**Site Name:** Buffalo Color Area "D"  
**Site No.:** 915012      **Tax Map No.:** 122.160-1-10  
**Site Location:** 2 Buffalo Creek Railroad, Buffalo, 14220

**June 14, 2016**

### Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). As of the date of this notice, the site identified above, and located on a map on the reverse side of this page, was reclassified on the Registry as a Class 4 site as it no longer presents a significant threat to public health and/or the environment for the following reasons:

The site has been remediated in accordance with the 1991 Record of Decision and the September 2015 Explanation of Significant Difference. Human exposures to contamination remaining at the site are being addressed through the in-place remediation measures, an environmental easement restricting site use to commercial/industrial uses only and a site management plan to operate and maintain the remedies as follows:

- **Soil:** A soil management plan is required to ensure that appropriate actions to reduce/eliminate exposures are taken in the event of future soil excavations. Continued maintenance of the site cap (both the composite cover system and the erosion control measures) will eliminate potential exposures to and release of residual site contaminants.
- **Groundwater:** An operation and monitoring plan was developed to ensure continued operation and monitoring of the groundwater extraction and pre-treatment system, and effectiveness of the perimeter groundwater hydraulic barrier wall. Use of groundwater at the site without appropriate water quality treatment is restricted.

Periodic reviews will be completed to certify that these controls are maintained and remain effective. A significant threat to public health and the environment no longer exists at the site.

**If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.**

#### FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:

[www.dec.ny.gov/cfm/externalapps/derexternal/index.cfm?pageid=3](http://www.dec.ny.gov/cfm/externalapps/derexternal/index.cfm?pageid=3)

Comments and questions are always welcome and should be directed as follows:

#### **Receive Site Updates by Email**

Have site information such as this public notice sent right to your email inbox. DEC invites you to sign up with one or more contaminated sites county email listservs available at the following web page:

[www.dec.ny.gov/chemical/61092.html](http://www.dec.ny.gov/chemical/61092.html) . It's *quick*, it's *free*, and it will help keep you *better informed*.

As a listserv member, you will periodically receive site-related information/announcements for all contaminated sites in the county(ies) you select.

You may continue also to receive paper copies of site information for a time after you sign up with a county listserv, until the transition to electronic distribution is complete.

**Note:** Please disregard if you received this notice by way of a county email listserv.
