SDG CASE NARRATIVE

INORGANICS TAL-METALS with Cyanide NYASP 12/91

Lab Name: LRI Client: AGFA

Project: Peerless Photo Site Job No.: T609080

CASE No. : 9080A SDG No. : 908001

The following samples are included in this Sample Delivery Group:

LAB ID #	Matrix	CLIENT ID #	ID to be used on forms
T609198-01	water	MW-8S	MW-8S
T609198-02	water	MW-9S	MW-9S
T609198-03	water	Field Blank	F-BLK
T609198-04	water	Rinsate Blank	R-BLK

Detailed Documentation of Problems Encountered With These samples:

General

1. Please note that for the cross reference check the Lab sample ID. with Client ID. is listed above on this case narrative.

2. All the above water samples for TAL-Metals and Cyanide analysis as per Chain-of-Custody were performed at LRI NJ- Div. for the above work order in one data package with CASE # 9198A and SDG # 919801.

METALS:

- Please note that the client sample number with the sample description is too many characters, therefore as per the software being used for data processing (Ward Scientific Software) only six characters can be used for EPA sample number. Never-the-less for the cross reference check the Lab sample ID. with Client ID. is listed above on this case narrative.

- Please be advised that LRI uses the Ward Scientific Software for data processing of CLP Inorganic Packages, the software is designed to accommodate one SDG at a time made of twenty samples or less of the same matrix.

1. The Inorganic ASP CLP data package contains respectively in this order: Case narrative followed by Forms I to XIV, ICP raw data, Mercury raw data, Cyanide raw data and the last part is General such as sample preparation log and Chain-of-Custody, Sample Log-in-sheet, Internal Chain-of-Custody followed by metals department batch sheet and IDL study.

2. Sample T609198-01 (MW-8S) was analyzed for QC (duplicate and digestion spike) for ICP and Mercury and Cyanide in a batch of 20 samples, the same sample was analyzed for ICP serial dilution and it covers the above work order.

I certify that this data package is in compliance with the terms and conditions of the contract, both technically and for completeness, for other than the conditions detailed above. Release of the data contained in this hardcopy data package has been authorized by the Laboratory Manager or his designee, as verified by the following signature.
