PO BOX 111  
MEDINA, NY 14103-0111

Description:  
Initial Air State Facility Permit for an existing commercial vehicle brake component production facility. The Brunner International Inc - Ridgeway Facility was previously covered by an Air Facility Registration, for facilities with potential emissions below half of Major Source thresholds in 6 NYCRR Part 201-6 (Title V), for all air contaminants.

This permit authorizes the addition of a surface coating operation which raises potential emissions of Total Particulates and VOC to levels greater than the Part 201-7.3(e) cap by rule level of 50 percent of Major Source thresholds, but still below Part 201-6 Major Source levels.

Emission Units are:

U-00001, steel shot part blasting operations for surface preparation, venting through baghouse particulate control units;

U-00002, steel rod induction heated hot forging operations;

U-00003, induction heat treatment operations utilizing water, water based solutions, and oils for quenching;

**New York State Department of Environmental Conservation**  
**Facility DEC ID: 8343400033**

U-00004, automated welding brake shoe production operations; and

U-00005, part cleaning and coating operations.

Demonstration of compliance includes a 3.5 pound per gallon VOC limit on coatings as applied, intermittent emissions testing for particulates at the department's discretion, and opacity monitoring.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator:            DAVID L BIMBER  
   DIVISION OF ENVIRONMENTAL PERMITS  
   6274 EAST AVON LIMA RD  
   AVON, NY 14414-9519

Authorized Signature: \_\_\_\_\_ Date: \_\_\_\_ / \_\_\_\_ / \_\_\_\_

**Notification of Other State Permittee Obligations**

**Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification**

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees, and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

**Item B: Permittee's Contractors to Comply with Permit**

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

**Item C: Permittee Responsible for Obtaining Other Required Permits**

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

**Item D: No Right to Trespass or Interfere with Riparian Rights**

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

**General Provisions**

Facility Inspection by the Department

Relationship of this Permit to Other Department Orders and Determinations

Applications for Permit Renewals and Modifications

Permit Modifications, Suspensions and Revocations by the Department

**Facility Level**

Submission of Applications for Permit Modification or Renewal -REGION 8  
HEADQUARTERS

**DEC GENERAL CONDITIONS**  
**\*\*\*\* General Provisions \*\*\*\***  
**GENERAL CONDITIONS - Apply to ALL Authorized Permits.**

**Condition 1: Facility Inspection by the Department**  
**Applicable State Requirement: ECL 19-0305**

**Item 1.1:**

The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

**Item 1.2:**

The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

**Item 1.3:**

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

**Condition 2: Relationship of this Permit to Other Department Orders and Determinations**  
**Applicable State Requirement: ECL 3-0301.2(m)**

**Item 2.1:**

Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

**Condition 3: Applications for Permit Renewals and Modifications**  
**Applicable State Requirement: 6NYCRR 621.13**

**Item 3.1:**

The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

**Item 3.2:**

The permittee must submit a renewal application at least 180 days before expiration of permits for Title V Facility Permits, or at least 30 days before expiration of permits for State Facility Permits.

**Item 3.3:**

Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual

**New York State Department of Environmental Conservation**  
**Facility DEC ID: 8343400033**

transfer of ownership.

**Condition 4: Permit Modifications, Suspensions and Revocations by the Department**  
**Applicable State Requirement: 6NYCRR 621.14**

**Item 4.1:**

The Department reserves the right to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

- a) materially false or inaccurate statements in the permit application or supporting papers;
- b) failure by the permittee to comply with any terms or conditions of the permit;
- c) exceeding the scope of the project as described in the permit application;
- d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
- e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

**NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS**

**This section contains terms and conditions which are federally enforceable. Permittees may also have other obligations under regulations of general applicability**

**Item A: Sealing - 6NYCRR Part 200.5**

The Commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the Commissioner issued in the case of the violation.

Sealing means labeling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

No person shall operate any air contamination source sealed by the Commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

Unless authorized by the Commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section.

**Item B: Acceptable Ambient Air Quality - 6NYCRR Part 200.6**

Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

**Item C: Maintenance of Equipment - 6NYCRR Part 200.7**

Any person who owns or operates an air contamination

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

**Item D: Unpermitted Emission Sources - 6NYCRR Part 201-1.2**

If an existing emission source was subject to the permitting requirements of 6NYCRR Part 201 at the time of construction or modification, and the owner and/or operator failed to apply for a permit for such emission source then the following provisions apply:

(a) The owner and/or operator must apply for a permit for such emission source or register the facility in accordance with the provisions of Part 201.

(b) The emission source or facility is subject to all regulations that were applicable to it at the time of construction or modification and any subsequent requirements applicable to existing sources or facilities.

**Item E: Emergency Defense - 6NYCRR Part 201-1.5**

An emergency constitutes an affirmative defense to an action brought for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall be demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) An emergency occurred and that the facility owner and/or operator can identify the cause(s) of the emergency;

(2) The equipment at the permitted facility causing the emergency was at the time being properly operated;

(3) During the period of the emergency the facility owner and/or operator took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; and

(4) The facility owner and/or operator notified the Department within two working days after the event

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(b) In any enforcement proceeding, the facility owner and/or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or upset provision contained in any applicable requirement.

**Item F: Recycling and Salvage - 6NYCRR Part 201-1.7**

Where practical, any person who owns or operates an air contamination source shall recycle or salvage air contaminants collected in an air cleaning device according to the requirements of 6 NYCRR.

**Item G: Prohibition of Reintroduction of Collected Contaminants to the Air - 6NYCRR Part 201-1.8**

No person shall unnecessarily remove, handle, or cause to be handled, collected air contaminants from an air cleaning device for recycling, salvage or disposal in a manner that would reintroduce them to the outdoor atmosphere.

**Item H: Proof of Eligibility for Sources Defined as Exempt Activities - 6 NYCRR Part 201-3.2(a)**

The owner and/or operator of an emission source or unit that is eligible to be exempt, may be required to certify that it operates within the specific criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

**Item I: Proof of Eligibility for Sources Defined as Trivial Activities - 6 NYCRR Part 201-3.3(a)**

The owner and/or operator of an emission source or unit that is listed as being trivial in 6 NYCRR Part 201 may be required to certify that it operates within the specific

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

criteria described in 6 NYCRR Subpart 201-3. The owner or operator of any such emission source must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility which contains emission sources or units subject to 6 NYCRR Subpart 201-3, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations, or law.

**Item J: Required Emission Tests - 6 NYCRR Part 202-1.1**

An acceptable report of measured emissions shall be submitted, as may be required by the Commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the Commissioner within the time stated shall be sufficient reason for the Commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6NYCRR Part 202-1.

**Item K: Visible Emissions Limited - 6 NYCRR Part 211.3**

Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

**Item L: Open Fires - 6 NYCRR Part 215**

No person shall burn, cause, suffer, allow or permit the burning in an open fire of garbage, rubbish for salvage, or rubbish generated by industrial or commercial activities.

**Item M: Permit Exclusion - ECL 19-0305**

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

**Item N: Federally Enforceable Requirements - 40 CFR 70.6(b)**

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

**FEDERAL APPLICABLE REQUIREMENTS**

**The following conditions are federally enforceable.**

**Condition 1: Compliance Demonstration**

**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable Federal Requirement: 6NYCRR 228.7**

**Item 1.1:**

The Compliance Demonstration activity will be performed for:

Emission Unit: U--0005

Regulated Contaminant(s):

CAS No: 0NY998-00-0 VOC

**Item 1.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: WORK PRACTICE INVOLVING SPECIFIC OPERATIONS

Monitoring Description:

Miscellaneous metal parts and product coating lines, excluding all nonmetallic parts, utilizing air dried or

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

forced warm air dried at a temperature up to 90 degrees centigrade coatings may contain a maximum of 3.5 pounds of volatile organic compounds per gallon of coating (minus water and excluded VOC) as applied.

Work Practice Type: PARAMETER OF PROCESS MATERIAL

Process Material: PAINT

Parameter Monitored: VOC CONTENT

Upper Permit Limit: 3.5 pounds per gallon

Reference Test Method: Method 311 or 24

Monitoring Frequency: SINGLE OCCURRENCE

Averaging Method: MAXIMUM - NOT TO BE EXCEEDED AT ANY TIME (INSTANTANEOUS/DISCRETE OR GRAB)

Reporting Requirements: ANNUALLY (ANNIVERSARY)

Initial Report Due: 02/10/2007 for the period 01/12/2006 through 01/11/2007

**STATE ONLY ENFORCEABLE CONDITIONS**  
**\*\*\*\* Facility Level \*\*\*\***

**NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS**

**This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability**

**Item A: Public Access to Recordkeeping for Facilities With State Facility Permits - 6NYCRR Part 201-1.10(a)**

Where emission source owners and/or operators keep records pursuant to compliance with the operational flexibility requirements of 6 NYCRR Subpart 201-5.4(b)(1) , and/or the emission capping requirements of 6 NYCRR Subparts 201-7.2(d), 201-7.3(f), 201-7.3(g), 201-7.3(h)(5), 201-7.3(i) and 201-7.3(j), the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records. Emission source owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department of receipt of the request.

**Item B: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5**

Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

law.

**STATE ONLY APPLICABLE REQUIREMENTS**

**The following conditions are state only enforceable.**

**Condition 2: Contaminant List**

**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: ECL 19-0301**

**Item 2.1:**

Emissions of the following contaminants are subject to contaminant specific requirements in this permit(emission limits, control requirements or compliance monitoring conditions).

CAS No: 0NY075-00-0

Name: PARTICULATES

CAS No: 0NY998-00-0

Name: VOC

**Condition 3: Unavoidable noncompliance and violations**

**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: 6NYCRR 201-1.4**

**Item 3.1:**

At the discretion of the commissioner a violation of any applicable emission standard for necessary scheduled equipment maintenance, start-up/shutdown conditions and malfunctions or upsets may be excused if such violations are unavoidable. The following actions and recordkeeping and reporting requirements must be adhered to in such circumstances.

(a) The facility owner and/or operator shall compile and maintain records of all equipment maintenance or start-up/shutdown activities when they can be expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the commissioner's representative when requested to do so in writing or when so required by a condition of a permit issued for the corresponding air contamination source except where conditions elsewhere in this permit which contain more stringent reporting and notification provisions for an applicable requirement, in which case they supercede those stated here. Such reports shall describe why the violation was unavoidable and shall include the time, frequency and duration of the maintenance and/or start-up/shutdown activities and the identification of air contaminants, and the estimated emission rates. If a facility owner and/or operator is subject to continuous stack monitoring and quarterly reporting requirements, he need not submit reports for equipment maintenance or start-up/shutdown for the facility to the commissioner's representative.

(b) In the event that emissions of air contaminants in excess of any emission standard in 6 NYCRR Chapter III Subchapter A occur due to a malfunction, the facility owner and/or operator shall report such

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

malfunction by telephone to the commissioner's representative as soon as possible during normal working hours, but in any event not later than two working days after becoming aware that the malfunction occurred. Within 30 days thereafter, when requested in writing by the commissioner's representative, the facility owner and/or operator shall submit a written report to the commissioner's representative describing the malfunction, the corrective action taken, identification of air contaminants, and an estimate of the emission rates. These reporting requirements are superceded by conditions elsewhere in this permit which contain reporting and notification provisions for applicable requirements more stringent than those above.

(c) The Department may also require the owner and/or operator to include in reports described under (a) and (b) above an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions depending on the deviation of the malfunction and the air contaminants emitted.

(d) In the event of maintenance, start-up/shutdown or malfunction conditions which result in emissions exceeding any applicable emission standard, the facility owner and/or operator shall take appropriate action to prevent emissions which will result in contravention of any applicable ambient air quality standard. Reasonably available control technology, as determined by the commissioner, shall be applied during any maintenance, start-up/shutdown or malfunction condition subject to this paragraph.

(e) In order to have a violation of a federal regulation (such as a new source performance standard or national emissions standard for hazardous air pollutants) excused, the specific federal regulation must provide for an affirmative defense during start-up, shutdowns, malfunctions or upsets.

**Condition 4: Emission Unit Definition**  
**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: 6NYCRR 201-5**

**Item 4.1:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U--0001

Emission Unit Description:

Steel Shot Blasting, consisting of two steel shot blasting machines that are used for preparing the metal surfaces of S-cam parts. Emissions consist of particulates. A baghouse is used for emission control.

Building(s): main

**Item 4.2:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U--0002

Emission Unit Description:

Billet heating, which consists of four billet heater stations. The billets, which are present as steel rod, are placed in the unit and heated via induction until red

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

hot. Exhaust fans over the heating units collect emissions and discharge to the atmosphere.

Building(s): main

**Item 4.3:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U--0003

Emission Unit Description:

Nine heatreating machines used tp temper steel parts. Emissions consist of volatilized oils and mists.

Building(s): main

**Item 4.4:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U--0004

Emission Unit Description:

Welding operations, consisting of numerous welding machines that are used to weld parts together as part of brake shoe manufacturing. Emissions result from releases of material from the welding wire.

Building(s): main

**Item 4.5:**

The facility is authorized to perform regulated processes under this permit for:

Emission Unit: U--0005

Emission Unit Description:

E-coat operations, consisting of the entire surface coating operation, including surface preparation and paint curing. There are four emission points including the original surface preparation unit, new surface preparation entrance, new surface preparation, and the curing oven. The original surface preparation unit is exempt under part 201-3.3(48).

Building(s): main

**Condition 5: Air pollution prohibited**  
**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: 6NYCRR 211.2**

**Item 5.1:**

No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

**\*\*\*\* Emission Unit Level \*\*\*\***

Emission Point: 00008 Height (ft.): 20	Diameter (in.): 18	Building: main
Emission Point: 00009 Height (ft.): 20	Diameter (in.): 8	Building: main
Emission Point: 00010 Height (ft.): 20	Diameter (in.): 8	Building: main
Emission Point: 00012 Height (ft.): 20	Length (in.): 8	Width (in.): 8 Building: main
Emission Point: 00013 Height (ft.): 50	Diameter (in.): 8	Building: main
Emission Point: 00014 Height (ft.): 20	Diameter (in.): 18	Building: main
Emission Point: 00019 Height (ft.): 20	Diameter (in.): 8	Building: main
Emission Point: 00020 Height (ft.): 20	Diameter (in.): 8	Building: main

**Item 6.4:**

The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: U--0004

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

Emission Point: 0007A Height (ft.): 20	Length (in.): 12	Width (in.): 12 Building: main
Emission Point: 0007B Height (ft.): 20	Length (in.): 8	Width (in.): 8 Building: main
Emission Point: 0007C Height (ft.): 20	Length (in.): 48	Width (in.): 48 Building: main
Emission Point: 0007D Height (ft.): 20	Length (in.): 48	Width (in.): 48 Building: main
Emission Point: 0007E Height (ft.): 20	Length (in.): 36	Width (in.): 36 Building: main

**Item 6.5:**

The following emission points are included in this permit for the cited Emission Unit:

Emission Unit: U--0005		
Emission Point: 00015 Height (ft.): 50	Diameter (in.): 18	Building: main
Emission Point: 00016 Height (ft.): 50	Diameter (in.): 18	Building: main
Emission Point: 00017 Height (ft.): 50	Diameter (in.): 18	Building: main
Emission Point: 00018 Height (ft.): 45	Diameter (in.): 42	Building: main

**Condition 7: Process Definition By Emission Unit**  
**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: 6NYCRR 201-5**

**Item 7.1:**

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0001

Process: U1A

Process Description:

Steel S-Cam parts are placed into the wheelabrator. Very small steel shot is used to remove sharp edges on the S-Cam parts. Ventilation exhausts through a Baghouse that is 99% efficient.

Emission Source/Control: ES01C - Control

Control Type: FABRIC FILTER

Emission Source/Control: ES03C - Control

Control Type: FABRIC FILTER

Emission Source/Control: ES001 - Process

Emission Source/Control: ES003 - Process

**Item 7.2:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0002

Process: U2A

Process Description:

Induction heating of steel billets to a red-hot temperature, after which the billet is formed into the appropriate shape.

Emission Source/Control: ES02A - Process

Emission Source/Control: ES02B - Process

Emission Source/Control: ES11A - Process

Emission Source/Control: ES11B - Process

**Item 7.3:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0003

Process: U3A

Process Description:

Metal parts of either S-Cams or brakes are heated using electrical induction for the purpose of tempering the steel. The parts are then cooled with quench solution, or

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

in the case of welding, heat treat water. Emissions consist of volatilized oils, quench solution or mist.

Emission Source/Control: ES005 - Process

Emission Source/Control: ES006 - Process

Emission Source/Control: ES008 - Process

Emission Source/Control: ES009 - Process

Emission Source/Control: ES010 - Process

Emission Source/Control: ES012 - Process

Emission Source/Control: ES013 - Process

Emission Source/Control: ES014 - Process

Emission Source/Control: ES019 - Process

Emission Source/Control: ES020 - Process

**Item 7.4:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0004

Process: U4A

Process Description:

Automated welding of metal parts to form to form brake shoes. Emissions result from the consumption of welding wire during the welding process.

Emission Source/Control: ES007 - Process

**Item 7.5:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0005

Process: U5A

Process Description:

Conveyance of metal parts through open vessels where heated alkaline cleaner is sprayed on, followed by a rinse. Also, application of phosphate coating through a similar procedure. Emissions are fugitive mists, which are considered particulates.

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

Emission Source/Control: ES015 - Process

**Item 7.6:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0005

Process: U5B

Process Description:

Application of non-chrome sealer to metal parts.

Emissions consist of fugitive mists considered particulates.

Emission Source/Control: ES016 - Process

**Item 7.7:**

This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: U--0005

Process: U5C

Process Description:

Drying of E-Coated parts in a curing oven, with VOC emissions.

Emission Source/Control: ES017 - Process

**Condition 9: Compliance Demonstration**

**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: 6NYCRR 212.4(c)**

**Item 9.1:**

The Compliance Demonstration activity will be performed for:

Emission Unit: U--0001

Process: U1A

Regulated Contaminant(s):

CAS No: 0NY075-00-0 PARTICULATES

**Item 9.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING

Monitoring Description:

Emissions of solid particulates are limited to less than 0.050 grains of particulates per cubic foot of exhaust gas, expressed at standard conditions on a dry gas basis.

**New York State Department of Environmental Conservation**

**Permit ID: 8-3434-00033/00013**

**Facility DEC ID: 8343400033**

Compliance testing will be conducted at the discretion of the Department.

Parameter Monitored: PARTICULATES  
Upper Permit Limit: 0.050 grains per dscf  
Reference Test Method: EPA Method 5  
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION  
Averaging Method: AVERAGING METHOD AS PER REFERENCE TEST METHOD INDICATED  
Reporting Requirements: ANNUALLY (CALENDAR)  
Reports due 30 days after the reporting period.  
The initial report is due 1/30/2007.  
Subsequent reports are due every 12 calendar month(s).

**Condition 8: Compliance Demonstration**  
**Effective between the dates of 01/12/2006 and Permit Expiration Date**

**Applicable State Requirement: 6NYCRR 212.6(a)**

**Item 8.1:**

The Compliance Demonstration activity will be performed for:

Emission Unit: U--0001  
Process: U1A

**Item 8.2:**

Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:

No person shall cause or allow emissions having an average opacity during any six consecutive minutes of 20 percent or greater from any process emission source, except only the emission of uncombined water. Compliance with this requirement shall be determined by the facility owner/operator conducting a daily survey of visible emissions when the process is in operation. If any visible emissions are identified, corrective action is required. The Department reserves the right to perform or require the performance of a Method 9 opacity evaluation

Parameter Monitored: OPACITY  
Upper Permit Limit: 20 percent  
Reference Test Method: EPA Method 9  
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING

**New York State Department of Environmental Conservation**  
**Permit ID: 8-3434-00033/00013      Facility DEC ID: 8343400033**

DESCRIPTION

Averaging Method: 6-MINUTE AVERAGE (METHOD 9)  
Reporting Requirements: ANNUALLY (CALENDAR)  
Reports due 30 days after the reporting period.  
The initial report is due 1/30/2007.  
Subsequent reports are due every 12 calendar month(s).
