal has been disapproved, Respondent shall make a revised submittal that addresses all of the Department's stated reasons for disapproving the first submittal. In the event that Respondents' revised submittal is disapproved, the Department shall set forth its reasons for such disapproval in writing and Respondents shall be in violation of this Order unless it invokes dispute resolution pursuant to Paragraph XII and its position prevails. Failure to make an election or failure to comply with the election is a violation of this Order.

3. Within thirty (30) Days after the Department's approval of a final report, Respondents shall submit such final report, as well as all data gathered and drawings and submittals made pursuant to such Work Plan, in an electronic format acceptable to the Department. If any document cannot be converted into electronic format, Respondents shall submit such document in an alternative format acceptable to the Department.

F. Department's Issuance of ROD

The Department has selected final remedial alternatives for the Site in RODs dated March 18, 2011 and March 28, 2012.

G. Release and Covenant Not to Sue

1. Settling Parties Release. Upon the payment of the allocated share of each Settling Party into the trust fund established by the Respondents to fund performance of the Remedial Program and Respondents advising the Department of such payment, the State covenants not to sue, execute judgment, or take any civil, judicial or administrative action under any federal, state, local or common law against such Settling Party with respect to the Site and such Settling Party shall be deemed to have fully satisfied their obligations hereunder and be fully and completely released by, and shall not be liable to, the Department upon any statutory or common law cause of action, including but not limited to, past or future oversight costs and natural resource damages, arising out of the presence of any contaminants in, on, or emanating from the Site.

2. Respondents' Release. Upon completion of the Remedial Program with regard to radiological materials, Respondents shall be completely and finally released of any liability for, or with respect to, any radiological materials on, under or associated with the Site. This release shall not extend to any particular Respondent or Settling Party in the event it is discovered that

such Respondent or Settling Party in fact released prior to the effective date of this Order radiological materials on under or associated with the Site, nor shall it extend to the Owner Respondent with respect to the disturbance of any radiological materials located on the Site outside of the area subject to remediation ("Remediation Area") pursuant to this Order nor shall it extend to the Owner Respondent with respect to any radiological materials located on the Site inside the Remediation Area if the Department determines that the approved Work Plan addressing the radiological materials in the Remediation Area is no longer protective of public health or the environment due to such disturbance. Upon the Department's issuance of a Certificate of Completion as provided at 6 NYCRR 375-1.9 and 375-2.9, Respondents shall obtain the benefits conferred by such provisions, subject to the terms and conditions described therein. Notwithstanding any law, rule, or regulation to the contrary, but subject to the exceptions set forth above Respondents shall obtain a full and final liability release for any radiological materials, whether or not naturally occurring, and for natural resources damages (notwithstanding the exclusion of such a release found within NYCRR 375-2.9), and not subject to the Reservation of Rights provision in Paragraph VII herein.

3. With respect to both Settling Parties and Respondents, this Order qualifies as an administrative settlement of liability for purposes of CERCLA.

#### H. Progress Reports

Respondents shall submit written progress reports to the parties identified in Subparagraph XI.A.1 by the 10<sup>th</sup> Day of each month commencing with the month subsequent to the approval of the Remedial Action Work Plan and ending with the Termination Date, unless a different frequency is set forth in an approved Work Plan. Such reports shall, at a minimum, include: all actions taken pursuant to this Order during the reporting period and those anticipated for the upcoming reporting period; all approved modifications to work plans and/or schedules; all results of sampling and tests and all other data received or generated by or on behalf of

Respondents in connection with the Site during the reporting period, including quality assurance/quality control information; information regarding percentage of completion, unresolved delays encountered or anticipated that may affect the future schedule, and efforts made to mitigate such delays; and information regarding activities undertaken in support of the Citizen Participation Plan during the reporting period and those anticipated for the upcoming reporting period.

#### III. Penalties

A. 1. Respondents' failure to comply with any term of this Order constitutes a violation of this Order that is applicable to such Party, the ECL, and 6 NYCRR 375-2.11(a)(4). Nothing herein abridges Respondents' right to contest any allegation that it has failed to comply with this Order.

2. Payment of any penalties shall not in any way alter Respondents' obligations under this Order.

B. 1. Respondents shall not suffer any penalty or be subject to any proceeding or action in the event it cannot comply with any requirement of this Order as a result of any Force Majeure Event as provided at 6 NYCRR 375-1.5(b)(4). Respondents must use best efforts to anticipate the potential Force Majeure Event, best efforts to address any such event as it is occurring, and best efforts following the Force Majeure Event to minimize delay to the greatest extent possible. "Force Majeure" does not include Respondents' economic inability to comply with any obligation, the failure of Respondents to make complete and timely application for any required approval or permit, and non-attainment of the goals, standards, and requirements of this Order.

2. Respondents shall notify the Department in writing within five (5) Days of the onset of any Force Majeure Event. Failure to give such notice within such five (5) Day period constitutes a waiver of any claim that a delay is not subject to penalties. Respondents shall be deemed to know of any circumstance which they, any entity controlled by them, or their contractors knew or should have known.

3. Respondents shall have the burden of proving by a preponderance of the evidence that (i) the delay or anticipated delay has been or will be caused by a Force Majeure Event; (ii) the duration of the delay or the extension sought is warranted under the circumstances; (iii) best efforts were exercised to avoid and mitigate the effects of the delay; and (iv) Respondents complied with the requirements of Subparagraph IV.B.2 regarding timely notification.

4. If the Department agrees that the delay or anticipated delay is attributable to a Force Majeure Event, the time for performance of the obligations that are affected by the Force Majeure Event shall be extended for a period of time equivalent to the time lost because of the Force majeure event, in accordance with 375-1.5(4).

5. If the Department rejects Respondents' assertion that an event provides a defense to non-compliance with this Order pursuant to Subparagraph IV.B, Respondents shall be in violation of this Order unless it invokes dispute resolution pursuant to Paragraph XII and Respondents' position prevails.

#### IV. Entry upon Site

A. Owner Respondent hereby consents, upon reasonable notice under the circumstances presented, to entry upon the Site (or areas in the vicinity of the Site which may be under the control of Owner Respondent) by any duly designated officer or employee of the Department or any State agency having jurisdiction with respect to matters addressed pursuant to this Order, and by any agent, consultant, contractor, or other person so authorized by the Commissioner, all of whom shall abide by the health and safety rules in effect for the Site, for inspecting, sampling, copying records related to the contamination at the Site, testing, and any other activities necessary to ensure Respondents' compliance with this Order. Upon request, Respondents shall (i) provide the Department with suitable work space at the Site, including access to a telephone, to the extent available, and (ii) permit the Department full access to all non-privileged records relating to matters addressed by this Order. Raw data is not considered privileged and that portion of any privileged document containing raw data must be provided to

the Department. In the event Respondents are unable to obtain any authorization from third-party property owners necessary to perform its obligations under this Order, the Department may, consistent with its legal authority, assist in obtaining such authorizations.

B. The Department shall have the right to take its own samples and scientific measurements and the Department and Respondents shall each have the right to obtain split samples, duplicate samples, or both, of all substances and materials sampled. The Department shall make the results of any such sampling and scientific measurements available to Respondents.

#### V. Payment of State Costs

Provided that the Respondents comply with the requirements of this Order, and in consideration of the Department's contribution to its pro rata orphan share and the Respondents agreeing to not seek contribution from the United States in the event the Department separately settles its claims against the United States, the Department will not seek payment of past or future State Costs from the Respondents.

#### VI. Reservation of Rights

A. Except as provided at 6 NYCRR 375-1.9 and 375-2.9, nothing contained in this Order shall be construed as barring, diminishing, adjudicating, or in any way affecting any of the Department's rights or authorities, including, but not limited to, the right to require performance of further investigations and/or response action(s), and/or to exercise any summary abatement powers with respect to any person, including Respondents. Notwithstanding the foregoing, this Order qualifies as an administrative settlement of liability for purposes of CERCLA pursuant to 42 USC 9613 and *Niagara Mohawk Power Corporation v. Chevron U.S.A, Inc.*, 596 F.3d 112; 2010 U.S. App. LEXIS 3859, \*\*; 70 ERC (BNA) 1001; 40 ELR 20060 (2<sup>nd</sup> Cir. Feb. 24, 2010).

B. Except as otherwise provided in this Order, Respondents and Settling Parties specifically reserve all rights and defenses under applicable law respecting any Departmental assertion of remedial liability against Respondents, and further reserves all rights respecting the enforcement of this Order, including the rights to notice, to be heard, to appeal, and to any other due process. The existence of this Order or Respondents' compliance with it shall not be construed as an admission of liability, fault, wrongdoing, or breach of standard of care by Respondents, and shall not give rise to any presumption of law or finding of fact, or create any rights, or grant any cause of action, which shall inure to the benefit of any third party. Further, Respondents and Settling Parties reserve such rights as each may have to seek and obtain contribution, indemnification, contractual indemnification and/or any other form of recovery from their insurers and from other potentially responsible parties, other than Settling Parties, or their insurers for past or future response and/or cleanup costs or such other costs or damages arising from the contamination at the Site as may be provided by law, including but not limited to rights of contribution under section 113(f)(3)(B) of CERCLA, 42 U.S.C. § 9613(f)(3)(B).

#### VII. Indemnification

Respondents shall indemnify and hold the Department, the State of New York, the Trustee of the State's natural resources, and their representatives and employees harmless as

provided by 6 NYCRR 375-2.5(a)(3)(i) to the extent that ECL 27-1313.1.c is not applicable. However nothing herein shall be construed as establishing any indemnification or hold harmless obligation with regard to claims, if any, arising from the handling, removal and/or disposal of radiological materials from, or on, the Site as approved by the Department in the approved Remedial Program for radiological materials.

#### IX. Public Notice

A. Within thirty (30) Days after the effective date of this Order, Owner Respondent shall provide notice as required by 6 NYCRR 375-1.5(a). Within sixty (60) Days of such filing, Owner Respondent shall provide the Department with a copy of such instrument certified by the recording officer to be a true and faithful copy.

B. If Owner Respondent proposes to transfer by sale or lease the whole or any part of Owner Respondent's interest in the Site, or becomes aware of such transfer, Owner Respondent shall, not fewer than forty-five (45) Days before the date of transfer, or within forty-five (45) Days after becoming aware of such conveyance, notify the Department in writing of the identity of the transferee and of the nature and proposed or actual date of the conveyance, and shall notify the transferee in writing, with a copy to the Department, of the applicability of this Order. However, such obligation shall not extend to a conveyance by means of a corporate reorganization or merger or the granting of any rights under any mortgage, deed, trust, assignment, judgment, lien, pledge, security agreement, lease, or any other right accruing to a person not affiliated with Owner Respondent to secure the repayment of money or the performance of a duty or obligation.

#### X. Environmental Easement

A. If a Department-approved final engineering report for the Site relies upon one or more institutional and/or engineering controls, Owner Respondent or other owner of the Site shall submit to the Department for approval an Environmental Easement to run with the land in favor of the State which complies with the requirements of ECL Article 71, Title 36, and 6 NYCRR 375-1.8(h)(2). Upon acceptance of Environmental Easement by the State, Owner Respondent or other owner of the Site shall comply with the requirements of 6 NYCRR 375-1.8(h)(2).

B. The ROD provides for the implementation of one or more institutional controls. Owner Respondent or other owner of the Site shall cause an environmental easement to be recorded under the provisions of Subparagraph X.A. If Owner Respondent or other owner of the Site does not cause such environmental easement to be recorded in accordance with 6 NYCRR 375-1.8(h)(2), Owner Respondent, or other owner of the Site and Respondents will not be entitled to the benefits conferred by 6 NYCRR 375-1.9 and 375-2.9.

#### XI. Communications

A. All written communications required by this Order shall be transmitted by United States Postal Service, by private courier service, or hand delivered as follows:

1. Communication from Respondents shall be sent to:

Gregory Sutton, P.E.  
Division of Environmental Remediation  
New York State Department of Environmental Conservation  
270 Michigan Avenue  
Buffalo, New York 14203-2999  
[gpsutton@gw.dec.state.ny.us](mailto:gpsutton@gw.dec.state.ny.us)

Note: three hard copies (one unbound) of work plans are required, as well as one electronic copy, with copies to:

Krista Anders  
Bureau of Environmental Exposure Investigation  
New York State Department of Health  
Empire State Plaza  
Corning Tower Room 1787  
Albany, New York 12237  
[kma06@health.state.ny.us](mailto:kma06@health.state.ny.us)

Fax – (716) 855-0327  
[pruppar@dhpqlaw.com](mailto:pruppar@dhpqlaw.com)

B. The Department and Respondents reserve the right to designate additional or different addressees for communication upon written notice to the other.

C. Each party shall notify the other within ninety (90) Days after any change in the addresses in this Paragraph XI.

## XII. Dispute Resolution

In the event disputes arise under this Order, Respondents may, within fifteen (15) Days after Respondents knew or should have known of the facts which are the basis of the dispute, initiate dispute resolution in accordance with the provisions of 6 NYCRR 375-1.5(b)(2). Nothing contained in this Order shall be construed to authorize Respondents to invoke dispute resolution with respect to the remedy selected by the Department in the ROD or any element of such remedy, nor to impair any right of Respondents to seek judicial review of the Department's selection of any remedy.

## XIII. Termination of Order

A. This Order will terminate upon the Department's written determination that Respondents have completed all phases of the Remedial Program (including Site Management), in which event the termination shall be effective on the 5<sup>th</sup> Day after the date of the Department's approval of the final report relating to the final phase of the Remedial Program.

B. Notwithstanding the foregoing, the provisions contained in Paragraphs II(G), VI and VII shall survive the termination of this Order and any violation of such surviving Paragraphs shall be a violation of this Order, the ECL, and 6 NYCRR 375-2.11(a)(4), subjecting Respondents to penalties as provided under Paragraph IV so long as such obligations accrued on or prior to the Termination Date.

## XIV. Miscellaneous

A. Respondents agree to comply with and be bound by the provisions of 6 NYCRR Subparts 375-1 and 375-2; the provisions of such Subparts that are referenced herein are referenced for clarity and convenience only and the failure of this Order to specifically reference any particular regulatory provision is not intended to imply that such provision is not applicable to activities performed under this Order.

B. The Department exempts Respondents from the requirement to obtain any state or local permit or other authorization for any activity conducted pursuant to this Order in accordance with 6 NYCRR 375-1.12(b), (c), and (d), and, except to the extent set forth in the Work Plan(s) addressing radiological materials, the requirements of 6 NYCRR Part 380.

C. 1. Respondents shall use best efforts to obtain all Site access, permits, easements, approvals, institutional controls, and/or authorizations necessary to perform Respondents' obligations under this Order, including all Department-approved Work Plans and the schedules contained therein. If, despite Respondents' best efforts, any access, permits, easements, approvals, institutional controls, or authorizations cannot be obtained, Respondents shall promptly notify the Department and include a summary of the steps taken. The Department may, as it deems appropriate and within its authority, assist Respondents in obtaining same.

2. If an interest in property is needed to implement an institutional control required by a Work Plan and such interest cannot be obtained, the Department may require Respondents to modify the Work Plan pursuant to 6 NYCRR 375-1.6(d)(3) to reflect changes necessitated by Respondents' inability to obtain such interest.

D. The paragraph headings set forth in this Order are included for convenience of reference only and shall be disregarded in the construction and interpretation of any provisions of this Order.

E. 1. The terms of this Order shall constitute the complete and entire agreement between the Department, Respondents concerning the implementation of the activities required by this Order. No term, condition, understanding, or agreement purporting to modify or vary any term of this Order shall be binding unless made in writing and subscribed by the party to be bound. No informal advice, guidance, suggestion, or comment by the Department shall be construed as relieving Respondents of Respondents' obligations to obtain such formal approvals as may be required by this Order. In the event of a conflict between the terms of this Order and any Work Plan submitted pursuant to this Order, the terms of this Order shall control over the terms of the Work Plan(s). Respondents consent to and agree not to contest the authority and jurisdiction of the Department to enter into or enforce this Order.

2. i. Except as set forth herein, if Respondents desire that any provision of this Order be changed, Respondents shall make timely written application to the Commissioner with copies to the parties listed in Subparagraph XI.A.1.

ii. If Respondents seek to modify an approved Work Plan, a written request shall be made to the Department's project manager, with copies to the parties listed in Subparagraph XI.A.1.

iii. Requests for a change to a time frame set forth in this Order shall be made in writing to the Department's project attorney and project manager; such requests shall not be unreasonably denied and a written response to such requests shall be sent to Respondents promptly.

F. 1. There are multiple parties signing this Order. The obligations of each such party under this Order are joint and several, except as to obligations assigned only to the Owner Respondent or other owner of the Site, which obligations shall be several and not joint, and the insolvency of or failure by any Respondent to implement any obligations under this Order shall not affect the obligations of the remaining Respondent(s) under this Order.

2. If any Respondent is a partnership, the obligations of all general partners (including limited partners who act as general partners) under this Order are joint and several and the insolvency or failure of any general partner to implement any obligations under this Order shall not affect the obligations of the remaining partner(s) under this Order.

3. Notwithstanding the foregoing Subparagraphs XIV.F.1 and 2, if multiple parties sign this Order as Respondents but not all of the signing parties elect to implement a Work Plan, all Respondents are jointly and severally liable for each and every obligation under this Order through the completion of activities in such Work Plan that all such parties consented

to; thereafter, only those Respondents electing to perform additional work shall be jointly and severally liable under this Order for the obligations and activities under such additional Work Plan(s). The parties electing not to implement the additional Work Plan(s) shall have no obligations under this Order relative to the activities set forth in such Work Plan(s). Further, (i) only those Respondents electing to implement such additional Work Plan(s) shall be eligible to receive the Liability Limitation referenced in Subparagraph II.G and (ii) if, after a final allocation adopted by Respondents, a Respondent fails to pay its allocated share of liability, such Respondent(s) shall not be eligible to receive the Liability Limitation in Subparagraph II. G and, notwithstanding any other provision of this Order to the contrary, such non-paying Respondent shall be subject to claims for contribution..

G. Respondents, including the Settling Parties set forth in Attachment B, shall be entitled to receive contribution protection, and Respondents shall be entitled to seek cost recovery and/or contribution, to the extent authorized by CERCLA (42 USC Secs. 9607 & 9613), and 6 NYCRR 375-1.5(b)(5).

H. Unless otherwise expressly provided herein, terms used in this Order which are defined in ECL Article 27 or in regulations promulgated thereunder shall have the meaning assigned to them under said statute or regulations.

I. Respondents' obligations under this Order represent payment for or reimbursement of response costs, and shall not be deemed to constitute any type of fine or penalty.

J. Respondents and their successors and assigns shall be bound by this Order. Any change in ownership or corporate status of any Respondent shall in no way alter such Respondent's responsibilities under this Order.

K. This Order may be executed for the convenience of the parties hereto, individually or in combination, in one or more counterparts, each of which shall be deemed to have the status of an executed original and all of which shall together constitute one and the same.

L. The effective date of this Order is the 10<sup>th</sup> Day after it is signed by the Commissioner or the Commissioner's designee.

NIAGARA COUNTY, NEW YORK  
DEPARTMENT OF REAL PROPERTY SERVICES

**EXHIBIT "B"**

**RECORDS SEARCH REPORT**

1. Detail all environmental data and information within Respondent's or Respondent's agents' or consultants' possession or control regarding environmental conditions at or emanating from the Site.

2. A comprehensive list of all existing relevant reports with titles, authors, and subject matter, as well as a description of the results of all previous investigations of the Site and of areas immediately surrounding the Site which are or might be affected by contamination at the Site, including all available topographic and property surveys, engineering studies, and aerial photographs.

3. A concise summary of information held by Respondent and Respondent's attorneys and consultants with respect to:

- (i) a history and description of the Site, including the nature of operations;
- (ii) the types, quantities, physical state, locations, methods, and dates of disposal or release of hazardous waste at or emanating from the Site;
- (iii) a description of current Site security (i.e. fencing, posting, etc.); and
- (iv) the names and addresses of all persons responsible for disposal of hazardous waste, including the dates of such disposal and any proof linking each such person responsible with the hazardous wastes identified.
