

SHANDAKEN FLOOD DAMAGE REDUCTION PROJECT

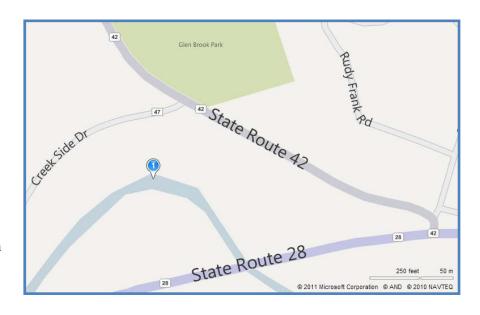

Department of Environmental Conservation

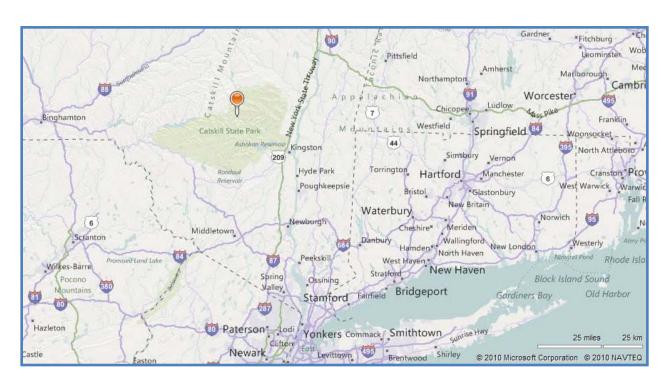

Region 3 Counties: Dutchess, Orange, Putnam, Rockland, Sullivan, **Ulster**, Westchester

PROJECT LOCATION

The project is located in Ulster County, beginning at the Route 28 Bridge over Bushnellsville Creek and is composed of an improved channel between the bridge and the confluence with the Esopus Creek, and a portion of the Esopus Creek to the east of this confluence.

Operated and Maintained by: New York State

PROJECT DESCRIPTION

The project involved clearing and excavating the channel to restore it to previous conditions as well as raising the existing spoil bank and extending it for a distance of 200 feet.

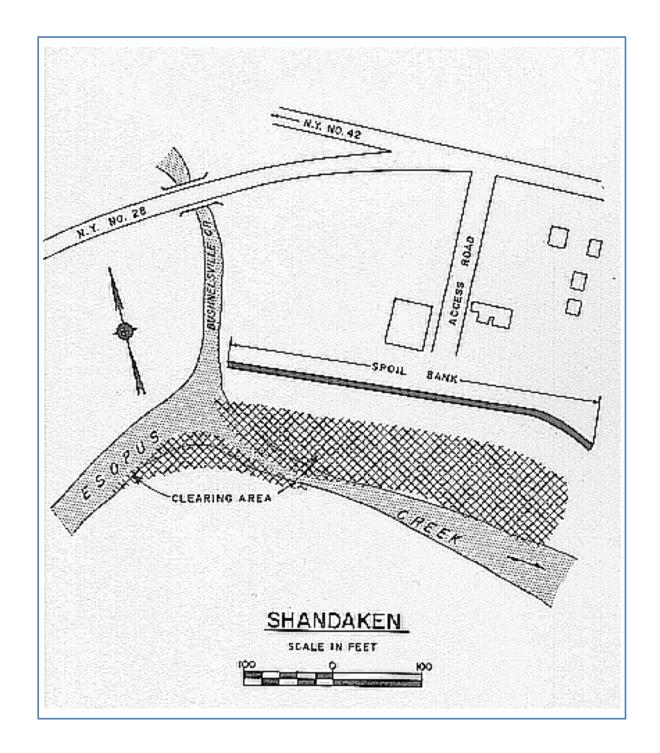

AUTHORIZATION

The combined Mount Tremper and Shandaken Projects were authorized pursuant to Section 13 of the 1946 Flood Control Act.

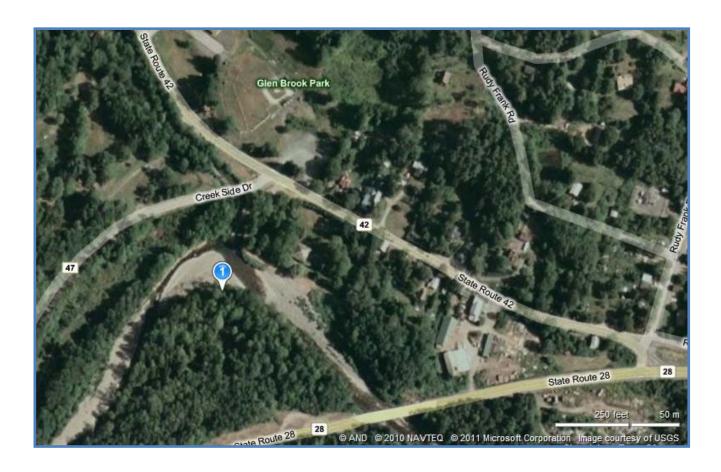

CONSTRUCTION

Construction was completed in 1954. The Federal cost of construction was \$44,380.
