Acting
Commissioner

Mr. Keith Nagel
Tecumseh Redevelopment, Inc.
4020 Kinross Lakes Parkway
Richfield, OH 44286

JUN 15 2005

Re: Brownfield Cleanup Application
Tecumseh Phase I Business Park, BCP No. 915197

Dear Mr. Nagel:

The New York State Department of Environmental Conservation (Department) is in receipt of your application for participation in the Brownfield Cleanup Program (BCP) pursuant to ECL Section 27-1400 et seq. As you know, the BCP is a cooperative approach between the Department and lenders, developers, and current and prospective owners. The program fosters private-sector remediation of brownfields and reduces development pressures on "greenfields." We are pleased to advise you that your application has been determined to be complete.

Pursuant to ECL Section 27-1407(5), a thirty day public comment period is to be commenced upon the Department's determination that an application is complete. During the comment period the Department will be evaluating the eligibility of the project and determine the status regarding this as soon as possible. The party seeking to participate in the BCP is required under the BCP to notify in writing the chief executive officer and zoning board of each county, city, town and village in which the proposed brownfield site is located, as well as residents of the site, the public water supplier which services the area, any person who has requested to be placed on the brownfield site contact list, and the administrator of any school or day care facility located adjacent to or near the site. Further, the Department will publish a similar notice in the Environmental Notice Bulletin.

In order to facilitate the notifications, the Department has prepared the enclosed Public Notice for you to utilize and the instructions for placing and mailing the notifications as well as the document repository location and contents. As the requestor, you are responsible for making available a copy of the application and copies of all other related attached documents such as any assessment and investigation reports and/or investigation or remedial work plans. Also, you must use this Department-approved Public Notice form and cannot provide any other or additional information when fulfilling your obligation to provide a legal notice for the newspaper of the application and comment period. The enclosed form should be provided to a local newspaper servicing the area including the brownfield site for publication no later than June 29, 2005.

Additionally, all of the above-mentioned mailings should be completed no later than June 28, 2005. To the extent that the mailings and publications are not completed in accordance with these time frames, the Department will extend the comment period for a period sufficient to comply with the required thirty day notice requirement running from the latest of the mailings or publication.

A certificate of mailing, on the enclosed form, is required to be submitted within three days of the mailing. Further, the proof of publication provided by the newspaper must be submitted within three days of your receipt of such document. These documents should be submitted to the Department's project manager at:

New York State Department of Environmental Conservation - Region 9
182 East Union Street, Suite 3
Allegany, New York 14706
Attn: Maurice Moore

The Department will make every effort to determine your eligibility and status under the BCP forty-five (45) days from the date of this letter. We look forward to working cooperatively with you to address the environmental conditions at the brownfield site and to return this property back to productive use.

Sincerely,

Kelly A. Lewandowski, P.E.
Chief
Site Control Section

Brownfield Cleanup Program Public Notice Instructions

A. Instructions to Requestor¹

Newspaper

1) The enclosed public notice must be published, without modification, in a local newspaper of general circulation that services the area that includes the site no later than the date specified in the Division of Environmental Remediation's (DER) cover letter. The notice must be located prominently in the community bulletin section or comparable local section of the newspaper. The notice must be published in English and in any other language spoken by a significant number of people within the site community.

2) A proof of publication of the newspaper notice must be submitted to DER by the date specified in the DER cover letter.

Site Contact List

1) The enclosed public notice must be mailed, without modification, to the parties on the Site Contact List included with the application. The mailing must be performed by the date specified in the DER cover letter. No other materials can be mailed with this notice.

2) A certificate of mailing must be completed and submitted to DER by the date specified in the DER cover letter. (See enclosed certificate of mailing form)

Repository

1) Application package (application and appropriate documents) must be put in the site document repository specified in the public notice prior to the start of the public comment period.

B. Requestor's Instructions to Newspapers Regarding Printing the Public Notice

The enclosed public notice announces the receipt of a complete Brownfield Cleanup Program application package by the New York State Department of Environmental Conservation. Pursuant to ECL Section 27-1407(5), the public notice must be located prominently in the community bulletin section or similar local section of the newspaper. The public notice must be published by the date specified.

C. Requestor's Instructions to Parties on the Site Contact List Receiving the Public Notice

The enclosed public notice announces the receipt of a complete Brownfield Cleanup Program application package by the New York State Department of Environmental Conservation. Pursuant to ECL Section 27-1407(5), a public notice announcing the receipt of an application must be sent to parties on the Site Contact List. Please read the enclosed public notice and review the application package in the site document repository for further information.

¹ A requestor is a person who has submitted an application to participate in the BCP whose eligibility has not yet been determined by the Department of Environmental Conservation.

**PUBLIC NOTICE
FACT SHEET**

BROWNFIELD CLEANUP PROGRAM

Site Name: Tecumseh Phase I Business Park
Site Address: 1951 Hamburg Turnpike
Lackawanna, New York 14281
County: Erie
Site No.: C915197
Requestor: Keith A. Nagel

The New York State Department of Environmental Conservation (NYSDEC) administers the Brownfield Cleanup Program (BCP) pursuant to State Environmental Conservation Law (ECL) 27-1400 et seq. The BCP was created to encourage the remediation and redevelopment of contaminated properties known as brownfields. The requestor indicated above has submitted a BCP application for investigation of the site indicated above.

NYSDEC will accept public comments concerning the application. A copy of the application and other appropriate documents (application package) is available in the site document repository located at the address indicated below.

Please note the application package includes the Remedial Draft Investigation Work Plan which describes the remedial activities to be conducted to investigate and determine the nature and extent of the contamination related to the site.

NYSDEC will review the application package and public comments received and then make a determination on the eligibility of the application.

Comments should be submitted by July 29, 2005, to:

New York State Department of Environmental Conservation
Division of Environmental Remediation - Region 9
182 East Union Street, Suite 3
Allegany, New York 14706
Attention: Maurice Moore

SITE NAME Tecumseh Redevelopment, Inc. Lackawanna - Phase I Business Park (a.k.a., "Parcel B")

SITE ADDRESS 1951 Hamburg Turnpike CITY/TOWN Lackawanna ZIP CODE 14218

COUNTY Erie SITE SIZE (ACRES) 102

LATITUDE (degrees/minutes/seconds) 42° 48' 58.6" LONGITUDE (degrees/minutes/seconds) 78° 51' 16.4"

PLEASE ATTACH A COUNTY TAX MAP WITH IDENTIFIER NUMBERS, ALONG WITH ANY FIGURES NEEDED TO SHOW THE LOCATION AND BOUNDARIES OF THE SITE. ALSO INCLUDE A USGS 7.5 MINUTE QUAD MAP IN WHICH THE SITE IS LOCATED.

1. DO THE SITE BOUNDARIES CORRESPOND TO TAX MAP METES AND BOUNDS?
IF NO, PLEASE ATTACH A METES AND BOUNDS DESCRIPTION OF THE SITE. YES NO
2. IS THE SITE PART OF A DESIGNATED BROWNFIELD OPPORTUNITY AREA PURSUANT TO GML970-R? IF YES, IDENTIFY AREA (NAME) _____ YES NO
3. IS THE SITE PART OF A DESIGNATED EN-Zone PURSUANT TO TL § 21(b)(6)? FOR MORE INFORMATION GO TO: http://www.nylovesbiz.com/Productivity_Energy_and_Environment/BrownField_Redevelopment/default.asp
IF YES, IDENTIFY AREA (NAME) Census Tract 012200 YES NO

1. ARE ANY ENFORCEMENT ACTIONS PENDING AGAINST THE APPLICANT REGARDING THIS SITE? YES NO
2. IS THE APPLICANT SUBJECT TO AN OUTSTANDING CLAIM BY THE SPILL FUND FOR THIS SITE? YES NO
3. HAS THE APPLICANT VIOLATED ANY PROVISION OF ECL ARTICLE 27? YES NO
4. HAS THE APPLICANT BEEN PREVIOUSLY DENIED ENTRY TO THE BCP? YES NO
5. HAS THE APPLICANT COMMITTED A NEGLIGENT OR INTENTIONALLY TORTIOUS ACT REGARDING HAZARDOUS WASTE OR PETROLEUM? YES NO
6. HAS THE APPLICANT BEEN CONVICTED OF A CRIMINAL OFFENSE THAT INVOLVES A VIOLENT FELONY, FRAUD, BRIBERY, PERJURY, THEFT, OR OFFENSE AGAINST PUBLIC ADMINISTRATION? YES NO
7. HAS THE APPLICANT KNOWINGLY FALSIFIED STATEMENTS OR CONCEALED MATERIAL FACTS IN A MATTER RELATED TO THE DEPARTMENT? YES NO
8. HAS THE APPLICANT, BASED ON THE PROVISIONS OF ECL ARTICLE 27-1407 (OR A SIMILAR PROVISION OF FEDERAL OR STATE LAW), COMMITTED AN ACT OR FAILED TO ACT, AND SUCH ACT OR FAILURE TO ACT COULD BE THE BASIS FOR DENIAL OF A BCP APPLICATION? YES NO

1. DOES THE SITE MEET THE DEFINITION OF A BROWNFIELD SITE (REAL PROPERTY, THE REDEVELOPMENT OR REUSE OF WHICH MAY BE COMPLICATED BY THE PRESENCE OR POTENTIAL PRESENCE OF A HAZARDOUS WASTE, PETROLEUM, POLLUTANT, OR CONTAMINANT)? YES NO
2. IS THE SITE LISTED ON THE NATIONAL PRIORITIES LIST? YES NO
3. IS THE SITE LISTED ON THE NYS REGISTRY OF INACTIVE HAZARDOUS WASTE DISPOSAL SITES?
IF YES, PLEASE PROVIDE: SITE # _____ CLASS # _____ YES NO
4. IS THE SITE SUBJECT TO A PERMIT UNDER ECL ARTICLE 27, TITLE 9, OTHER THAN AN INTERIM STATUS FACILITY? YES NO
5. IS THE SITE SUBJECT TO A CLEANUP ORDER UNDER NAVIGATION LAW ARTICLE 12 OR ECL ARTICLE 17 TITLE 10? YES NO
6. IS THE SITE SUBJECT TO A STATE OR FEDERAL ENFORCEMENT ACTION RELATED TO HAZARDOUS WASTE OR PETROLEUM? YES NO

PLEASE ATTACH A DESCRIPTION OF THE PROJECT WHICH INCLUDES THE FOLLOWING COMPONENTS:

- PURPOSE AND SCOPE OF THE PROJECT
- ESTIMATED PROJECT SCHEDULE

TO THE EXTENT THAT EXISTING INFORMATION/STUDIES/REPORTS ARE AVAILABLE TO THE APPLICANT, PLEASE ATTACH THE FOLLOWING:

1. **ENVIRONMENTAL DATA**

A PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT PREPARED IN ACCORDANCE WITH ASTM E 1527 (American Society for Testing and Materials: Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process), AND ALL ENVIRONMENTAL REPORTS RELATED TO CONTAMINANTS ON OR EMANATING FROM THE SITE.

IF A FINAL INVESTIGATION REPORT IS INCLUDED, INDICATE WHETHER IT MEETS THE REQUIREMENTS OF ECL ARTICLE 27-1415(2):

YES NO

2. **OWNERS**

A LIST OF PREVIOUS OWNERS WITH NAMES, LAST KNOWN ADDRESSES AND TELEPHONE NUMBERS (DESCRIBE APPLICANT'S RELATIONSHIP, IF ANY, TO EACH PREVIOUS OWNER LISTED. IF NO RELATIONSHIP, PUT "NONE").

3. **OPERATORS**

A LIST OF PREVIOUS OPERATORS WITH NAMES, LAST KNOWN ADDRESSES AND TELEPHONE NUMBER (DESCRIBE APPLICANT'S RELATIONSHIP, IF ANY, TO EACH PREVIOUS OPERATOR LISTED. IF NO RELATIONSHIP, PUT "NONE").

PLEASE ATTACH, AT A MINIMUM, THE NAMES AND ADDRESSES OF THE FOLLOWING:

1. THE CHIEF EXECUTIVE OFFICER AND ZONING BOARD CHAIRPERSON OF EACH COUNTY, CITY, TOWN AND VILLAGE IN WHICH THE SITE IS LOCATED.
2. RESIDENTS, OWNERS, AND OCCUPANTS OF THE SITE AND PROPERTIES ADJACENT TO THE SITE.
3. LOCAL NEWS MEDIA FROM WHICH THE COMMUNITY TYPICALLY OBTAINS INFORMATION.
4. THE PUBLIC WATER SUPPLIER WHICH SERVICES THE AREA IN WHICH THE SITE IS LOCATED.
5. ANY PERSON WHO HAS REQUESTED TO BE PLACED ON THE SITE CONTACT LIST.
6. THE ADMINISTRATOR OF ANY SCHOOL OR DAY CARE FACILITY LOCATED ON OR NEAR THE SITE.
7. THE LOCATION OF A DOCUMENT REPOSITORY FOR THE PROJECT (E.G., LOCAL LIBRARY)

INDICATE KNOWN OR SUSPECTED CONTAMINANTS AND THE MEDIA WHICH ARE KNOWN OR SUSPECTED TO HAVE BEEN AFFECTED:

Contaminant Category	Soil	Groundwater	Surface Water	Sediment	Soil Gas
Petroleum	✓	✓			
Chlorinated Solvents					
Other VOCs

METES AND BOUNDS DESCRIPTION

Bethlehem Steel

All that tract or parcel of land situate in the city of Lackawanna, County of Erie and State of New York, being parts of lot numbers 21, 22, 23, 24 and 25 of the Ogden Gore tract and also part of Lot 36, Township 10, Range 8 of the Buffalo Creek Reservation and more particularly bounded and described as follows:

Commencing at a stone monument on the westerly line of the right of way of the Hamburg Turnpike, 66 feet wide, said stone also being on the southerly line of the City of Buffalo and the northerly line of the City of Lackawanna and also being the northerly property line now or formerly of Gateway Trade Center Inc.; thence, southerly along the westerly right of way of Hamburg Turnpike, south 19°29'01" east a distance of 548.15 feet to the POINT OF BEGINNING; said point also being at the intersection with the division line between the property now or formerly of Bethlehem Steel Corporation on the south and the property now or formerly of Gateway Trade Center Inc.; thence, continuing southerly along the westerly line of Hamburg Turnpike the following 21 courses and distances:

- 1.) South 19°29'01" east a distance of 279.01 feet to a point; thence,
- 2.) South 16°06'12" east a distance of 482.30 feet to a point; thence,
- 3.) South 18°29'57" east a distance of 30.00 feet to a point; thence,
- 4.) South 18°29'57" east a distance of 355.00 feet to a point; thence,
- 5.) South 71°34'27" west a distance of 2.00 feet to a point; thence,
- 6.) South 18°29'57" east a distance of 223.00 feet to a point; thence,
- 7.) South 22°18'49" east a distance of 150.35 feet to a point; thence,
- 8.) South 18°29'57" east a distance of 512.00 feet to a point; thence,
- 9.) South 16°39'05" east a distance of 260.12 feet to a point; thence,
- 10.) South 18°23'32" east a distance of 793.00 feet to a point; thence,

- 11.) South 71°34'43" west a distance of 4.00 feet to a point; thence,
 - 12.) South 18°02'39" east a distance of 132.00 feet to a point; thence,
 - 13.) North 71°33'26" east a distance of 4.67 feet to a point; thence,
 - 14.) South 18°19'14" east a distance of 38.00 feet to a point; thence,
 - 15.) South 71°35'15" west a distance of 4.86 feet to a point; thence,
 - 16.) South 18°02'36" east a distance of 160.00 feet to a point; thence,
 - 17.) North 71°34'14" east a distance of 9.80 feet to a point; thence,
 - 18.) South 18°25'38" east a distance of 159.00 feet to a point; thence,
 - 19.) South 71°34'11" west a distance of 3.89 feet to a point; thence,
 - 20.) South 18°23'33" east a distance of 180.00 feet to a point; thence,
 - 21.) South 20°45'19" east a distance of 8.40 feet to a point; thence through the property of Bethlehem Steel the following four courses and distances:
 - 1.) North 71°30'18" west a distance of 1251.00 feet to a point; thence,
 - 2.) North 18°23'21" west a distance of 2030.00 feet to a point; thence,
 - 3.) North 9°29'15" east a distance of 106.50 feet to a point; thence,
 - 4.) North 18°24'57" west a distance of 1250.00 feet to a point on the division line between the property now or formerly of Bethlehem Steel Corporation on the south and the property now or formerly of Gateway Trade Center Inc. on the north; thence, along the said division line the following 5 courses and distances:
 - 1.) South 71°42'10" east a distance of 424.95 feet to a point; thence,
 - 2.) North 18°17'50" west a distance of 314.71 feet to a point; thence,
 - 3.) North 71°12'25" east a distance of 386.47 feet to a point; thence,
 - 4.) North 18°17'50" west a distance of 70.00 feet to a point; thence,
 - 5.) North 71°12'25" east a distance of 400.43 feet to the POINT OF BEGINNING;
- Containing 101.842 acres or 4,436,244 square feet more or less.

CERTIFICATION

This is to certify that this map or plat and the survey on which it is based were made in accordance with Minimum Standard Detail Requirements for ALTA/ACSM and NSPS. Pursuant to the Accuracy Standards as adopted by ALTA, NSPS and ACSM and in effect on the date of this certification, undersigned further certifies that proper field procedures, instrumentation and adequate survey personnel were employed in order to achieve results comparable to those outlined in the Minimum Angle, Distance and Closure Requirements for Survey Measurements Which Control Land Boundaries for ALTA/ACSM Land Title Surveys.

PROJECT DESCRIPTION AND SCHEDULE

**Tecumseh Redevelopment, Inc.
Phase I Business Park Parcel
Brownfield Cleanup Program Application**

Project Description and Schedule

Background

Tecumseh Redevelopment, Inc. (Tecumseh) owns an approximately 1,100-acre parcel of land located on the west side of NYS Route 5 in the City of Lackawanna, NY. The property was formerly used for the production of steel, coke and related products by Bethlehem Steel Corporation (BSC). Steel production on the property was discontinued in 1983. The coke oven closed down in 2000. Tecumseh acquired the property, along with other Bethlehem assets, out of bankruptcy in 2003. A number of solid waste management units (SWMUs) are present on the property. A RCRA Facility Investigation (RFI) of these SWMUs was initiated by BSC under an Administrative Order issued by the United States Environmental Protection Agency (USEPA) in 1990. Tecumseh completed the RFI in December 2004. USEPA and the New York State Department of Environmental Conservation (NYSDEC) are reviewing the RFI for completion. Tecumseh is currently negotiating an Order on Consent with the NYSDEC to undertake corrective measures at certain SWMUs on the property.

Tecumseh has signed a Memorandum of Understanding (MOU) with Erie County and the City of Lackawanna to promote and implement redevelopment of the former BSC property following cleanup. The conceptual redevelopment plans for the entire 1,100-acre site are illustrated in the Redevelopment Master Plan included as Figure 1 of Attachment 1. As shown, a portion of the Redevelopment Master Plan incorporates a Business Park area along NYS Route 5. Phase I of the Business Park, encompassing approximately 102 acres, will be completed first. Phases II and III, encompassing approximately 173 and 128 acres, respectively, will follow.

This Brownfield Cleanup Program (BCP) Application is specific to the 102-acre Phase I Business Park area. A separate application has been prepared for Phases II and III of the Business Park.

Known and Suspected Environmental Conditions

The subject 102-acre Phase I Business Park Area was formerly used to house a portion of BSC's steel making operations. Specific processes and steel making facilities performed on the Phase I Business Park Area parcel included:

- Open Hearth furnaces
- Blooming Mill
- Billet Preparation Mills
- Roughing Mills
- Rail Mills

- Foundary
- Water Treatment Plant

Twelve SWMUs (i.e., P-43 through 53 and P-64) were identified on the subject 102-acre area during the RCRA Facility Assessment (RFA) that preceded the RFI. BSC performed assessments for all twelve 12 of these SWMUs. Based on the assessment findings, USEPA Region II issued "No Further Assessment" designations for 11 of the SWMUs in December of 1990. A "No Further Assessment" designation was issued for the twelfth SWMU in September 1991. Accordingly, all 12 SWMUs located within the proposed Phase I Business Park were excluded from the RFI Order by the USEPA in January 2001 (see attached correspondence from the USEPA to BSC).

A Phase I Environmental Site Assessment (ESA) was completed for the subject 102-acre Area by BSC in 2001. The parcel was at that time designated by BSC as "Parcel B." The ESA is included as Attachment 5 of the BCP application. The results of the assessment indicated several potential environmental conditions based on historic site uses, adjacent site uses, and field observations. These include:

- The likely impact of surface soils by base-neutral semi-volatile organic compounds (SVOCs) associated with greases, lubricating and hydraulic oils, and fuels associated with the operation of steel mills, foundry, petroleum bulk storage and other historic steel manufacturing operations. Portions of the subject parcel exhibit visible petroleum staining at the ground surface.
- The potential impact of surface and subsurface soils by metals associated with steel manufacturing operations.
- The potential impact of surface and subsurface soils by PCBs from transformers and railyards in discrete areas of the parcel.
- Potential soil and groundwater impacts from volatile organic compounds associated with gasoline storage in discrete onsite areas, and historic off-site gasoline releases upgradient of the property.

A site investigation will be performed in support of the BCP to determine the nature and extent of impacts from these known and suspect environmental conditions.

Schedule

A proposed Project Schedule is attached.

Re: BSC's Request to Remove Portions of the BSC Facility from the Administrative Order On Consent; Docket No. II RCRA 90-3008(h)-0201

Dear Mr. Kaercher:

I have enclosed an original copy of the Amendment to the Administrative Order on Consent (Docket No. II RCRA 90-3008 (h)-0201) signed by both the U.S. Environmental Protection Agency (EPA) and the Bethlehem Steel Corporation (BSC). As you know, the Amendment will remove the 102 acres from the requirements of the Order and is effective as of the date of EPA's signature.

If you have any questions concerning this information, please call me at (212) 637-4180.

Sincerely,

Dale J. Carpenter, Acting Chief
New York Section

I. AMENDMENT

1. Pursuant to Section XXIV of the above-referenced August 13, 1990 Administrative Order on Consent ("Order"), 101.842 acres (generally referred to as "102 acres") of the BSC Lackawanna facility, which are delineated and described herein and as parcel B in the Attachment¹ to this Amendment, are hereby excluded from any further requirements under the Order. The excluded acreage consists of the 102 acre rectangular plot located in the northeast corner of the Lackawanna facility. Specifically, the plot is adjacent to the Gateway Trade Center, Inc. boundary line on the north, extending approximately 3800 feet south, and adjacent to the Hamburg Turnpike (Route 5) on the west and approximately the North Water Return Trench on the east. No water courses are included in the excluded acreage. The exact parameters of the excluded acreage are set forth in the October 13, 2000 ALTA/ASCM Land Title Survey, prepared by Bergman associates, a copy of which is located in EPA Region 2's files

¹ The attachment incorrectly indicates that parcel B is 108 acres; parcel B actually consists of 101.842+/- acres.

and in BSC's files.

ENVIRONMENTAL FACTORS AND HISTORIC LAND USE CONSIDERATIONS

TECUMSEH REDEVELOPMENT, INC.-PHASE I PARCEL
NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION
BROWNFIELD CLEANUP PROGRAM APPLICATION

Information related to ‘important federal, state or local natural resources, including waterways, wildlife refuges, wetlands, or critical habitats or endangered or threatened species proximate to the site was researched and reported in the “Draft RCRA Facility Investigation Report, Part III: Ecological Risk Assessment” Bethlehem Steel Corporation, July 1998. Excerpts from this reference are included in this attachment for inclusion into the BCP Application. The following provides a brief summary of the attachment:

- There are no wetlands on the site.
- The site is “adjacent to a Significant Coastal Fish and Wildlife Habitat, Smokes Creek Shoals”. The significance is due to the importance of Smokes Creek Shoals as a walleye spawning area.
- There are no threatened or endangered species, nor important plant habitats listed at the site.

identify potential runoff pathways from the site SWMUs to the on-site and off-site watercourses (discussed on a SWMU-by-SWMU basis in Parts V and VI of this RFI report). The slag fill is generally very porous, meaning that precipitation typically is taken into the slag before substantial runoff occurs. Exceptions include precipitation that falls on the shoreline embankments (e.g., along Lake Erie) that slope towards a water body.

There is a state-regulated wetland area to the northeast of the site, approximately 1 mile from the site boundary, but other than some riparian wetlands along the margins of Smokes Creek, there are no wetlands on the site itself (see Figure 3-5). This nearby offsite wetland appears to be a remnant of what was probably, before industrialization of the area, a much larger wetland associated with the Buffalo River. Part of this wetland lies within the Tiffit Farm Nature Preserve operated by the Buffalo Museum of Science.

WETLANDS

Natural Resources Information Review

Information concerning the natural resources of the site vicinity was requested from the U.S. Fish and Wildlife Service and the following New York State Department of Environmental Conservation (NYSDEC) entities:

- Natural Heritage Program
- Significant Habitats Program
- Bureau of Fisheries, Lake Erie Unit
- Environmental Disturbance Investigation Unit
- Toxic Substances Monitoring Program.

Information was obtained also from the State University College at Buffalo. The type of information obtained from these entities is identified in the following paragraphs; the complete information is available from these entities or is attached hereto.

The NYSDEC's Natural Heritage Program provided a letter stating that the site is "adjacent to a Significant Coastal Fish and Wildlife Habitat, Smokes Creek Shoals" (Appendix A). According to Floyd Cornelius of the Bureau of Fisheries, Lake Erie Unit (Dunkirk, NY), the Smokes Creek Shoals habitat is mainly important as a walleye spawning area. In the 1994 Annual Report, the Lake Erie Unit asserted that "the Buffalo Harbor muskellunge fishery is truly exceptional and of

SEE
ATTACHED
LETTER

statewide significance." The letter from the Natural Heritage Program office also indicated that there were no threatened or endangered species listed at the site.

NYSDEC's Toxic Substances Monitoring Program reported the results of tissue analyses on fish taken from Lake Erie at Lackawanna for chlorinated organics, mercury and arsenic in 1978; PCBs and some pesticides in 1979 and 1980; and PCBs, mercury, and some pesticides in 1987. Fish tissues obtained from this area had concentrations of these substances that were not different from other relatively uncontaminated areas. In 1994, the NYSDEC Division of Fish and Wildlife added polycyclic aromatic hydrocarbons (PAHs) to the list of analytes for the first time (NYSDEC 1994). Concentrations of PAHs in young-of-the-year fish collected at Smokes Creek were below detection limits (acenaphthene, acenaphthylene, anthracene, fluoranthene, fluorene, chrysene, benzo(a)anthracene, benzo(b)anthracene, benzo(a)pyrene, pyrene) or quantitation limits (benzo(k)anthracene, phenanthrene). This document is included as Appendix B.

NYSDEC's Division of Fish and Wildlife sent five reports in response to BSC's request for information. These reports are included as Appendix C. They describe historical accounts of fish mortality near the site. No reports dated after 1975 were received from NYSDEC, and the NYSDEC did not provide fish mortality reports pertaining to other incidents near the site but not attributed to BSC discharges.

The State University College at Buffalo conducted field studies at Smokes Creek in 1985 and 1986 in order to investigate potential toxicity in the creek and occurrence of walleye spawning (Appendix D). The location of stations in these studies is shown on Figure 3-6. In the 1985 field study, the benthic fauna were characterized, sediment toxicity testing was conducted, and walleye spawning was assessed.

More recent studies of the water quality in Smokes Creek (except as performed as part of this RFI) are not available; however, information from toxicity testing (for SPDES permit purposes) of the BSC Galvanized Products Division discharges at outfalls 216 and 217, a non-contact cooling and operating water discharge from the Coke Oven operations (outfall 223) in 1992 and 1993 concluded that there was no evidence of acute toxicity to test organisms from these discharges (Appendix E). In addition, in 1991 New York State reclassified Smokes Creek from a Class D stream to a Class C stream as a result of water quality improvements.

Natural Heritage Request
Bethlehem Steel RCRA Facility
City of Lackawanna, Erie County

Dear Mr. Starkel:

I have reviewed our Natural Heritage Data for Significant Habitats and threatened and endangered species at the above location.

The referenced project is adjacent to a Significant Coastal Fish and Wildlife Habitat; Smoke Creek Shoals.

For more information, contact Mr. Steve Mooradian, Regional Fisheries Manager, NYSDEC Region 9, 128 South Street, Olean, NY 14760; phone (716) 372-0645.

There are no threatened or endangered species listed at the site. The Significant Habitat and Natural Heritage files are continually changing. The information in this letter should not be substituted for an on-site survey that may be required for environmental assessment.

Sincerely,

Mark Kandel
Sr. Wildlife Biologist

MK/dah

cc: Mr. Steve Mooradian, Regional Fisheries Manager

Many of the important species were identified floristically, but because the site is generally characterized by simple communities in early stages of primary succession, many habitats were characterized on a floristic basis as well. Annual and perennial life histories were assessed for important species using information presented in Fernald (1970) and United States Soil Conservation Service (1982). Bare ground was included as a cover type because it can be indicative of stress to vegetation. Estimates of the height of shrubs and trees were also made. Surficial materials were described qualitatively including observational parameters such as color, grain size, thickness, and moisture condition.

Because both physical and chemical stressors may result in vegetational changes, notes were made on signs of physical disturbance and estimates of the length of time since the disturbance. SWMU boundary conditions tended to be similar to surrounding habitat, so descriptions of the vegetation around 26 SWMUs provided the information needed for habitat characterization. A vegetation map prepared in 1993 for the SFA (Appendix E) and site-wide observations of wildlife and vegetation were also used for assessing habitat extent and resource quality. Photographs were taken to document surface conditions on or around each SWMU.

Prior to the 1995 observations, an ecological survey of the SFA was performed in May 1993 (Appendix E). The map of the SFA vegetation referenced earlier was produced, and notes were made of the animal species observed, including their relative abundance and behavior. Most conspicuous was a large nesting colony of ring-billed gulls observed around the Corps of Engineers spoil disposal area off of the north end of the site. Nesting colonies of bank swallows and rough-winged swallows were also noted at several locations along the SFA where the slag formed cliffs or steep banks.

Little evidence was observed to indicate frequent use of the terrestrial portion of the site by wildlife. Given the disturbed nature of terrestrial habitat on the site, this is not surprising. Some wildlife species such as beaver, deer, fox, rabbits and raccoons would be expected to forage in some of the less disturbed portions of the site for food such as forbes and small trees by deer, and small rodents, beetles and forbes by the other species. Small insectivores or seed-eating birds would also forage on the site for beetles, flying insects and seeds.

The survey made use of the Erie County Waterfront Master Plan (Saratoga Associates 1991) for information about natural resources in the study area, which included the coastal zone for the entire county. Lists of animals and plants expected to inhabit the study area, in both aquatic and

↓
SUMMARY

terrestrial environments, are also included in this resource. Important habitats for fish are presented therein as well. According to Saratoga Associates (1991), and based on on-site observations, there are no wetlands of appreciable size, threatened or endangered species, nor important plant habitats at this site.

The results of the survey indicated that most of the SFA is not vegetated (Figure 3-9). Almost all of the vegetated areas are in very early stages of primary succession, where the dominant plants are typically hardy and fast-growing, and have seeds that disperse over a large area. The most frequently encountered plants around the SWMUs are goldenrods (*Solidago* spp.), wild carrot (*Daucus carota*), staghorn sumac (*Rhus typhina*) and eastern cottonwood (*Populus deltoides*). Although cottonwoods were frequently seen, they were usually young. Little cover was provided by trees around the SWMUs (Table 3-1). The majority of the areas are typified by a perennial forb cover or bare ground. The patterns of cover seen around the SWMUs were typical of the SFA in general. Only a few locations, such as SWMU S-4 and a small area on the northwest edge of SWMU-22, have been undisturbed long enough to develop small woodlots.

Although there is evidence of recent and ongoing physical disturbance, mainly from environmental investigations, many areas in Zones 2, 3 and 4 have probably been substantially undisturbed for the 14 years since the cessation of steel-making on the site in 1983. Given this length of time, the dominance of herbs and persistence of bare ground indicate that the plant community in the SFA is developing at a slow pace characteristic of primary succession in this climate and on this type of substrate. In addition to disturbance, seed dispersal and substrate quality undoubtedly contribute to the observed successional rate.

Seed dispersal appears to be somewhat important to the development of the site's vegetation community. Nearly all the trees on the SFA, large and small, are in the willow family (Salicaceae). The willow family is characterized by seeds with long, silky down that enables them to be carried considerable distances by the wind. However, herbs mature much faster than trees, and coverage of bare ground by diverse herbs would be expected to have occurred within the 14 years since disturbances related to steel making operations ceased. As discussed below, potentially toxic materials in soils (if those effects can actually be distinguished from physical effects of site-related materials) appeared to be important only within SWMUs, leaving continued disturbance and substrate quality as the most likely explanation for lack of a diverse herb community at the site.

**DECLARATION
OF
CONDITIONS, COVENANTS AND RESTRICTIONS**

Made By: Bethlehem Steel Corporation
1170 Eighth Avenue
Bethlehem, Pennsylvania 18016-7699

Dated: February 20, 1996

R 292929

779-16 RR 963

DECLARATION OF CONDITIONS, COVENANTS AND RESTRICTIONS

THIS DECLARATION OF CONDITIONS, COVENANTS AND RESTRICTIONS, made this 20th day of February, 1996, by Bethlehem Steel Corporation, a corporation duly formed and existing under the laws of the State of Delaware, authorized to do business in the State of New York, and having its principal place of business in the City of Bethlehem, Lehigh County, Pennsylvania, with a mailing address of 1170 Eighth Avenue, Bethlehem, Pennsylvania 18016-7699 (hereinafter "BSC"),

WITNESSETH:

WHEREAS, BSC is the owner of certain noncontiguous lands adjacent to the eastern shore of Lake Erie situate partly in the City of Lackawanna, partly in the Town of Hamburg and partly in the Village of Blasdell, all in the County of Erie, State of New York, containing in the aggregate approximately 1,215 acres, and encompassing approximately 2.5 miles in an approximate north-south direction and approximately 1.4 miles in an approximate east-west direction, which were formerly part of the site of an integrated steel plant, and a portion of which lands is described and delineated more particularly in SCHEDULE B herein (said portion shall be hereinafter referred to as the "Premises"); and

WHEREAS, the history of the Premises is described more fully in SCHEDULE A herein; and

WHEREAS, certain governmental agencies and BSC have conducted environmental investigations at and near the Premises, the scope, result and impact of each of which are described more fully in SCHEDULE A herein; and

WHEREAS, BSC seeks to impose conditions, covenants and restrictions on the Premises for the purpose of promoting, benefitting, preserving and protecting the health and safety of the public and the environment all as related to the foregoing.

NOW, THEREFORE, (i) BSC, on behalf of itself, its successors and assigns, hereby declares and (ii) each and every person or entity who shall be an owner of the Premises or any part thereof, hereby covenants and agrees on behalf of itself, its successors and assigns, that the Premises or any part thereof shall be held, transferred, sold, conveyed, occupied and developed subject to the following conditions, covenants and restrictions:

1. The Premises or any part thereof shall be limited to industrial use only, which shall include manufacturing, assembling, warehousing, and related railroad, port and shipping activities, together with office space and other facilities including laboratories incidental to such uses, but incidental uses such as day care centers, nursery schools or other facilities that are designed or intended to be primarily for use or occupancy by multiple numbers of persons under the age of eighteen (18) years shall not be permitted.
2. No wells for the extraction or use of water from beneath the surface of the Premises or any part thereof shall be installed, built, permitted or utilized on the Premises or any part thereof for any purpose whatsoever; provided, however, that BSC may install, use, operate and maintain monitoring wells and treatment wells, including the extraction and treatment of water therefrom, solely for the purpose of monitoring, treating or remediating such water; and provided, further, that any other owner of the Premises or any

part thereof may install, use, operate and maintain monitoring wells and treatment wells, including the extraction and treatment of water therefrom, on the part of the Premises so owned by such owner, solely for the purpose of monitoring, treating or remediating such water.

3. Any activity or use not specifically permitted hereby or any activity prohibited pursuant hereto shall be forbidden.

A. Purpose.

It is the intent of BSC by means of said conditions, covenants and restrictions to promote, benefit, preserve and protect the health and safety of the public and the environment by preventing any activity or use not specifically permitted above or any activity prohibited pursuant to paragraphs 1 and 2 above.

B. Conditions, Covenants and Restrictions to Run with the Premises.

Said conditions, covenants and restrictions shall run with the Premises and every part thereof and shall bind all owners and occupiers of the Premises or any part thereof, and their respective successors and assigns; all parties claiming by, through, or under them or any of them shall be taken to hold, agree and covenant with all owners of the Premises or any part thereof, and their respective successors and assigns and each of them, to conform to and observe said conditions, covenants and restrictions.

C. Enforceability.

Said conditions, covenants and restrictions shall inure to the benefit of and be enforceable by BSC and by each and every person or entity, including BSC,

who shall be an owner of the Premises or any part thereof, and their respective successors and assigns, and shall also benefit BSC, its successors and assigns, for so long as BSC shall (i) own any property either adjacent or proximal to the Premises or any part thereof or (ii) be responsible under any law, ordinance, rule or regulation for the presence of hazardous wastes or hazardous constituents or both upon or within the Premises or any part thereof or in said property adjacent or proximal to the Premises or any part thereof but said conditions, covenants and restrictions shall not give rise, by implication or otherwise, to a reciprocal condition, covenant or restriction burdening or binding upon the other lands or any part thereof of BSC benefitted hereby, by actions at law or by suits in equity. As it may be impossible to measure monetarily the damages which may accrue to the beneficiaries hereunder by reason of a violation of this Declaration, any beneficiary hereunder shall be entitled to relief by way of injunction or specific performance, as well as any other relief available at law or in equity, to enforce the provisions hereof.

The failure of any beneficiary hereunder to enforce any provision of this Declaration shall in no event be construed as a waiver of the right of that beneficiary or any other beneficiary hereunder to do so thereafter, as to the same or a similar violation occurring prior or subsequent thereto. No liability shall attach to BSC or any subsidiary or other affiliate of BSC (or any officer, director, employee, member, agent, committee or committee member of any of them) or to any other beneficiary hereunder

(excepting, however, the subject owner in breach) for failure to enforce the provisions of this Declaration.

If BSC or any other beneficiary hereunder successfully brings an action to extinguish a breach or otherwise enforce the provisions of this Declaration, the costs of such action, including legal fees, shall become a binding, personal obligation of the owner in breach.

D. Amendments and Termination.

Any amendment or termination of this Declaration affecting any part of the Premises shall require the written consent of all owners of the Premises or any part thereof, which consent shall not be unreasonably withheld, and of BSC, or its successors or assigns, whose consent may be withheld in its sole discretion.

Any amendment or termination of this Declaration shall not become effective until the instrument evidencing such change has been duly recorded in the Erie County Clerk's Office.

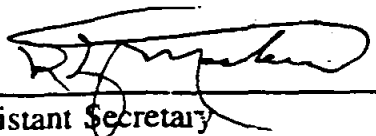

Neither this Declaration nor any amendment to this Declaration shall be interpreted as permitting any action or thing prohibited by the applicable laws, ordinances, rules or regulations of any governmental authority having jurisdiction over the part of the Premises affected or by specific restrictions imposed by any other instrument relating to the Premises or to such part of the Premises.

No change of conditions or circumstances shall operate to amend this Declaration, and this Declaration may be amended only in the manner provided herein.

The determination by any court of competent jurisdiction that any provision of this Declaration is unenforceable invalid or void shall not affect the enforceability or validity of any other provision hereof.

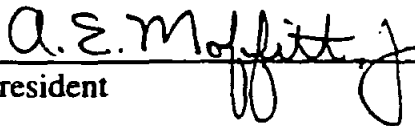

IN WITNESS WHEREOF, BSC has executed this Declaration as of the day and year first above written.

Vice President

ATTACHMENT 11

NEARBY LAND USE MAP

Attachment 11
Land Use Map, near Parcel B
Lackawanna, New York

ATTACHMENT 12

GROUNDWATER VULNERABILITY ASSESSMENT

Potential Vulnerability of Groundwater to Contamination

The historical use of the site would indicate that groundwater is likely contaminated. There is a deed restriction (Attachment 10) on the use of groundwater from the entire approximately 1,100-acre BSC site and groundwater supply wells are not present on the site. Regionally, groundwater in the area has not been developed for industrial, agriculture, or public supply purposes. Municipal potable water service is provided offsite and onsite by the Erie County Water Authority. Groundwater vulnerability would potentially be related to potential environmental impacts on the offsite area to the east of the site, and related to the discharge of groundwater to Lake Erie.

Groundwater Flow/Recharge

Groundwater elevation maps completed during the RFI (Reference 1) indicate that groundwater flows west across Parcel B towards the Gateway Metroport Ship Canal and Lake Erie (Reference 2). As such, groundwater does not flow toward the off-site properties to the east; however does flow toward Lake Erie and eventually discharges into the Lake.

Recommendations

Further work is required to supplement the two wells that exist on this property. Additional wells to refine the groundwater flow patterns; discharge rates and the water quality will be needed.

ATTACHMENT 13

DESCRIPTION OF SITE GEOGRAPHY/GEOLOGY

**TECUMSEH REDEVELOPMENT, INC.-PHASE I PARCEL
NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION
BROWNFIELD CLEANUP PROGRAM APPLICATION**

Information related to the geography/geology/hydrogeology of the site was reported in the “Parcel B, Phase II Sampling Investigation Work Plan, Bethlehem Steel Corporation, Lackawanna, New York” August, 2001. Excerpts from this reference are included in this attachment to inclusion into the BCP Application.

and a garage (former Fire Department Headquarters). A chain-link fence that borders the property along Route 5 and a 24-hour guardhouse restrict access to the property.

Parcel B was the former location of steel-making operations that were fully integrated into the entire BSC Lackawanna steel facility (Figure 2). Most facility operations ceased in 1983, with a majority of the entire facility being demolished in subsequent years.

A1.2 Regional Geology/Hydrogeology

Drilling logs from monitoring wells constructed on or near Parcel B indicate that the upper two feet (east side) to eight feet (west side) is typically composed of steel and iron-making slag and/or other fill material. The fill is underlain by lacustrine clays and silts that is in turn underlain by shale or limestone bedrock. Bedrock is about 60 feet below grade near the eastern perimeter of Parcel B, and about 40 feet below the surface in the western portions of Parcel B.

Historically, due to the proximity of Lake Erie, groundwater in the area has not been developed for industrial, agriculture, or public supply purposes. There is a deed restriction that prohibits the use of groundwater on the property. Consequently, no groundwater supply wells are present. Measurements taken in several monitoring wells on or near Parcel B indicate that the water table is 5 to 6 feet below grade. Monitoring wells MW-8A and MW-8B are located in the northeast corner of Parcel B (Figure 3). Groundwater elevation contour maps completed during the RFI indicate that groundwater flows west across Parcel B towards the Gateway Metroport Ship Canal and Lake Erie.

A1.3 Previous Investigations

Previous investigations were conducted as part of the RFI in the early 1990s and were summarized in the Phase I ESA. The investigations included the assessment of twelve Solid Waste Management Units (SWMUs) on Parcel B that the USEPA identified during a 1988 RCRA Facility Assessment. The SWMUs were process water pits associated with the plant operations conducted on Parcel B. Following investigation of the SWMUs, the USEPA determined no further assessment was required. The Phase I ESA determined that the former SWMUs did not present a Recognized Environmental Condition on Parcel B (BSC, 2001).
