Site Name: Penetrex Processing Company   **August 5, 2015**
Site No.: 130034   **Tax Map Nos.:** 20-K-10; 20-K-11; and 20-K-12
Site Location: 1 Shore Road, Glenwood Landing, NY 11547

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). As of the date of this notice, the site identified above, and located on a map on the reverse side of this page, was reclassified on the Registry as a Class 4 site *as* it no longer presents a significant threat to public health and/or the environment for the following reason(s):

-        Threats from the disposal of hazardous waste at this site were addressed by the implementation of the remedy identified for the site by the Record of Decision (ROD). All components of the site-wide remedy were constructed by September 2009. The Sub-Slab Depressurization System (SSDS) Testing Report, dated August 13, 2007 and the Interim Remedial Measure Report, dated August 2009, confirm that the remedy has been constructed consistent with the requirements in the ROD. Groundwater contamination has decreased significantly since the implementation of the remedy. In addition, soil vapor contamination beneath on-site buildings is being managed by SSDSs. Management of any residual contamination that may remain at the site, including any required monitoring, is and has been controlled pursuant to a Site Management Plan (SMP). Institutional controls, in the form of an environmental easement, are in place to ensure the protectiveness of the site. A significant threat to public health and the environment no longer exists at the site. The site is properly remediated and requires site management.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.
