State Superfund Site Reclassification Notice Class 2 to Class 4

The Inactive Hazardous Waste Disposal Site Program is New York State's superfund program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on the attached map, has been reclassified on the Registry as a Class 4 site as it no longer presents a significant threat to public health and/or the environment for the following reason(s):

- The site contains two operable units (OUs). OU-1 includes the impacted private wells and OU-2 includes the source areas and soil vapor intrusion concerns in structures. Multiple Records of Decision, Explanations of Significant Difference, and Amended Records of Decision have been completed for these OUs and all remedial elements have been implemented. Ongoing maintenance and monitoring of the remedy elements continues.
- The significant threat to public health has been sufficiently addressed by the remedial actions taken and measures are in place to address potential exposures to residual contamination.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.
