Site Name: Former Albany Laboratories

February 16, 2011

Site No. 401061 **Tax Map Nos.** 76.33-1-13 and 76.33-1-15

Site Location: 67 Howard Street, Albany, New York 12207

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is New York State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (Department) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (the "Registry"). The site identified above, and located on a map on the reverse side of this page, was recently added on the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

On-site soil and soil vapor are contaminated with volatile organic compounds, including toluene, tetrachloroethene and trichloroethene. There is also low-level polycyclic aromatic hydrocarbon and mercury contamination associated with historic fill. Under current site conditions, there are no known exposures to site contamination. However, the potential exists for inhalation of site-related contaminants due to soil vapor intrusion for any future on-site construction; and the potential for contaminants in soil vapor to migrate from the site to nearby off-site structures. There is also the potential for on-site workers to come in contact with contaminated soil during on-site ground-intrusive activities. Further investigation is needed to identify the extent of site-related contamination migrating from the site and the potential for human exposures associated with the contamination.

The Department will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact the Department's Project Manager listed below.

FOR MORE INFORMATION

Additional information about this site can be found using the Department's "Environmental Site Remediation Database Search" engine which is located on the internet at: www.dec.ny.gov/cfm/externalapps/derexternal/index.cfm?pageid=3
