Seamus,

The New York State Department of Environmental Conservation (Department) has reviewed the Brownfield Cleanup Plan – Citizen Participation document for site #C241219 27-10 49th Avenue. The Department approves the document with the enclosed modifications. Please review these modifications, and if acceptable, finalize the document and return an electronic copy.

The submission to the Department of the finalized document is not needed prior to the issuance of the fact sheet as long as your team is in agreement with the modifications. I will be sending to you a fact sheet which will announce the comment period for the IRM in the next hour. I expect that it can be distributed by your team today.

Charlie
