

Facility DEC ID: 2610100071

**PERMIT  
Under the Environmental Conservation Law (ECL)**

**IDENTIFICATION INFORMATION**

Permit Type: Air State Facility  
 Permit ID: 2-6101-00071/00024  
 Effective Date: \_\_\_\_\_ Expiration Date: \_\_\_\_\_

Permit Issued To: The Brooklyn Union Gas Company  
 1 METROTECH CTR  
 BROOKLYN, NY 11201-3831

Contact: CATHY WAXMAN  
 NATIONAL GRID  
 175 E OLD COUNTRY RD  
 HICKSVILLE, NY 11801-4280  
 (516) 545-2579

Facility: GREENPOINT ENERGY CTR  
 287 MASPETH AVE  
 BROOKLYN, NY 11211

Description:  
 The Greenpoint Energy Center of Brooklyn is located at 287 Maspeth Avenue in Brooklyn, NY. National Grid is seeking to repermit the Greenpoint Energy Center from a major Title V permit to a state facility permit. In addition, the facility is also installing two new vaporizers.

The new vaporizers 13 and 14 are identical to the newly installed vaporizer 11. The new vaporizers are being installed to meet the increased demand for natural gas and increase facility's send out capability.

This permit is to do the following:

1. Install two (2) new 42.76 MMBtu/hr vaporizers to be used to vaporize liquefied natural gas (LNG). The new vaporizers, also called vaporizers 13 and 14, will exhaust through individual stacks. These units are being permitted under emission units U-7404G, and U-7404H, respectively.

2. National Grid is requesting the Department convert the existing Title V air permit be converted to a state facility air permit since the current actual emissions of oxides of nitrogen (NOx) are well below the Title V major source threshold of 25 tons per year.

With this permit conversion, the facility's existing six (6) vaporizers will remain, two (2) existing vaporizers are being removed and two (2) new vaporizers are being installed, for a total of eight (8) vaporizers. The plant's three (3) 300 KW natural gas-fired engine-generators, two (2) 195 bhp natural gas-fired engine driven CNG refueling compressors, and one manual paint coating line remain unchanged. There are

**Facility DEC ID: 2610100071**

also exempt small natural gas fired boilers and chillers used for comfort heating or cooling, gas-fired process heaters, portable generator and fire pump engine.

Total facility NOx emissions are expected to be well below the Title V major source threshold of 25 tons per year. Therefore, National Grid is seeking to convert the existing Title V permit to a State Facility permit and accepting a facility-wide NOx CAP of 24.9 tons per year.

The facility NOx emissions are capped at 24.9 tons per year.

Records demonstrating compliance with this cap will be kept in accordance with the permit specific conditions.

The facility is subject to the provisions of State Facility requirements specified under 6NYCRR 201-7.

The Air State Facility permit contains a listing of the applicable federal, state, and facility specific compliance monitoring requirements.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator:           STEPHEN A WATTS  
  47-40 21ST ST  
  LONG ISLAND CITY, NY 11101-5401

Authorized Signature: \_\_\_\_\_ Date: \_\_\_ / \_\_\_ / \_\_\_\_\_

Facility DEC ID: 2610100071

**Notification of Other State Permittee Obligations**

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

**PAGE LOCATION OF CONDITIONS**

**PAGE**

**DEC GENERAL CONDITIONS**

**General Provisions**

- 5 1 Facility Inspection by the Department
- 5 2 Relationship of this Permit to Other Department Orders and Determinations
- 5 3 Applications for permit renewals, modifications and transfers
- 6 4 Permit modifications, suspensions or revocations by the Department

**Facility Level**

- 6 5 Submission of application for permit modification or renewal -  
REGION 2 HEADQUARTERS

Facility DEC ID: 2610100071

**DEC GENERAL CONDITIONS**  
**\*\*\*\* General Provisions \*\*\*\***  
**GENERAL CONDITIONS - Apply to ALL Authorized Permits.**

**Condition 1: Facility Inspection by the Department**  
**Applicable State Requirement: ECL 19-0305**

**Item 1.1:**  
 The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

**Item 1.2:**  
 The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

**Item 1.3:**  
 A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

**Condition 2: Relationship of this Permit to Other Department Orders and Determinations**  
**Applicable State Requirement: ECL 3-0301 (2) (m)**

**Item 2.1:**  
 Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

**Condition 3: Applications for permit renewals, modifications and transfers**  
**Applicable State Requirement: 6 NYCRR 621.11**

**Item 3.1:**  
 The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

**Item 3.2:**  
 The permittee must submit a renewal application at least 180 days before the expiration of permits for Title V and State Facility Permits.

**Item 3.3**  
 Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

**Condition 4: Permit modifications, suspensions or revocations by the Department**

Facility DEC ID: 2610100071

**Applicable State Requirement: 6 NYCRR 621.13**

**Item 4.1:**

The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

**\*\*\*\* Facility Level \*\*\*\***

**Condition 5: Submission of application for permit modification or renewal - REGION 2 HEADQUARTERS**

**Applicable State Requirement: 6 NYCRR 621.6 (a)**

**Item 5.1:**

Submission of applications for permit modification or renewal are to be submitted to:

NYSDEC Regional Permit Administrator  
Region 2 Headquarters  
Division of Environmental Permits  
1 Hunters Point Plaza, 4740 21st Street  
Long Island City, NY 11101-5407  
(718) 482-4997

DRAFT                      **\*\*\*\* Facility Level \*\*\*\***

**NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS**

**This section contains terms and conditions which are federally enforceable. Permittees may also have other obligations under regulations of general applicability**

**Item A:        Sealing - 6 NYCRR 200.5**

The Commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the Commissioner issued in the case of the violation. Sealing means labeling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

No person shall operate any air contamination source sealed by the Commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

Unless authorized by the Commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section.

**Item B:        Acceptable Ambient Air Quality - 6 NYCRR 200.6**

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

**Item C:        Maintenance of Equipment - 6 NYCRR 200.7**

Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**Item D: Unpermitted Emission Sources - 6 NYCRR 201-1.2**

(a) Except as otherwise provided by this Part, construction or operation of a new, modified or existing air contamination source without a registration or permit issued pursuant to this Part is prohibited.

(b) If an existing facility or emission source was subject to the permitting requirements of this Part at the time of construction or modification, and the owner or operator failed to apply for a permit or registration as described in this Part, the owner or operator must apply for a permit or registration in accordance with the provisions of this Part. The facility or emission source is subject to all regulations that were applicable to it at the time of construction or modification and any subsequent requirements applicable to existing emission sources.

**Item E: Recycling and Salvage - 6 NYCRR 201-1.7**

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of 6 NYCRR.

**Item F: Prohibition of Reintroduction of Collected Contaminants to the Air - 6 NYCRR 201-1.8**

No person shall unnecessarily remove, handle, or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

**Item G: Proof of Eligibility for Sources Defined as Exempt Activities - 6 NYCRR 201-3.2 (a)**

The owner and/or operator of an emission source or unit that is eligible to be exempt, may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

**Item H: Proof of Eligibility for Sources Defined as Trivial Activities - 6 NYCRR 201-3.3 (a)**

The owner and/or operator of an emission source or unit

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

that is listed as being trivial in 6 NYCRR Part 201 may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

**Item I: Required Emission Tests - 6 NYCRR 202-1.1**

An acceptable report of measured emissions shall be submitted, as may be required by the Commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the Commissioner within the time stated shall be sufficient reason for the Commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6 NYCRR Subpart 202-1.

**Item J: Open Fires Prohibitions - 6 NYCRR 215.2**

Except as allowed by section 215.3 of 6 NYCRR Part 215, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

**Item K: Permit Exclusion - ECL 19-0305**

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

**Item L: Federally Enforceable Requirements - 40 CFR 70.6 (b)**

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

**FEDERAL APPLICABLE REQUIREMENTS**  
**The following conditions are federally enforceable.**

**Condition 1: Exempt Sources - Proof of Eligibility**  
**Effective for entire length of Permit**

**Applicable Federal Requirement: 6 NYCRR 201-3.2 (a)**

**Item 1.1:**

The owner or operator of an emission source or activity that is listed as being exempt may be required to certify that it is operated within the specific criteria described in this Subpart. The owner or operator of any such emission source or activity must maintain all records necessary for demonstrating compliance with this Subpart on-site for a period of five years, and make them available to representatives of the department upon request.

**Condition 2: Compliance Demonstration**  
**Effective for entire length of Permit**

**Applicable Federal Requirement: 6 NYCRR 201-3.2 (a)**

**Item 2.1:**

The Compliance Demonstration activity will be performed for the Facility.

**Item 2.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

AS PROOF OF EXEMPT ELIGIBILITY FOR THE EMERGENCY GENERATORS, THE FACILITY MUST MAINTAIN MONTHLY RECORDS WHICH DEMONSTRATE THAT EACH ENGINE IS OPERATED LESS THAN 500 HOURS PER YEAR, ON A 12-MONTH ROLLING TOTAL BASIS.

Work Practice Type: HOURS PER YEAR OPERATION

Upper Permit Limit: 500.0 hours

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 3: Facility Permissible Emissions**

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**Effective for entire length of Permit**

**Applicable Federal Requirement:6 NYCRR Subpart 201-7**

**Item 3.1:**

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 0NY210-00-0

PTE: 49,800 pounds per year

Name: OXIDES OF NITROGEN

**Condition 4: Capping Monitoring Condition  
Effective for entire length of Permit**

**Applicable Federal Requirement:6 NYCRR Subpart 201-7**

**Item 4.1:**

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 201-6

6 NYCRR Subpart 231-2

**Item 4.2:**

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

**Item 4.3:**

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

**Item 4.4:**

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

**Item 4.5:**

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

**Item 4.6:**

The Compliance Demonstration activity will be performed for the Facility.

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Regulated Contaminant(s):

CAS No: 0NY210-00-0 OXIDES OF NITROGEN

**Item 4.7:**

Compliance Demonstration shall include the following monitoring:

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL  
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

The facility owner or operator shall limit emissions of Oxides of Nitrogen (NO<sub>x</sub>) to less than 49,800 pounds (24.9 tons) per year on a rolling 12-month total basis.

In order to demonstrate compliance with this limit the facility owner or operator shall maintain a record of the quantity of each fuel fired at the facility on a monthly basis.

The facility owner or operator shall calculate monthly and rolling 12-month total NO<sub>x</sub> emissions (including exempt sources) using the following formula:

$$(A \times E1) + (B \times E2) + (C \times E3) + (D \times E4) + (E \times E5) + (F \times E6) = \text{monthly NO}_x \text{ emissions (pounds)}$$

Where:

A = The latest AP-42 emission factor for natural gas fired in vaporizers, in lb/mm scf;

E1 = Monthly total natural gas fired in vaporizers, in mm scf;

B = The latest facility specific emission rate (Stack Test of 8/25/2003), 1,420 lb/mm scf;

E2 = Monthly total natural gas fired in 300 kW engine generator, in mm scf;

C = The latest AP-42 emission factor for natural gas fired in 195 bhp existing CNG engines, in lb/mm scf;

E3 = Monthly total natural gas fired in 195 bhp existing CNG engines, in mm scf;

D = The latest AP-42 emission factor for natural gas fired in exempt boilers, chillers and process heaters, in lb/mm scf;

E4 = Monthly total natural gas fired in exempt boilers, chillers and process heaters, in mm scf;

E = The latest AP-42 emission factor for natural gas fired in exempt emergency portable generator, in lb/mm scf;

E5 = Monthly total natural gas fired in exempt emergency portable generator, in mm scf;

F = The latest AP-42 emission factor for distillate oil fired in exempt and trivial activity equipment, in lb/gal;

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

E6 = Monthly total distillate oil fired in exempt and trivial activity equipment, in gal.

The facility owner or operator shall maintain a record of each monthly and rolling 12-month total calculation performed pursuant to this condition and all data used when making the calculation.

All records kept pursuant to this condition shall be maintained at the facility for a period of at least five years and must be provided to the Department upon request.

The facility owner or operator shall prepare and submit an annual capping certification to the Department. Each certification shall contain the monthly and rolling 12-month total NOx emissions calculated pursuant to this condition. In addition, the report shall contain a summary of the data used to perform the calculations.

Parameter Monitored: OXIDES OF NITROGEN

Upper Permit Limit: 24.9 tons per year

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

Subsequent reports are due every 12 calendar month(s).

**Condition 5: Visible Emissions Limited  
Effective for entire length of Permit**

**Applicable Federal Requirement:6 NYCRR 211.2**

**Item 5.1:**

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

**Condition 6: Compliance Demonstration  
Effective for entire length of Permit**

**Applicable Federal Requirement:6 NYCRR 225-1.2 (d)**

**Item 6.1:**

The Compliance Demonstration activity will be performed for the Facility.

**Item 6.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Owners or operators of emission sources that fire distillate oil are limited to a 0.0015 percent sulfur content by weight of the fuel. Compliance with the sulfur-in-fuel limitation is based on fuel vendor receipts. All fuel vendor receipts must be maintained on site or at a Department approved alternative location for a minimum of five years.

Note - Process sources and incinerators must comply with the above requirements on or after July 1, 2023.

Work Practice Type: PARAMETER OF PROCESS MATERIAL  
 Process Material: DISTILLATES - NUMBER 1 AND NUMBER 2 OIL  
 Parameter Monitored: SULFUR CONTENT  
 Upper Permit Limit: 0.0015 percent by weight  
 Monitoring Frequency: PER DELIVERY  
 Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)  
 Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 7: Compliance Demonstration  
 Effective for entire length of Permit**

**Applicable Federal Requirement: 6 NYCRR 227-1.4 (a)**

**Item 7.1:**

The Compliance Demonstration activity will be performed for the Facility.

**Item 7.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No owner or operator of a stationary combustion installation subject to this Subpart shall operate an emission source which exhibits greater than 20 percent opacity (based on a six minute average), except for one 6 minute period per hour of not more than 27 percent opacity. The owner or operator will conduct a Method 9 test annually. A report of the results of the test will be submitted to the Department within 30 days of the completion of the Method 9 test. All records generated by the permittee must be maintained at the facility or at an alternative location approved by the Department for a minimum of five years.

Parameter Monitored: OPACITY  
 Upper Permit Limit: 20 percent  
 Reference Test Method: 40 CFR 60, Appendix A, Method 9  
 Monitoring Frequency: ANNUALLY  
 Averaging Method: 6-MINUTE AVERAGE (METHOD 9)  
 Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**Condition 8:     Applicability**  
**Effective for entire length of Permit**

**Applicable Federal Requirement:40CFR 60, NSPS Subpart JJJJ**

**Item 8.1:**

Facilities that have stationary spark ignition internal combustion engines must comply with applicable portions of 40 CFR 60 subpart JJJJ.

**Condition 9:     Applicability**  
**Effective for entire length of Permit**

**Applicable Federal Requirement:40CFR 63, Subpart JJJJJJ**

**Item 9.1:**

Facilities that are area sources of HAP with industrial, commercial, or institutional boilers must comply with applicable portions of 40 CFR 63 JJJJJJ.

**Condition 10:    Engines at Area sources of HAP**  
**Effective for entire length of Permit**

**Applicable Federal Requirement:40CFR 63, Subpart ZZZZ**

**Item 10.1:**

Internal combustion engines, constructed or re-constructed on or after June 12, 2006, that meet the requirements of 40 CFR 60 Subpart IIII or Subpart JJJJ meet the requirements of 40 CFR 63 Subpart ZZZZ.

**\*\*\*\* Emission Unit Level \*\*\*\***

**Condition 11:    Compliance Demonstration**  
**Effective for entire length of Permit**

**Applicable Federal Requirement:6 NYCRR 228-1.4 (b) (4) (ii)**

**Item 11.1:**

The Compliance Demonstration activity will be performed for:

Emission Unit: U-MTOP1

Process: PP1

Emission Source: ESMO1

Regulated Contaminant(s):

CAS No: 0NY998-00-0     VOC

**Item 11.2:**

Compliance Demonstration shall include the following monitoring:

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Monitoring Type: MONITORING OF PROCESS OR CONTROL  
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

A facility operating a Miscellaneous Metal Parts Coatings coating line may not use coatings with VOC contents, as applied, which exceed the appropriate limits specified in Table B4 of 6 NYCRR Subpart 228-1.4(b)(4). The units in Table B4 are in terms of pounds of VOC per gallon of coating (minus water and excluded compounds) at application. Sampling and testing of any coating to confirm VOC content compliance must be performed in a manner directed by and at the request of the Department.

For miscellaneous metal parts coating the following types of coatings and coating operations are exempt from the VOC content limits of table B4:

- (a) stencil coating;
- (b) safety-indicating coatings;
- (c) solid-film lubricants;
- (d) electric-insulating and thermal-conducting coatings;
- (e) magnetic data storage disk coatings; and
- (f) plastic extruded into metal parts to form a coating.

Parameter Monitored: VOC CONTENT

Upper Permit Limit: 3.5 pounds of VOC per pound of  
coating

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING  
DESCRIPTION

Averaging Method: AVERAGING METHOD - SEE MONITORING  
DESCRIPTION

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**STATE ONLY ENFORCEABLE CONDITIONS**

**\*\*\*\* Facility Level \*\*\*\***

**NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS**

**This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability**

**Item A: Emergency Defense - 6 NYCRR 201-1.5**

An emergency, as defined in 6 NYCRR subpart 201-2, constitutes an affirmative defense to penalties sought in an enforcement action brought by the department for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) an emergency occurred and that the facility owner or operator can identify the cause(s) of the emergency;

(2) the equipment at the facility was being properly operated and maintained;

(3) during the period of the emergency the facility owner or operator took all reasonable steps to minimize the levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) the facility owner or operator notified the department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and any corrective actions taken.

(b) In any enforcement proceeding, the facility owner or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or malfunction provision contained in any applicable requirement.

**Item B: Public Access to Recordkeeping for Facilities With State Facility Permits - 6 NYCRR 201-1.10 (a)**

Where facility owners and/or operators keep records pursuant to compliance with the requirements of 6 NYCRR Subpart 201-5.4, and/or the emission capping requirements of 6 NYCRR Subpart 201-7, the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records.

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Facility owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department.

Item C: **General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5**

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

**STATE ONLY APPLICABLE REQUIREMENTS**

The following conditions are state only enforceable.

**Condition 12: Contaminant List  
Effective for entire length of Permit**

**Applicable State Requirement: ECL 19-0301**

**Item 12.1:**

Emissions of the following contaminants are subject to contaminant specific requirements in this permit (emission limits, control requirements or compliance monitoring conditions).

CAS No: 0NY210-00-0  
Name: OXIDES OF NITROGEN

CAS No: 0NY998-00-0  
Name: VOC

**Condition 13: Malfunctions and Start-up/Shutdown Activities  
Effective for entire length of Permit**

**Applicable State Requirement: 6 NYCRR 201-1.4**

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**Item 13.1:**

(a) The facility owner or operator shall take all necessary and appropriate actions to prevent the emission of air pollutants that result in contravention of any applicable emission standard during periods of start-up, shutdown, or malfunction.

(b) The facility owner or operator shall compile and maintain records of all equipment maintenance and start-up/shutdown activities when they are expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the department when required by a permit condition or upon request by the department. Such reports shall state whether an exceedance occurred and if it was unavoidable, include the time, frequency and duration of the exceedance, and an estimate of the emission rates of any air contaminants released. Such records shall be maintained for a period of at least five years and made available for review to department representatives upon request. Facility owners or operators subject to continuous monitoring and quarterly reporting requirements need not submit additional reports of exceedances to the department.

(c) In the event that air contaminant emissions exceed any applicable emission standard due to a malfunction, the facility owner or operator shall notify the department as soon as possible during normal working hours, but not later than two working days after becoming aware that the malfunction occurred. In addition, the facility owner or operator shall compile and maintain a record of all malfunctions. Such records shall be maintained at the facility for a period of at least five years and must be made available to the department upon request. When requested by the department, the facility owner or operator shall submit a written report to the department describing the malfunction, the corrective action taken, the air contaminants emitted, and the resulting emission rates and/or opacity.

(d) The department may also require the facility owner or operator to include, in reports described under Subdivisions (b) and (c) of this Section, an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions.

(e) A violation of any applicable emission standard resulting from start-up, shutdown, or malfunction conditions at a permitted or registered facility may not be subject to an enforcement action by the department and/or penalty if the department determines, in its sole discretion, that such a violation was unavoidable. The actions and recordkeeping and reporting requirements listed above must be adhered to in such circumstances.

**Condition 14: Emission Unit Definition  
Effective for entire length of Permit**

**Applicable State Requirement:6 NYCRR Subpart 201-5**

**Item 14.1:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 0-U534A

Emission Unit Description:

Engine Generator #1, natural gas-fired engine driving a 300 kW generator to supply on-site power for LNG Facility and process heat.

Building(s): LNG CONTRO

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**Item 14.2:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 0-U534B

Emission Unit Description:

Engine Generator #2, natural gas-fired engine driving a 300 kW generator to supply on-site power for the LNG Facility and process heat.

Building(s): LNG CONTRO

**Item 14.3:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 0-U534C

Emission Unit Description:

Engine Generator #3, natural gas-fired engine driving a 300 kW generator to supply on-site power to LNG Facility and process heat.

Building(s): LNG CONTRO

**Item 14.4:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404A

Emission Unit Description:

This emission unit (also called vaporizer #7) is a boiler designed to vaporize liquefied natural gas (LNG). LNG is circulated in a series of heat-exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is through a single stack.

Building(s): VAPOR #7

**Item 14.5:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404B

Emission Unit Description:

This emission unit (also called vaporizer #8) is a boiler designed to vaporize liquefied natural gas (LNG). LNG is circulated in a series of heat-exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is through a single stack.

Building(s): VAPOR #8

**Item 14.6:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404C

Emission Unit Description:

This emission unit (also called vaporizer #9) is a boiler designed to vaporize liquefied natural gas (LNG). LNG is circulated in a series of heat-exchanger tubes, immersed in a water tank heated by natural gas fired burners.

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Exhaust is through a single stack.

Building(s): VAPOR #9

**Item 14.7:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404D

Emission Unit Description:

This emission unit (also called vaporizer #10) is a boiler designed to vaporize liquefied natural gas (LNG). LNG is circulated in a series of heat-exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is through a single stack.

Building(s): VAPOR #10

**Item 14.8:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404E

Emission Unit Description:

This emission unit (also called New Vaporizer 11) is a boiler designed to vaporize liquefied natural gas (LNG). LNG is circulated in a series of heat exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is through a single stack. Nox emissions are controlled through water injection into the combustion chamber.

Building(s): VAPOR #11

**Item 14.9:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404F

Emission Unit Description:

This emission unit (also called New Vaporizer 12) is a boiler designed to vaporize liquefied natural gas (LNG). LNG is circulated in a series of heat exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is through a single stack. NOx emissions are controlled through water injection into the combustion chamber.

Building(s): VAPOR #12

**Item 14.10:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404G

Emission Unit Description:

This new emission unit (also called Vaporizer #13) is a vaporizer designed to vaporize liquified natural gas (LNG). It is identical to vaporizer #11. LNG is circulated in a series of heat exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

through a single stack. NOx emissions are controlled through water injection into the combustion chamber.

Building(s): VAPOR #13

**Item 14.11:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-7404H

Emission Unit Description:

This new emission unit (also called Vaporizer #14) is a vaporizer designed to vaporize liquified natural gas (LNG). LNG is circulated in a series of heat exchanger tubes, immersed in a water tank heated by natural gas fired burners. Exhaust is through a single stack. NOx emissions are controlled through water injection into the combustion chamber.

Building(s): VAPOR #14

**Item 14.12:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-CNG01

Emission Unit Description:

This emission unit consists of two Caterpillar gas industrial engines.

Building(s): CNG STAT

**Item 14.13:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-MTOP1

Emission Unit Description:

This emission unit is of a manual coating line used to paint refurbished natural gas meters prior to returning them to service. Only complying latex paint (VOC content less than 3.5 lbs/gal) is used. According to letter received by DEC on April 25, 2017, from National Grid, this unit now uses 10 gallons per year of paint.

Building(s): METER OP

**Condition 15: Renewal deadlines for state facility permits  
Effective for entire length of Permit**

**Applicable State Requirement: 6 NYCRR 201-5.2 (c)**

**Item 15.1:**

The owner or operator of a facility having an issued state facility permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

**Condition 16: CLCPA Applicability**

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

**Effective for entire length of Permit**

**Applicable State Requirement:6 NYCRR 201-5.3 (c)**

**Item 16.1:**

Pursuant to The New York State Climate Leadership and Community Protection Act (CLCPA) and Article 75 of the Environmental Conservation Law, emission sources shall comply with regulations to be promulgated by the Department to ensure that by 2030 statewide greenhouse gas emissions are reduced by 40% of 1990 levels, and by 2050 statewide greenhouse gas emissions are reduced by 85% of 1990 levels.

**Condition 17: Compliance Demonstration  
Effective for entire length of Permit**

**Applicable State Requirement:6 NYCRR 201-5.3 (c)**

**Item 17.1:**

The Compliance Demonstration activity will be performed for the Facility.

**Item 17.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Any reports or submissions required by this permit shall be submitted to the Regional Air Pollution Control Engineer (RAPCE) at the following address:

Division of Air Resources  
NYS Dept. of Environmental Conservation  
Region 2  
47-40 21st St.  
Long Island City, NY 11101

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Averaging Method: AVERAGING METHOD - SEE MONITORING DESCRIPTION

Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 18: Air pollution prohibited  
Effective for entire length of Permit**

**Applicable State Requirement:6 NYCRR 211.1**

**Item 18.1:**

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

\*\*\*\* Emission Unit Level \*\*\*\*

**Condition 19: Emission Point Definition By Emission Unit  
Effective for entire length of Permit**

**Applicable State Requirement:6 NYCRR Subpart 201-5**

**Item 19.1:**

The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: 0-U534A

Emission Point: EPOG1

Height (ft.): 24 Diameter (in.): 8

NYTMN (km.): 4508.726 NYTME (km.): 590.358 Building: LNG

**Condition 20: Process Definition By Emission Unit  
Effective for entire length of Permit**

**Applicable State Requirement:6 NYCRR Subpart 201-5**

**Item 20.1:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-U534A

Process: PG1

Source Classification Code: 2-01-002-02

Process Description:

This process generates electricity for use at this facility utilizing natural gas fired reciprocating internal combustion engine.

Emission Source/Control: ESOG1 - Combustion

Design Capacity: 300 kilowatts

**Item 20.2:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-U534B

Process: PG2

Source Classification Code: 2-01-002-02

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Process Description:

This process generates electricity for use at this facility utilizing natural gas fired reciprocating internal combustion engine.

Emission Source/Control: ESOG2 - Combustion  
Design Capacity: 300 kilowatts

**Item 20.3:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 0-U534C  
Process: PG3 Source Classification Code: 2-01-002-02

Process Description:

This process generates electricity for use at this facility utilizing natural gas fired reciprocating internal combustion engine.

Emission Source/Control: ESOG3 - Combustion  
Design Capacity: 300 kilowatts

**Item 20.4:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404A  
Process: P07 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in a LNG vaporizer. The operating schedule and throughput are approximate, actual operation is limited by the cumulative operation of all sources at this facility.

Emission Source/Control: ES007 - Combustion  
Design Capacity: 48 million Btu per hour

**Item 20.5:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404B  
Process: P08 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in a LNG vaporizer. The operating schedule and throughput are approximate, actual operation is limited by the cumulative operation of all sources at this facility.

Emission Source/Control: ES008 - Combustion  
Design Capacity: 48 million Btu per hour

**Item 20.6:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404C

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Process: P09 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in a LNG vaporizer. The operating schedule and throughput are approximate, actual operation is limited by the cumulative operation of all sources at this facility.

Emission Source/Control: ES009 - Combustion  
Design Capacity: 48 million Btu per hour

**Item 20.7:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404D

Process: P10 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in a LNG vaporizer. The operating schedule and throughput are approximate, actual operation is limited by the cumulative operation of all sources at this facility.

Emission Source/Control: ES010 - Combustion  
Design Capacity: 48 million Btu per hour

**Item 20.8:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404E

Process: P11 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in an LNG vaporizer.

Emission Source/Control: ES011 - Combustion  
Design Capacity: 42.76 million Btu per hour

**Item 20.9:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404F

Process: P12 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in an LNG vaporizer.

Emission Source/Control: ES012 - Combustion  
Design Capacity: 42.76 million Btu per hour

**Item 20.10:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404G

Process: P13 Source Classification Code: 1-02-006-02

Permit ID: 2-6101-00071/00024

Facility DEC ID: 2610100071

Process Description:

This process is the combustion of natural gas in an LNG vaporizer.

Emission Source/Control: ES013 - Combustion  
 Design Capacity: 42.76 million Btu per hour

**Item 20.11:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-7404H  
 Process: P14 Source Classification Code: 1-02-006-02

Process Description:

This process is the combustion of natural gas in an LNG vaporizer.

Emission Source/Control: ES014 - Combustion  
 Design Capacity: 42.76 million Btu per hour

**Item 20.12:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-CNG01  
 Process: CNG Source Classification Code: 2-01-002-02

Process Description:

This process involves the operation of two natural gas reciprocating internal combustion engines driving gas compressors, used for refueling compressed natural gas (CNG) vehicles. The operating schedule and throughput are approximate, actual operation is limited by the cumulative operation of all sources at this facility.

Emission Source/Control: ECNG1 - Combustion  
 Design Capacity: 195 brake horsepower

Emission Source/Control: ECNG2 - Combustion  
 Design Capacity: 195 brake horsepower

**Item 20.13:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U-MTOP1  
 Process: PP1 Source Classification Code: 4-02-025-01

Process Description: Repaint refurbished natural gas meters.

Emission Source/Control: ESMO1 - Process  
 Design Capacity: 10 gallons per year

**Permit ID: 2-6101-00071/00024**

**Facility DEC ID: 2610100071**
