## **CAMP Activities:**

Air monitoring during ground-intrusive activities was performed at three locations during
ground intrusive work from 8:20 am to 4:40 pm. No 15-minute average concentration of
volatiles organic compounds (VOCs) or particulate 15-minute average concentration of matter
smaller than 10 microns in diameter (PM10) exceeded the action levels. No visible dust was
observed leaving the site perimeter.

## Activities Planned for Coming Week:

- Contractor (Star) will continue demolition of the former building on Lot 53.
