E: [eluesebrink@kendallsustainableinfrastructure.com](mailto:eluesebrink@kendallsustainableinfrastructure.com)

## Project Work Suspended by DEC 12/23/23 – 5/5/23

### SUMMARY OF WORK COMPLETED 5/1/2023 – 5/5/2023

No work was completed this week due to DEC stoppage. Patrick O'Malley and Jeremy Wykoff walked the cap on 5/2/23. GreenSpark racking, leveling pads and cap swales appeared to be in fair condition after recent storms. It has been reported by the DEC that they are in the process of completing a work plan to explore the rest of the swales.
