New York State Department of Environmental Conservation Water Withdrawal Application Supplement WW-1

Pursuant to 6 NYCRR Part 601

READ THE INSTRUCTIONS ON PAGE 2 BEFORE COMPLETING THIS FORM

	May 2013
FOR DEPAR	RTMENT USE ONLY
Application No.	
WWA Number	

1. APPLICANT NAME City of New York	2. FACILITY NAME New York City Water Supply System
3. PROJECT TYPE Water Withdrawal	New Public Water Supply Service Area or Extension
√ Land Acquisition for Public Water Supply	Change in Use of Existing Water Withdrawal
r Edita Acquistion for Fubile Water Supply	Change in ose of Existing Water Withdrawar
4. WATER USE TYPE ✓ Public Water Supply ☐ Bottled/Bulk Water	☐ Commercial ☐ Cooling ☐ Industrial
☐ Institutional ☐ Mine Dewatering	☐ Oil/Gas Production ☐ Power Production ☐ Recreational
	Oil/ das Froduction Tower Froduction Tower Control
Other:	
	public water supply, 99,990,005,100,001
provide the most re	scent wsa or wwa number:
If other than public water supply, list other existiing or p	rending related DEC permits (e.g., SPDES, Milling, Dam):
6. WATER WITHDRAWAL SOURCE Surface Water Water Body Name	various (19 reservoirs + 3 controlled lakes) - see Exhibit B
Groundwater Nearest Surface W	
	(in feet)
7. WATER SUPPLY TO OTHER STATES Does this project involve the transport of a	ny fresh water of NYS through pipes, conduits, ditches or canals to any other state?
✓ No Yes, describe:	
describe:	
8. TRANSPORTATION OF WATER BY VESSEL Does this project involve the transport water? (Excludes ballast water necessary for normal vessel activity. A vessel in the project involves.	
9. WATER WITHDRAWAL AMOUNTS This project involves the withdrawal of up to: 0 ga	llons per day Source Name
	l l
Does the project include a MAJOR DRAINAGE BASIN TRAI

INSTRUCTIONS

Water Withdrawal Application Supplement Form (WW-1)

- 1. Before completing this form, please carefully review the Water Withdrawal Permit Program page located on the Department's website at http://www.dec.ny.gov/lands/86747.html (agricultural facilities). Note that applications by existing systems for an Initial Permit shall be submitted in accordance with the schedule established in NYCRR Part 601.7(b)2 as shown in Table 1 at http://www.dec.ny.gov/lands/86935.html.
- 2. This form is to accompany the Joint Application Form. The Joint Application Form, Supplement WW-1 and their instructions are available on the Department's website at http://www.dec.ny.gov/permits/6222.html.
- 3. NYSDEC strongly encourages electronic submission of supporting documents. Submit 3 completed copies of the Joint Application Form, Supplement WW-1 and all attachments to the NYSDEC Regional Permit Administrator (refer to the Joint Application Instructions).
- 4. Applicant Name Applications must be in the name of the owner of the water withdrawal system involved. For acquisitions of existing systems, the applicant should be the prospective owner.
- 5. All Water Withdrawal Applications must include a completed Water Conservation Program Form demonstrating that the applicant has developed and implemented a Water Conservation Program that incorporates environmentally sound and economically feasible water conservation measures. Information is available on the Department's website at http://www.dec.ny.gov/lands/86945.html.
- 6. Locate and describe all facilities and service areas on appropriate maps and plans to be submitted with this form. Choose a scale for this location map that allows you to accurately define all groundwater wellhead and surface water intake positions, and the overall project area within the county or town. Include coordinates for all wellheads and intakes on the Joint Application Form, Item 8, and on additional sheets if needed.
- 7. Water Withdrawal Amounts (Item 9) Convert to gallons per day (GPD). In order to convert from gallons per minute (GPM) to GPD, multiply GPM x 1440.
- 8. All facts and opinions expressed in the application must be documented in appropriate legal, engineering, or other papers attached as exhibits and noted in Item 10 of this form.
- 9. If more room is needed to complete any item, provide the information as attachments.
- 10. All Water Withdrawal Applications must include the following items in a separate exhibit:
 - a) Names, titles, mailing addresses, and phone numbers of the Applicant's Attorney; Engineer; and other consultants (planners, geologists, etc.) serving the applicant.
 - b) A list of all maps and exhibits accompanying the application.
