

# HARMFUL ALGAL BLOOMS BY COUNTY

Department of  
Environmental  
Conservation

The letter codes below refer to maximum bloom status that was documented by the DEC HABs Program in each waterbody in each year.

**S (Suspicious Bloom)** DEC staff determined that conditions fit the description of a cyanobacteria HAB based on visual observations and/or digital photographs

**C (Confirmed Bloom)** Water sampling results have confirmed the presence of a cyanobacteria HAB which may produce toxins or other harmful compounds

**HT (Confirmed with High Toxins Bloom)** Water sampling results confirmed that there were toxins present in quantities to potentially cause health effects if people or animals came in contact with the water
