(Fact Sheet Begins Next)

Act Now to Continue Receiving Information About This Site!

DEC's Division of Environmental Remediation (DER) now distributes information about contaminated sites *electronically by email*.

If you would like to continue to receive information about the contaminated site featured in this fact sheet:

You must sign up for the DER email listserv:

www.dec.ny.gov/chemical/61092.html

DER cannot register your email address - only the email address owner can do so. If you already have signed up for the listserv for the county in which the site is located, you need do nothing.

Why You Should Go "Paperless":

- ☑ Get site information faster and share it easily;
- ☑ Receive information about all sites in a chosen county read what you want, delete the rest;
- ☑ It helps the environment and stretches your tax dollars.

If "paperless" is not an option for you, call or write to the DER project manager identified in this fact sheet. Indicate that you need to receive paper copies of fact sheets through the Postal Service. Include the site name in your correspondence. The option to receive paper is available to individuals only. Groups, organizations, businesses, and government entities are assumed to have email access.

Where to Find Information

Access project documents through the DECinfo Locator at https://www.dec.ny.gov/data/DecDocs/C224225/ and at these location(s):

Carroll Gardens Branch Library 396 Clinton Street Brooklyn, NY 11231 (718)596-6972

Brooklyn Community Board 6 https://www1.nyc.gov/site/brooklyncb6/index.page 250 Baltic St, Brooklyn, NY 11201 (212) 319-3750

Who to Contact

Comments and questions are welcome and should be directed as follows:

FACT SHEET

Brownfield Cleanup Program

335 Bond Street BCP Site 335 Bond Street Brooklyn, NY

February 2023

SITE No. C224225 NYSDEC REGION 2

Report Recommends Cleanup of Brownfield Site Contamination

The New York State Department of Environmental Conservation (NYSDEC) is reviewing the Remedial Investigation Report for the 335 Bond Street site ("site") located at 335 Bond Street, Brooklyn New York. Please see the map for the site location.

Remedial Investigation Report: The Remedial Investigation Report (RIR) describes the results of the site investigation and recommends development of a remedy to address the contamination that was found. The RIR was submitted by Langan Engineers Inc, on behalf of E & M Realty Corp, the applicant.

- Access the RIR and other project documents online through the DECinfo Locator: https://www.dec.ny.gov/data/DecDocs/C224225/.
- The documents also are available at the location(s) identified at left under "Where to Find Information."

Highlights of the Remedial Investigation Report: Soil, groundwater, and soil vapor has been impacted by chlorinated solvents, especially in the former garage area, above applicable standards or guidance values. There is also the potential for impact to soil, groundwater, and soil vapor from the site and from gasoline storage tanks which were formerly located on the property.

Next Steps: NYSDEC will complete its review, make any necessary revisions and, if appropriate, approve the investigation report. The approved report will be made available to the public (see "Where to Find Information" at left). The applicant may then develop a cleanup plan, called a "Remedial Work Plan." This plan describes how contamination will be addressed, with NYSDEC and NYSDOH overseeing the work. NYSDEC will present the draft cleanup plan to the public for its review and comment during a 45-day comment period. NYSDEC will keep the public informed throughout the investigation and cleanup of the site.

BROWNFIELD CLEANUP PROGRAM

Site Description: The site is located in an urban area, in the Gowanus neighborhood of Brooklyn. The site is bounded by a two-story residential building and an industrial lot to the north; a two-story industrial and commercial building to the east; Carroll Street to the south and Bond Street to the west.

The subject property is located in an M2-1 manufacturing district and is currently occupied by an office building and garage operated by a private car and limousine service. The intended future use of the site is residential.

Additional site details, including environmental and health assessment summaries, are available on NYSDEC's Environmental Site Remediation Database (by entering the site ID, C224225) at:

https://www.dec.ny.gov/cfmx/extapps/derexternal/index.cfm?pageid=3

Brownfield Cleanup Program: New York's Brownfield Cleanup Program (BCP) encourages the voluntary cleanup of contaminated properties known as "brownfields" so that they can be reused and redeveloped. These uses include recreation, housing, business or other uses. A brownfield site is any real property where a contaminant is present at levels exceeding the soil cleanup objectives or other health-based

environmental standards, criteria or guidance adopted by DEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations.

For more information about the BCP, visit: https://www.dec.ny.gov/chemical/8450.html

We encourage you to share this fact sheet with neighbors and tenants, and/or post this fact sheet in a prominent area of your building for others to see.
