Receive Site Information by Email. See next page to Learn How.

Site Name: Eighteenmile Creek Sediments

October 4, 2012

Site No. 932156

Site Location: Eighteenmile Creek (Between Harwood St., City of Lockport and Lake Ontario at Olcott),
Niagara County, NY 14094

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (Department) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (the "Registry"). The site identified above, and located on a map on the reverse side of this page, was recently added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

The site was listed in USEPA's National Priority List (NPL) in March 2012 and public notification of this listing provided. When a site is placed on the NPL, DEC also includes the site in the State Registry of Inactive Hazardous Waste Sites as a class 2 site, and we are currently in the process of listing this site. The site extends from Harwood Street in the City of Lockport to Lake Ontario, a distance of approximately 15 miles. This site is immediately downstream of the Eighteenmile Creek Corridor Site (Site No. 932121) located in the City of Lockport. Sediment in the creek is contaminated with PCBs and metals, and there is a fish advisory (all species - eat none) for the entire creek. Furthermore, there is a potential for people to be exposed to the contamination through recreational use of the creek. Additional investigation is needed to define the nature and extent of contamination and to select appropriate remedial measures.

The Department will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the Department's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using the Department's "Environmental Site Remediation Database Search" engine which is located on the internet at: www.dec.ny.gov/cfm/xtapps/derexternal/index.cfm?pageid=3
