   Mod 7 Effective Date: 03/02/2012 Expiration Date: 03/01/2014

Permit Type: Air State Facility
Permit ID: 5-0942-00006/00009
   Effective Date: 03/02/2012 Expiration Date: No expiration date

Permit Issued To: CITY OF PLATTSBURGH
   41 CITY HALL PL
   PLATTSBURGH, NY 12901

Facility: PLATTSBURGH ORGANICS RECYCLING PLANT
   REEVES LANE
   PLATTSBURGH, NY 12901

Contact: JONATHAN P RUFF
   ENVIRONMENTAL SERVICES DEPT
   41 CITY HALL PL
   PLATTSBURGH, NY 12901-2936
   (518) 563-7731

Description:

The Facility processes biosolids from municipal wastewater treatment plants using either composting or alkaline stabilization to produce a soil amendment. The facility has air handling equipment and a stack for emissions dispersion. All raw and processed material, with the exception of woodchips and/or sawdust bulking agents for composting, will be kept in enclosed containers. There will be no outdoor stockpiles of materials other than the bulking agents described above.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict
compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: MICHAEL J MCMURRAY
NYSDEC
PO BOX 296
RAY BROOK, NY 12977-0296

Authorized Signature: _________________________________ Date: ___ / ___ / _____
Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

***** General Provisions *****

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 7-1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 7-1.1:
The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 7-1.2:
The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 7-1.3:
A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 1: Facility Inspection by the Department
Applicable State Requirement: ECL 19-0305

Item 1.1:
The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:
The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:
A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations
Applicable State Requirement: ECL 3-0301 (2) (m)

Item 7-2.1:
Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of
the terms, conditions or requirements contained in such order or determination.

**Condition 2: Relationship of this Permit to Other Department Orders and Determinations**

*Applicable State Requirement: ECL 3-0301 (2) (m)*

**Item 2.1:**
Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

**Condition 7-3: Applications for permit renewals, modifications and transfers**

*Applicable State Requirement: 6 NYCRR 621.11*

**Item 7-3.1:**
The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

**Item 7-3.2:**
The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

**Item 7-3.3:**
Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

**Condition 3: Applications for Permit Renewals and Modifications**

*Applicable State Requirement: 6 NYCRR 621.13*

**Item 3.1:**
The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

**Item 3.2:**
The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

**Item 3.3:**
Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

**Condition 7-4: Permit modifications, suspensions or revocations by the Department**

*Applicable State Requirement: 6 NYCRR 621.13*
Item 7-4.1:
The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

a) materially false or inaccurate statements in the permit application or supporting papers;
b) failure by the permittee to comply with any terms or conditions of the permit;
c) exceeding the scope of the project as described in the permit application;
d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

Condition 4: Permit Modifications, Suspensions and Revocations by the Department

Applicable State Requirement: 6 NYCRR 621.14

Item 4.1:
The Department reserves the right to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

a) materially false or inaccurate statements in the permit application or supporting papers;
b) failure by the permittee to comply with any terms or conditions of the permit;
c) exceeding the scope of the project as described in the permit application;
d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
This section contains terms and conditions which are federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Sealing - 6 NYCRR 200.5
The Commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the Commissioner issued in the case of the violation. Sealing means labeling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

No person shall operate any air contamination source sealed by the Commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

Unless authorized by the Commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section.

Item B: Acceptable Ambient Air Quality - 6 NYCRR 200.6
Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

Item C: Maintenance of Equipment - 6 NYCRR 200.7
Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications,
required to operate such device effectively.

**Item D: Unpermitted Emission Sources - 6 NYCRR 201-1.2**

If an existing emission source was subject to the permitting requirements of 6 NYCRR Part 201 at the time of construction or modification, and the owner and/or operator failed to apply for a permit for such emission source then the following provisions apply:

(a) The owner and/or operator must apply for a permit for such emission source or register the facility in accordance with the provisions of Part 201.

(b) The emission source or facility is subject to all regulations that were applicable to it at the time of construction or modification and any subsequent requirements applicable to existing sources or facilities.

**Item E: Emergency Defense - 6 NYCRR 201-1.5**

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

1. An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;
2. The equipment at the permitted facility causing the emergency was at the time being properly operated;
3. During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and
4. The facility owner and/or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.
(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item F: Recycling and Salvage - 6 NYCRR 201-1.7

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of 6 NYCRR.

Item G: Prohibition of Reintroduction of Collected Contaminants to the Air - 6 NYCRR 201-1.8

No person shall unnecessarily remove, handle, or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Item H: Proof of Eligibility for Sources Defined as Exempt Activities - 6 NYCRR 201-3.2 (a)

The owner and/or operator of an emission source or unit that is eligible to be exempt, may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Item I: Proof of Eligibility for Sources Defined as Trivial Activities - 6 NYCRR 201-3.3 (a)

The owner and/or operator of an emission source or unit that is listed as being trivial in 6 NYCRR Part 201 may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

Item J: Required Emission Tests - 6 NYCRR 202-1.1
An acceptable report of measured emissions shall be submitted, as may be required by the Commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the Commissioner within the time stated shall be sufficient reason for the Commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6 NYCRR Subpart 202-1.

**Item K: Open Fires Prohibitions - 6 NYCRR 215.2**
Except as allowed by section 215.3 of 6 NYCRR Part 215, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

**Item L: Permit Exclusion - ECL 19-0305**
The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

**Item M: Federally Enforceable Requirements - 40 CFR 70.6 (b)**
All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

**FEDERAL APPLICABLE REQUIREMENTS**
The following conditions are federally enforceable.

**Condition 4-1: Air pollution prohibited**
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR 211.1

Item 4.1.1:
No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

**** Emission Unit Level ****

Condition 1: Emissions from new emission sources and/or modifications
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR 212.4 (a)

Item 1.1:
This Condition applies to Emission Unit: 1-00001

Item 1.2:
No person shall cause or allow emissions that exceed the applicable permissible emission rate as determined from Table 2, Table 3, or Table 4 of 6 NYCRR Part 212 for the environmental rating issued by the commissioner.

Condition 2: Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR 212.4 (c)

Item 2.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001
Regulated Contaminant(s):
CAS No: 0NY075-00-0 PARTICULATES

Item 2.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
Emissions of solid particulates are limited to less than 0.050 grains of particulates per cubic foot of exhaust gas, expressed at standard conditions on a dry gas basis.
Compliance testing will be conducted at the discretion of the Department.

Parameter Monitored: PARTICULATES
Upper Permit Limit: 0.05 grains per dscf
Reference Test Method: EPA Method 5
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 3: 212.6(a) - Opacity standard
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR 212.6 (a)

Item 3.1:
This Condition applies to Emission Unit: 1-00001

Item 3.2:
No person will cause or allow emissions having an average opacity during any six consecutive minutes of 20 percent or greater from any process emission source, except only the emission of uncombined water.

Condition 4-2: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR 212.4

Replaces Condition(s) 23

Item 4-2.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001  Emission Point: 00001

Regulated Contaminant(s):
        CAS No: 007664-41-7 AMMONIA

Item 4-2.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
A performance test demonstrating ammonia removal shall be conducted within 180 days of the date upon which both the AST and BIO processes become operational. Ammonia removal must be at least 70% by weight. If both digesters are not in full operation during this period, additional performance tests will be required within 180 days of their commencement of operation. This performance test
must be conducted under maximum throughput and at surrogate parameters described in this permit. Additional testing shall be conducted at the discretion of the Department.

Parameter Monitored: AMMONIA
Lower Permit Limit: 70 percent reduction by weight
Reference Test Method: NIOSH Method 6701
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 4-3: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable Federal Requirement: 6 NYCRR 212.4

Replaces Condition(s) 25

Item 4-3.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001  Emission Point: 00001
Process: AST

Regulated Contaminant(s):
CAS No: 007664-41-7  AMMONIA

Item 4-3.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
Under the scenario that alkline stabilization process is operated as the sole process (no contribution to emissions from the Bio process), the emissions rate potential (ERP) for ammonia cannot exceed 9 #/hr. A performance test shall be conducted at worst case (e.g., anaerobically digested sludge) and maximum throughput within 180 days of start up. Additional testing shall be conducted at the discretion of the Department.

Parameter Monitored: AMMONIA
Upper Permit Limit: 9 pounds per hour
Reference Test Method: NIOSH Method 6701
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: 1-HOUR AVERAGE
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE
STATE ONLY ENFORCEABLE CONDITIONS

**** Facility Level ****

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Public Access to Recordkeeping for Facilities With State Facility Permits - 6 NYCRR 201-1.10 (a)
Where emission source owners and/or operators keep records pursuant to compliance with the operational flexibility requirements of 6 NYCRR Subpart 201-5.4(b)(1) and/or the emission capping requirements of 6 NYCRR Subparts 201-7.2(d), 201-7.3(f), 201-7.3(g), 201-7.3(h)(5), 201-7.3(i) and 201-7.3(j), the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records. Emission source owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department of receipt of the request.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5
Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS
The following conditions are state only enforceable.
Condition 4: Contaminant List
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: ECL 19-0301

Item 4.1:
Emissions of the following contaminants are subject to contaminant specific requirements in this permit(emission limits, control requirements or compliance monitoring conditions).

- CAS No: 007664-41-7
  Name: AMMONIA

- CAS No: 007782-50-5
  Name: CHLORINE

- CAS No: 0NY075-00-0
  Name: PARTICULATES

- CAS No: 0NY500-00-0
  Name: TOTAL REDUCED SULFUR

- CAS No: 0NY998-00-0
  Name: VOC

Condition 4-4: Unavoidable noncompliance and violations
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 201-1.4

Item 4-4.1:
At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supercede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard...
in 6 NYCRR Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superceded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.

**Condition 5: Unavoidable noncompliance and violations**

**Effective between the dates of 08/21/2002 and Permit Expiration Date**

**Applicable State Requirement:** 6 NYCRR 201-1.4

**Item 5.1:**

At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supercede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.
(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superseded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.

Condition 6: Emission Unit Definition
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR Subpart 201-5

Item 6.1(From Mod 4):
The facility is authorized to perform regulated processes under this permit for:

Emission Unit: 1-00001

Emission Unit Description:
This unit consists of the biosolids composting (BIO) and Alkaline Stabilization (AST) processes. Based on present physical constraints the maximum capacities are: 41 dtpd (205 wtpd) for the Alkaline Stabilization process and 28 dtpd for composting. The scrubber treats air from the biosolids composting operations for odor control and discharges to the stack that also ventilates the Alkaline Stabilization process/storage building.

Building(s): AST

Condition 7: Air pollution prohibited
Effective between the dates of 08/21/2002 and Permit Expiration Date
Applicable State Requirement: 6 NYCRR 211.2

Item 7.1:
No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 4-5: Visible Emissions Limited
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-5.1:
Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 4-6: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-6.1:
The Compliance Demonstration activity will be performed for the Facility.

Item 4-6.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Owner/operator shall establish a complaint response procedure to manage complaints related to air emissions from this facility. The procedure shall be designed to ensure that complaints from officials and/or neighbors are adequately received and documented, and that appropriate response is taken by the owner/operator. At a minimum, the owner/operator must:
1. Have a complaint phone line available 24 hours a day, 7 days a week. The number should be clearly published in but not limited to the area’s phonebooks, on the city’s website, and in the local legal notices publicizing the intent to begin operations.
2. Provide rapid investigation (not more than 1 business day) of any possible causes of any complaint received.
3. Take prompt action to abate the circumstances found to be the cause of the complaint.
4. Fully document the complaint, results of
investigation, and any action taken.

Documentation shall include but is not limited to the following.
- Date complaint received
- Name of investigator
- Location of impacts
- Date and time of impacts.
- Complainant's name, phone number, address
- Nature of complaint
- If the odor was detected and a description of the odor at the complainant's location
- Operational variables at the facility
- Project Manager Notification and action Taken.

5. Report in a format acceptable to the Department.
6. Maintain complaint documentation for a period of five years and make them available to representatives of the Department upon request.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 4-7: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-7.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-00001
Process: AST

Emission Unit: 1-00001
Process: BIO

Regulated Contaminant(s):
CAS No: 0NY998-00-0 VOC

Item 4-7.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
The Permittee shall maintain a 98% minimum capture efficiency of odors from processed or unprocessed biosolids and product in the operations building and exhaust them through EP 00001. Capture efficiency shall be
determined by E.P.A. method 204. Capture efficiency shall be verified within 30 days upon startup and as required upon the Departments request.

Lower Permit Limit: 98 percent
Reference Test Method: 204
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: MINIMUM - NOT TO FALL BELOW STATED VALUE - SEE MONITORING DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 4-8: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-8.1:
The Compliance Demonstration activity will be performed for the Facility.

Item 4-8.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Upon request by the Department; the owner or operator shall conduct an odor study and implement measures that effectively bring odor impacts from the facility within acceptable levels. The study shall be performed pursuant to a Department approved protocol.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 4-9: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-9.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-00001

Item 4-9.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Permittee shall continuously monitor and record
operational status (on/off) of the large dispersion fan (rated 400,000 cfm). The dispersion fan will be operational if processed or unprocessed biosolids and/or product are in any of the buildings on site. Records will be kept and maintained on site for three years and records will be available to the Department upon request.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 4-10: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-10.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-00001
Process: AST

Emission Unit: 1-00001
Process: BIO

Item 4-10.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Permittee shall continuously monitor and record operational status (on/off) of the scrubber fan (rated 40,000 cfm). The scrubber fan will be operational if processed biosolids, or unprocessed biosolids are in any of the following: Digester No. 1, Digester No. 2, Receiving bins, Operations building (including basement), and/or the conveyor system. Records will be kept and maintained on site for three years and records will be available to the Department upon request.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 4-11: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 4-11.1:
Replaces Condition(s) 8
The Compliance Demonstration activity will be performed for the Facility.

**Item 4-11.2:**
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
The emission of odor-causing compound(s) (e.g., TRS, etc.) from the uncontrolled sources shall have an odor intensity of less than 5 dilutions to threshold (D/T) based on a short-term peak value of 5 minutes or less at any off-site receptor. At the discretion of the Department, the facility shall conduct a performance test and air modeling (using a protocol approved by the Department) of Alkaline stabilized product storage piles. Emissions shall be modeled at full storage capacity to demonstrate compliance with short-term intensity of no greater than 5 D/T.

Within 60 days of beginning compost production, the facility will conduct a performance test and modeling to demonstrate compliance as described above.

Further performance tests shall be conducted at the discretion of the Department.

Compliance with this odor limit does not relieve the permittee from compliance with 6 NYCRR, Section 211.2 on a continuous basis.

Parameter Monitored: CONCENTRATION
Upper Permit Limit: 5 dilutions to threshold
Reference Test Method: ASTM Method E679-04
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

**** Emission Unit Level ****

**Condition 9:** Emission Point Definition By Emission Unit
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR Subpart 201-5

**Item 9.1 (From Mod 4):**
The following emission points are included in this permit for the cited Emission Unit:
Emission Unit: 1-00001

Emission Point: 00001
Height (ft.): 117  Diameter (in.): 168
NYTMN (km.): 4948.039  NYTME (km.): 619.529  Building: AST

Emission Point: 00002
Height (ft.): 33  Diameter (in.): 34
NYTMN (km.): 4948.2  NYTME (km.): 619.5

Condition 10:  Process Definition By Emission Unit
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR Subpart 201-5

Item 10.1(From Mod 4):
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00001
Process: AST  Source Classification Code: 5-01-007-99
Process Description:
The alkaline stabilization process involves mixing lime
and lime-based materials into biosolids increasing the pH
and temperature to reduce pathogens according to the EPA
part 503 regulations. Other materials such as fly Ash may
also be added to dry the material.

Emission Source/Control: AST-1 - Process
Design Capacity: 41  tons per day

Emission Source/Control: AST-2 - Process
Design Capacity: 41  tons per day

Item 10.2(From Mod 4):
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-00001
Process: BIO  Source Classification Code: 5-01-007-99
Process Description:
This process (BIO) consists of in-vessel composting of
biosolids from municipal wastewater treatment plants.
Composting is accomplished in two radially fed circular
digesters (DIG-1 and DIG-2). Each digester has a maximum
throughput of 14 dtpd. This process includes the odor
control scrubber (OCS-1) used for treating emissions
during composting and from materials to be composted.
Process emissions associated with screening (SCRN1),
curing piles and EP 00002 are not scrubbed. Emissions
from this process are subject to percent removals
identified in 6 NYCRR, Section 212.9. Composting
digesters will be operated in negative aeration mode if
both units are operated simultaneously. When only one
digester is operated, it can be operated in either positive or negative aeration mode.

Emission Source/Control: OCS-1 - Control
Control Type: WET SCRUBBER

Emission Source/Control: DIG-1 - Process
Design Capacity: 14 tons per day

Emission Source/Control: DIG-2 - Process
Design Capacity: 14 tons per day

Emission Source/Control: SCRN1 - Process
Design Capacity: 7 cubic feet per minute

Emission Source/Control: STO-1 - Process

**Condition 11:** Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

**Item 11.1:**
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001
Process: BIO Emission Source: OCS-1

**Item 11.2:**
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
The permittee shall continuously monitor and record stage 3 scrubber recirculation rate. The recirculation rate shall not fall below 60 gpm at any time. The monitoring of this surrogate will assist in demonstrating the effective removal of acid, chlorine and chlorinated compounds. This surrogate may be modified pending stack tests results.

Parameter Monitored: RECIRCULATION RATE
Lower Permit Limit: 60 gallons per minute
Monitoring Frequency: CONTINUOUS
Averaging Method: MINIMUM - NOT TO FALL BELOW STATED VALUE AT ANY TIME
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 12:** Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date
Applicable State Requirement: 6 NYCRR 211.2

Item 12.1:
The Compliance Demonstration activity will be performed for:

   Emission Unit: 1-00001
   Process: BIO                     Emission Source: OCS-1

Item 12.2:
Compliance Demonstration shall include the following monitoring:

   Monitoring Type: MONITORING OF PROCESS OR CONTROL
                   DEVICE PARAMETERS AS SURROGATE

   Monitoring Description:
   The permittee shall continuously monitor and record pH of
   scrubbing medium in stage 3 scrubber. The pH of the
   scrubbing medium shall not fall below 7.5 pH units. The
   monitoring of this surrogate will assist in demonstrating
   effective removal of acid, chlorine and chlorinated
   compounds. This surrogate may be modified pending stack
   tests results.

   Parameter Monitored: ACIDITY/ALKALINITY
   Lower Permit Limit: 7.5 pH (STANDARD) units
   Monitoring Frequency: CONTINUOUS
   Averaging Method: MINIMUM - NOT TO FALL BELOW STATED
                    VALUE AT ANY TIME
   Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 13:  Compliance Demonstration
               Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 13.1:
The Compliance Demonstration activity will be performed for:

   Emission Unit: 1-00001
   Process: BIO                     Emission Source: OCS-1

Item 13.2:
Compliance Demonstration shall include the following monitoring:

   Monitoring Type: MONITORING OF PROCESS OR CONTROL
                   DEVICE PARAMETERS AS SURROGATE

   Monitoring Description:
   The permittee shall continuously monitor and record
   oxidation reduction potential (ORP) of scrubbing medium in
   stage 2 scrubber. The ORP of the scrubbing medium shall
   not fall below .850 volts at any time. The monitoring of
   this surrogate will assist in demonstrating effective
   removal of dimethyl disulfide and other odorous organic

Air Pollution Control Permit Conditions
Mod 4/Active          Page 23          FINAL
compounds. This surrogate may be modified pending stack tests results.

Parameter Monitored: VOLTAGE
Lower Permit Limit: 0.850 volts
Monitoring Frequency: CONTINUOUS
Averaging Method: MINIMUM - NOT TO FALL BELOW STATED VALUE AT ANY TIME
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 14:** Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

**Applicable State Requirement:** 6 NYCRR 211.2

**Item 14.1:**
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-00001
- Process: BIO
- Emission Source: OCS-1

**Item 14.2:**
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE
Monitoring Description:
The permittee shall continuously monitor and record pH of scrubbing medium in stage 2 scrubber. The pH of the scrubbing medium shall remain between 5.50 and 7.50 at all times. The monitoring of this surrogate will assist in demonstrating effective removal of dimethyl disulfide and other odorous organic compounds. This surrogate may be modified pending stack tests results.

Parameter Monitored: ACIDITY/ALKALINITY
Lower Permit Limit: 5.50 pH (STANDARD) units
Upper Permit Limit: 7.50 pH (STANDARD) units
Monitoring Frequency: CONTINUOUS
Averaging Method: RANGE - NOT TO FALL OUTSIDE OF STATED RANGE AT ANY TIME
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

**Condition 15:** Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

**Applicable State Requirement:** 6 NYCRR 212.4

**Item 15.1:**
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-00001
Item 15.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE
Monitoring Description:
Permittee shall continuously monitor and record the acid waste recirculation rate located in the process air pipe prior to stage 1 scrubber. The recirculation rate shall not fall below 67 gpm at any time. The monitoring of this surrogate will assist in demonstrating the effective removal of ammonia as well as particulates and cooling of exhaust gases. This surrogate may be modified pending stack test results.

Parameter Monitored: RECIRCULATION RATE
Lower Permit Limit: 67 gallons per minute
Monitoring Frequency: CONTINUOUS
Averaging Method: MINIMUM - NOT TO FALL BELOW STATED VALUE AT ANY TIME
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 16: Compliance Demonstration Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 212.4

Item 16.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001
Process: BIO Emission Source: OCS-1

Item 16.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE
Monitoring Description:
The permittee shall continuously monitor and record pH of acid scrubbing medium in stage 1 scrubber. The pH of the scrubbing medium shall not exceed 5 pH units. The monitoring of this surrogate will assist in demonstrating effective removal of ammonia. This surrogate may be modified pending stack test results.

Parameter Monitored: ACIDITY/ALKALINITY
Upper Permit Limit: 5.0 pH (STANDARD) units
Monitoring Frequency: CONTINUOUS
Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY
Condition 17: Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 212.4

Item 17.1:
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-00001
- Process: BIO
- Emission Source: OCS-1

Item 17.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
The permittee must continuously monitor and record scrubber air flow rate. The flow is not to exceed 40,000 cfm at any time. The monitoring of this surrogate will assist in demonstrating continuous compliance while remaining within design specifications.

Parameter Monitored: AIR FLOW
Upper Permit Limit: 40000 cubic feet per minute
Monitoring Frequency: CONTINUOUS
Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 18: Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 212.4

Item 18.1:
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-00001
- Process: BIO
- Emission Source: OCS-1

Item 18.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
The permittee shall continuously monitor and record scrubber stage 1 recirculation rate. The recirculation
rate shall not fall below 200 gpm at any time. The monitoring of this surrogate will assist in demonstrating the effective removal of ammonia. This surrogate may be modified pending stack tests results.

Parameter Monitored: RECIRCULATION RATE
Lower Permit Limit: 200   gallons per minute
Monitoring Frequency: CONTINUOUS
Averaging Method: MINIMUM - NOT TO FALL BELOW STATED VALUE AT ANY TIME
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 4-12: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2
Replaces Condition(s) 22

Item 4-12.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001 Emission Point: 00001
Regulated Contaminant(s):
  - CAS No: 007664-41-7 AMMONIA
  - CAS No: 0NY998-00-0 VOC
  - CAS No: 0NY500-00-0 TOTAL REDUCED SULFUR

Item 4-12.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
The permittee shall conduct performance tests to determine stack odor intensity (in units of dilution to threshold (D/T)) as detected by a panel of observers. The D/T in the stack must be no greater than 500 D/T at any time, based on a short-term peak value of 5 minutes or less. Performance tests shall be conducted within 180 days of start up of each source and/or any combination and with all sources in simultaneous operation. If all sources are tested simultaneously at full production prior to individually/combined testing, the individually/combined testing can be omitted. Performance testing shall be conducted under worst case conditions (e.g., while processing anaerobically digested sludge) at maximum throughput and at surrogate parameters described by this permit. If sources are not in full production within 180 days of start up, additional performance tests will be required within 180 days of obtaining full production. Additional testing shall be conducted at the discretion of the Department. Compliance with this odor
limit does not relieve the permittee from compliance with 6 NYCRR, Section 211.2 on a continuous basis, nor does it relieve the permittee from compliance with applicable requirements of 6 NYCRR 200 and/or 212.

Parameter Monitored: CONCENTRATION
Upper Permit Limit: 500 dilutions to threshold
Reference Test Method: ASTM Method E679-04
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: MAXIMUM - NOT TO EXCEED STATED VALUE - SEE MONITORING DESCRIPTION
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 21: Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 211.2

Item 21.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001 Emission Point: 00001

Regulated Contaminant(s):
CAS No: 007782-50-5 CHLORINE

Item 21.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
A performance test for chlorine emissions shall be conducted within 180 days of start up of the scrubber (source OCS-1). Chlorine emissions shall not exceed 0.3#/hr. This performance test must be conducted at maximum throughput of the digester at surrogate parameters described in this permit. Additional testing shall be conducted at the discretion of the Department.

Parameter Monitored: CHLORINE
Upper Permit Limit: 0.3 pounds per hour
Reference Test Method: Method 26A
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 4-13: Compliance Demonstration
Effective between the dates of 03/02/2012 and Permit Expiration Date
Applicable State Requirement: 6 NYCRR 212.4

Item 4-13.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001
Emission Point: 00001

Regulated Contaminant(s):
CAS No: 007664-41-7 AMMONIA

Item 4-13.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
A performance test demonstrating ammonia removal shall be conducted within 180 days of the date upon which both the AST and BIO processes become operational. Ammonia removal must be at least 70% by weight. If both digesters are not in full operation during this period, additional performance tests will be required within 180 days of their commencement of operation. This performance test must be conducted under maximum throughput and at surrogate parameters described in this permit. Additional testing shall be conducted at the discretion of the Department.

Parameter Monitored: AMMONIA
Lower Permit Limit: 70 percent reduction by weight
Reference Test Method: NIOSH Method 6701
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 24: Compliance Demonstration
Effective between the dates of 08/21/2002 and Permit Expiration Date

Applicable State Requirement: 6 NYCRR 212.4 (b)

Item 24.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-00001
Emission Point: 00001
Process: BIO

Regulated Contaminant(s):
CAS No: 0NY500-00-0 TOTAL REDUCED SULFUR

Item 24.2:
Compliance Demonstration shall include the following monitoring:
Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
   A performance test shall be conducted within 180 days of
   start up of both Bio-process digesters. This performance
   test must be conducted at maximum throughput and surrogate
   parameters described in this permit. Subsequent
   compliance testing shall be conducted at the discretion
   of the Department.

Parameter Monitored: TOTAL REDUCED SULFUR
Upper Permit Limit: 1.0 pounds per hour
Reference Test Method: Method 16
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
   DESCRIPTION
Averaging Method: 1-HOUR AVERAGE
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE
