

WEEKLY SITE INSPECTION/FIELD ACTIVITY REPORT

BCP Site No.:	C224148	AUTHOR:	Matthew Smith
PROJECT NO.:	3165.0006R000	DATE:	12/5/2022-12/9/2022
PROJECT:	Sunset Industrial Park 74 20th St., Brooklyn, NY	WEATHER:	25 – 50 °F, Wind: See CAMP Reports, Humidity/Pressure: Variable
CLIENT:	SIP Holdings Venture, LLC	TIME:	7:00 AM – 4:00 PM Daily

CONTRACTOR AND EQUIPMENT:	PERSONNEL PRESENT AT SITE AND AFFILIATION:
<u>Blakeslee (Superstructure/Crane Contractor)</u> <ul style="list-style-type: none">• Crawler Crane• Manlift• Forklift	<u>Roux Environmental Engineering & Geology, D.P.C</u> Matthew Smith, Project Geologist – Inspector <u>Blakeslee (Superstructure/Crane Contractor)</u> <u>Suffolk (General Contractor)</u> Caled Ho, Supervisor

GENERAL COMMENTS:

As part of the of the NYSDEC-approved Remedial Action Work Plan and NYSDEC-approved modified inspection schedule, Roux Environmental Engineering and Geology D.P.C. (Roux) performed a weekly inspection to document the site conditions during superstructure erection/crane activities. The Community Air Monitoring Plan (CAMP) continues to be implemented continuously.

RAWP Activities Performed:

- Blakeslee continued to operate a crawler crane on top of a designated crane pad constructed of RCA and wooden planks. The crane is being used to offload precast building materials from trailers and erect onsite on the southern third of the site.
- Roux performed a weekly site inspection on December 8, 2022, to document the site conditions. No intrusive work is being performed. There was no evidence of fugitive particulates or VOCs traveling offsite and sediment and erosion controls remain in place and intact.

CAMP Performed:

- Remote CAMP is being implemented continuously during superstructure erection/crane activities. No exceedances of particulates or VOCs were recorded.

Other Relevant Comments or Issues:

- None.

Upcoming work activities:

- Blakeslee will continue precast concrete erection, moving south to north across the site. The superstructure erection phase of construction is estimated to continue approximately through February 2023.
