PERMIT
Under the Environmental Conservation Law (ECL)

IDENTIFICATION INFORMATION

Permit Type: Air Title V Facility
Permit ID: 5-4115-00002/00129
Effective Date: 08/04/2020 Expiration Date: 08/03/2025

Permit Issued To: BALL CORPORATION
9300 WEST 108TH CIRCLE
BROOMFIELD, CO 80021-3682

Facility: BALL METAL BEVERAGE CONTAINER CORP
11 ADAMS RD|CADY HILL INDUSTRIAL PARK
SARATOGA SPRINGS, NY 12866

Contact: MATTHEW D GREGORY
Ball Metal Beverage Container Corp
11 Adams Rd
Saratoga Springs, NY 12866
(518) 581-5574

Description:
Ball Metal Corporation, located in Saratoga Springs, is a Title V facility that manufactures 2-piece aluminum cans. The operations carried out in each of four production lines are forming, cleaning, and decorative coating of the cans.

Facility VOC emissions have been capped at 386 TPY to avoid PSD requirements in 40 CFR 52.

SIC Codes: 3411

Emission Units:

U-10001 - This emission unit contains the basecoat/clearcoat application and cure lines; printing ink, bottom coat, and overvarnish application and cure lines; incinerator by-pass lines; internat coat lines; and the internal coat baghouse line.

U-10002 - Wastewater pre-treatment sludge dryer exhaust.

Applicable Rules:

6NYCRR Part 212
6NYCRR Part 228
40 CFR Part 82

Facility DEC ID: 5411500002

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

DEC GENERAL CONDITIONS

**** General Provisions ****

For the purpose of your Title V permit, the following section contains state-only enforceable terms and conditions.

GENERAL CONDITIONS - Apply to ALL Authorized Permits.

Condition 1: Facility Inspection by the Department

Applicable State Requirement: ECL 19-0305

Item 1.1:

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations

Applicable State Requirement: ECL 3-0301 (2) (m)

Item 2.1:

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 3: Applications for permit renewals, modifications and transfers

Applicable State Requirement: 6 NYCRR 621.11

Item 3.1:

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:

The permittee must submit a renewal application at least 180 days before the expiration of permits for Title V and State Facility Permits.

Item 3.3

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be

Facility DEC ID: 541150002

submitted prior to actual transfer of ownership.

Condition 4: Permit modifications, suspensions or revocations by the Department

Applicable State Requirement: 6 NYCRR 621.13

Item 4.1:

The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

Renewal 4/FINAL

**** Facility Level ****

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

The items listed below are not subject to the annual compliance certification requirements under Title V. Permittees may also have other obligations under regulations of general applicability.

Item A: Public Access to Recordkeeping for Title V Facilities - 6 NYCRR 201-1.10 (b)

The Department will make available to the public any permit application, compliance plan, permit, and monitoring and compliance certification report pursuant to Section 503(e) of the Act, except for information entitled to confidential treatment pursuant to 6 NYCRR Part 616 - Public Access to records and Section 114(c) of the Act.

Item B: Timely Application for the Renewal of Title V Permits - 6 NYCRR 201-6.2 (a) (4)

Owners and/or operators of facilities having an issued Title V permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

Item C: Certification by a Responsible Official - 6 NYCRR 201-6.2 (d) (12)

Any application, form, report or compliance certification required to be submitted pursuant to the federally enforceable portions of this permit shall contain a certification of truth, accuracy and completeness by a responsible official. This certification shall state that based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

Item D: Requirement to Comply With All Conditions - 6 NYCRR 201-6.4 (a) (2)

The permittee must comply with all conditions of the Title V facility permit. Any permit non-compliance constitutes a violation of the Act and is grounds for enforcement action; for permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

Item E: Permit Revocation, Modification, Reopening, Reissuance or Termination, and Associated Information Submission Requirements - 6 NYCRR 201-6.4 (a) (3)

This permit may be modified, revoked, reopened and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

Item F: Cessation or Reduction of Permitted Activity Not a Defense - 6 NYCRR 201-6.4 (a) (5)

It shall not be a defense for a permittee in an enforcement action to claim that a cessation or reduction in the permitted activity would have been necessary in order to maintain compliance with the conditions of this permit.

Item G: Property Rights - 6 NYCRR 201-6.4 (a) (6)

This permit does not convey any property rights of any sort or any exclusive privilege.

Item H: Severability - 6 NYCRR 201-6.4 (a) (9)

If any provisions, parts or conditions of this permit are found to be invalid or are the subject of a challenge, the remainder of this permit shall continue to be valid.

Item I: Permit Shield - 6 NYCRR 201-6.4 (g)

All permittees granted a Title V facility permit shall be covered under the protection of a permit shield, except as provided under 6 NYCRR Subpart 201-6. Compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that such applicable requirements are included and are specifically identified in the permit, or the Department, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the major stationary source, and the permit includes the determination or a concise summary thereof. Nothing herein shall preclude the Department from revising or revoking the permit pursuant to 6 NYCRR Part 621 or from exercising its summary abatement authority. Nothing in this permit shall alter or affect the following:

- i. The ability of the Department to seek to bring suit on behalf of the State of New York, or the Administrator to seek to bring suit on behalf of the United States, to immediately restrain any person causing or contributing to pollution presenting an imminent and substantial endangerment to public health, welfare or the environment to stop the emission of air pollutants causing or contributing to such pollution;
- ii. The liability of a permittee of the Title V

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

facility for any violation of applicable requirements prior to or at the time of permit issuance;

iii. The applicable requirements of Title IV of the Act;

iv. The ability of the Department or the Administrator to obtain information from the permittee concerning the ability to enter, inspect and monitor the facility.

Item J: Reopening for Cause - 6 NYCRR 201-6.4 (i)

This Title V permit shall be reopened and revised under any of the following circumstances:

i. When additional applicable requirements under the act become applicable to a title V facility with a remaining permit term of three or more years, a reopening shall be completed not later than 18 months after promulgation of the applicable requirement. No such reopening is required if the effective date of the requirement is later than the date on which the permit is due to expire, unless the original permit or any of its terms and conditions has been extended by the department pursuant to the provisions of section 201- 6.6 of this Subpart.

ii. The Department or the Administrator determines that the permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the permit.

iii. The Department or the Administrator determines that the Title V permit must be revised or reopened to assure compliance with applicable requirements.

iv. If the permitted facility is an "affected source" subject to the requirements of Title IV of the Act, and additional requirements (including excess emissions requirements) become applicable. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

Proceedings to reopen and issue Title V facility permits shall follow the same procedures as apply to initial permit issuance but shall affect only those parts of the permit for which cause to reopen exists.

Reopenings shall not be initiated before a notice of such intent is provided to the facility by the Department at least thirty days in advance of the date that the permit

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

is to be reopened, except that the Department may provide a shorter time period in the case of an emergency.

Item K: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item L: Federally Enforceable Requirements - 40 CFR 70.6 (b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

**MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS
SUBJECT TO ANNUAL CERTIFICATIONS AT ALL TIMES**

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements at all times.

**Condition 1: Acceptable Ambient Air Quality
Effective between the dates of 08/04/2020 and 08/03/2025**

Applicable Federal Requirement: 6 NYCRR 200.6**Item 1.1:**

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

reports required by the permit.

Condition 5: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 201-6.4 (c) (3) (ii)

Item 5.1:

The Compliance Certification activity will be performed for the Facility.

Item 5.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

To meet the requirements of this facility permit with respect to reporting, the permittee must:

Submit reports of any required monitoring at a minimum frequency of every 6 months, based on a calendar year reporting schedule. These reports shall be submitted to the Department within 30 days after the end of a reporting period. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by the responsible official for this facility.

Notify the Department and report permit deviations and incidences of noncompliance stating the probable cause of such deviations, and any corrective actions or preventive measures taken. Where the underlying applicable requirement contains a definition of prompt or otherwise specifies a time frame for reporting deviations, that definition or time frame shall govern. Where the underlying applicable requirement fails to address the time frame for reporting deviations, reports of deviations shall be submitted to the permitting authority based on the following schedule:

- (1) For emissions of a hazardous air pollutant (as identified in an applicable regulation) that continue for more than an hour in excess of permit requirements, the report must be made within 24 hours of the occurrence.
- (2) For emissions of any regulated air pollutant, excluding those listed in paragraph (1) of this section, that continue for more than two hours in excess of permit requirements, the report must be made within 48 hours.
- (3) For all other deviations from permit requirements,

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

the report shall be contained in the 6 month monitoring report required above.

(4) This permit may contain a more stringent reporting requirement than required by paragraphs (1), (2) or (3) above. If more stringent reporting requirements have been placed in this permit or exist in applicable requirements that apply to this facility, the more stringent reporting requirement shall apply.

If above paragraphs (1) or (2) are met, the source must notify the permitting authority by telephone during normal business hours at the Regional Office of jurisdiction for this permit, attention Regional Air Pollution Control Engineer (RAPCE) according to the timetable listed in paragraphs (1) and (2) of this section. For deviations and incidences that must be reported outside of normal business hours, on weekends, or holidays, the DEC Spill Hotline phone number at 1-800-457-7362 shall be used. A written notice, certified by a responsible official consistent with 6 NYCRR Part 201-6.2(d)(12), must be submitted within 10 working days of an occurrence for deviations reported under (1) and (2). All deviations reported under paragraphs (1) and (2) of this section must also be identified in the 6 month monitoring report required above.

The provisions of 6 NYCRR 201-1.4 shall apply if the permittee seeks to have a violation excused unless otherwise limited by regulation. In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets. Notwithstanding any recordkeeping and reporting requirements in 6 NYCRR 201-1.4, reports of any deviations shall not be on a less frequent basis than the reporting periods described in paragraphs (1) and (4) above.

In the case of any condition contained in this permit with a reporting requirement of "Upon request by regulatory agency" the permittee shall include in the semiannual report, a statement for each such condition that the monitoring or recordkeeping was performed as required or requested and a listing of all instances of deviations from these requirements.

In the case of any emission testing performed during the previous six month reporting period, either due to a request by the Department, EPA, or a regulatory requirement, the permittee shall include in the semiannual

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

report a summary of the testing results and shall indicate whether or not the Department or EPA has approved the results.

All semiannual reports may be submitted electronically or physically. Electronic reports shall be submitted using the Department’s Air Compliance and Emissions Electronic-Reporting system (ACE). If the facility owner or operator elects to send physical copies instead, two copies shall be sent to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office) and one copy shall be sent to the Administrator (or his or her representative). Mailing addresses for the above referenced persons are contained in the monitoring condition for 6 NYCRR Part 201-6.4(e), contained elsewhere in this permit.

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
 Reports due 30 days after the reporting period.
 The initial report is due 1/30/2021.
 Subsequent reports are due every 6 calendar month(s).

Condition 6: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-6.4 (e)

Item 6.1:

The Compliance Certification activity will be performed for the Facility.

Item 6.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Requirements for compliance certifications with terms and conditions contained in this facility permit include the following:

- i. Compliance certifications shall contain:
 - the identification of each term or condition of the permit that is the basis of the certification;
 - the compliance status;
 - whether compliance was continuous or intermittent;
 - the method(s) used for determining the compliance status of the facility, currently and over the reporting period consistent with the monitoring and related recordkeeping and reporting requirements of this permit;
 - such other facts as the Department may require to determine the compliance status of the facility as

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

specified in any special permit terms or conditions;
and
- such additional requirements as may be specified elsewhere in this permit related to compliance certification.

ii. The responsible official must include in the annual certification report all terms and conditions contained in this permit which are identified as being subject to certification, including emission limitations, standards, or work practices. That is, the provisions labeled herein as "Compliance Certification" are not the only provisions of this permit for which an annual certification is required.

iii. Compliance certifications shall be submitted annually. Certification reports are due 30 days after the anniversary date of four consecutive calendar quarters. The first report is due 30 days after the calendar quarter that occurs just prior to the permit anniversary date, unless another quarter has been acceptable by the Department.

iv. All annual compliance certifications may be submitted electronically or physically. Electronic reports shall be submitted using the Department's Air Compliance and Emissions Electronic-Reporting system (ACE). If the facility owner or operator elects to send physical copies instead, two copies shall be sent to the Department (one copy to the regional air pollution control engineer (RAPCE) in the regional office and one copy to the Bureau of Quality Assurance (BQA) in the DEC central office) and one copy shall be sent to the Administrator (or his or her representative). The mailing addresses for the above referenced persons are:

Chief – Air Compliance Branch
USEPA Region 2 DECA/ACB
290 Broadway, 21st Floor
New York, NY 10007

The address for the RAPCE is as follows:

Regional Air Pollution Control Engineer
Region 5 Suboffice
232 Golf Course Road
Warrensburg, NY 12885-1172

The address for the BQA is as follows:

NYSDEC
Bureau of Quality Assurance

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

625 Broadway
Albany, NY 12233-3258

Monitoring Frequency: ANNUALLY
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2021.
Subsequent reports are due on the same day each year

Condition 7: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 202-2.1

Item 7.1:
The Compliance Certification activity will be performed for the Facility.

Item 7.2:
Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:

Emission statements shall be submitted on or before April 15th each year for emissions of the previous calendar year. Statements are to be mailed to: New York State Department of Environmental Conservation, Division of Air Resources, Bureau of Air Quality Planning, 625 Broadway, Albany NY 12233-3251

Monitoring Frequency: ANNUALLY
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due by April 15th for previous calendar year

Condition 8: Recordkeeping requirements
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 202-2.5

- Item 8.1:**
- (a) The following records shall be maintained for at least five years:
 - (1) a copy of each emission statement submitted to the department; and
 - (2) records indicating how the information submitted in the emission statement was determined, including any calculations, data, measurements, and estimates used.
 - (b) These records shall be made available at the facility to the representatives of the department upon request during normal business hours.

Condition 9: Open Fires - Prohibitions
Effective between the dates of 08/04/2020 and 08/03/2025

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Applicable Federal Requirement: 6 NYCRR 215.2**Item 9.1:**

Except as allowed by Title 6 NYCRR Section 215.3, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

Item 9.2

Per Section 215.3, burning in an open fire, provided it is not contrary to other law or regulation, will be allowed as follows:

- (a) On-site burning in any town with a total population less than 20,000 of downed limbs and branches (including branches with attached leaves or needles) less than six inches in diameter and eight feet in length between May 15th and the following March 15th. For the purposes of this subdivision, the total population of a town shall include the population of any village or portion thereof located within the town. However, this subdivision shall not be construed to allow burning within any village.
- (b) Barbecue grills, maple sugar arches and similar outdoor cooking devices when actually used for cooking or processing food.
- (c) Small fires used for cooking and camp fires provided that only charcoal or untreated wood is used as fuel and the fire is not left unattended until extinguished.
- (d) On-site burning of agricultural wastes as part of a valid agricultural operation on contiguous agricultural lands larger than five acres actively devoted to agricultural or horticultural use, provided such waste is actually grown or generated on those lands and such waste is capable of being fully burned within a 24-hour period.
- (e) The use of liquid petroleum fueled smudge pots to prevent frost damage to crops.
- (f) Ceremonial or celebratory bonfires where not otherwise prohibited by law, provided that only untreated wood or other agricultural products are used as fuel and the fire is not left unattended until extinguished.
- (g) Small fires that are used to dispose of a flag or religious item, and small fires or other smoke producing process where not otherwise prohibited by law that are used in connection with a religious ceremony.
- (h) Burning on an emergency basis of explosive or other dangerous or contraband materials by police or other public safety organization.
- (i) Prescribed burns performed according to Part 194 of this Title.
- (j) Fire training, including firefighting, fire rescue, and fire/arson investigation training, performed under applicable rules and guidelines of the New York State Department of State's Office of Fire Prevention and Control. For fire training performed on acquired structures, the structures must be emptied and stripped of any material that is toxic, hazardous or likely to emit toxic smoke (such as asbestos, asphalt shingles and vinyl siding or other vinyl products) prior to burning and must be at least 300 feet from other occupied structures. No more than one structure per lot or within a 300 foot radius (whichever is bigger) may be burned in a training exercise.
- (k) Individual open fires as approved by the Director of the Division of Air Resources as may be required in response to an outbreak of a plant or animal disease upon request by the commissioner of the Department of Agriculture and Markets, or for the destruction of invasive plant and insect species.
- (l) Individual open fires that are otherwise authorized under the environmental conservation law, or by rule or regulation of the Department.

MANDATORY FEDERALLY ENFORCEABLE PERMIT CONDITIONS

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

SUBJECT TO ANNUAL CERTIFICATIONS ONLY IF APPLICABLE

The following federally enforceable permit conditions are mandatory for all Title V permits and are subject to annual compliance certification requirements only if effectuated during the reporting period.

[NOTE: The corresponding annual compliance certification for those conditions not effectuated during the reporting period shall be specified as "not applicable".]

Condition 10: Maintenance of Equipment
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 200.7

Item 10.1:

Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Condition 11: Recycling and Salvage
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-1.7

Item 11.1:

Where practical, the owner or operator of an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of the ECL.

Condition 12: Prohibition of Reintroduction of Collected Contaminants to the air
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-1.8

Item 12.1:

No person shall unnecessarily remove, handle or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

Condition 13: Exempt Sources - Proof of Eligibility
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-3.2 (a)

Item 13.1:

The owner or operator of an emission source or activity that is listed as being exempt may be required to certify that it is operated within the specific criteria described in this Subpart. The owner or operator of any such emission source or activity must maintain all records necessary for demonstrating compliance with this Subpart on-site for a period of five years, and make them available to representatives of the department upon request.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Condition 14: Trivial Sources - Proof of Eligibility
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-3.3 (a)

Item 14.1:

The owner or operator of an emission source or activity that is listed as being trivial in this Section may be required to certify that it is operated within the specific criteria described in this Subpart. The owner or operator of any such emission source or activity must maintain all required records on-site for a period of five years and make them available to representatives of the department upon request.

Condition 15: Requirement to Provide Information
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-6.4 (a) (4)

Item 15.1:

The owner and/or operator shall furnish to the department, within a reasonable time, any information that the department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the department copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee may furnish such records directly to the administrator along with a claim of confidentiality, if the administrator initiated the request for information or otherwise has need of it.

Condition 16: Right to Inspect
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-6.4 (a) (8)

Item 16.1:

The department or an authorized representative shall be allowed upon presentation of credentials and other documents as may be required by law to:

(i) enter upon the permittee's premises where a facility subject to the permitting requirements of this Subpart is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;

(ii) have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;

(iii) inspect at reasonable times any emission sources, equipment (including monitoring and air pollution control equipment), practices, and operations regulated or required under the permit; and

(iv) sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or applicable requirements.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Condition 17: Off Permit Changes

Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-6.4 (f) (6)

Item 17.1:

No permit revision will be required for operating changes that contravene an express permit term, provided that such changes would not violate applicable requirements as defined under this Part or contravene federally enforceable monitoring (including test methods), recordkeeping, reporting, or compliance certification permit terms and conditions. Such changes may be made without requiring a permit revision, if the changes are not modifications under any provision of title I of the act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions) provided that the facility provides the administrator and the department with written notification as required below in advance of the proposed changes within a minimum of seven days. The facility owner or operator, and the department shall attach each such notice to their copy of the relevant permit.

(i) For each such change, the written notification required above shall include a brief description of the change within the permitted facility, the date on which the change will occur, any change in emissions, and any permit term or condition that is no longer applicable as a result of the change.

(ii) The permit shield described in section 6 NYCRR 201-6.4 shall not apply to any change made pursuant to this paragraph.

Condition 18: Required Emissions Tests

Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 202-1.1

Item 18.1:

For the purpose of ascertaining compliance or non-compliance with any air pollution control code, rule or regulation, the commissioner may require the person who owns such air contamination source to submit an acceptable report of measured emissions within a stated time.

Condition 19: Accidental release provisions.

Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40 CFR Part 68

Item 19.1:

If a chemical is listed in Tables 1,2,3 or 4 of 40 CFR §68.130 is present in a process in quantities greater than the threshold quantity listed in Tables 1,2,3 or 4, the following requirements will apply:

a) The owner or operator shall comply with the provisions of 40 CFR Part 68 and;

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

b) The owner or operator shall submit at the time of permit issuance (if not previously submitted) one of the following, if such quantities are present:

1) A compliance schedule for meeting the requirements of 40 CFR Part 68 by the date provided in 40 CFR §68.10(a) or,

2) A certification statement that the source is in compliance with all requirements of 40 CFR Part 68, including the registration and submission of the Risk Management Plan. Information should be submitted to:

Risk Management Plan Reporting Center
C/O CSC
8400 Corporate Dr
Carrollton, Md. 20785

Condition 20: Recycling and Emissions Reduction
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 82, Subpart F

Item 20.1:

The permittee shall comply with all applicable provisions of 40 CFR Part 82.

The following conditions are subject to annual compliance certification requirements for Title V permits only.

Condition 21: Emission Unit Definition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-6

Item 21.1:

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-10001

Emission Unit Description:

This emission unit consists of:

(1) the basecoat/clearcoat application and curing line,

(2) printing ink, bottom coat, and overvarnish.
Application and curing lines 1, 2, 3, 4

(3) 3 internal coat ovens

(4) internal coat overspray baghouse,

(5) the incinerator lines for 1, 2, 3, 4 internal coat

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

lines, printing ink/overvarnish/bottom coat line 1, 2, 3, 4.

(6) Room ventilation of uncaptured coating emissions. The emission points associated with this unit are RVENT, MIST1, and MIST2.

(7) Mechanical vents/dampers will only be open to the atmosphere during the initial start-up purge cycle of the oven itself (without coating present). The emission points associated with this unit are BCOE1, DECO1, DECO2, DECO3, DECO4, ICOE1, ICOE3, and ICOE4.

(8) This emissions unit also contains two exempt emergency generators. One(1) diesel Milton CAT 250 hp and one(1) natural gas 225 hp Winco 35000 .

Building(s): BDG1

Item 21.2:

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U-10002

Emission Unit Description:

This emission unit consists of the sludge dryer exhaust.

The emission point is SDEO1.

Building(s): BDG1

Condition 22: Progress Reports Due Semiannually
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-6.4 (d) (4)

Item 22.1:

Progress reports consistent with an applicable schedule of compliance are to be submitted at least semiannually, or at a more frequent period if specified in the applicable requirement or by the department. Such progress reports shall contain the following:

- (i) dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and
- (ii) an explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

Condition 23: Non Applicable requirements
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-6.4 (g)

Item 23.1:

This section contains a summary of those requirements that have been specifically identified as

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

being not applicable to this facility and/or emission units, emission points, processes and/or emission sources within this facility. The summary also includes a justification for classifying any such requirements as non-applicable.

40 CFR Part 64

Reason: After re-considering Compliance Assurance Monitoring(CAM) applicability, it has been determined that it does not apply, pursuant to 40CFR 64.2(b)(1)(v). The capture and control systems(s) exist to comply with an emissions cap that meets the requirements specified in 40 CFR 70.4(b)(12). Therefore, CAM requirements have been removed from the permit.

Condition 24: Facility Permissible Emissions
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Item 24.1:

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 000050-00-0 PTE: 19,000 pounds per year
 Name: FORMALDEHYDE

CAS No: 0NY100-00-0 PTE: 48,000 pounds per year
 Name: TOTAL HAP

CAS No: 0NY998-00-0 PTE: 772,000 pounds per year
 Name: VOC

Condition 25: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Item 25.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
 40 CFR Part 63, Subpart KKKK

Item 25.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Lower Permit Limit: 80.9 percent by weight
 Reference Test Method: M-25A
 Monitoring Frequency: UPON PERMIT RENEWAL
 Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST
 METHOD INDICATED
 Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 26: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR Subpart 201-7

Item 26.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

40 CFR Part 63, Subpart KKKK

Item 26.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 26.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 26.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 26.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 26.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):
 CAS No: 0NY100-00-0 TOTAL HAP

Item 26.7:

Compliance Certification shall include the following monitoring:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Total HAP emissions (including formaldehyde, which is formed in the curing of the coatings) for the facility shall not exceed 24 tons during any 12-month period, including fugitives.

Ball Metal Beverage Container Corp. will conduct an inventory of their coating, ink and solvent usage and calculate total HAP emissions every month. Monthly summaries describing total coating, ink and solvent usage, their HAP contents, and calculated HAP emissions will be available for inspection by the 15th day of the following month.

Records must be kept of RTO downtime due to maintenance, electrical outages, and malfunctions. Records of coatings, inks, and solvents usage as well as their HAP contents shall also be kept during these times.

The 12-month rolling totals describing total HAP emissions (including uncaptured fugitive emissions), coatings, ink and solvent usage (broken down as to periods when the Regenerative Thermal Oxidizer (RTO) is operating and when not operating) must be submitted semi-annually. If the RTO is operated at less than 1500 degrees Fahrenheit or out of pressure drop range, then emissions from the affected sources are assumed to have no control for purposes of calculating emissions. The uncontrolled formaldehyde emissions are based on the emissions rate potential (ERP) demonstrated from the most current stack test. Otherwise, emissions are calculated based upon the overall capture/control of HAPs from coatings along with the formaldehyde mass emissions rate (MER) as demonstrated in the latest stack test.

Parameter Monitored: TOTAL HAP

Upper Permit Limit: 24 tons per year

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 27: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Item 27.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
40 CFR Part 63, Subpart KKKK

Item 27.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 27.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 27.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 27.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 27.6:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-10001

Regulated Contaminant(s):

CAS No: 0NY998-00-0 VOC
CAS No: 000050-00-0 FORMALDEHYDE

Item 27.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: INTERMITTENT EMISSION TESTING

Monitoring Description:

The mass emissions rate (MER) for formaldehyde from the coating lines is determined by measuring the mass of

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

formaldehyde at the outlet of the RTO by method M-316. The MER was determined to be 0.218 lbs/hr during the July 14, 2016 stack test and shall be re-determined once per permit term. When subsequent tests are performed, the latest demonstrated MER, corresponding RTO operating temperature, and pressure drop shall be used to determine formaldehyde emissions. This permit shall be modified to reflect these new numbers.

This condition assures compliance of 6 NYCRR Part 212 toxics.

Upper Permit Limit: 0.218 pounds per hour

Reference Test Method: M-316

Monitoring Frequency: UPON PERMIT RENEWAL

Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED

Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 28: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR Subpart 201-7

Item 28.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
40 CFR Part 63, Subpart KKKK

Item 28.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 28.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 28.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Item 28.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 28.6:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-10001

Regulated Contaminant(s):

CAS No: 0NY998-00-0

VOC

CAS No: 000050-00-0

FORMALDEHYDE

Item 28.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: INTERMITTENT EMISSION TESTING

Monitoring Description:

The emissions rate potential (ERP) for formaldehyde from the coating lines is determined by measuring the mass of formaldehyde at the inlet of the RTO by method M-316. The ERP was determined to be 2.8 lbs/hr during the July 14, 2016 stack test and shall be re-determined once per permit term. When subsequent tests are performed, the latest formaldehyde ERP shall be used to determine uncontrolled emissions and the permit shall be modified to reflect this new number.

This condition assures compliance of 6 NYCRR Part 212 toxics.

Upper Permit Limit: 2.8 pounds per hour

Reference Test Method: M-316

Monitoring Frequency: UPON PERMIT RENEWAL

Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST
METHOD INDICATED

Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 29: Capping Monitoring Condition**Effective between the dates of 08/04/2020 and 08/03/2025****Applicable Federal Requirement: 6 NYCRR Subpart 201-7****Item 29.1:**

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

6 NYCRR Subpart 231-1
40 CFR Part 63, Subpart KKKK

Item 29.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 29.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 29.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 29.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 29.6:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-10001

Regulated Contaminant(s):

CAS No: 0NY100-00-0	TOTAL HAP
CAS No: 0NY998-00-0	VOC

Item 29.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: INTERMITTENT EMISSION TESTING

Monitoring Description:

Destruction Efficiency of VOCs from the coating lines is determined by measuring the mass of VOC at the inlet and outlet of the RTO by Method 25A. The destruction efficiency was determined to be 97.016% during the July 14, 2016 stack test and shall be redetermined once per permit term. The latest demonstrated control efficiency, corresponding RTO operating temperature, and pressure drop from the most recent approved stack test shall be used to determine VOC and HAP emissions. The permit shall be

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

modified to reflect this new number.

This condition assures compliance of 6 NYCRR Part 212 toxics.

Parameter Monitored: DESTRUCTION EFFICIENCY
 Lower Permit Limit: 97 percent by weight
 Reference Test Method: M-25A
 Monitoring Frequency: UPON PERMIT RENEWAL
 Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED
 Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 30: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR Subpart 201-7

Item 30.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
 40 CFR Part 63, Subpart KKKK

Item 30.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 30.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 30.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 30.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Item 30.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 000050-00-0	FORMALDEHYDE
CAS No: 0NY100-00-0	TOTAL HAP
CAS No: 0NY998-00-0	VOC

Item 30.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

In order to assure capture of VOCs at the same efficiency as that demonstrated during the last stack test (80.9%), Ball Metal Beverage Container Corp. shall perform semi-annual maintenance and testing of the control shutdown circuit for the blower/fans of each curing oven.

Monitoring Frequency: SEMI-ANNUALLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 31: Capping Monitoring Condition

Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Item 31.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1

Item 31.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 31.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 31.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 31.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 31.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):
 CAS No: 0NY998-00-0 VOC

Item 31.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
 DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Total VOC usage (including coatings, inks and solvents) for the facility is not to exceed 1567 tons per year. This limit is based upon an overall capture and control efficiency for VOC of 75.96% and subtracting out 10 tons of formaldehyde. Formaldehyde is formed in the curing of the coatings and not present in them. Any future stack test results will change this allowable limit to:

$$(386-10) / ((1-(\text{destruction efficiency}\%/100))$$

Ball Metal Beverage Container Corp. will conduct an inventory of their coating, ink and solvent usage and calculate total VOC usage every month. Monthly summaries describing total coating, ink and solvent usage along with their VOC contents will be available for inspection by the 15th day of the following month.

An annual report describing total VOC usage (coatings, ink and solvent usage) must be submitted within thirty (30) days of the end of each calendar year.

Parameter Monitored: VOC

Upper Permit Limit: 1567 tons per year

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

The initial report is due 1/30/2021.
 Subsequent reports are due every 6 calendar month(s).

Condition 32: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Item 32.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
 40 CFR Part 63, Subpart KKKK

Item 32.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 32.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 32.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 32.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 32.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 000050-00-0	FORMALDEHYDE
CAS No: 0NY100-00-0	TOTAL HAP
CAS No: 0NY998-00-0	VOC

Item 32.7:

Compliance Certification shall include the following monitoring:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
 DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

In order to assure destruction efficiencies of VOCs and HAPs (including formaldehyde) that were demonstrated during the last stack test, Ball Metal Beverage Container Corp. shall maintain a minimum combustion temperature of 1500°F to the RTO. If the RTO operating temperature is below 1500F then emission calculations will assume that there is no control of VOCs and HAPs(including formaldehyde).

Ball Metal Beverage Container Corp. shall keep all records of monitoring, including, but not limited to, date, time, and duration of all periods the operating temperature of the RTO is below 1500F and/or when the RTO was not in operation during the normal operations of the equipment that it controls. This includes start up/shutdown, malfunction or curtailment. Ball Metal Beverage Container Corp. may continue to operate the process lines during periods of RTO breakdown, malfunction and necessary scheduled or unscheduled maintenance provided all other emissions limitations are met. Uncontrolled VOCs and HAPs (including formaldehyde) emissions shall be accounted for and reported semi-annually.

This condition along with limitations on pressure drop to the RTO and allowable hours of uncontrolled emissions also assures compliance with Part 212 for formaldehyde emissions (an A-rated contaminant) along with 6 NYCRR 201-7.

Parameter Monitored: TEMPERATURE

Lower Permit Limit: 1500 degrees Fahrenheit

Reference Test Method: Temperature sensor

Monitoring Frequency: CONTINUOUS

Averaging Method: MINIMUM - NOT TO FALL BELOW STATED
 VALUE - SEE MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 33: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR Subpart 201-7

Item 33.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

HVAC, 0.9 mmBTU/hr JWI dryer system (each on Natural Gas) and 0.6 mmBTU/hr emergency diesel generator (limited to 500 hr/yr by definition). This shall be added to the VOC emissions from coatings and inks, as calculated below, to demonstrate compliance with the 386 tons per year cap.

Ball Metal Beverage Container Corp. will conduct an inventory of their coating, ink and solvent usage and calculate VOC emissions every month. Monthly summaries describing total coating, ink and solvent usage, their VOC contents, and calculated VOC emissions will be available for inspection by the 15th day of the following month.

Records must be kept of RTO downtime due to maintenance, electrical outages, and malfunctions. Records of coatings, inks, and solvents usage as well as their HAP contents shall also be kept during these times.

A semi-annual report describing total VOC emissions (including uncaptured fugitive emissions), coatings, ink, and solvent usage (broken down to periods when the RTO is operating and when not operating) must be submitted. If the RTO is operated at less than 1500 degrees Fahrenheit or the pressure drop is out of the acceptable range then emissions from the affected sources are to be assumed to have no control for purposes of calculating emissions. Otherwise, emissions are calculated based upon the overall capture/control of VOCs from the coatings along with the controlled/uncontrolled formaldehyde emissions rate as demonstrated in the July 14, 2016 stack test.

Parameter Monitored: VOC

Upper Permit Limit: 386 tons per year

Monitoring Frequency: MONTHLY

Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 34: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR Subpart 201-7

Item 34.1:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

40 CFR Part 63, Subpart KKKK

Item 34.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 34.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 34.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 34.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 34.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 000050-00-0 FORMALDEHYDE

Item 34.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Semi-annual reports shall be submitted describing total hours that the coating lines are in operation along with any concurrent times that the RTO is not in operation. Formaldehyde emissions are based on an hourly emission rate either controlled or uncontrolled as demonstrated in the July 14, 2016 stack test. If the RTO is operated at less than 1500 degrees Fahrenheit or out of pressure drop range, then emissions from the affected sources are

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

assumed to have no control for purposes of calculating emissions. Formaldehyde emissions are calculated based upon an ERP of 2.8 lbs/hr before control and a MER of 0.218 lb/hr when the incinerator is operating. Emissions calculations use the following formula:

$$[(\text{Uncontrolled Hours of Operation}) * (2.8 \text{ lbs/hr})] + [(\text{Controlled Hours of Operation}) * (0.218 \text{ lbs/hr})]$$

Parameter Monitored: FORMALDEHYDE
Upper Permit Limit: 9.5 tons per year
Monitoring Frequency: MONTHLY
Averaging Method: ANNUAL MAXIMUM ROLLED MONTHLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2021.
Subsequent reports are due every 6 calendar month(s).

Condition 35: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR Subpart 201-7

Item 35.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
40 CFR Part 63, Subpart KKKK

Item 35.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 35.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 35.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 35.5:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 35.6:

The Compliance Certification activity will be performed for the Facility.

Regulated Contaminant(s):

CAS No: 000050-00-0	FORMALDEHYDE
CAS No: 0NY100-00-0	TOTAL HAP
CAS No: 0NY998-00-0	VOC

Item 35.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

In order to assure capture and destruction efficiencies of VOCs and HAPs and also control of formaldehyde which were demonstrated during the last stack test, Ball Metal Beverage Container Corp. shall maintain a pressure drop range between 1" and 1.4" of water. This pressure drop range applies to the VOC capture system at the inlet of the RTO. If the pressure is out of range then emission calculations will assume that there is no capture and control of VOCs and HAPs and no control for formaldehyde.

Ball Metal Beverage Container Corp. shall keep all records of monitoring, including, but not limited to, date, time and duration of all periods the pressure drop to the RTO is out of range and/or not in operation during the normal operations of the equipment that it controls, including startup/shutdown, malfunction or curtailment. Ball Metal Beverage Container Corp. may continue to operate the process lines during periods of RTO breakdown, malfunction and necessary scheduled or unscheduled maintenance provided that all other emissions limitations are met. Uncontrolled VOCs and HAPs (including formaldehyde) emissions shall be accounted for and reported within semi-annual compliance reporting periods.

This condition along with limitations on the RTO operating temperature and allowable hours of uncontrolled emissions also assures compliance with Part 212 for Formaldehyde emissions (an A-rated contaminant) along with 6 NYCRR 201-7.

Parameter Monitored: PRESSURE DROP

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Lower Permit Limit: 1 inches of water
 Upper Permit Limit: 1.4 inches of water
 Reference Test Method: Pressure Monitor
 Monitoring Frequency: CONTINUOUS
 Averaging Method: RANGE - NOT TO FALL OUTSIDE OF STATED RANGE AT ANY TIME
 Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
 Reports due 30 days after the reporting period.
 The initial report is due 1/30/2021.
 Subsequent reports are due every 6 calendar month(s).

Condition 36: Facility Permissible Emissions
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-7.1 (d)

Item 36.1:

The sum of emissions from the emission units specified in this permit shall not equal or exceed the following

Potential To Emit (PTE) rate for each regulated contaminant:

CAS No: 000050-00-0 Name: FORMALDEHYDE	PTE: 19,000 pounds per year
CAS No: 0NY100-00-0 Name: TOTAL HAP	PTE: 48,000 pounds per year
CAS No: 0NY998-00-0 Name: VOC	PTE: 772,000 pounds per year

Condition 37: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 201-7.1 (d)

Item 37.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
 40 CFR Part 63, Subpart KKKK

Item 37.2:

Operation of this facility shall take place in accordance with the approved criteria, emission limits, terms, conditions and standards in this permit.

Item 37.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 37.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 37.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 37.6:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-10001	
Process: 101	Emission Source: INCIN
Emission Unit: U-10001	
Process: 102	Emission Source: INCIN
Emission Unit: U-10001	
Process: 103	Emission Source: INCIN
Regulated Contaminant(s):	
CAS No: 000050-00-0	FORMALDEHYDE
CAS No: 0NY100-00-0	TOTAL HAP
CAS No: 0NY998-00-0	VOC

Item 37.7:

Compliance Certification shall include the following monitoring:

Capping: Yes

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

At all times, the facility shall maintain the monitoring, including but not limited to, maintaining necessary parts for routine repairs of the monitoring equipment.

The facility shall install, calibrate, maintain, and operate instrumentation using procedures that take into account the manufacturer's specifications. Except for, as applicable, monitoring malfunctions, associated repairs, and required quality assurance or control activities (including, as applicable, calibration checks and required zero and span adjustments), Ball Metal Beverage Container

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Corp shall conduct all monitoring in continuous operation (or shall collect data at all required intervals) at all times the pollutant-specific emissions unit is operating. Except for data recorded during monitoring malfunctions, associated repairs, and required quality assurance or control activities, Ball Metal Beverage Container Corp shall use all the data collected in assessing the operation of the control device and associated control system. A monitoring malfunction is any sudden, infrequent, not reasonably preventable failure of the monitoring to provide valid data. Monitoring failures that are caused in part by poor maintenance or careless operation are not malfunctions.

If the facility identifies a failure to achieve compliance with an emission limitation or standard for which the approved monitoring did not provide an indication of an excursion or exceedance while providing valid data, or the results of compliance or performance testing document a need to modify the existing indicator ranges or designated conditions, the owner or operator shall promptly notify the permitting authority and, if necessary, submit a proposed modification to the Title V permit to address the necessary monitoring changes. Such a modification may include, but is not limited to, re-establishing indicator ranges or designated conditions, modifying the frequency of conducting monitoring and collecting data, or the monitoring of additional parameters.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 38: Capping Monitoring Condition
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 201-7.1 (d)

Item 38.1:

Under the authority of 6 NYCRR Part 201-7, this condition contains an emission cap for the purpose of limiting emissions from the facility, emission unit or process to avoid being subject to the following applicable requirement(s) that the facility, emission unit or process would otherwise be subject to:

6 NYCRR Subpart 231-1
40 CFR Part 63, Subpart KKKK

Item 38.2:

Operation of this facility shall take place in accordance with the approved criteria, emission

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

limits, terms, conditions and standards in this permit.

Item 38.3:

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

Item 38.4:

On an annual basis, unless otherwise specified below, beginning one year after the granting of an emissions cap, the responsible official shall provide a certification to the Department that the facility has operated all emission units within the limits imposed by the emission cap. This certification shall include a brief summary of the emissions subject to the cap for that time period and a comparison to the threshold levels that would require compliance with an applicable requirement.

Item 38.5:

The emission of pollutants that exceed the applicability thresholds for an applicable requirement, for which the facility has obtained an emissions cap, constitutes a violation of Part 201 and of the Act.

Item 38.6:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-10001	
Process: 101	Emission Source: INCIN
Emission Unit: U-10001	
Process: 102	Emission Source: INCIN
Emission Unit: U-10001	
Process: 103	Emission Source: INCIN
Regulated Contaminant(s):	
CAS No: 000050-00-0	FORMALDEHYDE
CAS No: 0NY100-00-0	TOTAL HAP
CAS No: 0NY998-00-0	VOC

Item 38.7:

Compliance Certification shall include the following monitoring:

Capping: Yes
Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE
Monitoring Description:
Upon detecting an excursion or exceedance, the facility shall restore operation of the pollutant-specific emissions unit (including the control device and associated capture system) of its normal or usual manner of operation as expeditiously as practicable in accordance

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

with good air pollution control practices for minimizing emissions. The response shall include minimizing the period of any start up, shutdown, or malfunction and taking any necessary corrective actions to restore normal operation and prevent the likely recurrence of the cause of an excursion or exceedance (other than those cause by excused start up or shutdown conditions). Such actions may include initial inspection and evaluation, recording that operations returned to normal without operator action (such as through response by a computerized distribution control system), or any necessary follow-up actions to return operation to within indicator range, designated condition, or below the applicable emission limitation or standard, as applicable.

Determination of whether Ball Metal Beverage Container Corp has used acceptable procedures in response to an excursion or exceedance will be based on information available, which may include but is not limited to, monitoring results, review of operation and maintenance procedures and records, and inspection of control device, associated capture system, and the process based upon this determination, Ball Metal Beverage Container Corp. may be required to develop a plan to improve these procedures.

Regularly scheduled incinerator maintenance during plant shut down periods.

Regenerative Thermal Oxidizer (RTO) malfunctions or maintenance events over 96 consecutive hours triggers the requirement for development of a plan to improve procedures for preventing future excursions or exceedance. Ball Metal Beverage Container Corp. shall provide written notification to the department within 30 days of repair. These notifications shall describe date, time, duration, cause, corrective action, and facility manufacturing status during the event.

Parameter Monitored: OPERATING HOURS

Upper Permit Limit: 96 hours

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Averaging Method: MAXIMUM - NOT TO EXCEED STATED VALUE - SEE MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 39: Visible Emissions Limited
Effective between the dates of 08/04/2020 and 08/03/2025

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Applicable Federal Requirement:6 NYCRR 211.2**Item 39.1:**

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 40: Compliance Certification**Effective between the dates of 08/04/2020 and 08/03/2025****Applicable Federal Requirement:6 NYCRR 212-1.3****Item 40.1:**

The Compliance Certification activity will be performed for the Facility.

Item 40.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Process emission sources must be evaluated on an individual contaminant basis and assigned an environmental rating, with the exception of High Toxic Air Contaminants (HTACs) meeting the emission limits of Table 2 of 212-2.2 and non-HTACs emitted at a facility-wide annual rate of less than 100 pounds.

The first factor affecting a process emission source's environmental rating (ER) is the toxicity classification (H-high, M -medium, or L-low) as defined in Part 212-1.2 and listed in the DAR-1 AGC/SGC tables. The DAR-1 environmental rating process commences with initially assigning the toxicity classification as the ER (H, M, L toxicity contaminants should be assigned an ER of "A", "B" and "C," respectively).

Based on the Potentials to Emit (PTE), emission rate potentials (ERP) and other supporting documentation associated with application ID. No. 5-4115-00002/00129, predicted maximum ambient impacts for the permitted contaminants are in compliance with SGCs/AGCs. In accordance with §212-1.3 - Determination of Environmental Rating, environmental ratings of A, B or C have been assigned to all permitted contaminants in accord with the toxicity classifications identified in AGC/SGC tables, unless otherwise noted in this permit.

Any increase in a contaminants ERP/PTE (including speciated VOCs and PM) from those contained in the most

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

recent approved application is a modification and requires, at a minimum, a notification in accordance with 6 NYCRR 201-6.6

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 41: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 212-1.6 (a)

Item 41.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-10001	Emission Point: RVENT
Process: 106	

Emission Unit: U-10001	Emission Point: RVENT
Process: 107	

Emission Unit: U-10002	Emission Point: SDEO1
Process: 104	

Emission Unit: U-10002	Emission Point: MIST2
Process: 109	

Item 41.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No person shall cause or allow emissions having an average opacity during any six consecutive minutes of 20 percent or greater from any process emission source, except only the emission of uncombined water. The Department reserves the right to perform or require the performance of a Method 9 opacity evaluation at any time during facility operations.

The permittee will conduct observations of visible emissions from the emission unit, process, etc. to which this condition applies at the monitoring frequency stated below while the process is in operation. The permittee will investigate, in a timely manner, any

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

instance where there is cause to believe that visible emissions have the potential to exceed the opacity standard.

The permittee shall investigate the cause, make any necessary corrections, and verify that the excess visible emissions problem has been corrected. If visible emissions with the potential to exceed the standard continue, the permittee will conduct a Method 9 assessment within the next operating day of the sources associated with the potential noncompliance to determine the degree of opacity and will notify the NYSDEC if the method 9 test indicates that the opacity standard is not met.

Records of visible emissions observations (or any follow-up method 9 tests), investigations and corrective actions will be kept on-site. Should the Department determine that permittee's record keeping format is inadequate to demonstrate compliance with this condition, it shall provide written notice to the permittee stating the inadequacies, and permittee shall have 90 days to revise its prospective record keeping format in a manner acceptable to the Department.

Parameter Monitored: OPACITY

Upper Permit Limit: 20 percent

Reference Test Method: Method 9

Monitoring Frequency: WEEKLY

Averaging Method: 6-MINUTE AVERAGE (METHOD 9)

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 42: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR Subpart 212-2

Item 42.1:

The Compliance Certification activity will be performed for the Facility.

Item 42.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

For emissions of non-criteria air contaminants not specifically identified in this permit, the facility owner or operator shall meet the requirements specified in Subdivision 212-2.3(b), Table 4 "Degree of Air Cleaning

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

Required for Non-Criteria Air Contaminants” or Subdivision 212-2.2 Table 2 “High Toxicity Air Contaminant List” (HTAC) as described below:

1. Contaminants that have been given an Environmental Rating of “C”, shall be limited to an emission rate potential (ERP) less than 10 lbs/hr., have predicted ambient maximum off-site air concentrations less than the respective annual and short-term guideline concentrations (AGC & SGC) or, if listed as an HTAC, do not exceed the Mass Emission Limits in 212-2.2 Table 2.

2. Contaminants that have been given an Environmental Rating of “B”, shall be limited to an emission rate potential (ERP) less than 10 lbs/hr., have predicted ambient maximum off-site air concentrations less than the respective annual and short-term guideline concentrations (AGC & SGC) or, if listed as an HTAC, do not exceed the Mass Emission Limits in 212-2.2 Table 2.

3. Contaminants that have been given an Environmental Rating of “A”, shall be limited to an emission rate potential (ERP) less than 0.1 lbs/hr., have predicted ambient maximum off-site air concentrations less than the respective annual and short-term guideline concentrations (AGC & SGC) or, if listed as an HTAC, do not exceed the Mass Emission Limits in 212-2.2 Table 2.

Based on air dispersion modeling performed for the Title V renewal application the facility shall, on an annual basis, review all process operations to determine if any changes have occurred that would warrant an update to the approved modeling analysis.

The facility must maintain records to demonstrate that none of these contaminants have had an increase in their ERP or actual annual emissions. Any such increase may require a re-evaluation of its environmental rating and review of the facility wide AGC & SGC.

A Department approved modeling analysis shall include at a minimum the following information:

Emission Unit:

Emission Point

Contaminant

CAS number

Environmental Rating

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

ERP (Emission Rate Potential)

Annual Emission Rate

Maximum offsite AGC and SGC concentrations

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 43: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 212-2.4 (b)

Item 43.1:

The Compliance Certification activity will be performed for the facility:

The Compliance Certification applies to:

Emission Unit: U-10001	Emission Point: RVENT
Process: 106	

Emission Unit: U-10001	Emission Point: RVENT
Process: 107	

Emission Unit: U-10002	Emission Point: SDEO1
Process: 104	

Emission Unit: U-10002	Emission Point: MIST2
Process: 109	

Item 43.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

For Solid Particulates that have been given an environmental rating of B or C, no person will cause or allow emissions of solid particulates that exceed 0.050 grains of particulates per cubic foot of exhaust gas, expressed at standard conditions on a dry gas basis. The Department reserves the right to perform or require the performance of a Method 5 emissions evaluation at any time. The permittee will conduct compliance verifications at the monitoring frequency stated below. These verifications include review of pertinent information

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

relating to particulate emissions of the source, including but not limited to production rate, process material, air flow rate, control equipment parameters, visible emissions, etc. and any impact they may have in how the environmental rating of B or C was determined.

Additionally, the permittee will investigate, in a timely manner, any instance where there is cause to believe that particulate emissions above 0.050 gr/dscf are occurring or have occurred. These instances include but are not limited to process upsets, control device malfunctions or problems, abnormal visible emissions, complaints, etc. The permittee shall determine the cause of any exceedance, make the necessary correction, and verify that the excess emissions problem has been corrected.

Records of these verifications, investigations and corrective actions will be kept on-site and made available to the Department upon request.

Monitoring Frequency: SEMI-ANNUALLY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2021.
Subsequent reports are due every 6 calendar month(s).

Condition 44: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 228-1.3 (a)

Item 44.1:

The Compliance Certification activity will be performed for the facility:
The Compliance Certification applies to:

Emission Unit: U-10001

Regulated Contaminant(s):
CAS No: 0NY075-00-0 PARTICULATES

Item 44.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No person shall cause or allow emissions having an average opacity during any six consecutive minutes of 20 percent or greater from any process emission source, except only the emission of uncombined water. The Department reserves the right to perform or require the

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

performance of a Method 9 opacity evaluation at any time during facility operation.

The permittee will conduct observations of visible emissions from the emission unit, process, etc. to which this condition applies at any time there are visible stack emissions which have the potential to exceed 20%. The permittee will investigate, in a timely manner, any instance where there is cause to believe that visible emissions have the potential to exceed the opacity standard.

The permittee shall investigate the cause, make any necessary corrections, and verify that the excess visible emissions problem has been corrected. If visible emissions with the potential to exceed 20% continue, the permittee will conduct a Method 9 assessment within the next operating day of the sources associated with the potential noncompliance to determine the degree of opacity and will notify the NYSDEC if the method 9 test indicates that the opacity standard is not met.

Records of visible emissions observations (or any follow-up method 9 tests), investigations and corrective actions will be kept on-site. Should the Department determine that permittee's record keeping format is inadequate to demonstrate compliance with this condition, it shall provide written notice to the permittee stating the inadequacies, and permittee shall have 90 days to revise its prospective record keeping format in a manner acceptable to the Department.

 Reports due 30 days after the reporting period.
 The initial report is due 1/30/2021.
 Subsequent reports are due every 6 calendar month(s).

Condition 47: Applicability of Subpart A General Provisions
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60, NSPS Subpart A

Item 47.1:

This emission source is subject to the applicable general provisions of 40 CFR 60. The facility owner is responsible for complying with all applicable technical, administrative and reporting requirements.

Condition 48: Applicability
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60, NSPS Subpart IIII

Item 48.1:

Facilities that have stationary compression ignition internal combustion engines must comply with applicable portions of 40 CFR 60 Subpart IIII.

Condition 49: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60, NSPS Subpart IIII

Item 49.1:

The Compliance Certification activity will be performed for the Facility.

Item 49.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

For the diesel emergency generator engine: Caterpillar,

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

compression ignition, internal combustion engine, model year 2007, rated at 200kW with a displacement less than 10 liters/cylinder (l/cyl), constructed after July 11, 2005 and manufactured after April 1, 2006, the Permittee (or owner or operator) shall comply with all NSPS 4I requirements that apply to 2007 and later model year emergency engines with less than 30 l/cyl.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 50: Engines at Area sources of HAP
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 63, Subpart ZZZZ

Item 50.1:

Internal combustion engines, constructed or re-constructed on or after June 12, 2006, that meet the requirements of 40 CFR 60 Subpart IIII or Subpart JJJJ meet the requirements of 40 CFR 63 Subpart ZZZZ.

Condition 51: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 63, Subpart ZZZZ

Item 51.1:

The Compliance Certification activity will be performed for the Facility.

Item 51.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

For the diesel emergency generator engine: Caterpillar, compression ignition, internal combustion engine, model year 2007, rated at 200kW with a displacement of less than 10 liters/cylinder (l/cyl), the Permittee (or owner or operator) shall comply with all NESHAP 4Z requirements that apply to a new reciprocating internal combustion engine located at an area source of HAPs by complying with the requirements of NSPS 4I.

For the natural gas emergency generator engine: Winco, spark ignition (SI), reciprocating internal combustion engine (RICE), constructed in 1982, and rated at 70 kW (94BHP), constructed before June 12, 2006, the Permittee (or owner or operator) shall comply with all NESHAP 4Z requirements that apply to existing emergency SI RICE

Permit ID: 5-4115-00002/00129

Condition 54: Once in always in
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 228-1.1 (a) (3)

Item 54.1:

This Condition applies to Emission Unit: U-10001

Item 54.2:

Any coating line that is or becomes subject to the provisions of Subpart 228-1 will remain subject to these provisions even if the annual potential to emit or actual emissions of VOCs for the facility later falls below the thresholds set forth in Subdivision 228-1.1(a).

Condition 55: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 228-1.3 (b) (1)

Item 55.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Item 55.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

The owner or operator of an emission source subject to 6 NYCRR Part 228-1 must maintain the following records in a format acceptable to the department for a period of at least five years:

1. A certification from the coating supplier or

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

manufacturer which lists the parameters used to determine the actual VOC content of each as applied coating used at the facility.

2. Purchase, usage and/or production records of each coating material, including solvents.
3. Records identifying each air cleaning device that has an overall removal efficiency of at least 90 percent.
4. Records verifying each parameter used to calculate the overall removal efficiency, as described in Equation 2 of Section 228-1.5(c), if applicable.
5. Any additional information required to determine compliance with Part 228-1.

Upon request, the owner or operator of an emission source subject to 6 NYCRR Part 228-1 must submit a copy of the records kept in accordance with this condition to the department within 90 days of receipt of the request.

Monitoring Frequency: PER BATCH OF PRODUCT/RAW MATERIAL CHANGE

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 56: Surface Coating- Prohibitions
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 228-1.3 (c)

Item 56.1:

This Condition applies to Emission Unit: U-10001

Item 56.2:

(1) No person shall sell, supply, offer for sale, solicit, use, specify, or require for use, the application of a coating on a part or product at a facility with a coating line described in Subpart 228-1.1(a) if such sale, specification, or use is prohibited by any of the provisions of this Subpart. The prohibition shall apply to all written or oral contracts under the terms of which any coating is to be applied to any part or product at an affected facility. This prohibition shall not apply to the following:

(i) coatings utilized at surface coating lines where control equipment has been installed to meet the maximum permitted VOC content limitations specified in the tables of Subpart 228-1.4;

(ii) coatings utilized at surface coating lines where a coating system is used which meets the requirements specified in Subpart 228-1.5(d); and

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

(iii) coatings utilized at surface coating lines that have been granted variances pursuant to Subpart 228-1.5(e).

(2) Any person selling a coating for use in a coating line subject to Subpart 228-1 must, upon request, provide the user with certification of the VOC content of the coating supplied.

Condition 57: Surface Coating - Handling, storage and disposal
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 228-1.3 (d)

Item 57.1:

This Condition applies to Emission Unit: U-10001

Item 57.2:

Within the work area(s) associated with a coating line, the owner or operator of a facility must:

(1) use closed, non-leaking containers to store or dispose of cloth or other absorbent applicators impregnated with VOC solvents that are used for surface preparation, cleanup or coating removal;

(2) store in closed, non-leaking containers spent or fresh VOC solvents to be used for surface preparation, cleanup or coating removal;

(3) not use VOC solvents to cleanup spray equipment unless equipment is used to collect the cleaning compounds and to minimize VOC evaporation;

(4) not use open containers to store or dispense surface coatings and/or inks unless production, sampling, maintenance or inspection procedures require operational access. This provision does not apply to the actual device or equipment designed for the purpose of applying a coating material to a substrate. These devices may include, but are not limited to: spray guns, flow coaters, dip tanks, rollers, knife coaters, and extrusion coaters;

(5) not use open containers to store or dispose of spent surface coatings, or spent VOC solvents;

(6) minimize spills during the handling and transfer of coatings and VOC solvents; and

(7) clean hand held spray guns by one of the following:

(i) an enclosed spray gun cleaning system that is kept closed when not in use;

(ii) non-atomized discharge of VOC solvent into a paint waste container that is kept closed when not in use;

(iii) disassembling and cleaning of the spray gun in a vat that is kept closed when not in use; or

(iv) atomized spray into a paint waste container that is fitted with a device designed to capture atomized VOC solvent emissions.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Condition 58: Surface Coating- application requirements
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 228-1.3 (e)

Item 58.1:

This Condition applies to Emission Unit: U-10001

Item 58.2:

Facilities operating coating lines must use one or more of the following application techniques to apply the coating:

- (i) flow/curtain coating;
- (ii) dip coating;
- (iii) cotton-tipped swab application;
- (iv) electro-deposition coating;
- (v) high volume low pressure spraying;
- (vi) electrostatic spray;
- (vii) airless spray, (including air assisted);
- (viii) airbrush application methods for stenciling, lettering, and other identification markings; or
- (ix) other coating application methods approved by the department which can demonstrate transfer efficiencies equivalent to or greater than high volume low pressure spray.

Condition 59: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:6 NYCRR 228-1.6 (a)

Item 59.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Item 59.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Monitoring Description:

Upon request by the Department, the owner or operator of an emission source subject to 6 NYCRR Part 228-1 must determine the actual VOC content of an as applied coating by measuring the volatile content, water content, density, volume of solids, and weight of solids in accordance with EPA Reference Test Method 311 or Method 24, included in Appendix A of 40 CFR parts 63 and 60 respectively, to demonstrate compliance with the requirements of Part 228-1.

An alternate sampling method that has been approved by both the Department and the Administrator may be used when Method 311 and/or Method 24 are not appropriate.

Reference Test Method: EPA Reference Test Method 311 or 24
Monitoring Frequency: UPON REQUEST OF REGULATORY AGENCY
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2021.
Subsequent reports are due every 6 calendar month(s).

Condition 60: Surface coating access for sampling
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 228-1.6 (c)

Item 60.1:

This Condition applies to Emission Unit: U-10001

Item 60.2:

Representatives of the department must be permitted on the facility owner's property, during reasonable business hours, to obtain coating samples for the purpose of determining compliance with the requirements of 6 NYCRR Part 228-1.

Condition 61: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 6 NYCRR 228-1.6 (h)

Item 61.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Item 61.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Monitoring Description:

Any information or record showing noncompliance with the requirements of 228-1 'Surface Coating Processes' must be reported to the department within 30 days following notice or generation of the information or record. All records required by this condition must be maintained at the facility for a period of five years.

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 62: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60.493(b)(1), NSPS Subpart WW

Item 62.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Item 62.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Ball Metal Beverage Container Corp. must comply with the performance test and compliance provisions in 60.493. This includes but is not limited to:

1. Maintain records of VOC content for each coating utilizing manufacturer formulation data or by analysis using Method 24.
2. Calculate the volume weighted average of the total mass of VOC per volume of coating solids used during each calendar month using procedures defined by 40 CFR 60.493(b)(1)(i).

Monitoring Frequency: MONTHLY

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Condition 63: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60.495(a)(1), NSPS Subpart WW

Item 63.1:

The Compliance Certification activity will be performed for:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 541150002

Emission Unit: U-10001

Item 63.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

The owner or operator of an affected facility shall include the following data in the initial compliance report required under 60.8(a):

Where only coatings which individually have a VOC content equal to or less than the limits specified in 60.492 are used, and no VOC is added to the coating during the application or distribution process, the owner or operator shall provide a list of the coatings used for the facility and the VOC content of each calculated from data determined using Method 24 or supplied by the manufacturers of the coatings.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 64: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 40CFR 60.495(b), NSPS Subpart WW

Item 64.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Item 64.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Following the initial performance test, the owner or operator shall identify, record, and submit quarterly reports to the Administrator of each instance in which the volume-weighted average of the total mass of VOC per volume of coating solids is greater than the limit specified under 40 CFR 60.492. If no such instances occur during a particular quarter, a report stating this shall be submitted to the Administrator semiannually.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

The initial report is due 1/30/2021.
Subsequent reports are due every 6 calendar month(s).

Condition 65: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60.495(d), NSPS Subpart WW

Item 65.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Item 65.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:

Each owner or operator subject to the provisions of this subpart shall maintain at the source, for a period of at least 2 years, records of all data and calculations used to determine VOC emissions from the facility in the initial and monthly performance tests.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

Condition 66: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement:40CFR 60.492(a), NSPS Subpart WW

Item 66.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001

Process: 101

Regulated Contaminant(s):
CAS No: 0NY998-00-0 VOC

Item 66.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Exterior base coating must not exceed 0.29 kilograms of VOC per liter of coating solids as determined by formulation data supplied by the manufacturer of the coating or by an analysis of each coating as received

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

using reference Method 24.

Work Practice Type: PARAMETER OF PROCESS MATERIAL
 Process Material: COATING
 Parameter Monitored: VOC
 Upper Permit Limit: 0.29 kilograms VOC per liter of coating solids
 Reference Test Method: Method 24
 Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
 Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)
 Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
 Reports due 30 days after the reporting period.
 The initial report is due 1/30/2021.
 Subsequent reports are due every 6 calendar month(s).

Condition 67: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 40CFR 60.492(b), NSPS Subpart WW

Item 67.1:
 The Compliance Certification activity will be performed for:

Emission Unit: U-10001
 Process: 102

Regulated Contaminant(s):
 CAS No: 0NY998-00-0 VOC

Item 67.2:
 Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:
 Clear base coating and over varnish must not exceed 0.46 kilograms of VOC per liter of coating solids as determined by formulation data supplied by the manufacturer of the coating or by an analysis of each coating as received using reference Method 24.

Work Practice Type: PARAMETER OF PROCESS MATERIAL
 Process Material: CLEAR COATINGS - MISCELLANEOUS METAL PARTS
 Parameter Monitored: VOC
 Upper Permit Limit: 0.46 kilograms VOC per liter of coating solids
 Reference Test Method: METHOD 24
 Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
 Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

TIME (INSTANTANEOUS/DISCRETE OR GRAB)
Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
The initial report is due 1/30/2021.
Subsequent reports are due every 6 calendar month(s).

Condition 68: Compliance Certification
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable Federal Requirement: 40CFR 60.492(c), NSPS Subpart WW

Item 68.1:

The Compliance Certification activity will be performed for:

Emission Unit: U-10001
Process: 103

Regulated Contaminant(s):
CAS No: 0NY998-00-0 VOC

Item 68.2:

Compliance Certification shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC
OPERATIONS

Monitoring Description:

Inside spray coating must not exceed 0.89 kilograms of
VOC per liter of coating solids as determined by
formulation data supplied by the manufacturer of the
coating or by an analysis of each coating as received
using reference Method 24.

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: COATING

Parameter Monitored: VOC

Upper Permit Limit: 0.89 kilograms VOC per liter of
coating solids

Reference Test Method: METHOD 24

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING
DESCRIPTION

Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY
TIME (INSTANTANEOUS/DISCRETE OR GRAB)

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

STATE ONLY ENFORCEABLE CONDITIONS

****** Facility Level ******

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS

This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Emergency Defense - 6 NYCRR 201-1.5

An emergency, as defined by subpart 201-2, constitutes an affirmative defense to penalties sought in an enforcement action brought by the Department for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated and maintained;

(3) During the period of the emergency the facility owner or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner or operator notified the Department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

STATE ONLY APPLICABLE REQUIREMENTS

The following conditions are state applicable requirements and are not subject to compliance certification requirements unless otherwise noted or required under 6 NYCRR Part 201.

Condition 69: Contaminant List

Effective between the dates of 08/04/2020 and 08/03/2025

Applicable State Requirement: ECL 19-0301

Item 69.1:

Emissions of the following contaminants are subject to contaminant specific requirements in this permit (emission limits, control requirements or compliance monitoring conditions).

CAS No: 000050-00-0
Name: FORMALDEHYDE

CAS No: 0NY075-00-0
Name: PARTICULATES

CAS No: 0NY100-00-0
Name: TOTAL HAP

CAS No: 0NY998-00-0
Name: VOC

Condition 70: Malfunctions and start-up/shutdown activities

Effective between the dates of 08/04/2020 and 08/03/2025

Applicable State Requirement: 6 NYCRR 201-1.4

Item 70.1:

(a) The facility owner or operator shall take all necessary and appropriate actions to prevent the

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

emission of air pollutants that result in contravention of any applicable emission standard during periods of start-up, shutdown, or malfunction.

(b) The facility owner or operator shall compile and maintain records of all equipment malfunctions, maintenance, or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the department when requested to do so, or when so required by a condition of a permit issued for the corresponding air contamination source. Such reports shall state whether any violations occurred and, if so, whether they were unavoidable, include the time, frequency and duration of the maintenance and/or start-up/shutdown activities, and an estimate of the emission rates of any air contaminants released. Such records shall be maintained for a period of at least five years and made available for review to department representatives upon request. Facility owners or operators subject to continuous stack monitoring and quarterly reporting requirements need not submit additional reports for equipment maintenance or start-up/shutdown activities for the facility to the department.

(c) In the event that emissions of air contaminants in excess of any emission standard in this Subchapter occur due to a malfunction, the facility owner or operator shall compile and maintain records of the malfunction and notify the department as soon as possible during normal working hours, but not later than two working days after becoming aware that the malfunction occurred. When requested by the department, the facility owner or operator shall submit a written report to the department describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates.

(d) The department may also require the owner or operator to include, in reports described under Subdivisions (b) and (c) of this Section, an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions.

(e) A violation of any applicable emission standard resulting from start-up, shutdown, or malfunction conditions at a permitted or registered facility may not be subject to an enforcement action by the department and/or penalty if the department determines, in its sole discretion, that such a violation was unavoidable. The actions and recordkeeping and reporting requirements listed above must be adhered to in such circumstances.

Condition 71: CLCPA Applicability
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable State Requirement:6 NYCRR 201-6.5 (a)

Item 71.1:

Pursuant to The New York State Climate Leadership and Community Protection Act (CLCPA) and Article 75 of the Environmental Conservation Law, emission sources shall comply with regulations to be promulgated by the Department to ensure that by 2030 statewide greenhouse gas emissions are reduced by 40% of 1990 levels, and by 2050 statewide greenhouse gas emissions are reduced by 85% of 1990 levels.

Condition 72: Air pollution prohibited
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable State Requirement:6 NYCRR 211.1

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Item 72.1:

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

Condition 73: Compliance Demonstration
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable State Requirement: 6 NYCRR 212-2.3 (b)

Item 73.1:

The Compliance Demonstration activity will be performed for the facility:
 The Compliance Demonstration applies to:

Emission Unit: U-10001	
Process: 101	Emission Source: INCIN
Emission Unit: U-10001	
Process: 102	Emission Source: INCIN
Emission Unit: U-10001	
Process: 103	Emission Source: INCIN
Regulated Contaminant(s):	
CAS No: 000050-00-0	FORMALDEHYDE

Item 73.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL
 DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

Facility owner or operator shall not allow emissions of the air contaminant(s) listed above to exceed the requirements specified in Subdivision 212-2.3(b), Table 4 – Degree of Air Cleaning Required for Non-Criteria Air Contaminants. The above listed contaminant has been given an Environmental Rating of “A” for the associated process emission source. The listed contaminant has been demonstrated to have an emission rate potential (ERP) greater than 1 pound per hour but less than 10 pounds per hour and requires 99% control.

In order to maintain compliance with 6 NYCRR Part 212 Table 4 or Toxic - Best Available Control Technology(T-BACT) requirements, an emission limit has

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

been established in accordance with Part 212-1.5(d) for this source. Based on the T-BACT reevaluation, dated February 25, 2020, the RTO presently at the facility and limit on hours of downtime is consider T-BACT for Formaldehyde.

RTO downtime is limited to 170 hours per calendar year. This limit on hours of uncontrolled emissions during periods of RTO malfunction and maintenance, along with the other operating control parameters specified in this permit assures compliance with T-BACT requirements. This hourly limit will be revised based on the facility's current performance test to assure formaldehyde emissions remain below the Department's AGC.

Parameter Monitored: OPERATING HOURS
 Upper Permit Limit: 170 hours per year
 Monitoring Frequency: CONTINUOUS
 Averaging Method: 12-MONTH TOTAL, ROLLED MONTHLY
 Reporting Requirements: SEMI-ANNUALLY (CALENDAR)
 Reports due 30 days after the reporting period.
 The initial report is due 1/30/2021.
 Subsequent reports are due every 6 calendar month(s).

Condition 74: Compliance Demonstration
Effective between the dates of 08/04/2020 and 08/03/2025

Applicable State Requirement:6 NYCRR 212-2.3 (b)

Item 74.1:

The Compliance Demonstration activity will be performed for the facility:
 The Compliance Demonstration applies to:

Emission Unit: U-10001	
Process: 101	Emission Source: INCIN
Emission Unit: U-10001	
Process: 102	Emission Source: INCIN
Emission Unit: U-10001	
Process: 103	Emission Source: INCIN
Regulated Contaminant(s):	
CAS No: 000050-00-0	FORMALDEHYDE

Item 74.2:

Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
 Monitoring Description:

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002

Facility owner or operator shall not allow emissions of the air contaminant(s) listed above to exceed the requirements specified in Subdivision 212-2.3(b), Table 4 – Degree of Air Cleaning Required for Non-Criteria Air Contaminants. The above listed contaminant has been given an Environmental Rating of “A” for the associated process emission source. The listed contaminant has been demonstrated to have an emission rate potential (ERP) greater than 1 pound per hour but less than 10 pounds per hour and requires 99% control.

In order to maintain compliance with 6 NYCRR Part 212 Table 4 or Toxic - Best Available Control Technology(T-BACT) requirements, an emission limit has been established in accordance with Part 212-1.5(d) for this source. Based on the T-BACT re-evaluation, dated February 25, 2020, the RTO presently at the facility and limit on hours of downtime is consider T-BACT for Formaldehyde.

The RTO shall be operated in compliance with the operating control parameters specified in this permit for pressure drop and minimum RTO temperatures in order to achieve destruction efficiencies demonstrated during performance testing.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: SEMI-ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

The initial report is due 1/30/2021.

Subsequent reports are due every 6 calendar month(s).

Permit ID: 5-4115-00002/00129

Facility DEC ID: 5411500002
