

Summer Pheasant Sighting Survey

Instructions:

Dear Cooperator:

Thank you for choosing to participate in the survey of pheasant broods! The information you provide is used to monitor trends in pheasant productivity. Please adhere to the following guidelines:

- ✓ Record sightings in Livingston, Genesee, Monroe, and Wyoming counties during the month of August only.
- ✓ Fill out a separate survey card for each group of pheasants observed, including those without chicks.
- ✓ Record sightings only when you can safely stop and count the pheasants present. Use binoculars whenever possible. Do not report partial counts.
- ✓ Record the sex for all adult pheasants observed.
- ✓ Make an attempt not to report the same group multiple times. It is not critical that each group is recorded only once, but numerous duplications could bias the results.
