

PERMIT
Under the Environmental Conservation Law (ECL)

IDENTIFICATION INFORMATION

Permit Type: Air Title V Facility
Permit ID: 1-4726-00258/00037
Mod 0 Effective Date: 11/10/2015 Expiration Date: 11/09/2020
Mod 1 Effective Date: 07/07/2017 Expiration Date: 11/09/2020
Mod 2 Effective Date: Expiration Date:

Permit Issued To: POLY-PAK INDUSTRIES INC
125 SPAGNOLI RD
MELVILLE, NY 11747-3501

Contact: PETER LEVY
POLY-PAK INDUSTRIES INC
125 SPAGNOLI RD
MELVILLE, NY 11747
(631) 293-6767

Facility: POLY-PAK MFG PLANT
125 SPAGNOLI RD
MELVILLE, NY 11747

Description:
Modification of the facility's Title V Air Permit after New Source Review of the new Soma Flex Premia E 1450-8 EG Flexmont S1450 Flexographic press. The potential to emit increase based on the new press falls under 25 tons per year threshold that would require no netting out. As a result of the New Source Review, the facility VOC emission for the new press is capped at 5.85 tons per year.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: SUSAN ACKERMAN
NYSDEC - REGION 1 SUNY @ STONY BROOK
50 CIRCLE RD

Authorized Signature: _____ Date: ____ / ____ / ____

Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

****** General Provisions ******

For the purpose of your Title V permit, the following section contains state-only enforceable terms and conditions.

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department

Applicable State Requirement: ECL 19-0305

Item 1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations

Applicable State Requirement: ECL 3-0301 (2) (m)

Item 2.1:

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 1-1: Applications for permit renewals, modifications and transfers

Applicable State Requirement: 6 NYCRR 621.11

Item 1-1.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 1-1.2:

The permittee must submit a renewal application at least 180 days before the expiration of permits for Title V and State Facility Permits.

Item 1-1.3

Permits are transferrable with the approval of the department unless specifically prohibited by

the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 3: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6 NYCRR 621.11

Item 3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

Item 3.3:

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 2-1: Applications for permit renewals, modifications and transfers
Applicable State Requirement: 6 NYCRR 621.11

Item 2-1.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 2-1.2:

The permittee must submit a renewal application at least 180 days before the expiration of permits for Title V and State Facility Permits.

Item 2-1.3

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 4: Permit modifications, suspensions or revocations by the Department
Applicable State Requirement: 6 NYCRR 621.13

Item 4.1:

The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;

- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

The items listed below are not subject to the annual compliance certification requirements under Title V. Permittees may also have other obligations under regulations of general applicability.

Item A: Public Access to Recordkeeping for Title V Facilities - 6 NYCRR 201-1.10 (b)

The Department will make available to the public any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to Section 503(e) of the Act, except for information entitled to confidential treatment pursuant to 6 NYCRR Part 616 - Public Access to records and Section 114(c) of the Act.

Item B: Timely Application for the Renewal of Title V Permits - 6 NYCRR 201-6.2 (a) (4)

Owners and/or operators of facilities having an issued Title V permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

Item C: Certification by a Responsible Official - 6 NYCRR 201-6.2 (d) (12)

Any application, form, report or compliance certification required to be submitted pursuant to the federally enforceable portions of this permit shall contain a certification of truth, accuracy and completeness by a responsible official. This certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

Item D: Requirement to Comply With All Conditions - 6 NYCRR 201-6.4 (a) (2)

The permittee must comply with all conditions of the Title V facility permit. Any permit non-compliance constitutes a violation of the Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

Item E: Permit Revocation, Modification, Reopening, Reissuance or Termination, and Associated Information Submission Requirements - 6 NYCRR 201-6.4 (a) (3)

This permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and

reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Item F: Cessation or Reduction of Permitted Activity Not a Defense - 6 NYCRR 201-6.4 (a) (5)

It shall not be a defense for a permittee in an enforcement action to claim that a cessation or reduction in the permitted activity would have been necessary in order to maintain compliance with the conditions of this permit.

Item G: Property Rights - 6 NYCRR 201-6.4 (a) (6)

This permit does not convey any property rights of any sort or any exclusive privilege.

Item H: Severability - 6 NYCRR 201-6.4 (a) (9)

If any provisions, parts or conditions of this permit are found to be invalid or are the subject of a challenge, the remainder of this permit shall continue to be valid.

Item I: Permit Shield - 6 NYCRR 201-6.4 (g)

All permittees granted a Title V facility permit shall be covered under the protection of a permit shield, except as provided under 6 NYCRR Subpart 201-6. Compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that such applicable requirements are included and are specifically identified in the permit, or the Department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the major stationary source, and the permit includes the determination or a concise summary thereof. Nothing herein shall preclude the Department from revising or revoking the permit pursuant to 6 NYCRR Part 621 or from exercising its summary abatement authority. Nothing in this permit shall alter or affect the following:

i. The ability of the Department to seek to bring suit on behalf of the State of New York, or the Administrator to seek to bring suit on behalf of the United States, to immediately restrain any person causing or contributing to pollution presenting an imminent and substantial endangerment to public health, welfare or the environment to stop the emission of air pollutants causing or contributing to such pollution;

ii. The liability of a permittee of the Title V

facility for any violation of applicable requirements prior to or at the time of permit issuance;

iii. The applicable requirements of Title IV of the Act;

iv. The ability of the Department or the Administrator to obtain information from the permittee concerning the ability to enter, inspect and monitor the facility.

Item J: Reopening for Cause - 6 NYCRR 201-6.4 (i)

This Title V permit shall be reopened and revised under any of the following circumstances:

i. When additional applicable requirements under the act become applicable to a title V facility with a remaining permit term of three or more years, a reopening shall be completed not later than 18 months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which the permit is due to expire, unless the original permit or any of its terms and conditions has been extended by the department pursuant to the provisions of section 201- 6.6 of this Subpart.

ii. The Department or the Administrator determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

iii. The Department or the Administrator determines that the Title V permit must be revised or reopened to assure compliance with applicable requirements.

iv. If the permitted facility is an "affected source" subject to the requirements of Title IV of the Act, and additional requirements (including excess emissions requirements) become applicable. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

Proceedings to reopen and issue Title V facility permits shall follow the same procedures as apply to initial permit issuance but shall affect only those parts of the permit for which cause to reopen exists.

Reopenings shall not be initiated before a notice of such intent is provided to the facility by the Department at least thirty days in advance of the date that the permit

is to be reopened, except that the Department may provide a shorter time period in the case of an emergency.

Item K: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item L: Federally Enforceable Requirements - 40 CFR 70.6 (b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

The following conditions are subject to annual compliance certification requirements for Title V permits only.

Condition 21: Emission Unit Definition

Effective between the dates of 11/10/2015 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR Subpart 201-6

Item 21.1(From Mod 2):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 0-00014

Emission Unit Description:

2000 Gallon storage tank containing a non-HAP solvent blend, 60% n-propanol and 40% isopropanol.

Building(s): MOUTSIDE

New York State Department of Environmental Conservation

Permit ID: 1-4726-00258/00037

Facility DEC ID: 1472600258

Item 21.2(From Mod 2):

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 0-00CFI

Emission Unit Description:

Eight (8) flexographic printing presses and four (4) in-line presses with emissions directed to a gas-fired catalytic oxidizer which operates from January 1 to December 31.

Building(s): MOUTSIDE

Condition 2-1: Compliance Certification
Effective for entire length of Permit

Applicable Federal Requirement:6 NYCRR 231-11.1

Item 2-1.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: 0-00CFI

Emission Point: 00032

Process: P01

Emission Source: P0011

Regulated Contaminant(s):

CAS No: 0NY998-00-0 VOC

Item 2-1.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Based on the New Sources Review performed for the new press, the total emission of VOC from the new press is limited to 9 tons per year

The VOC emissions shall be calculated based on the purchase and usage of ink, solvent, and other VOC containing products; the flow rate of the press ; and the control efficiency of the thermal oxidizer. The general accuracy of the emissions calculations shall be verified by maintaining records including hours of operation, the flow meter readings, material purchase and usage, and VOC concentration of all material used.

Compliance will be determined by summing the individual monthly VOC emissions of the new press during any consecutive 12 month period using the following formulas:

Total Facility VOC emissions = Total VOC purchased – 50%

New York State Department of Environmental Conservation

Permit ID: 1-4726-00258/00037

Facility DEC ID: 1472600258

hazardous waste manifested off site * control efficiency
of the Thermal Oxidizer

New Press VOC emissions = (Flow rate of the new press
/Total capacity of all presses) * Total facility VOC
emissions.

Work Practice Type: PROCESS MATERIAL THRUPUT
Process Material: INKS, SOLVENTS AND ADHESIVES
Manufacturer Name/Model Number: Soma Premia E-1450-8 Press
Upper Permit Limit: 9 tons per year
Monitoring Frequency: MONTHLY
Averaging Method: 12-MONTH TOTAL, ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 6 calendar month(s).

Condition 2-2: Compliance Certification
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 231-11.1

Item 2-2.1:

The Compliance Certification activity will be performed for the Facility.

Item 2-2.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Any new major facility, NSR major modification or
facility netting out of applicability subject to this Part
must comply with the requirements of 6 NYCRR Part
201-6.5(a) of this Title and the following:

(1) Within 30 days of commencement of construction, the
applicant must notify the department in writing that
construction has begun.

(2) The filing of a request by the permittee for a permit
modification or renewal, or of a notification by the
permittee of planned changes or anticipated noncompliance
does not authorize the permittee to undertake any action
without department approval. The permittee shall not begin
actual construction or operate a new or modified facility
without department approval in accordance with this
Chapter. Operation in a manner other than authorized by a
permit shall be grounds for enforcement.

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

**** Emission Unit Level ****

Condition 26: Emission Point Definition By Emission Unit
Effective between the dates of 11/10/2015 and Permit Expiration Date

Applicable Federal Requirement:6 NYCRR Subpart 201-6

Item 26.1(From Mod 2):

The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 0-00014

Emission Point: 00014

Height (ft.): 13

Diameter (in.): 3

NYTMN (km.): 4513.511 NYTME (km.): 632.892 Building: MOUTSIDE

Item 26.2(From Mod 2):

The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 0-00CFI

Emission Point: 00032

Height (ft.): 30

Diameter (in.): 38

NYTMN (km.): 4513.509 NYTME (km.): 632.883 Building: MOUTSIDE

Condition 27: Process Definition By Emission Unit
Effective between the dates of 11/10/2015 and Permit Expiration Date

Applicable Federal Requirement:6 NYCRR Subpart 201-6

Item 27.1(From Mod 2):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00014

Process: P03

Source Classification Code: 4-07-146-98

Emission Source/Control: 000T1 - Control

Control Type: CONSERVATION VENT

Emission Source/Control: 00T11 - Process

Design Capacity: 2,000 gallons

Item 27.2(From Mod 2):

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-00CFI

Process: P01

Source Classification Code: 4-05-003-01

Process Description:

Polyethylene rolled sheeting is fed into presses which

New York State Department of Environmental Conservation

Permit ID: 1-4726-00258/00037

Facility DEC ID: 1472600258

apply patterns of different color inks sequentially.
Emissions are generated at locations within the presses at the "overhead oven" and at the "between color dryer."
Nine central impression cylinder flexographic presses are totally enclosed within one main press room. Four in-line presses are enclosed individually. Emissions from all thirteen presses are ducted commonly to one input into a catalytic fume incinerator.

Emission Source/Control: 00001 - Control
Control Type: CATALYTIC OXIDATION

Emission Source/Control: P0003 - Process
Design Capacity: 1,250 cubic feet per minute (standard conditions)

Emission Source/Control: P0004 - Process
Design Capacity: 500 cubic feet per minute (standard conditions)

Emission Source/Control: P0005 - Process
Design Capacity: 3,200 cubic feet per minute (standard conditions)

Emission Source/Control: P0006 - Process
Design Capacity: 3,200 cubic feet per minute (standard conditions)

Emission Source/Control: P0007 - Process
Design Capacity: 3,200 cubic feet per minute (standard conditions)

Emission Source/Control: P0008 - Process
Design Capacity: 3,600 cubic feet per minute (standard conditions)

Emission Source/Control: P0010 - Process
Design Capacity: 1,020 cubic feet per minute (standard conditions)

Emission Source/Control: P0011 - Process
Design Capacity: 3,684 cubic feet per minute (standard conditions)

Emission Source/Control: P-IN1 - Process
Design Capacity: 2,000 cubic feet per minute (standard conditions)

Emission Source/Control: P-IN2 - Process
Design Capacity: 2,000 cubic feet per minute (standard conditions)

Emission Source/Control: P-IN3 - Process
Design Capacity: 2,000 cubic feet per minute (standard conditions)

Emission Source/Control: P-IN4 - Process
Design Capacity: 2,000 cubic feet per minute (standard conditions)

STATE ONLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Emergency Defense - 6 NYCRR 201-1.5

An emergency, as defined by subpart 201-2, constitutes an affirmative defense to penalties sought in an enforcement action brought by the Department for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated and maintained;

(3) During the period of the emergency the facility owner or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and

standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS

The following conditions are state applicable requirements and are not subject to compliance certification requirements unless otherwise noted or required under 6 NYCRR Part 201.

Condition 36: Contaminant List

Effective between the dates of 11/10/2015 and Permit Expiration Date

Applicable State Requirement:ECL 19-0301

Item 36.1:

Emissions of the following contaminants are subject to contaminant specific requirements in this permit(emission limits, control requirements or compliance monitoring conditions).

CAS No: 0NY998-00-0

Name: VOC
