Re: General Superplating, Inc

Dear Mr. Smith:

The U.S. Environmental Protection Agency (EPA) has reviewed the New York State Department of Environmental Conservation's (NYSDEC's) "Onondaga Lake NPL Subsite Evaluation" form for the General Superplating, Inc. facilities located at 5762 Celi Drive, 6606 and 6608 Joy Road, and 5781 Bridge Street, in East Syracuse, New York submitted on November 29, 2007.

EPA concurs with NYSDEC's recommendation that these facilities not be designated as sub-sites of the Onondaga Lake Superfund Site on EPA's National Priorities List.

If new information comes to bear that would materially alter the assumptions upon which this recommendation is based, EPA would expect to obtain the opportunity to revisit this determination.

If you have any questions, please contact me at (212) 637-4254.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Robert Nunes", is located below the "Sincerely yours," text.
