

# SINCLAIRVILLE FLOOD DAMAGE REDUCTION PROJECT

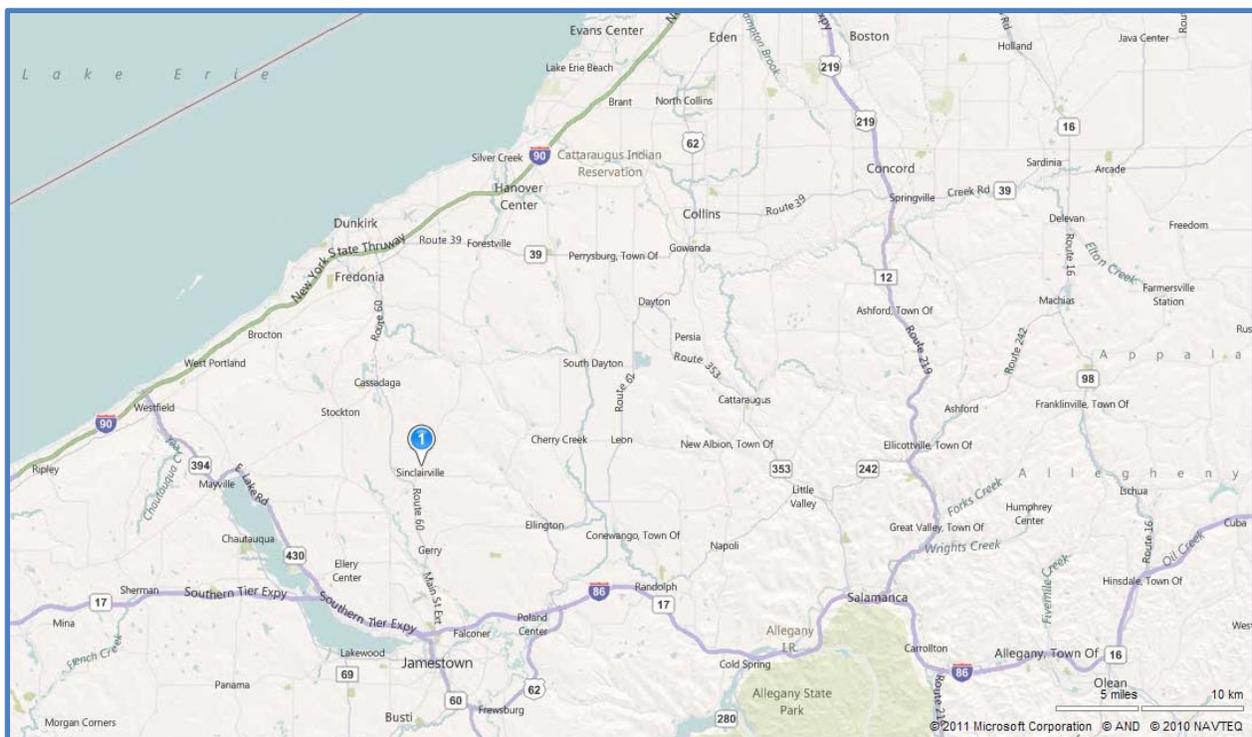

*Department of  
Environmental Conservation*

*Operated and Maintained by: The Town of Charlotte*

*Region 9 Counties: Allegany,  
Chautauqua, Cattaraugus, Erie,  
Niagara, Wyoming*

## PROJECT LOCATION

The project is located on Mill Creek in the Village of Sinclairville, Chautauqua County, New York. This is near the Pennsylvania border in western New York State.

## **PROJECT DESCRIPTION**

The project consisted of streambank protection constructed along Mill Creek at two locations:

- On the right bank adjacent to the Sinclairville Elementary School.
- On the left bank adjacent to Saint John the Evangelist Church.

## **AUTHORIZATION**

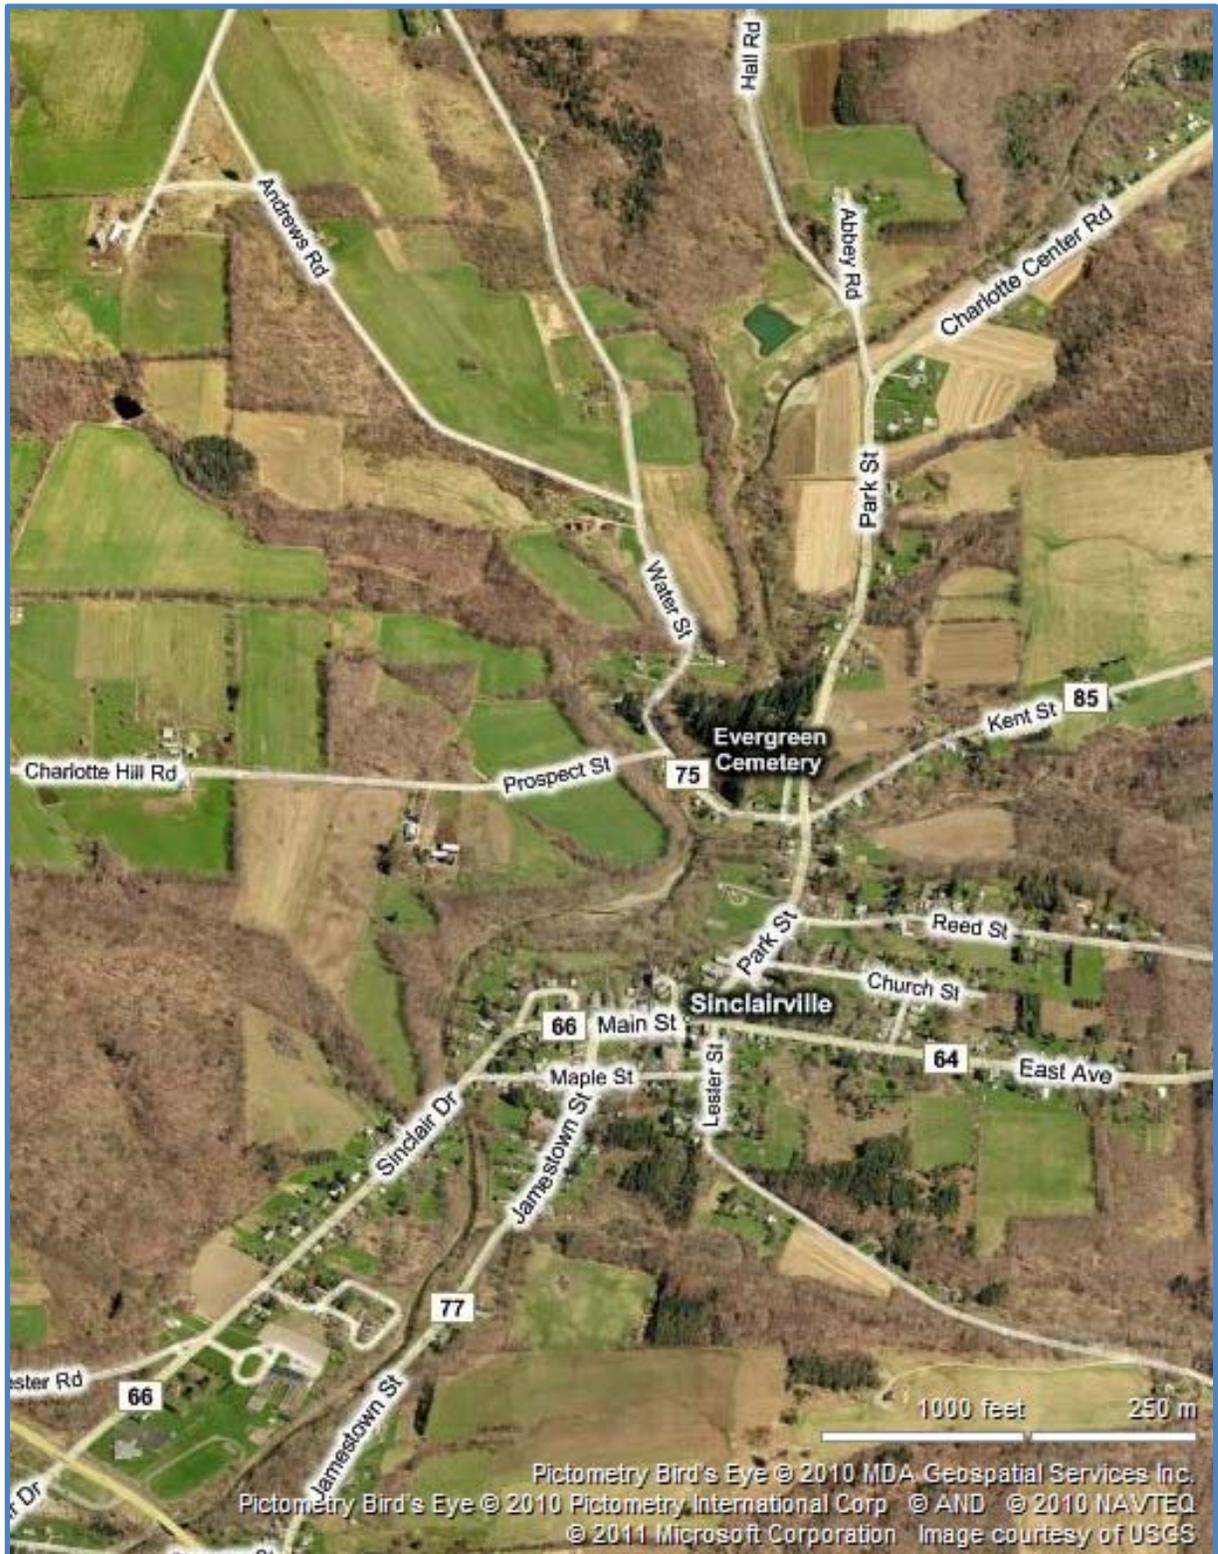

The authority for the construction of the Emergency Streambank Protection Project is contained in Section 14 of the Flood Control Act 1946, as amended.

## **CONSTRUCTION**

Construction consisted of stone protection approximately 370 feet and 275 feet in length for the school site and church site, respectively. Construction is designed to protect the affected streambank from further erosion, thereby protecting the school and church structures.
